BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: DESCRIPTION OF RETIREMENT PLAN

Purpose

Butler Schein Animal Health 401(k) Retirement Savings Plan (the "Plan") is a 401(k) plan which was formed for the purpose of providing retirement benefits to employees of Butler Animal Health Supply, LLC d.b.a. Butler Schein Animal Health (the "Company"). Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Prior to January 1, 2010, the Plan name was Butler Animal Health Supply, LLC 401(k) Retirement Savings Plan.

Eligibility

All employees of the Company become eligible to participate in the Plan upon reaching age 21 and completing three months of service. Participants become eligible to receive employer matching contributions upon completion of one year of service.

Contributions

Each year, participants may elect to contribute a portion of their pretax annual compensation, as defined in the Plan. The Company provides a Safe Harbor matching contribution of 100% of the first 3% and 50% of the next 2% of eligible compensation that a participant contributes to the plan. Additional matching amounts may be contributed at the discretion of the Company's Board of Directors. Contributions are subject to certain limitations pursuant to Section 401(k) of the Internal Revenue Code.

Participants Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their elective deferral and Safe Harbor matching contributions, plus actual earnings thereon. Employer discretionary matching contributions are 100% vested after three years of service. Forfeitures, if any, are used to reduce future employer contributions.

At December 31, 2010 and 2009, unallocated forfeited amounts were \$3,747 and \$3,499, respectively. No forfeited amounts were used to reduce employer contributions during 2010.

Investments

Participants direct the investment of their accounts into various investment options offered by the Plan, primarily including common collective trusts and mutual funds with varying fund objectives and degrees of investment risk. In addition, participants have the option of a self-directed brokerage account that allows participants to invest in any publicly traded security. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 1: DESCRIPTION OF RETIREMENT PLAN (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Notes Receivable from Participant fund. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates currently range from 5.00% to 7.75%. Principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on the contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

All expenses of maintaining the plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

In evaluating events that may have a material impact on the financial statements, the Company has considered activities through October 11, 2011, the date the financial statements were available to be issued.

NOTE 3: INFORMATION SUPPLIED BY TRUSTEE

All information included in the accompanying financial statements and the supplemental schedule, except for information concerning employer and employee contributions and receivables, and distributions to employees, is unaudited and has been prepared by or summarized from reports prepared by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certification from the trustee that such information is complete and accurate.

NOTE 4: INVESTMENTS

The Plan's investments that represent five percent or more of the Plan's net assets available for benefit as of December 31, 2010 and 2009 are as follows:

	2010	2009

TRP International Growth & Income	3,681,984	3,112,416

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 6: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 6: FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Common collective trust: Consists of guaranteed investment contracts valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as classified on the Statement of Net Assets as of December 31, 2010 and 2009:

Assets at Fair Value as of December 31, 2010

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 8: TAX STATUS

Effective January 1, 2010, the Plan adopted a volume submitter plan sponsored by Fidelity Management and Research Company. The plan has applied for an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Prior to the amendment, the Plan had received a favorable determination letter from the Internal Revenue Service, dated March 30, 2006, stating that it was qualified under Section 401(a) of the Internal Revenue Code (the Code) and, as such, is was exempt from federal income taxes under the provisions of Section 501(a) of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9: RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the nondiscretionary trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

NOTE 10: RECLASSIFICATIONS

In September 2010, FASB issued an amendment, Plan Accounting—Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

BUTLER SCHEIN ANIMAL HEALTH 401(K) RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 10: RECLASSIFICATIONS (Continued)

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participants' loans totaling \$1,174,826 from investments to notes receivable as of December 31, 2009. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

Certain amounts previously reported in the December 31, 2009 financial statements have been reclassified to conform to the reporting presentation of the financial statements at December 31, 2010.
