INDEPENDENT AUDITORS' REPORT

The Board of Trustees
CoorsTek, Inc. Savings and Investment Plan
Golden, Colorado

We were engaged to audit the financial statements of CoorsTek, Inc. Savings and Investment Plan as of December 31, 2010 and 2009 and for the years then ended and the supplemental schedule as of December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CoorsTek, Inc. Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2010 and 2009

1. General Description of Plan and Trust and Summary of Significant Accounting Policies

The following brief description of the CoorsTek, Inc. Savings and Investment Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan is a defined contribution plan covering the employees described below. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The CoorsTek, Inc. Savings and Investment Plan, formerly the ACX Technologies, Inc. Savings and Investment Plan B, (the Plan) and the related Trust Agreement (the Trust) were established effective December 28, 1992. The Plan's purpose is to encourage employees of CoorsTek, Inc. and subsidiaries (the Company or CoorsTek) to accumulate savings systematically to provide an additional source of income upon retirement. Prior to December 28, 1992, employees of the Company were eligible to participate in the Coors Savings and Investment Plan. On December 28, 1992, these participants' accounts in the Coors Savings and Investment Plan were transferred into the CoorsTek, Inc. Savings and Investment Plan concurrent with the spin-off of the Company from Adolph Coors Company.

Assets of the Plan were held in a master trust with assets of the Graphic Packaging Savings and Investment Plan, formerly the ACX Technologies Savings and Investment Plan A (the GPC Plan) until the spin-off of CoorsTek from Graphic Packaging International Corporation, formerly ACX Technologies, Inc., on December 31, 1999. Effective January 1, 2000, the Plan assets were transferred from the master trust into a separate trust sponsored by CoorsTek.

On March 18, 2003, CoorsTek merged with Keystone Acquisition Corp. and became a wholly owned subsidiary of Keystone Holdings LLC. As a result, CoorsTek is no longer a public company and participants of the CoorsTek, Inc. Savings and Investment Plan can no longer invest in the Unitized Stock Fund that consists of CoorsTek common stock. Participants holding shares in the Unitized Stock Fund were required to invest the \$26 received per share of CoorsTek common stock into remaining investment options within the CoorsTek, Inc. Savings and Investment Plan.

Eligibility

All full-time employees of the Company and certain subsidiaries, who are at least age 18 and expected to complete 1,000 hours of service or more per year, are eligible to participate in the Plan as of the first day of the month coinciding with or following 30 days of employment. At December 31, 2010 and 2009, employees who are residents of a foreign country were not eligible to participate in the Plan.

Contributions

Participants are allowed to make contributions based on any whole percentage of compensation, as defined in the Plan, received in a pay period up to the maximum percentage allowed by law. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into investment options offered by the Plan. Participants may change their investment options at any time. The Plan currently offers 28 investment options for participants.

Any participant contributions deposited prior to December 1, 1986, as part of the Coors Savings and Investment Plan have been taxed previously and are not taxable when paid to the participant. Participant contributions deposited subsequent to November 30, 1986, are taxable when paid to participants.

Beginning January 1, 2002 and through April 1, 2009, CoorsTek's contribution match to the Plan was 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation. Effective April 1, 2009, CoorsTek's safe-harbor matching contribution (100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation) was eliminated. The Plan could, however, make a discretionary matching contribution. No discretionary matching contributions for the period from April 1, 2009 to December 31, 2009 were made. Prior to January 1, 2002, CoorsTek matched 50% of each participant's basic contribution up to a maximum of 1% of the participant's eligible contribution.

CoorsTek, Inc. Savings and Investment Plan
Notes to Financial Statements
Years Ended December 31, 2010 and 2009

Effective January 1, 2010, CoorsTek's safe harbor match was reinstated and increased to 100% of the first 6% of eligible compensation. Additionally, effective January 1, 2010, the Plan was amended to allow for a discretionary match, therefore, a discretionary match of \$250 for each active, eligible participant as of June 30, 2010 was made to the Plan.

Effective January 1, 1987, employer contributions to the Coors Payroll Stock Ownership Plan (PAYSOP) were discontinued. However, PAYSOP account values generated by prior employer contributions remain in the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution, and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

All contributions, earnings on investments and related expenses are recorded in separate accounts maintained for each participant. Participants may change their investment options at any time.

Vesting

Participants are immediately vested in their entire account balance, including their voluntary contributions, the employer's contributions, and all investment earnings on those funds. Therefore, there are no forfeitures in the Plan.

Distributions

Participants may withdraw all or a portion of contributions subject to certain conditions as specified in the Plan. A participant or beneficiary entitled to receive benefits under the Plan may generally elect the method of distribution. Benefits are recorded when paid.

