The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description

The following description of The 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan designed to comply with the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended during 2010 to allow employees of Elmet Technologies, Inc., NBE of Colorado, LLC (d/b/a IntelliTec Medical Institute), and Terrace International Distributors, Inc., all entities under common control, to participate. The Plan is intended to assist employees of Prestolite Wire, LLC, Liberty Lane Partners, LLC, Sign Supply International, LLC, Emerson Ecologics, LLC, Granite State Aviation, LLC, Elmet Technologies, Inc., NBE of Colorado, LLC (d/b/a IntelliTec Medical Institute), Terrace International Distributors, Inc., and other entities under common control (collectively, the "Company") in a long-range program of savings, to aid in meeting financial emergencies which may rise, and to be used as a means of adding to their retirement income. The administration committee of the Plan and the plan administrator manage the operation and administration of the Plan.

Contributions - The Plan provides for employees to contribute before-tax earnings from 1 percent to 50 percent of base pay including bonus and overtime, as defined in the Plan, subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan, provided the amount is not less than \$500.

Effective January 1, 2010, the Plan was amended to eliminate safe harbor matching contributions and replaced them with a discretionary matching contribution that allows the Company to determine on an annual basis a specified contribution amount.

Participant Accounts - Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50 percent, whichever is less, of their account balances. Notes receivable terms may not exceed five years. The participant notes receivable are secured by the balance in the participant's before-tax account and bear interest at a rate commensurate with the return provided by the prime interest rate charged for notes receivable made under similar circumstances. Principal and interest are paid ratably through payroll deductions.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in before-tax contributions, employer safe harbor matching contributions, rollover contributions, and any income or loss thereon. Participants are also 100 percent vested in supplemental discretionary matching contributions, which were permitted under a previous version of the Plan. The Plan also previously permitted retirement contributions by a participating employer as well. Both the retirement contributions and supplemental discretionary matching contributions were eliminated from the Plan effective January 1, 2009 as a result of a Plan amendment. Participants fully vest in any previous retirement contributions upon completing three years of service. A participant will become fully vested if termination occurs as a result of death, disability, or retirement upon attaining 55 years of age and completing five or more years of service.

Benefit Payments - Upon termination of service due to retirement, disability, or reduction in workforce, a participant may elect to have the total of his or her vested account balance distributed in a single lump-sum payment or may elect to have the account distributed over a period specified by the participant not to exceed 25 years. In the event of termination due to death, payments of benefits will be made in a single lump sum to the participant's beneficiary.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Company also pays certain administrative fees on behalf of the Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for a common collective trust fund that invests in fully benefit-responsive investment contracts (commonly referred to as a stable value fund), which is valued at contract value. For the stable value fund, contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the stable value common collective trust fund is based on discounting the related cash flows of the underlying guaranteed investment contracts based on current yields of similar instruments with comparable durations. The other common collective trust fund investment is valued at the net asset value per share (or its equivalent) of the funds, which is primarily based on the fair market value of the underlying assets. All other investments are based on quoted market prices. See Note 4 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

New Accounting Pronouncement - During 2010, the Plan adopted the provisions of a new accounting standard which requires that defined contribution plans classify participant loans as participant notes receivable rather than as investments as was previously required. This standard was adopted retroactively and, as a result, the December 31, 2009 participant loans have been reclassified from investments to participant notes receivable. The adoption of this standard had no impact on the Plan's net assets or changes in net assets.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 11, 2011, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Significant investments at the end of the year are as follows:

	2010	2009
Mutual funds (at fair value):		
Royce Low Priced Stock Fund	\$ 2,259,301	\$ 1,349,232
T. Rowe Price Retirement 2015 Fund	2,537,571	2,208,440
T. Rowe Price Retirement 2020 Fund	4,366,438	3,612,710
T. Rowe Price Retirement 2025 Fund	3,095,989	2,893,499
T. Rowe Price Retirement 2030 Fund	2,098,973	2,019,275
Vanguard Prime Money Market Instl	4,665,629	5,651,610
Vanguard Inst. Index Fund	3,998,454	3,849,541

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

The 401(k) Retirement Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 4 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (1) This class represents an investment in a common collective trust fund that invests primarily in equity securities of companies that are listed on the S&P Mid-Cap 400 Index. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.
- (2) This class represents an investment in a common collective trust fund that invests primarily in guaranteed investment contracts, bank investment contracts, synthetic investment contracts, and separate account contracts. Investments are valued at the fair value per share multiplied by the number of shares held as of the measurement date. As of December 31, 2010 and 2009, a limitation was in effect which delays redemption or withdrawal requests of the stable value investments for a 12-month period by the Plan in its entirety. There is no such limitation on a participant-level basis. The stable value investments impose a 90-day "equity wash" provision on exchanges to competing funds. These investments are interest rate-sensitive; therefore, direct exchanges from the stable value investments to money market funds and certain short-term bond funds are not permitted. Permissible investment options include most common stock funds and any fixed-income fund with a duration that is equal to or greater than three years. Exchanges from the stable value investments must remain invested in permissible investment options for at least 90 days before exchanging into a competing fund.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2010.

Restatement - During 2010, it was determined that investments previously classified as Level 2 should have been classified as Level 1 based on the fair value hierarchy. Accordingly, the 2009 fair value disclosure has been restated.
