INDEPENDENT AUDITORS' REPORT

To the Con-way Inc. Administrative Committee
EWA Pilots' Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the EWA Pilots' Retirement Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Bank of New York Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of Plan

(a) General

The following description of the EWA Pilots' Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The term "Con-way" or "Company" refers to Con-way Inc. and subsidiaries.

The Plan is a defined benefit plan sponsored by Con-way and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was created, effective September 19, 2000, as part of a collective bargaining agreement that brought all of the pilots formerly covered under the Con-way Pension Plan into one plan with its own requirements and benefits. In September 2001, Emery Worldwide Airlines (EWA) suspended operations and laid off the majority of its employees resulting in a partial termination of the Plan. As a result, all active participants became 100% vested.

Overall responsibility for administering the Plan rests with the Con-way Inc. Administrative Committee (the Committee), which is appointed by the Chief Executive Officer of Con-way. The net assets of the Plan and certain other Con-way defined benefit pension plans are held in the Con-way Retirement Master Trust. The Bank of New York Mellon, N.A. (the Trustee) was appointed to hold, invest, and disburse plan benefits from the Con-way Retirement Master Trust.

(b) Eligibility

Employees were eligible to participate in the Plan if they were covered by a collective bargaining agreement that provided for the accrual of benefits under the Plan, they were not a leased employee, independent contractor or nonresident alien and if they had completed one year of service.

(c) Retirement Benefits

Annual normal benefits, which are payable to members at age 65, are equal to the sum of (a) 1.1% of the participant's average final earnings (based on the average of the five highest consecutive annual rates of pay during the 10 years prior to retirement) up to the participant's average Social Security wage base multiplied by the participant's number of years of credited service under the Plan to a maximum of 35 years, (b) 1.4% of the participant's average final earnings in excess of the participant's average Social Security wage base multiplied by the participant's years of credited service under the Plan, and (c) 1.4% of the participant's final average earnings multiplied by the participant's years of credited service that are earned after completing 35 years of service.

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Participants may elect an early retirement date on or after attaining age 55 and completing 10 years of service. Annual pension benefits for participants retiring early are subject to a reduction factor as defined by the Plan. Participants who retire after attaining age 55 whose age at retirement plus their years of service total at least 85 will receive a retirement benefit unreduced for early retirement. Mandatory retirement is required for some participants under rule of the Federal Aviation Administration (FAA), which prohibits participants from performing the responsibilities of an airline pilot after age 65. Upon attaining the age of 65 and the requirements of an early retirement date, participants subject to the FAA rule shall receive an unreduced benefit regardless of whether the participant moves to other employment within Con-way. Vested participants who terminate employment before their normal retirement date but before achieving eligibility for Early Retirement will also be able to commence benefits at age 55, but using a different set of Early Retirement Factors.

Participants eligible for and receiving disability benefits under Con-way's Long-Term Disability policy continue to accrue benefits until the later of the following: attaining age 65, receiving long-term disability benefits for the maximum period allowed by the disability policy, receiving a lump-sum settlement, or termination of the disability.

Employees may elect to receive their pension benefits in the form of single life annuities or various forms of joint life annuities, or a level income option. If the actuarial equivalent of the employee's pension benefit is not over \$5,000 on the benefit starting date, the only form of benefit is a lump-sum. If the actuarial equivalent of the employee's pension benefit is over \$5,000 but not over \$10,000 on the benefit starting date, the only forms of benefit available are a lump-sum; two forms of joint annuity (50% or 75%); or a single life annuity with 60 months certain.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

(b) Income Recognition and Valuation of Investments

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The fair value of the Plan's interest in the Con-way Retirement Master Trust is based on the beginning-of-year value of the Plan's interest in the Con-way Retirement Master Trust plus actual contributions and allocated investment gain or loss less actual benefit payments to participants and administrative expenses. Investments in the Con-way Retirement Master Trust are reported at fair value, as more fully discussed in Note 9, *Con-way Retirement Master Trust*.

(c) Investment Risk

The Plan assets are invested in a variety of investments in securities that are generally exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan may invest in asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities. The fair value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies or defaults, or both, and may be adversely affected by shifts in investors' perceptions of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to asset returns, interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

(d) *Benefit Payments*

Benefit payments to participants are recorded upon distribution.

