Forfeitures can be used to reduce employer contributions for the succeeding plan year. Total forfeitures for the year ended December 31, 2010 were \$19,061.

Participant loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. A participant may have only one loan outstanding at a time. Loans are secured by the balance in the participant's account and bear interest at 1% plus the prime rate published in the *Wall Street Journal* on the first business day of each month. The interest rate for all participant loans was between 4.25% and 9.25% at December 31, 2010. Loan repayments are made through payroll deductions, generally over periods ranging up to five years unless it is for the purchase of a primary residence. Participant loans are measured at the amount of unpaid principal plus any material accrued and unpaid interest.

Note 1 - Plan description (continued)

Benefits

Upon termination of service due to retirement, death, disability, or other service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account. The form of payment is a lump-sum distribution or an installment distribution if a participant's vested interest is greater than \$5,000. Additionally, distributions in instances of financial hardship are not allowed under the plan.

Participant accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and employer matching, as well as the participant's allocated share of the Plan's earnings and losses. Allocations of the Plan's earnings and losses are based on the participant's account balance.

Note 2 - Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Income recognition

Interest and dividend income is recorded as earned on the accrual basis.

Investment valuation

Investments of the Plan are stated at fair value based upon quoted market prices for identical assets (Level 1 as required by FASB ASC 820 Fair Value Measurements and Disclosures). Investments in common collective funds are considered stable value funds and are stated at fair value. Purchases and sales of securities are reflected on a trade-date basis. The difference between cost and market value from one period to the next is recognized as net appreciation in fair value of investments in the accompanying statement of changes in net assets available for benefits.

Note 2 - Summary of significant accounting policies (continued)

Administrative expenses

The majority of administrative expenses are paid by the plan sponsor.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation. These reclassifications had no effect on net assets available for benefits.

Subsequent events

The plan sponsor's evaluation of subsequent events through October 12, 2011, which is the date the financial statements were available to be issued, revealed no significant matters to be recorded or disclosed.

Note 5 - Excess contributions

Contributions received from participants for 2009 are net of payments of \$10,676 made in March 2010 to certain active participants to return to them excess deferral contributions required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are included in the plan's statement of net assets available for benefits as excess contributions payable at December 31, 2009. There were no excess contributions for 2010.

Note 6 - Tax status

The Internal Revenue Service issued a determination letter dated June 20, 2002 stating that the prototype plan that was adopted by the Plan was designed in accordance with applicable IRC requirements as of that date. The plan administrator has not applied for a separate determination letter on the Plan; however, the plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement dates.

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 8 - Amounts allocated to withdrawn participants

Net assets available for benefits at December 31, 2010 include \$725,860 allocated to the accounts of participants who as of and prior to that date had withdrawn from participating in the earnings and operations of the plan.
