To the Trustee
US Labs & Radiology 401(k) Plan
Brockton, Massachusetts

We were engaged to audit the accompanying statements of net assets available for benefits of US Labs & Radiology 401(k) Plan as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified or provided by MG Trust Company, LLC, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information provided to the Plan Administrator by the trustee as of and for the year ended December 31, 2010, and as of December 31, 2009.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 3, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This update was retrospectively applied to December 31, 2009.

US Labs & Radiology 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the US Labs & Radiology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of US Labs & Radiology, Inc. (the "Company"). An employee must be 21 years of age and have three months of service to be eligible to become a participant in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 75% of their annual pretax compensation, as defined by the Plan, subject to statutory limits. Participant-elected salary deferrals are limited to a maximum allowable under the Internal Revenue Code. Participants age 50 or older may elect to defer additional amounts ("catch-up contributions") to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. The Company may provide discretionary matching and/or profit sharing contributions determined at year-end by management. Discretionary contributions shall only be made on behalf of participants who are employed on the last day of the plan year; however, the year of service and the last day rule shall not apply in the case of retirement, disability, or death. The Company may elect to forego a contribution in any year. The Company did not make an annual discretionary contribution for 2010.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's discretionary matching contributions, if any, and the Plan's earnings (losses). Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their salary deferrals and rollover contributions plus actual earnings (losses) thereon. Vesting in the Company contribution portion of their accounts plus actual earnings (losses) thereon is based on years of continuous service. A participant is 100% vested in the Company contribution portion after completing three years of credited service.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. As of December 31, 2010, the loans bear interest at annual rates that range from 4.25% to 7.00%. Principal and interest are paid ratably through bi-weekly payroll deductions. Upon termination of employment, the outstanding principal and interest balance is immediately payable.

Payment of Benefits: Upon termination of service, due to death, disability or retirement, as defined, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

Forfeitures: Forfeited balances of terminated participants' nonvested accounts are used to reduce Company contributions. To the extent the Company does not have contributions to the Plan, forfeitures can be used to reduce the Plan's administrative expenses. The amount of nonvested forfeited amounts shall be restored to a terminating participant's account upon resuming employment with the Company, as defined by the Plan. At December 31, 2010 and 2009, there were no forfeited nonvested accounts and no forfeitures were used during 2010.

US Labs & Radiology 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of Presentation: The accompanying financial statements have been prepared on the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for the benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties: The Plan's assets are exposed to various risks such as credit, interest rate, and market risks.

Credit risk arises from the potential for an issuer or other counterparty to default on its contractual obligations to the Plan. Investments are recorded at fair value. This represents the maximum credit risk exposure of the Plan.

Interest rate risk refers to the impact of interest rate changes on the Plan's financial position. Interest rate changes directly impact the fair value of fixed income securities held in the Plan. Interest rate changes will also have an indirect impact on the other investments of the Plan.

Market risk is the risk that the market value of an investment will fluctuate as a result of changes in market price.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such change would materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Administrative Expenses: Certain administrative expenses of the Plan are paid by the Company.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

Note 3. Recent Accounting Pronouncements

Fair Value Measurements and Disclosures: In January 2010, the Financial Accounting Standards Board ("FASB") issued an amendment to fair value measurements and disclosures on improving disclosures about fair value measurements. This amendment requires new disclosures regarding significant transfers in and out of Level 1 and 2 fair value measurements and the reasons for the transfers. This amendment also requires that a reporting entity present separately information about purchases, sales, issuances and settlements, on a gross basis rather than a net basis for activity in Level 3 fair value measurements using significant unobservable inputs. This amendment also clarifies existing disclosures on the level of disaggregation, in that the reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities, and that a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 and 3. The new disclosures and clarifications of existing disclosures for the guidance are effective reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. The adoption of the applicable amendments did not have a material effect on the Plan's financial statements.

In May 2011, the FASB issued an amendment to converge the fair value measurement guidance in United States generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRSs"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in the accounting standard related to fair value. In addition, the amendment requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of the amendment will have on the Plan's financial statements.