(e) *Administrative Expenses*

During 2010 and 2009, trustee fees, investment management fees, and actuarial fees were paid through the Con-way Retirement Master Trust and are included in the Plan's share of Con-way Retirement Master Trust investment gain. During 2010 and 2009, expenses of \$82,000 and \$69,000, respectively, were included in the Plan's share of Con-way Retirement Master Trust investment gain.

The Plan pays certain other administrative expenses, primarily premiums to the Pension Benefit Guaranty Corporation, which are reported on the statements of changes in net assets available for benefits as administrative expenses of the Plan.

Other expenses, including computer services, professional fees, office supplies and payroll expenses of administrative and clerical personnel are provided by the Company without charge to the Plan.

(f) *Use of Estimates*

The preparation of financial statements in conformity with generally accepted accounting principles in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes in those amounts, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(g) *Recently Issued Accounting Standards*

In January 2010, the FASB issued Accounting Standards Update (ASU) 2010-06, "Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements." This guidance requires the Plan to disclose additional information on transfers in and out of fair value levels, measurement disclosures by classes of assets and descriptions of

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

valuation techniques and inputs used to measure fair value (both recurring and nonrecurring fair value) in addition to other disclosures. This guidance was effective for reporting periods beginning after December 15, 2009, except for certain disclosures which will be effective for fiscal years beginning after December 15, 2010. The Plan's management does not expect that the remaining disclosures to be adopted in 2011 will be significant.

(h) Subsequent Events

The Plan's management has performed an evaluation of subsequent events through September 30, 2011, which is the date these financial statements were available to be issued.

(3) Funding Practice

Contributions to the Plan, if necessary, are made to meet or exceed the minimum funding standards of ERISA and the Internal Revenue Code (the Code). In determining the amount and timing of its pension contributions, Con-way considers both the ERISA- and GAAP-based measures of funded status as well as the tax deductibility of contributions. In 2010, Con-way contributed \$110,957 for the 2010 plan year. During 2011, Con-way contributed \$3,390,000 to the Plan for the 2010 plan year.

(4) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service rendered by retired and nonretired participants. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, termination, or death. The actuarial present value of accumulated plan benefits at December 31, 2009 (beginning-of-the-year presentation) was as follows:

Vested benefits:

Participants currently receiving payments	\$ 10,649,686
Active participants and terminated participants entitled to deferred benefits	<u>7,210,428</u>

Total vested benefits 17,860,114

Nonvested benefits 62,824

Total actuarial present value of accumulated plan benefits as
of December 31, 2009 \$ 17,922,938

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

The following table presents the change in the actuarial present value of accumulated plan benefits:

Actuarial present value of accumulated plan benefits, December 31, 2008	\$ 17,783,319
Increase (decrease) during the year attributable to:	
Increase in interest due to the decrease in the discount period	1,459,432
Other actuarial gain	137,935
Benefit payments to participants	(1,227,053)
Change in actuarial assumptions	(230,695)
Net increase	139,619
Actuarial present value of accumulated plan benefits, December 31, 2009	\$ 17,922,938

The actuarial present value of accumulated plan benefits is determined by Mercer, the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following significant assumptions were changed since December 31, 2008:

- a. The form of payment assumption was changed from 100% electing a 50% Joint and Survivor Benefit to 40% electing a Life Annuity and 60% electing a 100% Joint and Survivor Benefit.
- b. The percent married assumption was changed from 100% to 75%.

Other significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits as of December 31, 2009 were as follows:

Actuarial cost method	– Unit credit method
Return on investments	– 8.5% compounded annually
Mortality	– RP-2000 Mortality Table, projected to 2005, 100% white-collar

The return on investments of 8.5% includes a reduction of 0.2% to reflect anticipated administrative expenses associated with providing benefits.

The withdrawal, retirement and compensation increase assumptions reflect that all active participants are on long-term disability. The foregoing actuarial assumptions are based upon the presumption that the Plan will continue. Were the plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuarial valuation was prepared as of January 1, 2010. Had the valuation been prepared as of December 31, 2009, there would be no material differences.

