Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Administrator and Participants
IKG Hourly Employees Pension Plan

We were engaged to audit the accompanying statement of net assets available for benefits of the IKG Hourly Employees Pension Plan (the "Plan") as of December 31, 2010 and 2009, and related statement of changes in net assets available for benefits for the years then ended and the supplemental schedules of (1) Schedule H, line 4(i) - Schedule of Assets (Held at End of Year) and (2) Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended December 31, 2010. These financial statements and supplementary schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5 and Note 7, which was certified by Manufacturers and Traders Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the accompanying financial statements and the supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

IKG Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2010 and 2009

Note 1 - Description of Plan

The following brief description of the IKG Hourly Employees Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a noncontributory defined benefit plan providing retirement, death and disability benefits to all eligible union employees of the IKG Industries division (Nashville, Leeds, Carlisle, Long Island, and Channel View locations) of Harsco Corporation (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

As of December 31, 2006, all accrued benefits and credit for continuous service are frozen for all participants except those in the Channel View location.

In September 2010, the Plan was amended to freeze participation and the accrued pension benefit of collectively bargained employees who are members of the Cement, Lime, Gypsum and Allied Workers, Division of the International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmith Forgers and Helpers, AFL-CIO-CFL, Local Lodge D546 at the Company’s Channelview, Texas facility. The freeze is effective as of the close of business December 31, 2010, and no employee who is hired or rehired by the Company after then shall become a participant in the Plan.

Effective January 1, 2011, credit for past continuous service is frozen as of the close of business on December 31, 2010 and no continuous service earned after that date is taken into account in determining a participant’s pension benefit. A basic monthly pension benefit per year of service with a maximum of thirty-five years will be provided and early retirement at age fifty-five with actuarial reduction of benefits is allowed. The accrued pension of any participant who is an employee as of the close of business December 31, 2010 shall be 100% vested and nonforfeitable, regardless of number of years of continuous service.

Although the Company received Board approval as of December 31, 2003 to merge all defined benefit plans maintained by the Company or its subsidiaries in its ERISA controlled group, the Plan has not yet been merged. The merger is planned in order to reduce administrative and funding costs that otherwise will be incurred if these plans continue as separate plans. The merger will be subject to union approval where required.

The Plan has evaluated subsequent events for recognition or disclosure through October 13, 2011, the date the financial statements were available to be issued.

Participation

An employee becomes a participant in the Plan on the first day of the year coinciding with or next following the date eligibility requirements are met.

Note 1 - Description of Plan (Continued)

Service Rules

Employees are credited with a year of service for each Plan year during which they have at least 1,000 hours of service.

Pension Benefits

Employees with five or more years of continuous service are entitled to annual pension benefits beginning at normal retirement age (65) amounting to monthly benefits equal to the benefit unit in effect at the time of termination of employment multiplied by benefit accrual service up to a maximum of 35 to 40 years, depending on the plant. The Plan permits early retirement at ages 55-64 and the completion of 5-10 years of service, depending on the location. Employees may receive their pension benefits in the form of a life annuity for unmarried participants, or, for married participants, the actuarial equivalent of the life annuity is paid in the form of a 50% joint and survivor annuity. If the present value of the pension does not exceed \$1,000, a lump-sum payment is automatic. If employees terminate before rendering five years of service, they forfeit the right to 100% of their accrued benefit. The amount of the monthly benefit, as defined in the Plan document, depends upon, among other things, the years of service of the employee and in which division of the Company the employee worked.

Death and Disability Benefits

The Plan provides for death and disability benefits. In the event of death, the amount of benefit the beneficiary will receive will depend upon, among other things, the employee's status as of the date of death and whether the participant was already receiving normal retirement benefits. In the event a participant becomes totally and permanently disabled, the benefit to be received will depend upon, among other things, the employee's status at the time of disability. Depending on the location, disability retirement is available upon permanent incapacitation with no service requirement or after 15 years of continuous service.

Vesting

A participant is fully vested after completion of five years of continuous service.

