INDEPENDENT AUDITOR'S REPORT

Record 401(k) Plan:

I was engaged to audit the accompanying statements of net assets available for benefits of Record 401(k) Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009 and the supplemental Schedule H, line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by American United Life Insurance Company, the Custodian, except for comparing the information with the related information included in the 2010 and 2009 financial statements and supplemental schedule. I have been informed by the Plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedules that I did not audit, I am unable to and do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RECORD 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2010 and 2009

I. PLAN DESCRIPTION

The following description of the Record 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – Effective, January 1, 2009, the plan was amended and restated to reflect the merger of the following companies and benefit plans: Record-USA, Inc., Record-Indiana, Inc., and Great Lakes Automatic Door, Inc., collectively, the "Company". Effective June 1, 2009, the Rogers Automated Entrances 401(k) Plan was merged into the Plan and the assets were transferred to the Plan on November 27, 2009. The Plan is a defined contribution plan covering all employees of the Company. All employees of the Company are eligible to participate in the Plan after reaching 21 years of age and completing 12 months of service with a minimum of 1,000 hours of service. Union employees and non-resident aliens are excluded from eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may voluntarily contribute between 1% and 80% of their base compensation, as defined by the Plan, not to exceed \$16,500 in 2010 and 2009, subject to certain discrimination tests prescribed by the Internal Revenue Code. Participants age 50 and over may elect to defer additional amounts ("catch-up contributions") to the Plan. The Company provides for an enhanced safe harbor matching contribution equal to 100% of the first 4% of the participant's compensation and applied to all participants on a uniform basis. The Company may decide to make additional non-elective matching contributions to the Plan, although the Company is not required to do so.

Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts – Each participant's account is credited with the participant's contributions, allocations of the Company's contribution, Plan earnings, and charged with an allocation of investment gains or losses, withdrawals and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments – Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Employees of Great Lakes Automatic Door, Inc. and Rogers Automated Entrances, Inc., plus the employees of Record-USA, Inc. and Record-Indiana, Inc. that were hired after January 1, 2009, vest 20% per year after obtaining one year of service until becoming 100% vested after five years of credited service in accordance with the Plan document, or immediately if employment is terminated due to death, disability, or retirement upon attainment of the age of 65.

Employees of Record-USA, Inc. hired prior to January 1, 2009 vest over a three year period as follows: 0% after the first year, 50% after completing two years of service and 100% after three years of service.

Participant Loans - The Plan permits participants to borrow a minimum of \$1,000 up to 50% of their vested account balance not to exceed \$50,000. The \$50,000 maximum allowable loan amount is reduced by the highest outstanding loan balance of the participant within the previous 12-month period. The loans are secured by the balance in the participant's account and bear interest at 5.25% which is commiserate with local prevailing rates. Principal and interest are paid ratably through payroll deductions and loans must be fully repaid within five years unless the loan was issued for the purchase of a primary residence, upon which the loan must be fully paid within 10 years. As of December 31, 2010 and 2009, the Plan had outstanding loans to participants with principal balances totaling \$70,812 and \$36,970, respectively.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or various forms of annuities, as provided in the Plan document. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures - Benefit payments to terminated employees partially vested in the Plan include their vested portion of employer contributions. Forfeitures may be used to pay administrative expense of the Plan. At December 31, 2010 and 2009, there was \$0 and \$93 of forfeitures that had not yet been used to pay administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, except that benefits paid to plan participants are recorded on a cash basis.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the contract value of the investment contracts, which approximates fair value of the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis, which approximates fair value of the investment contracts.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and changes therein, disclosure of contingent assets and liabilities. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Contributions - Contributions from employees are recorded as they are withheld from the participant's wages. Contributions from the Company are recorded in the period in which the related participant contributions are due.

Payment of Benefits - Benefit payments to participants are recorded when paid.

Administrative Expenses - Administrative expenses of the Plan are paid by the Plan or by the Company, as provided in the Plan document.