(5) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations discussed below.
- c. All other vested benefits not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits under a Plan termination would depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(6) Summary of Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements was provided and certified by the Trustee, The Bank of New York Mellon, N.A., as complete and accurate:

- Investment in Con-way Retirement Master Trust
- Plan's share of Con-way Retirement Master Trust investment gain
- Con-way Retirement Master Trust information in Note 9

(7) Related-Party Transactions

Certain Plan investments are managed by the Trustee. Therefore, these managed investments and investment transactions qualify as party-in-interest transactions.

(8) Income Tax Status

The Internal Revenue Service has determined and informed Con-way by a letter dated November 6, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

(9) Con-way Retirement Master Trust

The Con-way Retirement Master Trust holds the assets associated with several Con-way defined benefit plans. Each participating retirement plan has an undivided interest in the Con-way Retirement Master Trust. In the administration of the Plan, the Trustee holds the assets of the Con-way Retirement Master Trust and manages investment of funds under the direction of several investment managers and the plan administrator. All gains and losses of the Con-way Retirement Master Trust are prorated monthly based on the ratio of investment in the Con-way Retirement Master Trust, at market value, which each plan holds, to the total market value of the Con-way Retirement Master Trust.

Investments and Interests

The following is a summary of the participating plan interests in the Con-way Retirement Master Trust at December 31, 2010 and 2009:

	2010		2009

EWA PILOTS' RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Due to the short maturity of interest-bearing cash, its carrying amount approximates fair value. Common and collective trusts are not publicly traded and do not have readily determinable fair values. Accordingly, common and collective trusts are valued at their net asset value per unit based on the value of the underlying investments. Investments in common and collective trusts can generally be redeemed without restriction. U.S. Government securities, mutual funds and corporate stocks are valued at the closing price reported in the active markets on which the individual securities are traded. Corporate debt instruments, international government securities and municipal bonds are generally valued using observable bid-ask spreads or broker-provided pricing. Investments in corporate debt instruments consist primarily of high-quality U.S. corporate debt instruments in a variety of industries. The fair value of the private real estate fund is based on the underlying assets, which consist of commercial and residential properties valued using periodic appraisals. Other assets consist of a variety of different investments that primarily consist of investments with observable market-based inputs.

The following table summarizes the changes in fair values of financial instruments measured using Level 3 inputs:

	Private real estate fund	
	2010	2009
Balance at beginning of year	\$ 25,916,633	\$ 37,158,566

Balance at end of year	<u>\$ 29,552,752</u>	<u>\$ 25,916,633</u>

Con-way Retirement Master Trust net investment gain, excluding administrative expenses, allocated to the participating plans for the years ended December 31, 2010 and 2009 was as follows:

	2010	2009
Interest income	\$ 12,733,243	\$ 12,417,171

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each quarter during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be not greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- For currently disabled participants, the **funding target** is the present value of future benefits based on credited service projected to retirement age. All benefits are considered "accrued", including those based on service not yet earned, therefore **target normal cost** for currently disabled participants is zero.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discounts and mortality rates were updated from 2009 to 2010 in accordance with PPA. In addition, Con-way changed their interest rate election, from full yield curve with a two-month look-back to segment rates with no look-back.
- The percent married assumption was changed from 100% to 75% to better reflect plan experience.
- The form of payment assumptions was changed from 100% electing a 50% Joint and Survivor benefit to 40% electing a Life annuity and 60% electing a 100% Joint and Survivor benefit.
- The mortality assumption for disabled participants was changed to match the mortality assumption used for healthy participants.

Schedule SB, Line 25 — Change in Method

- The cost attribution method was changed for the disability benefit in accordance with final PPA regulations.
- Mercer changed to a new liability valuation system this year. The change did not materially affect liability amounts and qualifies for automatic IRS approval.

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #2, are included in this valuation.

- **IRC Section 436 benefit restrictions:**
 - *Benefit accruals:* The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Definitions

- Eligibility

Regular Employees: 1 year of service (elapsed time) following date of hire.

Supplemental Employees: 1 year of service (at least 1,000 Hours of Service) following date of hire.