Notes Receivable from Participants

A participant may borrow up to 50% of the total value of his or her Plan accounts, excluding the PAYSOP account. The minimum loan amount is \$1,000 and the maximum loan amount is \$50,000 minus the highest outstanding loan balance in the preceding 12 months. These loans are available to active employees who are participants. Only one loan may be outstanding at any time. The loans are secured by the participant's account balance. Loan terms are available for 12, 24, 36, 48 or 60 months. Loans are normally repaid by payroll deductions and these payments are credited back to the participants' plan accounts and invested according to the most current investment election. The interest rate is set at 1% above the Wall Street Journal reported prime rate on the first business day of each month and remains fixed throughout the term of the loan. At December 31, 2010 and 2009, rates ranged from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the Plan administrator. A loan origination fee is charged to participants upon initiation of a loan. Loans are subject to certain payment provisions upon termination of employment, default, lay-off, unpaid leave of absence and disability. As of December 31, 2010 and 2009, no allowance for doubtful accounts was considered necessary as all participant loans were fully secured by participant balances.

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the plan document

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Plan Expenses

The employer pays certain administration and record keeping expenses incurred to manage and audit the Plan's assets. The Plan pays all other expenses. Expenses paid by the employer are not required to be reimbursed.

Years Ended December 31, 2010 and 2009

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates. It is reasonably possible that the Plan's estimates may change in the near term.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Valuation of Investments and Income Recognition

Investments in common stock and other securities are stated at the quoted market price. Investments in common/collective trusts contain investment contract issued and guaranteed by insurance companies, which are fully benefit responsive and are stated at fair value. Investments in all other funds are stated at the funds' net asset value, which is determined by the Trustee based on market values. Participant loans are stated at the outstanding principal value, which approximates fair value.

In accordance with generally accepted accounting principles, investment contracts held by a defined contribution pension plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets of a plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

The caption "Fixed income securities portfolio" on the Statement of Net Assets Available for Benefits includes cash, short-term investment funds, and a managed income pool, which is a commingled portfolio. The Plan holds units of participation in this pool. Investments in all fixed income securities are stated at net asset value, which is determined by the trustee of the portfolio based on market values of the assets held. Interest income and dividends are recorded when received.

Pension Protection Act of 2006

The Plan has implemented the provisions of the Pension Protection Act of 2006 and a new determination letter will be applied for in accordance with applicable regulations.

Income Taxes

ASC 740, *Accounting for Uncertainty in Income Taxes* prescribes a minimum recognition threshold and measurement methodology that a tax position taken or expected to be taken in a tax return required to meet before being recognized in the financial statements. It also provides guidance for de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition.

The Plan is under regular audit by the tax authorities. The plan believes that it has appropriate support for the positions taken on its information returns and that its annual tax provision includes amounts sufficient to pay any assessments. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by the taxing authorities may differ materially from the amounts accrued for each year.

The Plan files information returns in the United States federal jurisdiction. The Plan is no longer subject to examinations for United States federal information returns before 2007. Management believes the qualified status of the plan would be upheld upon examination.

The Plan classifies any interest on underpayments of any tax and classifies penalties in connection with underpayments of tax as "Other Expense."

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2011, the date the financial statements were available to be issued.

2. Investments

The Plan's investments are described below:

Fidelity BrokerageLink – This investment option is a self-directed brokerage account that allows participants to manage their retirement savings more actively.

Managed Income Portfolio and Managed Income Portfolio II-Class I – This fund seeks to preserve the principal investment while earning a level interest income that is consistent with principal preservation. The portfolios invest in investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds to provide daily liquidity.

Cohen & Steers Realty Shares, Inc. – This fund seeks maximum total return through a combination of capital appreciation and current income. Assets are invested primarily in stocks of real estate companies, including real estate investment trusts.

PIMCO Total Return Institutional Class Fund – This fund seeks to provide maximum total return. The fund invests in all types of bonds, including U.S. government, corporate, mortgage and foreign.

Morgan Stanley Institutional Fund, Inc. – Small Company Growth Portfolio - Class P – This fund seeks long-term capital appreciation. The fund primarily invests in growth-oriented equity securities of small companies.

Royce Pennsylvania Mutual Fund Investment Class – This fund seeks to provide long term growth of capital. The fund normally invests at least 65% of its net assets in the equity securities of such small- and micro-cap companies with market capitalizations up to \$2.5 billion.

T. Rowe Price Mid- Cap Growth Fund – This fund seeks to provide long-term capital appreciation and primarily invests in mid-cap stocks offering the potential for above-average earnings growth.

Fidelity Inflation- Protected Bond Fund – This fund seeks a total return that exceeds the rate of inflation over the long term and primarily invests at least 80% of its assets in inflation-protected debt securities of all types and maturities, primarily U.S. dollar-denominated issues with a current focus on U.S. Treasury inflation-protected securities.

Fidelity Magellan Fund – This fund seeks to provide capital appreciation and invests primarily in common stocks, both foreign and domestic.

Fidelity Equity-Income Fund – This fund seeks to provide reasonable income and in pursuing this objective, will also consider the potential for capital appreciation. The fund seeks to provide a yield that exceeds the composite yield of the S&P 500 Index. The fund invests at least 80% of its assets in income-producing equity securities.

