NOTE 1 - DESCRIPTION OF PLAN

The following description of the Sharp Decisions, Inc. 401(k) Plan, (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective January 1, 1993, Sharp Decisions, Inc., (the "Company"), established the Plan.

Eligibility

The Plan is a defined contribution plan covering all employees who have completed thirty days of service and who are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, ("ERISA").

Plan Contributions

Participants may elect to contribute up to 100% of pre-tax annual compensation, as defined in the Plan. The elective deferrals for any calendar year cannot exceed the annual dollar limit permitted by law. The Company does not make matching contributions to the Plan. Participants may also make after-tax salary deferrals to their Roth plan.

Participant Accounts

The Plan is a participant-directed account plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants' accounts are credited with participant contributions and rollovers. Plan earnings and administrative expenses are allocated based upon a participant's account balance in proportion to the balances of all participants' accounts.

Investment Options

Contributions are invested by the ING Life Insurance and Annuity Company, the custodian of the Plan, according to the options elected by the participants. All participant contributions are directed by the participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived. The Plan currently offers investment options consisting of publicly traded mutual funds.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Participant Loans - (See Note 3)

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum which is equal to the lesser of $50,000 or 50% of the participants account balance. The loans are treated as a participant directed investment and are only made for hardship and financial necessity. The loans are secured by the participant's vested funds and, except for loans used to acquire a principal residence, must have a repayment period of no greater than five years. The loans are made at a reasonable rate of interest that a bank or other professional lender would charge for making a loan in a similar circumstance. The interest rate for the loans outstanding during 2010 and 2009 ranged from 4.25% to 4.75%. Principal and interest are paid ratably through payroll deductions not less frequently than quarterly. Repayment of the entire balance is permitted at any time. All outstanding loan balances will become due and payable in their entirety upon the occurrence of a distributive event (other than satisfaction of conditions for an in-service distribution) as defined in the Plan agreement.

Participant Investment Rollovers

Participants are allowed to transfer or rollover funds into the plan from other qualified plans.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participants vested interest in his or her account, or in monthly, quarterly semi-annual or annual installments. Participants may elect to receive such distributions in the form of a life annuity. Hardship distributions are also permitted, as well as involuntary distributions of amounts less than $1,000. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant who receives a hardship distribution is prohibited from making contributions to the Plan for six months from the date of the distribution.

Forfeited Accounts

These accounts are used to reduce future employer contributions. Since there have been no employer contributions into the Plan, there are no forfeited amounts to date.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event that the Plan is terminated, participants will become 100% vested in their account balances and receive a distribution of their balance in a lump sum.

Administrative Expenses

The Company has elected to pay all administrative expenses incurred by the Plan except for certain transaction fees such as loan and distribution requests, which are paid by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, except for benefits paid to participants which are included on a cash basis.

Contributions

Contributions from employees are recorded in the period in which the Company makes the payroll deductions from participant earnings.

Payment of Benefits

Benefits are recorded when paid. At December 31, 2010 and 2009, there were no benefits processed and approved for payment, but not paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, actual results may differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Investment Valuation and Income Recognition

Investments are held in separate investment accounts that invest in publicly traded mutual funds and are stated at fair value as reported by the fund managers. Fair value is determined based upon quoted market prices, which represent net asset value per share. Fund transactions are accounted for on the trade date (date the securities are purchased and sold). Interest income is accounted for on the accrual basis. Dividend income is accounted for on the ex-dividend date.

Participant loans are valued at cost, which approximates fair value. The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation/depreciation on those investments.

Guaranteed Interest Account

This account is valued at fair value which represents the contract value adjusted to reflect current market interest rates only to the extent that such market rates exceed crediting rates. The guaranteed interest account promises contract value for a benefit event (termination, death, disability and retirement); however there is a possible surrender charge when the funds are withdrawn prior to their maturity. Thus, the guaranteed interest account is not considered benefit responsive.

Risks and Uncertainties

The Plan provides for various investment options in separate investment accounts that invest in publicly traded mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

NOTE 3 - INFORMATION CERTIFIED BY CUSTODIAN

The ING Life Insurance and Annuity Company ("ING"), the custodian of the Plan at December 31, 2010 and 2009, certified as to the completeness and accuracy of the investment assets, transactions, income and schedules of the investment assets at December 31, 2010 and 2009 and for the years then ended.

NOTE 3 - INFORMATION CERTIFIED BY CUSTODIAN (Continued)

The Plan utilizes a framework which provides a fair value hierarchy prioritizing the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Mutual funds were valued at the net asset value of shares held by the plan at year end. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - INFORMATION CERTIFIED BY CUSTODIAN (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

NOTE 4 - TAX STATUS

The Plan obtained its latest determination letter on December 12, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, most recently in 2005 to comply with the automatic cash-out provision of ERISA. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