Employees are eligible to participate in the plan if they are covered by a collective bargaining agreement that provided for accrual of benefit under the plan and satisfy the above service requirement. Currently, there are no new employees eligible to participate in the plan.
- Vesting service

Years of Service measured from date of hire.
- Credited service

Years of Service measured from date of participation. Supplemental Employees must complete at least 2,000 Hours of Service as a Participant to get credited a full Year of Service starting from 1988. Supplemental Employees working less than 2,000 Hours of Service will receive fractional years of service credit by dividing actual hours by 2,000.
- Vesting

100% vested after 5 Years of Service.

Schedule SB, Part V — Summary of Plan Provisions

- **Compensation**

Basic Compensation is regular salary or wages, overtime, voluntary deferrals under Code Sections 125, 132(f)(4), and 401(k), and cash bonuses other than long term incentive bonuses and incentive bonuses for opting out of health coverage, paid during any calendar year. For Supplemental Employees, Basic Compensation is the amount determined as above, divided by the Participant's Hours of Service, and multiplied by 2,000. Plan compensation is limited to the extent required by Code Section 401(a)(17). Basic Compensation for years prior to 2002 is limited to \$200,000.
- **Average final compensation**

Basic Compensation averaged over the five consecutive calendar years producing the highest such average out of the ten calendar years ending on the date as of which the Average Final Compensation is determined. Basic Compensation in a final partial calendar year is counted if it exceeds the Basic Compensation in the calendar year that is five years earlier.
- **Integration level**

Participant's Covered Compensation for the Plan Year. Covered Compensation means the average of the contribution and benefit bases in effect under Section 230 of the Social Security Act for each of the 35 calendar years ending with the year the Participant attains Social Security Retirement Age.
- **Accrued benefit**

 1. Non-Grandfathered Participants: Annuity benefit payable for the life of the Participant with five years certain is (A) minus (B), but no less than (C):
 - A. Sum of the following:
 - i. 1.1% of Average Final Compensation multiplied by the Participant's years of Credited Service
 - ii. 0.3% of Average Final Compensation in excess of the Integration Level multiplied by the Participant's years of Credited Service
 - iii. 0.3% of Average Final Compensation up to the Integration Level multiplied by the Participant's years of Credited Service performed after completing 35 years of Service
 - B. Actuarial Equivalent of Common Stock Fund (if not transferred to the Plan)
 - C. The greatest annuity benefit on Early Retirement Date the Participant could have received

Schedule SB, Part V — Summary of Plan Provisions

- **Accrued benefit**
(continued)

2. Grandfathered Participants: (Participants of the prior pension plan before the acquisition of Emery prior to 1991): Annuity benefit payable for the life of the Participant with five years certain is amount determined in (1)(A) above plus (2)(A), but no less than (2)(B) plus (2)(C) minus (2)(D):

A. 0.5% of Average Final Compensation multiplied by the Participant's years of Credited Service before 1988

B. 2.0% of Average Final Compensation multiplied by the Participant's years of Credited Service before 1988

C. 1.5% of Average Final Compensation multiplied by the Participant's years of Credited Service after 1987

D. Social Security Offset. Social Security Offset is lesser of:

i. 1 2/3% of Participant's age 65 Social Security Amount multiplied by the Participant's years of Credited Service up to a maximum of 30 years, and

ii. 50% of the Participant's age 65 Social Security Amount multiplied by a fraction (not to exceed 1), the numerator of which is the Participant's years of Credited Service accumulated to the date the Social Security Offset is determined and the denominator of which is the years of Credited Service the Participant would have at age 65 if Credited Service had continued accumulating to that age.

The total Accrued Benefits determined under 1. or 2. above will be offset by the following (if applicable):

- 1987 Annuity Benefit attributable to Credited Service through October 31, 1987 under the Emery Pension Plan
- Certain collectively bargained pension benefits as specified in the plan
- Actuarial Equivalent of pre-1984 employee contributions with interest if withdrawn by Participant's election

Accrued Benefits are limited to the extent required by Code Section 415.

Plan provision changes since prior valuation

Each year, the maximum compensation and maximum benefits are updated. However, there is no change in these amounts from 2009 to 2010.

Amendment #2 was adopted to comply with requirements under the Pension Protection Act of 2006. This change had no effect on liability amounts.
