Independent Auditors' Report

To the Plan Administrator of
Radiation Therapy Services, Inc.
Profit-Sharing 401(k) Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the Radiation Therapy Services, Inc. Profit-Sharing 401(k) Retirement Plan (the "Plan") as of December 31, 2010 and 2009, and the statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule as of December 31, 2010 as listed in the accompanying contents. These financial statements and schedule are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and schedule referred to above present fairly, in all material respects, the net assets available for benefits of Radiation Therapy Services, Inc. Profit-Sharing 401(k) Retirement Plan as of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America.

1. Description of Plan

The following description of the Radiation Therapy Services, Inc. Profit-Sharing 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution 401(k) plan covering all eligible employees of Radiation Therapy Services, Inc. (the "Company"), and it is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Although it has expressed no intention to do so, the Company retains the right to terminate the Plan. In the event of Plan termination, all amounts credited to participants' accounts become fully vested subject to the requirements of ERISA. The Company also retains the right to amend the Plan.

Eligibility:

Through December 15, 2008, employees who worked 1,000 hours or more, had one year of service and were age twenty-one or older were eligible to participate. Effective December 16, 2008, employees who have six months of service and are age twenty-one or older are eligible to participate. An employee shall not be eligible to participate if the employee is part of a collective bargaining agreement, is a non-resident alien, is a leased employee, is an independent contractor, is a resident of Puerto Rico, or is not eligible under contract.

Contributions and allocations:

Participants may contribute a portion of their salary or wages through payroll deduction contributions. Through December 15, 2008, each participant was permitted to defer up to 15% of his or her compensation. Effective December 16, 2008, each participant is permitted to defer up to 60% of his or her compensation. Each participant's contribution was limited by the Internal Revenue Service to a maximum of $16,500 during 2010. In addition, participants older than 50 may make a catch-up contribution of up to $5,000. Participants' contributions to the Plan were submitted to the Trustee which invested the contributions and investment earnings as directed by the participants. Brokerage fees incurred pursuant to participant-directed investments are paid solely with the funds from the individual account of the participant.

Employer contributions are discretionary; the Company may, at its discretion, contribute on behalf of each participant a matching contribution equal to a discretionary percentage of a participant's compensation contributed as an elective deferral contribution with respect to each plan year. For the year ended December 31, 2010, an employer matching contribution of $862,870 was made.

(continued)

1. **Description of Plan** (continued)

Contributions and allocations:

The Plan allows new employees to rollover amounts into the Plan from other qualified plans. The rollover contribution is permitted provided the trust from which the funds are to be transferred permits the transfer to be made and, in the opinion of the Company's legal counsel, such transfer will not jeopardize the tax exempt status of the Plan or create adverse tax consequences for the Company.

Benefits and vesting:

Participants or their beneficiaries are eligible to receive benefits under the Plan upon normal retirement, termination of employment, death or permanent disability or attainment, while in service, of age 59 ½. Subject to vesting requirements, participants or their beneficiaries will receive a lump sum payment or annuity form of payment as defined.

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become vested in the Company's matching contributions plus actual earnings thereon, ratably based upon years of continuous service. Generally, a participant is 100% vested after six years of service. However, in the event of termination of a participant's employment for death, total or permanent disability or upon attainment of the normal retirement age of 65 years, such participant's Company matching contributions shall immediately vest 100%.

Notes receivable from participants:

Participants are permitted to borrow from their fund accounts a minimum of $1,000 and up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Notes generally must have a repayment period that does not exceed 60 months. Notes for the purchase or substantial rehabilitation of a primary residence may be repaid over a longer term. The notes are secured by the balance in the participant's vested account and bear interest at a prime rate plus one percent. The financial risk and all associated costs with non-performing notes is borne by the individual note holder.

2. **Summary of Accounting Policies**

The following are significant accounting policies followed by the Plan:

Basis of accounting:

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting standards generally accepted in the United States of America. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Benefits are recorded when paid.