Fidelity Disciplined Equity Fund – This fund seeks to provide capital growth by investing at least 80% of its assets in common stocks.

Fidelity Low-Priced Stock Fund – This fund seeks to provide capital appreciation and primarily invests at least 80% of its assets in low-priced stocks (priced at or below \$35 per share).

Fidelity Diversified International Fund – This fund seeks to provide capital growth through investing primarily in common stocks of foreign companies.

Fidelity Freedom Funds (Fidelity Freedom Income Fund, Fidelity Freedom 2000, 2005, 2010, 2015, 2020, 2025, 2030, 2035, 2040, 2045, 2050 Funds) – Fidelity Freedom Funds are invested in other Fidelity mutual funds. The Freedom Income Fund seeks high current income and, secondarily, capital appreciation. Additionally, it seeks to maintain a stable asset allocation from year to year. The Fidelity Freedom funds with target retirement dates seek to provide high total returns until the target retirement date. Thereafter, each fund's goal will be to seek high current income, and, as a secondary objective, capital appreciation.

Fidelity Retirement Government Money Market Portfolio – This fund seeks to provide as high a level of current income as is consistent with the preservation of principal and liquidity. The fund primarily invests at least 80% of its assets in U.S. Government securities and repurchase agreements for those securities. The fund may also enter into reverse repurchase agreements.

Spartan 500 Index Fund – This fund seeks to provide investment results that correspond to the total return (i.e. the combination of capital changes and income) performance of common stocks publicly traded in the United States. It normally invests at least 80% of its assets in common stocks included in the S&P 500 Index.

The Managed Income Portfolio is a common/collective trust and stable value fund which invests, in part, in fully benefit responsive contracts. Contract value is the relevant measurement attribute for fully benefit responsive contracts as outlined in Note 1. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the group trust or otherwise. The fair value of the investment contract at December 31, 2010 was more than the contract value by \$2,405. The fair value of the investment contract at December 31, 2009 was less than the contract value by \$7,537. The crediting interest rate is based on the earnings of the underlying assets in the entire short-term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Certain events limit the ability of the Plan to transact at contract value with the trust. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

The group trust agreement does not permit the trust company to terminate the agreement prior to the scheduled maturity date.

Fidelity Diversified Intl	5,807,565		5,682,407

3. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The credit and liquidity crisis in the United States and throughout the global financial systems has resulted in substantial volatility in financial markets and the banking system. These and other economic events may have caused significant volatility to the Plan's investment portfolio subsequent to year-end.

4. Fiduciary Responsibility, Investment of Funds and Related Party Transactions

The CoorsTek Plan Committee (the Committee), consisting of employees appointed by the Board of Directors of CoorsTek, acted as fiduciary for the Plan in 2010 and 2009. In accordance with its powers as fiduciary, the Committee has entered into trust and asset management agreements with Fidelity Management Trust Company (Fidelity). Based upon participant elections, funds are invested in the various investment options. At December 31, 2010, there were 2,260 participants and 2,544 individual account balances.

Fidelity is responsible for preparing, maintaining and allocating activity to individual participants' accounting records.

Certain plan investments are shares of mutual funds managed by Fidelity. Fidelity Management Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan to Fidelity amounted to \$33,456 and \$22,344 for the years ended December 31, 2010 and 2009, respectively. The fees were direct compensation for recordkeeping services. Any other expenses charged by Fidelity were paid by the Plan sponsor.

5. Income Tax Status

The Plan obtained its latest determination letter on April 16, 2003, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Realized Gains on Investment Transactions - Unaudited

The cost of investments sold or transferred is determined on a participant level by the average cost method.

The Department of Labor Form 5500 requires gains and losses to be determined using the current value method - that is, the current value of the assets as of the beginning of the Plan year, as carried forward from the end of the prior Plan year - or historical cost if the investment was acquired since the beginning of the

CoorsTek, Inc. Savings and Investment Plan

Notes to Financial Statements

Years Ended December 31, 2010 and 2009

Plan year. Realized and unrealized investment gains and losses disclosed in the Statement of Changes in Net Assets Available for Benefits have been calculated based upon historical cost. Based upon information certified by the Trustee, the 2010 Form 5500 net realized gain was \$63,251 and the net unrealized gain was \$86,087. For 2009, the Form 5500 net realized gain was \$55,627 and the net unrealized gain was \$125,398.

7. Reliance Upon Certified Information - Unaudited

The Plan Administrator has elected the limited scope method of compliance in accordance with Section 2520.103-8 of the Department of Labor Rules and Regulations. All investment information included in the following: (a) the Statements of Net Assets Available for Benefits, (b) the Statement of Changes in Net Assets Available for Benefits [including net appreciation in fair value of investments and dividend and interest income], (c) Note 2, and (d) the Schedule of Assets Held for Investment Purposes at End of Year have been derived from information certified by the Trustee and is therefore unaudited.

8. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to observable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Common/Collective Trusts: Valued at the net asset value ("NAV") of shares held by the trust at year end.

The methods described above may produce fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.
