Independent Auditors' Report

The Weston Foods US, Inc. Pension and
Benefits Committee

We were engaged to audit the accompanying statements of net assets available for benefits of the Pension Plan for Hourly-Paid Employees of Interbake Foods LLC, Richmond Division (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 6 and 8, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee, as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of Plan

The following brief description of the Pension Plan for Hourly-Paid Employees of Interbake Foods LLC, Richmond Division (the Plan) is provided for general informational purposes only. Participants should refer to the plan document, including plan amendments, for more complete information.

General

The Plan is administered and sponsored by Interbake Foods LLC (the Company). The Plan is a noncontributory defined benefit pension plan covering hourly-paid employees and any other employees eligible for membership in the Paper, Allied-Industrial, Chemical & Energy Workers (PACE), Local 1553, formerly known as United Paperworkers International Union, Local No. 1553.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan participates in the Weston Foods US, Inc. Master Trust Fund (the Master Trust).

The Plan is funded entirely from contributions by the Company.

The Plan has been periodically amended to increase the fixed monthly benefit rate. During 2010 and 2009, the monthly benefit rate in effect was $30.

During 2005, the Company approved a plan to restructure its biscuit operations and close the Richmond biscuit facility effective March 31, 2006. As a result, there are no longer active employees at the Richmond facility or new participants in the Plan as of March 31, 2006. The Plan was frozen as of March 31, 2006, and all participants became fully vested as of that date.

Plan Administration

The administration of the Plan is overseen by Weston Foods US, Inc. Pension and Benefits Committee (the Committee), which is appointed by the George Weston Limited (parent company) Board of Directors.

- *Trustee*: The investment assets of the Plan are maintained by The Bank of New York Mellon/BNY Mellon, N.A. (the Trustee). Among other duties, the Trustee is to safekeep and account for the trust funds and make payments to eligible participants in accordance with the Plan.
- *Expenses:* Administrative expenses, such as actuarial, trust and other administrative expenses are paid from the assets of the Plan. All other expenses are paid by the Company.

(1) Description of Plan, Continued

Eligibility for Participation

Employees were eligible for participation in the Plan on the first quarterly plan entry date (January 1, April 1, July 1, and October 1) subsequent to the date of employment. The Plan was frozen effective March 31, 2006 and no longer accepts new participants.

Pension Benefits

Employees with at least five years of service are eligible for a monthly pension at age 62 based on their years of credited service multiplied by the fixed monthly benefit rate in effect on the date of retirement. The Plan permits early retirement after age 55 with 30 years of service.

Terminated employees with five or more years of service are entitled to annual retirement benefits beginning at normal retirement age (62).

Employees with 15 years or more of service, who become disabled, are entitled to normal retirement benefits prior to normal retirement age.

Vesting

One year of vesting service was credited for each plan year a participant completed at least 1,000 hours of service. All participants were fully vested effective March 31, 2006 when the Plan was frozen.

(2) Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of the accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition

The Plan's investments are in funds administered by the Trustee.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 7 and 8 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses that are permitted as per the plan document are paid from the Master Trust assets.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2011, the date the financial statements were available to be issued.

(3) Funding Policy

The Company's funding policy is to make annual contributions to the Plan in amounts that are estimated to ensure all employees' benefits will be fully provided for by the time they retire. The Company made contributions of $260,818 and $1,579,182 for 2010 and 2009, respectively. The Company's contributions for 2010 and 2009 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(4) Plan Termination

The Company anticipates and believes that the Plan will continue without interruption. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally, to provide the following benefits in the order indicated:

a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period, would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect any time during the five years preceding plan termination.

b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).

c) All other vested benefits (i.e., vested benefits not insured by the PBGC).

d) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2011, that ceiling will be $4,500 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) present employees or their beneficiaries; and (c) beneficiaries of employees who have died.

The actuarial present value of accumulated plan benefits is determined by Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The present value of accumulated plan benefits was computed by the Towers Watson as of January 1, 2010 and 2009. The significant assumptions underlying the actuarial computations for 2010 and 2009 are as follows:

Interest rate	6.5% and 7.75%, respectively
Average retirement age	62
Mortality	January 1, 2010: 1994 Uninsured Pensioner Mortality Table (UP94) Projected to 2020 January 1, 2009: 1994 Uninsured Pensioner Mortality Table (UP94) Projected to 2015

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits is as follows at January 1:

	2010	2009
Vested benefits:		
Participants currently receiving payments	$ 14,609,757	$ 14,216,283
Other participants	7,042,473	5,629,502
Actuarial present value of accumulated plan benefits at end of year	$ 21,652,230	$ 19,845,785

Continued...

(5) Actuarial Present Value of Accumulated Plan Benefits, Continued

The changes in the actuarial present value of accumulated plan benefits were as follows for the years ended January 1:

	2010	2009
Actuarial present value of accumulated plan benefits at beginning of year	$ 19,845,785	$ 19,771,960
Increase (decrease) attributed to:		
Additional benefits accumulated (including the effect of noninvestment experience)	(916,598)	(405,469)
Interest due to decrease in discount period	1,481,871	1,522,416
Benefits paid	(1,477,311)	(1,512,619)
Assumption changes	2,718,483	469,497
Net increase	1,806,445	73,825
Actuarial present value of accumulated plan benefits at end of year	$ 21,652,230	$ 19,845,785

(6) Investments (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Plan, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

The fair value of investments of the Plan's net assets is as follows at December 31:

	2010	2009
Plan interest in the Master Trust	$ 20,419,831 *	$ 18,332,324 *

*Represents 5% or more of the Plan's net assets at year end.

