To the Administrative Committee of the
Drillinginfo, Inc. 401(k) Plan
Austin, Texas

We were engaged to audit the accompanying statements of net assets available for benefits of the Drillinginfo, Inc. 401(k) Plan (the Plan) as of December 31, 2010, the statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets held for investment purposes as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Transamerica Insurance Company, the custodian of the Plan (the Custodian), except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that Hartford Life Insurance Company held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the Custodian as of and for the year ended December 31, 2010, that the information provided to the Plan administrator by the Custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the Drillinginfo, Inc. 401(k) Plan as of December 31, 2009, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits as of December 31, 2009 and, accordingly, do not express an opinion or any other form of assurance on it.

DRILLINGINFO, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Drillinginfo, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Drillinginfo, Inc. (the Company or the Employer) on January 1, 2005. The Plan is a defined contribution plan covering substantially all employees of the Company who have been employed for six consecutive months and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan consists of pooled separate accounts under contract with Hartford Life Insurance Company, Retirement Plans Group (Hartford or the Custodian) and participant loans. Contributions to the Plan, including participant salary deferrals, matching contributions, and rollovers from other plans, can be invested in any fund or combination of funds included in the Plan and are participant directed. A participant may change his or her investment options at any time via a telephone service or the internet, once enrolled.

Hartford has provided a certification as to the completeness and accuracy of the information provided to the Plan sponsor as of and for the year ended December 31, 2010.

Contributions

Each year, a participant may contribute a portion of their compensation, in specified whole percentages or dollar amounts, not to exceed the deferral limitation as specified in section 402(g) of the Internal Revenue Code (IRC). The deferral limitation is $16,500 for 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan provides for Company matching contributions to all eligible participants. For 2010, matching contributions were 100% of each participant's contribution up to a maximum of 2% of the participant's salary.

The Company may also elect to make a discretionary contribution of an equal dollar amount to all eligible participants, in addition to the matching contribution. For the year ended December 31, 2010, the Company did not make a non-elective, discretionary contribution to the Plan.

The Economic Growth and Tax Relief Reconciliation Act of 2001 includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law to their account to contribute an additional $5,500 for 2010.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contribution and (b) plan earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested immediately in their contributions as well as the employer's contribution portion, plus actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25 percent, which is commensurate with local prevailing rates as determined by the Plan administrator.

Participant loans must be payable within a period not exceeding five years from the date the participant received the loan, unless the loan is for the purchase of the participant's principal residence, in which case the loan must be payable within a reasonable time commensurate with the repayment period permitted by commercial lenders for similar loans. Loan repayments must be made through payroll withholding, except to the extent the Plan administrator determines payroll withholding is not practical, given the level of the participant's wages, the frequency with which the participant is paid, or other circumstances.

Payment of Benefits

On termination of services due to death, disability, retirement, or any other reason, a participant may elect to either receive a lump-sum distribution of the entire value of his or her vested account balance, or a single sum distribution of a portion of his or her vested account balance. Payment of benefits may be made in installments to satisfy required minimum distribution amounts.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the net assets available for benefits and charges therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

All investments in the Plan are participant directed. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All reasonable expenses related to the Plan administration will be paid from Plan assets, except to the extent the expenses are paid by the Company.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Excess Contributions Payable to Participants

To satisfy the relevant non-discrimination provisions of the Plan, the Plan recorded a liability of $0 and $38,153 as of December 31, 2010 and 2009, respectively, with a corresponding reduction to contributions from participants. The Plan refunded the above amounts to Plan participants within 2 ½ months of year end.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and accompanying supplemental schedule.

NOTE 3. INVESTMENTS – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, the Custodian has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate as of December 31, 2010 and 2009 and for the year ended December 31, 2010:

During the year ended December 31, 2010, the Plan's investments (including gains and losses on investments bought, sold and held during the year) appreciated in value as determined by quoted market prices as follows:

Pooled separate accounts	$	185,181

NOTE 4. FAIR VALUE MEASUREMENTS

FASB Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan had no investments in this category at December 31, 2010 and 2009.

Level 2 inputs: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan had pooled separate accounts in this category at December 31, 2010 and 2009.