Reclassification - Certain amounts from the 2009 financial statements have been reclassified to conform to current year presentation. There were no changes to total net assets available for benefits or total changes in net assets available for benefits.

Change in accounting principle - The Plan has adopted ASU 2010-25 related to Plan Accounting-Defined Contribution Plans ASC 962, reporting loans to participants by defined contribution pension plans. The purpose of the update was to clarify how participant loans should be measured and presented on the statement of net assets available for benefits. The amendment is effective for years ending on or after December 15, 2010 and must be applied retrospectively.

3. INVESTMENTS (UNAUDITED)

The Plan's investments are held in trust and administered by American United Life Insurance Company, ("AUL"), the Custodian, as of December 31, 2010 and 2009. All investment information disclosed in the accompanying financial statements and supplemental schedules was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Custodian.

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009 are as follows:

	<u>2010</u>	<u>2009</u>
American Life United Fixed Account	\$772,675	\$ 709,845
OneAmerica Asset Director	\$339,894	\$ 290,038
OneAmerica Money Market	\$272,958	\$ 155,436
Amercent Small XP Value	\$182,455	\$ 147,874
SSGA S&P 500 Flagship	\$146,113	*
Amercent Strategic Allocated Moderate	\$127,659	\$ 105,630

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the period) appreciated in value as follows:

	<u>2010</u>	<u>2009</u>
American Life United Fixed Account	\$ 29,857	\$ 25,595
Mutual funds	<u>168,816</u>	<u>220,367</u>
Total	<u>\$ 198,673</u>	<u>\$ 245,962</u>

4. FAIR VALUE MEASUREMENTS

Fair Value Measurements in accordance with current accounting standards, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). In order to increase the transparency of in financial reporting of fair value measurements, FASB noted that due to different degrees of subjectivity and reliability on fair value measurements between the hierarchy levels, additional information regarding level 3 investments and risks associated with various investments, additional clarification was necessary. In accordance with ASU 2010-06, disclosures for fair value are required to include:

- Transfers between level 1 and level 2 investments
- Activity in level 3 fair value measurements is enhanced
- Disaggregation from major asset category to major asset class

Amendments under ASU No. 2010-06 are effective for interim and annual reporting periods beginning after December 15, 2009, except for disclosures about purchases, sales, issuances and settlements in the roll-forward of level 3 fair value measurements. These financial statements have been prepared in compliance with ASU No. 2010-06.

The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> ▪ Quoted prices for similar assets or liabilities in active markets; ▪ Quoted prices for identical or similar assets or liabilities in inactive markets; ▪ Inputs other than quoted prices that are observable for the asset or liability; ▪ Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2010 and 2009:

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.
American United Life Fixed Account: Valued at fair value of the underlying investments considering the credit worthiness of the issuer. (see Note 5)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2010:

Investment Assets at Fair Value as of December 31, 2010

INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with AUL, the Custodian. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which approximates fair value as reported to the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

As described in note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was \$772,675 and \$709,845, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	<u>2010</u>	<u>2009</u>
Based on actual earnings	3.01%	3.00%
Based on interest rate credited to participants	3.59%	4.01%

6. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by the Custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated March 31, 2008, that the prototype standardized plan was designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income examination for years prior to 2007.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the form 5500 for the year ended December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>

Employer Contribution Receivable		(900)
Net assets available for benefits per the Form 5500	<u>\$2,508,216</u>	<u>\$2,086,630</u>

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the form 5500 for the years ended December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Change in net assets available for benefits per the financial statements	(\$419,219)	(\$ 392,820)
Prior year employee contributions receivable	(1,467)	1,467
Prior year employer contribution receivable	(900)	900
Change in net assets available for benefits per the Form 5500	<u>(\$421,586)</u>	<u>(\$ 390,453)</u>

11. SUBSEQUENT EVENTS

For the year-ended December 31, 2010, the Company has evaluated subsequent events for potential recognition and disclosure through October 11, 2011, the date of financial statement issuance.

December 31, 2010

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
