ORTHOLINK PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Ortholink Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a multiple-employer profit sharing plan established by Ortholink Physicians Corporation (the "Sponsor") and provides for employee contributions under Section 401(k) of the Internal Revenue Code ("IRC"). The Plan covers substantially all employees of the physician practices electing to participate in the Ortholink Physicians Group (collectively the "Company"). Its provisions are governed by the Internal Revenue Code and the Employee Retirement Income Security Act of 1974 (ERISA).

During 2010, two participating physicians' offices elected to terminate their participation in the OrthoLink Plan. During the plan year, Colorado Orthopaedic Specialists and Tennessee Orthopaedic Alliance both transferred funds from the OrthoLink Plan into separate retirement plans through separate transactions. All funds related to Colorado Orthopaedic Specialists and Tennessee Orthopaedic Alliance were transferred out of the plan during 2010 and are excluded from net assets available for benefits at December 31, 2010,

Eligibility: Employees of the Company are immediately eligible to become participants in the Plan upon hire date. Participants become eligible to receive employer discretionary contributions upon completing one year of service.

Contributions: Employees participating in the Plan can make contributions under a salary reduction plan of up to 15% of gross compensation not to exceed the maximum allowable under the IRC, which was \$16,500 in 2010. Participant's who have attained age 50 before the close of the Plan year may also make catch-up contributions to the Plan.

The Company matches 50% up to the first 6% of compensation contributed by each participant. The Company annual discretionary contributions to the Plan are allocated to all eligible participants in the proportion of their compensation to the total compensation of all eligible participants subject to certain limitations. The discretionary contribution for the plan year ended December 31, 2010 was \$6,477,807.

Participant Accounts: Each participant's account is credited with the participant's contribution and earnings thereon and an allocation of (a) the applicable Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Retirement, Death and Disability: A participant employed by the Company is entitled to 100% of his or her account balance upon retirement, death or total disability.

Vesting: Participants are immediately vested in their voluntary contributions and earnings thereon. Employer matching and discretionary contributions and earnings thereon vest according to the following schedule.

<u>Years of Service</u>	<u>Percentage</u>
0-3	0%
3 or more	100%

Forfeitures: The nonvested portion of the Company contributions of terminated participants is used to pay Plan expenses and offset future employer contributions. During 2010, \$718,934 of forfeitures were used to offset employer contributions. At December 31, 2010 and 2009, \$388,623 and \$443,237, respectively, of forfeitures were available to offset future employer contributions.

ORTHOLINK PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits: On termination of service, participants with a vested account balance greater than \$5,000 may elect to receive either a lump-sum amount equal to the value of his or her account or an installment payout. Terminated participants whose vested account balances are equal to or less than \$5,000 will receive a lump-sum amount. Upon severe hardship, in accordance with Plan provisions, participants may withdraw amounts from their participant contribution account.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid through payroll deductions.

Plan Expenses: Administrative expenses of the Plan are paid by the Plan and/or the Sponsor. The Plan has paid all trustee expenses. All expenses incurred related to self-directed funds were paid out of the individual participants' self-directed accounts.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Adoption of New Accounting Standard: In September 2010, the Financial Accounting Standards Board (FASB) amended existing guidance with respect to the reporting of participant loans for defined contribution plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and measured at their unpaid principal balances plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. Early application is permitted. The adoption of this guidance by the Plan resulted in a reclassification from *investments* to *notes receivable from participants* of \$1,849,610 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

(Continued)

ORTHOLINK PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. It is at least reasonably possible that a significant change may occur in the near term in the estimated fair value of the Plan's investments in annuities and limited partnerships.

Risks and Uncertainties: The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, liquidity, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. The fair value of notes receivable from participants is not practicable to determine as amounts are not transferable.

Participant and Employer Contribution Receivable: The fair values of receivables from participants and employers have been determined to approximate their carrying values based upon their short-term nature and lack of collectability issues.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - PLAN TERMINATION

Although they have not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

With the exception of fair value of the Plan's investment in the Diversified Stable Pooled Fund, information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street Bank trust ("SSBT"), the trustee of the Plan and Massachusetts Fidelity Trust Company ("MFTC"), the custodian of the Plan. This information has not been audited by independent accountants. The Plan's investment in the Diversified Stable Pooled Fund was certified at contract value, which was determined to approximate fair value and the investment is therefore reported at contract value.

Interest income from notes receivable from participants were \$99,040 for the year ended December 31, 2010.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

(Continued)

ORTHOLINK PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds and common stock: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective trusts - other than stable value funds: The fair values of participation units held in collective trusts, other than stable value funds, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs).

Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 2 inputs). The fund invests all of its assets in the Wells Fargo Stable Return Fund G, a collective trust sponsored by the Bank. The underlying stable return fund invests in investment contracts issued by banks and other financial institutions, and security-backed contracts. The objective of the stable value fund is to provide a consistent investment return with minimal market-related risk. The stable value fund provides for daily redemptions by the Plan at reported net asset values per share, with minimal advance notice required.

Money market deposit accounts: Fair values of money market deposit account balances have been determined based upon their quoted redemption prices and recent transaction prices of \$1.00 per share (level 2 inputs), with no discounts for credit quality or liquidity restrictions. The Plan's investments in money market deposit accounts occasionally exceed federally insured balances.

U.S. Treasury securities: Fair values reflect the closing price reported in the active market in which the security is traded (level 1 inputs).

Corporate bonds: Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded (level 1 inputs).

Certificates of deposit: Certificates of deposits are highly liquid securities with a maturity less 18 months. These securities are priced using models that incorporate market-based inputs (level 2 inputs).

Limited Partnerships: The fair values of limited partnerships are estimated utilizing the net asset valuations provided by the funds and their administrators. (Level 3)

December 31, 2010 and 2009

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Annuities: Annuities are stated at estimated fair values based upon future cash flow receipts and investment risk. (level 3 investments)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below.

	Fair Value Measurements at December 31, 2010 Using