Level 3 inputs: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: These investments are valued using the net asset value (NAV) of units held by the Plan at year end as provided by Hartford. The NAV is based on the fair value of the underlying assets owned by the fund.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Plan assets				
Pooled separate accounts				
Blend funds	$ -	$ 831,747	$ -	$ 831,747

Value funds	-	134,085	-	134,085
Total assets at fair value	$ -	$ 1,923,728	$ -	$1,923,728

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total

Value funds	-	116,238	-	116,238
Total assets at fair value	$ -	$ 1,175,811	$ -	$1,175,811

NOTE 5. INCOME TAX STATUS

The Employer has adopted and followed the terms of a Prototype Standardized Profit Sharing Plan with Cash or Deferred Arrangement (CODA) as submitted to the Internal Revenue Service (IRS). The Employer has relied on the favorable opinion letter issued by the IRS on March 31, 2008 regarding the acceptability of the prototype plan under section 401 of the IRC as not subject to tax under present income tax laws. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more than likely than not would not be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 7. PARTY-IN-INTEREST

Certain Plan investments are units of pooled separate accounts managed by Hartford. Hartford is the custodian of the Plan and performs record-keeping services for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Under accounting principles generally accepted in the United States of America, excess contributions refunded within 2 ½ months subsequent to the Plan's year-end are required to be netted against contributions and recorded as a liability on the financial statements of the Plan in the year contributions were originally made. However, Form 5500 requires that all excess contribution refunds be recorded as a distribution in the year they are paid. Excess contribution refunds pertaining to Plan years 2010 and 2009 totaled $0 and $38,153, respectively.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for benefits per financial statements	$ 1,986,340	$ 1,151,484
Add: excess contributions refundable to participants	-	38,153
Net assets available for benefits per Form 5500	$ 1,986,340	$ 1,189,637

The following is a reconciliation of benefits paid to participants and corrective distribution per the financial statements for the year ended December 31, 2010 to Form 5500:

Benefits paid to participants per financial statements	$ 18,891
Add: prior year excess contributions payable to participants	38,153
Benefits paid and corrective distributions per Form 5500	$ 57,044

NOTE 9. SUBSEQUENT EVENTS

Effective January 1, 2011, the Company amended the Plan to qualify as a safe harbor plan. The safe harbor regulations require the Company to meet certain matching percentages, and provide for immediate vesting of all Company matching contributions as they are made to participant accounts.

The Plan has evaluated subsequent events through October 13, 2011, which is the date the financial statements were available to be issued, and determined no events other than disclosed above have occurred subsequent to December 31, 2010 that warrant additional disclosure.

NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF THE PLAN

The following brief description of the Drillinginfo, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Drillinginfo, Inc. (the Company or the Employer) on January 1, 2005. The Plan is a defined contribution plan covering substantially all employees of the Company who have been employed for six consecutive months and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan consists of pooled separate accounts under contract with Hartford Life Insurance Company, Retirement Plans Group (Hartford or the Custodian) and participant loans. Contributions to the Plan, including participant salary deferrals, matching contributions, and rollovers from other plans, can be invested in any fund or combination of funds included in the Plan and are participant directed. A participant may change his or her investment options at any time via a telephone service or the internet, once enrolled.

Hartford has provided a certification as to the completeness and accuracy of the information provided to the Plan sponsor as of and for the year ended December 31, 2010.

Contributions

Each year, a participant may contribute a portion of their compensation, in specified whole percentages or dollar amounts, not to exceed the deferral limitation as specified in section 402(g) of the Internal Revenue Code (IRC). The deferral limitation is $16,500 for 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan provides for Company matching contributions to all eligible participants. For 2010, matching contributions were 100% of each participant's contribution up to a maximum of 2% of the participant's salary.

The Company may also elect to make a discretionary contribution of an equal dollar amount to all eligible participants, in addition to the matching contribution. For the year ended December 31, 2010, the Company did not make a non-elective, discretionary contribution to the Plan.

The Economic Growth and Tax Relief Reconciliation Act of 2001 includes a "catch up" provision for employee benefit plans. This provision became effective as of January 1, 2002, and allows employees who are 50 years old or older and who contributed the maximum amount allowed by law to their account to contribute an additional $5,500 for 2010.