The Plan's share of investment income was as follows for the years ended December 31:

	2010	2009
Plan interest in the Master Trust income	$ 2,034,973	$ 1,798,225

(7) Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Plan's interest in the Master Trust: See Note 8 for valuation methodology.

Continued...

(7) Fair Value Measurements, Continued

The methods described in Note 8 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(8) Interest in the Master Trust (Unaudited)

Prior to January 21, 2009, the Plan's investments were in the Weston Foods, Inc. Master Trust which was established for the investment of assets of the Plan and several other Weston Foods, Inc. sponsored retirement plans.

Effective January 21, 2009, the Master Trust was established, subsequent to the sale of the fresh bread and baked goods business in the United States, by Dunedin Holdings S.à r.l., a subsidiary of the parent of the Company (sale of U.S. fresh bakery business). The Plan's assets and liabilities were transferred from the Weston Foods, Inc. Master Trust to the Master Trust as of January 22, 2009. Each retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. Subsequent to the sale of U.S. fresh bakery business, the administration of the Plan is overseen by Weston Foods US, Inc. Pension and Benefits Committee, which is appointed by the parent company Board of Directors.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. At December 31, 2010 and 2009, the Plan's interest in the net assets of the Master Trust was approximately 44%. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested in each plan.

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee of the Master Trust, as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

(8) Interest in the Master Trust (Unaudited), Continued

The Trustee has certified to the accuracy and completeness of the investment in the net assets of the Master Trust as of December 31, 2010 and 2009, and the investment income (loss) for the years ended December 31, 2010 and 2009, as summarized below.

The following table presents the assets, including investments of the Master Trust as of December 31:

	2010	2009

(8) Interest in the Master Trust (Unaudited), Continued

Following is a description of the valuation methodologies used for assets measured at fair value held by the Master Trust.

U.S. government securities: Valued at the closing price reported in the active market in which the individual securities are traded.

Common stock: Valued at the closing price reported in the active market in which the individual securities are traded.

Common collective trust funds: Valued by the fund sponsor based on quoted market prices of the underlying investments.

Foreign bond: Valued based on yields currently available on comparable securities of issuers with similar credit ratings.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2010 and 2009:

(8) Interest in the Master Trust (Unaudited), Continued

There were no significant transfers among investment levels during the years ended December 31, 2010 and 2009.

(9) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 28, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(10) Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(11) Related Party Transactions

During 2010 and 2009, administrative expenses of $102,038 and $94,801, respectively, include fees paid to the Trustee and other service providers, as well as the PBGC expenses. The Trustee is a party-in-interest to the Plan.

The Plan does not consider employer contributions to the Plan or benefits paid by the Plan for participants as party-in-interest transactions.

Pension Plan For Hourly-Paid Employees of Interbake Foods LLC – Richmond Division

EIN 22-1837640 / PN 004

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Form of payment	Life annuity
Percent married	100%
Spouse age	Wife three years younger than husband
Covered pay	N/A
Administrative expense	$49,718 (0.25% of Market Value of Assets at January 1, 2010)
Special at-risk assumptions	For at-risk calculations, all non-retired participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year. In addition, these participants are assumed to elect a life annuity.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Average of the market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, expenses and expected earnings. The average asset value must be within 10% of fair value, including contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Weston Foods US, LLC and, based on that review, is not aware of any significant benefits required to be valued that were not.

Pension Plan For Hourly-Paid Employees of Interbake Foods LLC – Richmond Division

EIN 22-1837640 / PN 004
Schedule SB, Line 24 – Change in Actuarial Assumptions

The expense assumption was updated based on recent experience. This assumption change does not impact the 1/1/2010 funded status and 1/1/2010 target liability. Therefore, no approval is required by IRS for the change.

The funding interest rate was changed from the November 2008 full corporate bond yield curve based on average rates in October 2008, to the segment interest rates as of January 2010, with no transition, based on 24 month average of corporate yields through December 2009.

In accordance with 1.430(d)-1(g)(3)(ii)(A), automatic approval has been granted for the first plan year for which all the provisions of 1.430(d)-1, 1.430(f)-1, 1.430(g)-1, 1.430(i)-1, and 1.436-1 are reflected of any changes to funding methods permitted by the Pension Protection Act. 2010 is the first plan year for which all of these provisions were reflected, and thus all funding method changes are automatically approved.

Schedule SB, Part V – Plan Provisions

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing 30 years of vesting service.
Deferred vested	Termination for reasons other than death or retirement after completing five years of vesting service.
Disability retirement	Cessation of employment due to disability, after completing 15 years of vesting service and before reaching age 62.
Preretirement spouse benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Monthly Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit determined as of NRD.
Early retirement	Accrued benefit determined as of early retirement date.
Termination with deferred vested benefit	Accrued benefit determined as of the date of the participant's termination of employment and payable at normal retirement date.
Termination with disability benefit	Accrued normal retirement benefit determined as of the date of disability.
Death with preretirement spouse benefits	50% of the monthly accrued benefit as of the date of death reduced both for the 50% joint & survivor payment. The benefit commences at the participant's earliest retirement date.

Other Plan Provisions

Forms of payment	Monthly accrued benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Preretirement death benefits are payable only as described above.
Maximum on benefits	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Plan Provisions Since Prior Year

There have been no changes in benefits valued since the prior year.