2. Summary of Accounting Policies (continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Risks and uncertainties:

The Plan provides for investment options in various investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that material changes in the market values of investment securities will occur in the near term.

Subsequent Events

The Plan's management evaluated subsequent events through October 13, 2011 in connection with the preparation of these financial statements, which is the date that the financial statements were available to be issued.

3. Investments

Prior to December 16, 2008 the Company was a party to an agreement whereby Fidelity Management Trust Company had been the trustee of the Plan's assets. Effective December 16, 2008, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (the "Trustee") took over as trustee of the Plan's assets. Under the terms of the agreement, the Trustee holds and invests the funds of the Plan subject to the direction of participants. A designated investment committee selects the investment options available. The Company is the Plan's administrator and fiduciary. All investments are carried at fair value.

The following presents individual investments that represent five percent or more of net assets available for benefits:

3. **Investments** (continued)

Investments	December 31, 2010	December 31, 2009
Principal Fixed Income Guaranteed Option Fund	$ 9,877,135	$ 9,530,576

Principal Lifetime 2020 R5 Fund	3,175,277	2,147,645
Principal Lifetime 2030 R5 Fund	3,011,769	2,230,357
Others (less than five percent)	26,858,936	20,050,882
	$ 54,271,612	$ 42,095,055

During 2010, the Plan's investments (including gains and losses on investments sold, as well as held during the year) appreciated in value by a net amount of $5,107,032.

4. **Fair Value Measurements**

Effective January 1, 2009, the Plan adopted Accounting Standards Codification ASC 820, "Fair Value Measurements," for its financial assets and liabilities, which defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

Level 1	Quoted prices in active markets for identical assets or liabilities.
Level 2	Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
Level 3	Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2010 and 2009:

4. Fair Value Measurements (continued)

Investments – Investments consist of mutual funds. Fair values for these investments are based on quoted prices in active markets and are therefore classified within Level 1 of the fair value hierarchy.

The common/collective trusts are recorded at contract value which approximates fair value. See Note 6 below for further information related to the valuation of this investment.

The following tables summarize our financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2010 and December 31, 2009, segregated among the appropriate levels within the fair value hierarchy:

Description	Fair Value at December 31, 2010	Fair Value Measurements		
		Level 1	Level 2	Level 3

	$42,095,055	$32,564,479	$9,530,576	$ -

5. Tax Status

The Plan received a favorable determination letter from the IRS dated December 5, 2001. The Plan has since been amended and the Company's management believes the Plan is operating in compliance with the applicable requirements of the Internal Revenue Code.

6. Guaranteed Investment Contract

The Plan follows ASC 962 Plan Accounting – Defined Contribution Plans ("ASC" 962) issued by the Financial Accounting Standards Board, which specifies the accounting for investment contracts issued by either an insurance enterprise or other entity.

The Principal Fixed Income Guaranteed Option is a general account–backed, stable value contract. The Principal Fixed Income Guaranteed Option preserves the principal and stated returns regardless of economic events. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Principal Fixed Income Guaranteed Optionis fully benefit-responsive and, in accordance with ASC 962, is recorded at contract value, which approximates fair value. Contract value represents contributions made under the Plan, plus accrued interest.

7. Administrative Expenses

The Company performs certain services for the Plan for which no fee is charged. Additionally, the Company paid approximately $11,400 of other expenses related to the administration of the Plan for 2010.

8. Forfeitures

Non-vested contributions which have been forfeited by employees due to termination of employment prior to achieving vested status on employer contributions are used to reduce future contributions by the Company. Forfeited balances available for use as of December 31, 2010 approximated $51,000.

9. Related Party Transactions

The Plan regularly invests in common trust funds and mutual funds managed by entities related to the Trustee. Therefore, these investments represent a party-in-interest to the Plan. These transactions are not considered prohibited transactions by statutory exemptions under ERISA regulations.