NOTE 1. DESCRIPTION OF THE PLAN – CONTINUED

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contribution and (b) plan earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully vested immediately in their contributions as well as the employer's contribution portion, plus actual earnings thereon.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25 percent, which is commensurate with local prevailing rates as determined by the Plan administrator.

Participant loans must be payable within a period not exceeding five years from the date the participant received the loan, unless the loan is for the purchase of the participant's principal residence, in which case the loan must be payable within a reasonable time commensurate with the repayment period permitted by commercial lenders for similar loans. Loan repayments must be made through payroll withholding, except to the extent the Plan administrator determines payroll withholding is not practical, given the level of the participant's wages, the frequency with which the participant is paid, or other circumstances.

Payment of Benefits

On termination of services due to death, disability, retirement, or any other reason, a participant may elect to either receive a lump-sum distribution of the entire value of his or her vested account balance, or a single sum distribution of a portion of his or her vested account balance. Payment of benefits may be made in installments to satisfy required minimum distribution amounts.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the net assets available for benefits and charges therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

All investments in the Plan are participant directed. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded when earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All reasonable expenses related to the Plan administration will be paid from Plan assets, except to the extent the expenses are paid by the Company.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Excess Contributions Payable to Participants

To satisfy the relevant non-discrimination provisions of the Plan, the Plan recorded a liability of $0 and $38,153 as of December 31, 2010 and 2009, respectively, with a corresponding reduction to contributions from participants. The Plan refunded the above amounts to Plan participants within 2 ½ months of year end.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements and accompanying supplemental schedule.

NOTE 3. INVESTMENTS – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN (UNAUDITED)

NOTE 4. FAIR VALUE MEASUREMENTS

FASB Accounting Standard Codification (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 inputs: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The Plan had no investments in this category at December 31, 2010 and 2009.

Level 2 inputs: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. The Plan had pooled separate accounts in this category at December 31, 2010 and 2009.

Level 3 inputs: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: These investments are valued using the net asset value (NAV) of units held by the Plan at year end as provided by Hartford. The NAV is based on the fair value of the underlying assets owned by the fund.

NOTE 4. FAIR VALUE MEASUREMENTS – CONTINUED

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total

NOTE 5. INCOME TAX STATUS

The Employer has adopted and followed the terms of a Prototype Standardized Profit Sharing Plan with Cash or Deferred Arrangement (CODA) as submitted to the Internal Revenue Service (IRS). The Employer has relied on the favorable opinion letter issued by the IRS on March 31, 2008 regarding the acceptability of the prototype plan under section 401 of the IRC as not subject to tax under present income tax laws. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more than likely than not would not be sustained upon examination by the IRS. The Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan management believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 7. PARTY-IN-INTEREST

Certain Plan investments are units of pooled separate accounts managed by Hartford. Hartford is the custodian of the Plan and performs record-keeping services for the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Under accounting principles generally accepted in the United States of America, excess contributions refunded within 2 ½ months subsequent to the Plan's year-end are required to be netted against contributions and recorded as a liability on the financial statements of the Plan in the year contributions were originally made. However, Form 5500 requires that all excess contribution refunds be recorded as a distribution in the year they are paid. Excess contribution refunds pertaining to Plan years 2010 and 2009 totaled $0 and $38,153, respectively.

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
Net assets available for benefits per financial statements	$ 1,986,340	$ 1,151,484
Add: excess contributions refundable to participants	-	38,153
Net assets available for benefits per Form 5500	$ 1,986,340	$ 1,189,637

The following is a reconciliation of benefits paid to participants and corrective distribution per the financial statements for the year ended December 31, 2010 to Form 5500:

Benefits paid to participants per financial statements	$ 18,891
Add: prior year excess contributions payable to participants	38,153
Benefits paid and corrective distributions per Form 5500	$ 57,044

NOTE 9. SUBSEQUENT EVENTS

Effective January 1, 2011, the Company amended the Plan to qualify as a safe harbor plan. The safe harbor regulations require the Company to meet certain matching percentages, and provide for immediate vesting of all Company matching contributions as they are made to participant accounts.

The Plan has evaluated subsequent events through October 13, 2011, which is the date the financial statements were available to be issued, and determined no events other than disclosed above have occurred subsequent to December 31, 2010 that warrant additional disclosure.
