Notes To Financial Statements
December 31, 2010 (audited) and 2009 (unaudited)

Note 1 – Plan Description

Plan Description – The Central Maintenance and Welding, Inc. 401(k) Profit Sharing Plan (the "Plan") was established by Central Maintenance and Welding, Inc. (the "Company") as a defined contribution plan effective August 31, 1974, amended April 21, 2009, and restated August 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The following is a summary of major plan provisions. Participants should refer to the Plan document for more complete information.

Participation – All employees of the Company who have completed at least one year of service and have attained the age of eighteen are eligible to participate. Participants must have completed 1,000 hours of service within the Plan year and be actively employed on the last day of the Plan year to share in the employer contribution.

Contributions – Participants may contribute up to 100% of their total annual compensation, not to exceed certain limitations, on an annual basis. Participants, who have attained the age of 50, are eligible to make pre-tax catch-up contributions, subject to certain limitations. The Company may make discretionary nonelective contributions, based on a percentage determined by management, which is computed on the participants' eligible salary.

Participant Accounts – Each participant's account is credited with the participant's contribution, employer contributions, if any, and Plan earnings. Allocations are based on participant investment account earnings, elective deferrals or account balances, as defined. The benefit to which a participant is entitled is the vested balance in the participant's account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as defined by the Plan. An active participant who is less than 100% vested is deemed to be 100% vested upon death or total disability. Vesting is determined according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount not to exceed the value of the participant's vested interest in his or her account in either a lump-sum amount, annual installments over the life of the participant and beneficiary, or installments over a period of time not to exceed the assumed life expectancy of the participant or beneficiary. The beneficiary of a deceased participant may also elect to receive benefits over a period of time not exceeding the life expectancy of the beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 1 – Plan Description (continued)

Forfeitures – Pursuant to the Plan document, any non-vested portion of nonelective contributions credited to the accounts of participants who withdraw from the plan is forfeited and may be allocated as an additional discretionary nonelective contribution. The Company had $20,520 and $2,610 of forfeitures available to be reallocated to eligible participants as of December 31, 2010 and 2009, respectively. The Company applied $2,610 of forfeitures toward the 2010 employer nonelective contribution.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments, Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determinations are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Three levels of inputs may be used to measure fair value:

> Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;
>
> Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and,
>
> Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Common/Collective Investment Trusts – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

Mutual Funds – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Note 2 – Summary of Significant Accounting Policies (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

New Accounting Pronouncements – In January 2010, the Financial Accounting Standards Board ("FASB") updated financial reporting standards ("the Update") to improve disclosures regarding fair value measurements. This Update requires entities to (i) disclose separately the amounts of significant transfers in and out of investments valued using Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the roll forward disclosure of changes in investments valued using Level 3 fair value measurements. The Update also requires fair value disclosures on a more detailed basis (by class of assets and liabilities rather than by major category or line item in the statement of net assets available for benefits). Finally, the Update requires additional disclosures regarding the valuation techniques and inputs used to measure fair value for investments valued using Level 2 and Level 3 inputs. For all portions of the Update except for changes required in the Level 3 investment roll forward information, this Update is effective for interim and annual reporting periods beginning after December 15, 2009 (the 2010 Plan year). For the changes required in the Level 3 investment roll forward information, the Update is effective for fiscal years beginning after December 15, 2010 (the 2011 Plan year). As all of the requirements of this Update are only disclosure related, the adoption of the required portions of this Update in 2010 did not have any effect on any amounts in the accompanying basic financial statements.

Benefits Paid to Participants – Benefits are recorded when processed and paid by the Plan.

Administrative Expenses – Plan administrative expenses are paid by the Plan. The professional fees are paid by the Plan sponsor. During the year ended December 31, 2010, approximately $10,600 of administrative expenses were paid by the Plan Sponsor on behalf of the Plan.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events – Management has evaluated subsequent events through October 11, 2011 in connection with the preparation of these financial statements, which is the date the financial statement were available to be issued.

Note 3 – Financial Data Certified by Trustee (Unaudited)

The following information included in the accompanying financial statements as of December 31, 2010 and for the year then ended; and the supplemental schedule as of December 31, 2010 was obtained from data that has been prepared and certified to as complete and accurate by SunTrust Bank, N.A. Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contributions in their accounts.

Note 6 – Tax Status

The Plan is identical to the SunTrust Prototype Defined Contribution Plan ("SunTrust Prototype Plan") approved as to form by the Internal Revenue Service ("IRS"). The SunTrust Prototype Plan is a qualified plan under Section 401(k) of the Internal Revenue Code ("IRC") and, as such, is exempt from federal income taxes under Section 501(a) of the IRC. The SunTrust Prototype Plan obtained its latest determination letter on March 31, 2008, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 6 – Tax Status (continued)

Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2007.

Note 7 – Party-In-Interest Transactions

Certain Plan investments have shares in mutual funds and a common/collective investment trust managed by SunTrust Bank, N.A., the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 8 – Reconciliation of Financial Statements to Form 5500

Note 9 – Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