Note 2 - Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

New Accounting Standard

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2010-06 “Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements”, (“ASU 2010-06”), which provides a greater level of disaggregated information and more robust disclosures about valuation techniques and inputs to fair value measurements, transfers in and out of Levels 1 and 2, and the separate presentation of information in Level 3 reconciliations on a gross basis rather than net. New disclosures and clarifications of existing disclosures are effective for interim and annual reporting period beginning after December 15, 2009, Level 3 disclosures are effective for fiscal years beginning after December 15, 2010. Adoption of ASU 2010-06 had no material impact on the Plan’s financial statements but expanded disclosures about certain fair value measurements.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan’s investments are stated at fair value. See Note 6 for a discussion of fair value measurements. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Funding Policy

The Plan is funded annually by the Company with actuarially determined contributions. The contributions are determined using an actuarial cost method which takes into consideration the present value of benefits expected to accrue during the Plan year. The Plan has complied with the minimum funding requirements established by ERISA.

Investment Fees

Net investment returns reflect certain fees paid by the investment funds, as well as the underlying investment funds of the Harsco Pension and Profit Sharing Collective Investment Fund (“CIF”), to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan’s investment earnings activity and thus are not separately identifiable as an expense.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

Income Taxes

The Plan is exempt from federal income taxes under the Internal Revenue Code.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Administrative costs, such as for legal, accounting, actuarial, and trustee fees, as well as the Pension Benefit Guaranty Corporation ("PBGC") premium, are paid by the Plan.

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' credited service and the benefit rate in effect at the time of retirement. The accumulated plan benefits for active employees are based on their service rendered and the benefit rates in effect as of December 31, 2009. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the enrolled actuarial firm of Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation and the determination of the present value of accumulated plan benefits as of December 31, 2009 are as follows:

Assumed rate of return on investments *	7.75% compounded annually
Mortality basis	RP2000 Mortality Table with projection to 2020 for males and females.
Retirement	50% at age 62 increasing to 100% at age 65.

* Net of 0.25% for assumed expenses

Note 3 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is as follows as of December 31(in thousands):

	<u>2009</u>	<u>2008</u>
Vested benefits:		
Participants currently receiving payments	\$4,503	\$4,426
Other participants	<u>3,706</u>	<u>3,636</u>
	8,209	8,062
Nonvested benefits	<u>93</u>	<u>100</u>
Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$8,302</u>	<u>\$8,162</u>

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2009, are presented below (in thousands):

	<u>2009</u>
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$8,162</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	36
Interest due to the decrease in the discount period	612
Benefits paid	(542)
Plan amendments	<u>34</u>
Net Increase	<u>140</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$8,302</u>

The above present value of accumulated plan benefits as of December 31, 2009 does not reflect the effect of the amendments approved during 2010 as discussed in Note 1. The effects of the Plan amendments disclosed above are the result of the changes in the monthly benefit unit as more fully explained in the related collective bargaining agreement.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated in accordance with the Plan document and as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a ceiling, which is adjusted periodically, on the amount of monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Financial instruments, which potentially subject the CIF to a concentration of credit risk, consist principally of investments. The CIF limits this risk by diversifying the CIF's investment portfolio. The degree and concentration of credit risk varies depending upon the type and diversity of investments within the portfolio.

Note 6 - Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). The Company utilizes market data or assumptions that the Company believes market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique.

IKG Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2010 and 2009

Note 6 - Fair Value Measurements (Continued)

The fair value hierarchy distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs that are both significant to the fair value measurement and unobservable.

In instances in which multiple levels of inputs are used to measure fair value, hierarchy classification is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31 (in thousands):

	2010

December 31, 2010 and 2009

Note 6 - Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for CIF investments measured at fair value.

Level 1 Fair Value Measurements

Investments in interest-bearing cash are stated at cost, which approximates fair value. The fair values of money market accounts and certain mutual funds are based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common and foreign stocks and corporate bonds, notes, and convertible debentures are valued at the closing price reported in the active market on which the individual securities are traded.

Level 2 Fair Value Measurements

The fair values of investments in mutual funds for which quoted net asset values in an active market are not available are valued by the investment advisor based on the current market values of the underlying assets of the mutual fund based on information reported by the investment consistent with audited financial statements of the mutual fund. Further information concerning these mutual funds may be obtained from their separate audited financial statements. Investments in U.S. Treasury notes and collateralized securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Plan assets are allocated among various categories of equities, fixed income, cash and cash equivalents with professional investment managers whose performance is actively monitored. The primary investment objective is long-term growth of assets in order to meet present and future benefit obligations. The Company periodically conducts an asset/liability modeling study and accordingly adjusts investments among and within asset categories to ensure the long-term investment strategy is aligned with the profile of benefit obligations.

