As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Mid Atlantic Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UNION EMPLOYEES' 401(K) RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

1. THE PLAN

The following description of the Olympic Steel, Inc. Union Employees' 401(k) Retirement Plan and Trust (the Plan) is provided for general information purposes. Participants should refer to the plan document for more complete information.

General
The Plan is a defined contribution plan established January 1, 1990, to provide retirement benefits for eligible union employees of Olympic Steel, Inc. (the Company). The Plan also contains provisions for disability and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation
Each employee becomes eligible to participate in the Plan after 12 consecutive months of employment in which an employee has completed 1,000 hours of service.

Participant Accounts and Contributions
Each participant will have a separate non-elective contribution account, with sub-accounts to reflect formula and matching contributions, and an additional account for elective contributions and/or rollover contributions. Eligible participants may make an election to defer a portion of their compensation limited to the maximum allowable deferral under the Internal Revenue Code (IRC). The salary deferral is known as an "elective contribution". Matching contributions will be made by the Company equal to 50% of the participant's elective contribution and will apply to that portion of the participant's elective contribution that does not exceed 4% of his compensation. Furthermore, for 2010 the Company made a non-elective contribution equal to 3% of compensation through October 15, 2010. There was no non-elective contribution for 2009.

Effective for periods beginning after March 31, 2009, the Company suspended the non-elective and matching contributions for those participants who are members of the International Brotherhood of Teamsters Local 970 who are employed at the Plate Facility. These contributions are now at the discretion of the Company. As of October 31, 2010, due to a change in the bargaining agreement the Company's non-elective and matching contributions were also made discretionary.

Rollover Contributions
Distributions from another qualified plan may be transferred into the Plan.

Investment Options
Participants may direct the manner in which their contributions are allocated among the investment options available under the Plan. The Company's matching and formula contributions are allocated based upon the participant investment elections.

Vesting
Participants are immediately vested in their elective contributions, rollover contributions and in the Company matching or non-elective contributions**.**

Notes Receivable from Participants
The Plan allows for participants to borrow from their accounts a minimum of $500 and a maximum of 50% of their vested account balance up to $50,000. The interest rate must be a reasonable rate as determined by the plan administrator. Interest assessed on outstanding loans ranged from 3.25% to 8.25% at December 31, 2010. Maturities on these loans do not exceed five years unless the funds are used to acquire a participant's principal residence.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments
Upon service or disability retirement, death, termination or financial hardship, the participant or beneficiary may elect to receive a benefit payment. Benefit payments are paid directly to the participant from the net assets available for benefits and are made in lump-sum amounts or through periodic payments as specified by the participant, subject to the provisions of the Plan.

Plan Termination
Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements are prepared on the accrual basis of accounting.

Plan Expenses
The Plan pays the majority of the administrative expenses.

Use of Estimates
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments in Insurance Contracts

As described in Accounting Standard Codification (ASC) 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The MetLife Stable Value Fund is a fully benefit-responsive investment contract in a collective trust. As required by ASC 962, the statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contract. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Accounting Change

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this guidance in its December 31, 2010 financial statements and reclassified participant loans of $489,589 and $530,735 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance

3. INVESTMENTS

All Plan investments are participant-directed. The following table presents investments that represent 5 percent or more of the Plan's net assets as of December 31, 2010 and 2009 (all amounts are presented at fair value with the exception of the MetLife Stable Value Fund which is stated at contract value):

	2010	2009
American Funds Growth Fund of America	$ 600,279	$ 520,088
MFS Total Return Fund	547,327	487,616
MFS Value Fund	712,107	615,615
Victory Diversified Stock Fund	530,350	480,592
MetLife Stable Value Fund	749,022	659,682
Security Mid Cap Value	362,076	308,369
Columbia Small Cap Value	329,479	251,214

The net investment gain on the statements of changes in net assets available for benefits reflects the net gains and losses on all investments, which are invested primarily in mutual funds.

Mid-Atlantic has provided the plan administrator with certification that information with respect to investment balances and investment income is complete and accurate, except for the cash surrender value of life insurance policies and participant loans whose values were $42,559 and $489,589, respectively, at December 31, 2010 and $35,818 and $530,735, respectively, at December 31, 2009. The investment income associated with these investments was $24,757 and $37,628 for 2010 and 2009, respectively.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as held by the Plan. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the net asset values of shares held by the Plan at year end.

Stable Value Fund: Assets are invested in a separate account and valued at fair value by discounting the related cash flows based on interest rates that reflect the performance of the underlying portfolio.

Cash Surrender Value of Life Insurance: Valued based on the cash paid into the policy plus related dividend income retained under the policy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Level 1	Level 2	Level 3	Total
December 31, 2010				
Mutual Funds	$ 4,419,690	$ -	$ -	$ 4,419,690
Stable Value Fund	-	-	788,375	788,375
CSV of Life Insurance	-	-	42,559	42,559
	$ 4,419,690	$ -	$ 830,934	$ 5,250,624
December 31, 2009				
Mutual Funds	$ 3,800,444	$ -	$ -	$ 3,800,444
Stable Value Fund	-	-	667,849	667,849
CSV of Life Insurance	-	-	35,818	35,818
	$ 3,800,444	$ -	$ 703,667	$ 4,504,111

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2010 and 2009:

Balance, December 31, 2010	$ 788,375	$ 42,559

5. PARTY-IN-INTEREST TRANSACTIONS

Noble-Davis Consulting provides administrative and recordkeeping services. The fees charged for these services for the years ended December 31, 2010 and 2009 were $17,936 and $32,933, respectively.

6. FEDERAL INCOME TAXES

The Plan obtained its latest determination letter on February 11, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been made in the accompanying financial statements.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan's interest in a collective trust relating to a fully benefit-responsive investment contract is shown at contract value on the accompanying financial statements and fair value on the Form 5500. The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	2010	2009
Net assets available for benefits per the financial statements	$ 5,733,605	$ 5,052,747
Adjustment to contract value	39,353	8,167
Net assets available for benefits per the Form 5500	$ 5,772,958	$ 5,060,914

The following is a reconciliation of certain line items per the 2010 statement of changes in net assets available for benefits to the Form 5500:

	2010
Investment income per the financial statements	$ 617,212
Change in adjustment to contract value	31,186
Total investment income per the Form 5500	$ 648,398

8. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 5, 2011, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
