NOTES TO FINANCIAL STATEMENTS

1. **Description of Plan**

The following description of Fortune Plastics, Inc. (the “Company”) 401(k) Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan, established on June 30, 1969. The Company established the Plan to provide employees with a systematic means of saving and investing for the future. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees of the company, with one year of service and at least 1,000 hours of service and who have attained the age twenty-one (21) years, are eligible to participate.

Contributions

Participants can elect to contribute 1% to 100% of their gross compensation, up to a maximum of \$16,500. Participants 50 years old or older can defer an additional \$5,500. Participants direct their contributions to be invested in accordance with the options available under the Plan.

The Company will make a matching contribution up to 4% of compensation, for a Plan year. The following table sets forth the portion of employer contribution an employee is entitled to, based on age and years of service.

Years of Service					
Age	1-4	5-9	10-14	15-19	20+
21-29	25%	50%	75%		
30-39	50%	50%	75%	100%	125%
40-49	75%	75%	75%	100%	125%
50-59	100%	100%	100%	100%	125%
60+	100%	100%	125%	125%	125%

The Company may make a discretionary profit sharing contribution to the Plan, which will be allocated among eligible participant accounts based upon a ratio of each participant’s compensation for that Plan year to total compensation of all participants for that Plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the company's contribution and (b) Plan earnings, and may be charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, participants may direct the investment of their contributions and the Company's matching contributions into various investments offered by the Plan.

Vesting

Participants are 100% vested in their own contributions. Vesting in the company contributions increases annually, based on the following:

<u>Years of Vesting Service</u>	<u>Vested Interest</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants also become 100% vested in all company contributions when the participant retires, dies, becomes disabled, reaches age 65 while employed, or the Plan is terminated.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested interest. Generally, loan terms cannot exceed five years; however, if the loan is for the purchase of a principal residence, a longer repayment term may be permissible. The loans are secured by the balance in the participant's account and bear interest that must be a reasonable rate similar to the rate charged for a loan made under similar circumstances by persons in the business of lending money. Participants are only permitted one outstanding Plan loan at any given time. Principal and interest are paid ratably through payroll deductions.

FORTUNE PLASTICS, INC. 401(k) PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

Payment of Benefits

Each participant is eligible to receive benefits at their normal retirement date which is the participant's 65th birthday. There are provisions for early or late retirement, disability, termination of employment and death benefits.

The methods for distribution of benefits include payment in a single-sum, installment payments, or direct rollover.

Forfeited Accounts

Forfeited accounts can be used to reduce future employer contributions and/or administrative expenses. During the year ended December 31, 2010, forfeited accounts totaled \$10,320 (2009 - \$3,636).

Participant Investment Rollovers

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Administrative Expenses

The Plan permits the payment of expenses to be made from the Plan. If expenses are paid using Plan assets then expenses will generally be allocated proportionally among the accounts of all participants. Certain other expenses may be paid directly out of an individual account if they are specifically attributable to said individual. For 2010 and 2009, all expenses of maintaining the Plan were paid by the Company.

2. Significant Accounting Policies

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting in accordance with the United States generally accepted accounting principles.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully-benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

FORTUNE PLASTICS, INC. 401(k) PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

New Accounting Pronouncement

Effective December 31, 2010, the Plan elected to adopt *Defined Contribution Pension Topic 962, Reporting Loans to Participants by Defined Contribution Pension Plans* of the Financial Accounting Standards Board Codification. This topic clarifies how loans should be classified and measured. Loans will be required to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest.

On December 31, 2010, the Plan adopted all subtopics for FASB ASC 820, *Fair Value Measurements and Disclosures*. These subtopics amend the previous ASC 820 by adding new disclosure requirements for levels 1 and 2, requiring major categories for debt and equity securities in the fair value hierarchy table to be determined on the basis of the nature and risks of the investments, and expanding disclosures for certain investments with a reported net asset value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid or accrued.

3. Investments

The Plan's investments were held and administered by MassMutual. All investment information presented in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2010 and 2009, and net appreciation/depreciation in fair value of investments and interest and dividends for the year ended December 31, 2010, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee listed above.

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	<u>2010</u>	<u>2009</u>
Guaranteed Investment Contract		
Sagic Core Bond	\$6,779,795	\$6,640,284
Registered Investment Companies		
Pioneer Cullen Value Fund	872,942	769,729
Van Kampen Small Cap Value Fund	659,379	

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$717,118 in 2010.

Guaranteed investment contract	\$ 221,913
Registered investment companies	<u>495,205</u>
Total net appreciation	<u>\$ 717,118</u>

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

FORTUNE PLASTICS, INC. 401(k) PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

Fair Value Measurements, Continued

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2010 or 2009. The following is a description of the valuation methodologies used for assets measured at fair value:

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Self directed brokerage account: Invested at the participant's discretion into a wide range of stocks, bonds, and mutual funds.

Registered investment companies: Invested primarily in mutual funds, short-term investments, and money market funds. Mutual funds and short-term instruments are valued using market quotations or prices obtained from independent pricing sources, typically valued at the net asset value (NAV) of shares held by the Plan at year end. Money market funds are valued at amortized cost.

FORTUNE PLASTICS, INC. 401(k) PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

Fair Value Measurements, Continued

Equity and index accounts are invested primarily in a broadly diversified portfolio of common, domestic or foreign stocks. These funds seek to match the performance of an index of a particular segment of the financial market.

Specialty / balanced accounts are invested primarily in a diversified set of domestic and foreign stock and other equity securities, bonds, and other fixed income securities, including money market instruments. These funds invest only in companies that are suitable from a financial perspective and whose activities are consistent with the account's social criteria and seek favorable long-term rates through multiple benchmarks.

Money market accounts are invested in short-term securities, such as, U.S. Government Securities and Agencies, short-term corporate and bank securities, and other short-term securities. These funds seek high current income consistent with maintaining liquidity and preserving capital.

Asset allocation funds are invested in balanced and target retirement funds and offer broad diversification and a disciplined rebalancing process. These funds seek to maintain the mix of U.S. and international stocks and U.S. bonds according to the asset allocation targets set at a conservative to aggressive asset mix to seek a high total return over time.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2010 and 2009:

	Guaranteed Investment Contract	
	<u>2010</u>	<u>2009</u>

Ending balance	<u>\$ 6,965,925</u>	<u>\$ 6,604,184</u>

5. Guaranteed Investment Contract

The Plan entered into a benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 was \$6,965,925 (2009 - \$6,604,184). The crediting interest rate is based on a formula agreed upon with the issuer, generally 3%.

FORTUNE PLASTICS, INC. 401(k) PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

Guaranteed Investment Contract, Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	<u>2010</u>	<u>2009</u>
Based on actual earnings	3.27%	4.53%
Based on interest rate and credited to participants	3.27%	4.53%

6. **Tax Status**

The Plan obtained its latest determination letter as of May 5, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and the related trust is exempt. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expect to be taken that would require recognition of a tax liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2007.

FORTUNE PLASTICS, INC. 401(k) PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

7. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Related Party

Plan assets include investments that are held and managed by MassMutual. MassMutual is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Administrative fees related to the administration of the Plan may be paid by the Plan's assets. Other administrative fees are paid by the Plan sponsor on behalf of the Plan.

Certain employees and officers of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Market Conditions

Changes in investment returns and fair values can have a significant effect on the Plan. U.S. and world markets continue to experience significant volatility. Management is monitoring investment market conditions and the impact such volatility is having on the Plan's investment portfolio.

11. Reclassification

Certain amounts presented in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits have been reclassified for 2009 to conform to the 2010 presentation.