There are no unfunded commitments or redemption restrictions on units of the CIF.

For both Plan and CIF investments, there have been no significant changes in the methodologies used during the years ended December 31, 2010 and 2009.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

Note 7 - Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2010 and 2009. Accordingly, M&T has certified to the completeness and accuracy of all investments reported in the accompanying statement of net assets available for the benefits as of December 31, 2010 and 2009, the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2010, the related investment activity reported in the statement of changes in net assets available for benefits for the years ended December 31, 2010 and 2009, and the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2010.

Investments that represent five percent or more of the Plan's net assets available for benefits consist of the following as of December 31 (in thousands):

	<u>2010</u>	<u>2009</u>
Plan interest in the CIF	\$8,446	\$8,180

Note 8 - Income Tax Status

The Plan obtained its latest determination letter on May 8, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable regulations of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

IKG Hourly Employees Pension Plan

Notes to Financial Statements

December 31, 2010 and 2009

Note 9 - Related Party Transactions

The Plan's investments are managed by M&T Investment Group, an affiliate of M&T. The Plan invests in certain funds (directly and within the CIF) owned by M&T. M&T is the trustee as defined by the Plan, and therefore, transactions in these funds qualify as party-in-interest transactions. Fees charged to the Plan for the trustee fees amounted to \$7,682 and \$5,885 and for the years ended December 31, 2010 and 2009, respectively. CIF transactions in Harsco Corporation common stock also qualify as party-in-interest transactions. There were no purchases or sales of Harsco Corporation common stock in the CIF during 2010 and 2009. All other transactions which may be considered parties-in-interest transactions relate to normal plan management and administration services, and the related payment of fees.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the plan.

Note 10 - Risks and Uncertainties

Investments of the Plan are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect investment assets reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Spouse Age Wives assumed to be three years younger than their husbands.

Form of Payment Life annuity for single participants, 50% J&S for married participants.

Percentage Married 80%

Administrative Expense Estimated based on actual expenses during the prior year. The assumption for 2010 was \$86,082.

Methods

- ▶ Valuation Date First day of plan year (January 1)
- ▶ Funding Target Present value of accrued benefits
- ▶ Target Normal Cost Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets.
- ▶ Actuarial Value of Assets Average of the fair market value of assets on the valuation date and the four immediately preceding semi-annual periods, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including contributions receivable.

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the

actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not Valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson is not aware of any significant benefits required to be valued that were not.

Change in Assumptions and Methods Since Prior Valuation

The interest rate basis was changed from the full yield curve based on October yields to the 24-month average segment rate approach as of January 2010.

The asset method changed from fair market value to a method that smoothes gains and losses over the prior two years.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

Administrative expenses included as part of the target normal cost were updated to reflect actual expense experience from the prior year.

SCHEDULE SB, LINE 25 -- Change in Method

Harsco Corporation

IKG Hourly Employees Pension Plan

EIN: 23-1483991

Plan Number: 019

The interest rate basis was changed from the full yield curve based on October yields to the 24-month average segment rate approach as of January 2010, as permitted by 1.430(h)(2)-1(h)(3).

The asset method changed from fair market value to a method that smoothes gains and losses over the prior two years, as permitted by 1.430(g)-1(f)(3).

In accordance with 1.430(d)-1(g)(3)(ii)(A), automatic approval has been granted for the first plan year for which all the provisions of 1.430(d)-1, 1.430(f)-1, 1.430(g)-1, 1.430(i)-1, and 1.436-1 are reflected of any changes to funding methods permitted by the Pension Protection Act. 2010 is the first plan year for which all of these provisions were reflected, and thus all funding method changes are automatically approved.

SCHEDULE SB, LINE 22 -- Description of Weighted Average Retirement Age
Harsco Corporation
IKG Hourly Employees Pension Plan
EIN 23-1483991/ PN 019

Retirement rates varying by age are listed below:

Retirements per 1,000 participants:

<u>Age</u>	<u>Number of Retirements</u>
62	500
63-64	100
65	1,000

For each active participant, an expected retirement age was calculated, weighted in proportion to the probability that the individual would remain an active participant to each age and then retire at that age. The Plan's weighted average retirement age of 63 is the arithmetic average of the expected retirement ages of all such participants on January 1, 2010.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