Notes Receivable from Participants: In September 2010, the FASB issued an amendment which provides guidance on how loans to participants by defined contribution retirement plans should be classified and measured. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$45,871 and \$50,493 from investments to notes receivable as of December 31, 2010 and 2009, respectively.

Note 4. Information Certified and Provided by MG Trust Company, LLC

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by MG Trust Company, LLC, the Plan trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following investments is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2010	2009
Mutual funds	\$ 683,379	\$ 600,195
Cash	200	200
Common collective trust (**)	158,499	127,756
	<u>\$ 842,078</u>	<u>\$ 728,151</u>

** Generally investments are certified at fair value; however the value certified by MG Trust Company, LLC at December 31, 2010 and 2009 is contract value which is different from fair value reported in Notes 6 and 7 in accordance with GAAP.

MG Trust Company, LLC also certified to the completeness and accuracy of \$72,479 of net appreciation in fair value of investments and \$12,781 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2010.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

Mutual funds	\$ 69,313
Common collective trust	<u>3,166</u>
	<u>\$ 72,479</u>

Note 5. Investments

The following table presents investments represent 5% or more of the Plan's net assets as of December 31:

	2010	2009
Gartmore Morely Stable Value Series I Fund**	\$ 158,499	\$ 127,756
T. Rowe Price Emerging Markets Stock Fund	67,456	*

Note 6. Fair Value Measurements

Accounting guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in valuation methodologies at December 31, 2010, compared to December 31, 2009.

Mutual funds: Valued at fair value based on the quoted market price of the fund.

Common collective trust: Valued at the net asset value ("NAV") of shares held by the plan at year end. The NAV is derived from the Fund's audited financial statements and not published prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (Continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Description	Assets at Fair Value as of December 31, 2010			
	Total	Level 1	Level 2	Level 3
Cash	\$ 200	\$ 200	\$ -	\$ -
Mutual funds				
Fixed income	200,674	200,674	-	-
Large U.S. equity	225,408	225,408	-	-
Small/mid-size U.S. equity	97,119	97,119	-	-
International equity	160,178	160,178	-	-
Common collective trust	161,575	-	161,575	-
Total	\$ 845,154	\$ 683,579	\$ 161,575	\$ -

Description	Assets at Fair Value as of December 31, 2009			
	Total	Level 1	Level 2	Level 3
Cash	\$ 200	\$ 200	\$ -	\$ -
Mutual funds				
Fixed income	138,538	138,538	-	-
Large U.S. equity	230,104	230,104	-	-
Small/mid-size U.S. equity	97,649	97,649	-	-
International equity	133,904	133,904	-	-
Common collective trust	128,356	-	128,356	-
Total	\$ 728,751	\$ 600,395	\$ 128,356	\$ -

The fair value of the common collective trust is estimated using the net asset value per share of the underlying investments. The investment objective is to protect principal while providing a higher rate or return than shorter term investments, such as money market funds. The fund invests at least 70% of its net assets in investment contracts. Its strategy seeks to invest primarily in investment grade debt. These strategies may also include investing up to 30% of its net assets in cash equivalents, including U.S. Treasuries and other debt guaranteed by the U.S. Government. As of December 31, 2010, the administrator of the common collective trust believes the occurrence of an event that would limit the ability of the common collective trust to transact at contract value with its participants is not probable. Units are issued and redeemed daily based on the net asset value of the common collective trust which is determined daily. Unit holders have agreed to the payment of redemption over a period of up to twelve months under certain circumstances. There were no unfunded commitments as of December 31, 2010.

Note 7. Party-in-Interest Transactions

The Plan issues loans to participants which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.

Note 8. Tax Status

Effective January 1, 2009, the Plan adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by CCH Incorporated. The Volume Submitter Plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The Volume Submitter Plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Note 9. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	\$ 893,709	\$ 760,604
Differences in:		
Investments - participant loans	45,871	50,493
Receivables - notes from participants	(45,871)	(50,493)
Net assets available for benefits per the Form 5500	<u>\$ 893,709</u>	<u>\$ 760,604</u>
