Horizon Lines Savings & Investment Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Horizon Lines Savings & Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Horizon Lines LLC, Horizon Lines of Alaska, LLC, Horizon Services Group, LLC, Sea-Logix, LLC, effective June 25, 2007, Hawaii Stevedores, Inc. and effective April 1, 2009, Aero Logistics, (the "Companies"), who are not paid on an hourly rate or piece work basis, who are not paid on a non-US payroll and who are not represented for collective bargaining purposes by any collective bargaining agreement between the employer and employee representatives. In accordance with IRC section 414(b), the Companies are a controlled group of corporations whereby all employees of each company shall be treated as employed by a single employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Participants may contribute up to 50% of pretax annual compensation, as defined in the Plan and subject to Internal Revenue Code limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Companies makes matching contributions of 50% of the first 6% of a participant's compensation. Additional amounts may be contributed at the option of the Companies' Board of Directors. Contributions are subject to certain limitations. There were no additional contributions in 2010.

Participant accounts: Each participant's account is credited with the participant's contributions and the Companies' matching contribution and allocations of (a) the Companies discretionary contribution and (b) Plan earnings, and charged with an allocation of administrative fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options: Upon enrollment in the Plan, a participant may direct contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment options daily.

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive a single lump sum payment equal to the value of the participant's interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the interest in his or her account in the above form.

Vesting: Participants are immediately vested in their contributions, the Companies' matching and discretionary contributions and actual earnings thereon.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from up to 5 years or up to 10 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's vested account and bear interest at a rate determined by the Plan administrator. These rates range from 4.25% - 9.5% on loans outstanding at December 31, 2010 which mature through 2026.

Horizon Lines Savings & Investment Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Plan amendments: The Plan was amended effective January 1, 2010 to comply with IRS Notice 2010-15 related to the Heroes Earnings Assistance and Relief Tax Act and to comply with IRS Notice 2009-31 related to the Worker, Retiree and Employee Recovery Act. The plan was also amended effective March 1, 2010 to allow terminated employees receiving severance pay to continue to make payments on outstanding loans until the time that the severance payments end, at which time the full outstanding balance of the loan will become due immediately.

Note 2. Summary of Significant Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan has funds invested in the Fidelity Managed Income Portfolio, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant accounts and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: As provided by the Plan agreement, administrative expenses related to Plan investments and recordkeeping are paid by the Plan and other administrative expenses are paid by the Companies.

Horizon Lines Savings & Investment Plan

Notes to Financial Statements

Note 2. Summary of Significant Policies (Continued)

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2010) through October 12, 2011, the date the financials statement were available to be issued.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2007.

Accounting pronouncement adopted: In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06 *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 reconciliation measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. See Note 4 for effect of adoption. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. The Plan's management is currently evaluating the effect of the guidance related to Level 3 reconciliation measurements on the disclosures.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting – Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This standard is effective for periods ending after December 15, 2010, with early adoption permitted. This standard requires retrospective application to all periods presented. This standard was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new standard. The adoption resulted in a reclassification of participant loans totaling \$1,800,643 and \$1,571,609 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no effect on the net assets available for benefits as of December 31, 2010 or 2009 as a result of the adoption.

Accounting pronouncements not yet effective: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRSs"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified or Provided by Fidelity Management Trust Company (“Trustee”)

The following is a summary of the Plan’s asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan’s financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan’s independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2010	2009
Investments:		
Registered investment companies	\$ 47,255,240	\$ 40,014,208
Common collective trust fund	5,103,442	4,856,816
Adjustment from fair value to contract value for interest in common collective trust relating to fully benefit-responsive investment contracts	(41,496)	90,313
	\$ 52,317,186	\$ 44,961,337
Notes receivable from participants	\$ 1,800,643	\$ 1,571,609

Fidelity Management Trust Company also certified to the completeness and accuracy of \$4,861,337 of net appreciation in fair value of investments related to registered investment companies and \$1,376,888 of interest and dividends related to the aforementioned assets for the year ended December 31, 2010.

Note 4. Fair Value Measurements

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include.

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Registered investment companies: Valued at quoted net asset value ("NAV") of shares held by the Plan.

Common collective trust fund: Valued at NAV per unit based on the underlying investments comprising the trust and based upon audited financial statements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- (a) The objective of the stable value fund is to preserve capital and achieve a competitive level of income over time. In addition, it strives to maintain a \$1 per unit price, but cannot assure it will do so. A stable value fund returns to its shareholders income earned by the fund's investments after expenses.

Note 5. Related Party Transactions

Fidelity Management Trust Company is the trustee of the Plan; therefore, transactions with the trustee qualify as party-in-interest. Fees and commissions paid by the Plan to the trustee totaled \$21,697 for the year ended December 31, 2010. The Plan sponsor also paid certain administrative expenses of the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Income Tax Status

The Plan Sponsor is planning to file for a determination letter from the Internal Revenue service regarding the Plan's qualifications under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Plan Administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Plan Administrator will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.
