Report of Independent Auditors

To the Participants and Administrator of
SRG Global 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of the SRG Global 401(k) Plan (the "Plan") at December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the SRG Global 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Participants in this Plan participated in another qualified plan through December 31, 2008. On January 1, 2009 their account balances of $78,935,799 were transferred to the Plan.

General

The Plan is a defined contribution plan adopted effective January 2009 covering all full-time and part-time employees of SRG Global, Inc. (the "Company") who have three months of service with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 25% of compensation, as defined in the Plan document. Contributions to the Plan are limited to the maximum amount specified in the Internal Revenue Code (the "Code"). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes 100% of the first 3% of compensation, $0.50 on the dollar for the next 2% of compensation that a participant contributes to the Plan ("Matching Contributions") for a total matching contribution of 4%. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and applicable Company contributions. These contributions are used to purchase units in the Plan's investment options. Participant accounts reflect daily changes in the market value of the investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company Matching Contributions portion of their accounts is based on years of service. A participant becomes 100% vested in the Company Matching Contribution after two years of credited service.

Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Participants may have only one loan outstanding at a time. The loans are collateralized by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined monthly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Financial Accounting Standards Board ("FASB") Accounting Standard Update ("ASU") No. 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans, was issued in September 2010 to amend generally accepted accounting principles ("GAAP") related to how loans to participants should be classified and measured by defined contribution pension benefit plans. ASU No. 2010-25 requires that loans to participants be classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. Because loans to participants are no longer measured at fair value, FASB ASC 820, Fair Value

Measurements and Disclosures, requirements are not applicable. ASU No. 2010-25 was applied retrospectively to all prior periods presented, and was adopted for the Plan year ended December 31, 2010.

Benefits
Upon termination, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest, installment payments or annuity payments. Amounts allocated to accounts of terminated participants who maintain a plan balance that has not been paid at December 31, 2010 and 2009 totaled $17,249,717 and $16,473,039, respectively. Benefits payable to participants who requested withdrawals but were unpaid as of December 31, 2010 were $0.

Forfeitures
Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts may be used to offset future Company contributions. Forfeitures of $160,043 were used to offset Company contributions during 2010. There were $86,047 of unallocated forfeitures as of December 31, 2010 which can be offset against future Company contributions.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed in the preparation of the accompanying financial statements.

Fully Benefit-Responsive Investment Contracts
As described in Financial Accounting Standards Board Codification Topic 946-210 ("ASC 966-210"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the ASC 966-210, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation
The Plan's investments are stated at fair value. The group annuity contracts are valued at fair value then adjusted to contract value in accordance with ASC 966-210. Shares in common collective trusts are valued at the net asset value of shares held by the Plan at year end based upon current market value of the underlying assets. Shares in mutual funds are valued at the net asset value of shares held by the Plan at year end. All investments of the Plan are participant directed.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains or losses and the unrealized appreciation/depreciation on those investments. Interest and dividend income are recorded as earned on an accrual basis.

Security Transactions
Purchases and sales of securities are reflected on a trade-date basis. The basis on which cost is determined in computing realized gains or losses from sales or distributions of investments is average cost.

Administrative Expenses
The Company pays administrative expenses of the Plan, including trust management fees, investment advisory fees, legal fees and audit fees. Certain mutual fund expenses are paid by the plan. Loan set up fees and Qualified Domestic Relations Order processing fees are paid directly by the participant.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. These significant estimates include the market value of investments. Actual results could differ from estimates.

Risks and Uncertainties
The Plan provides for various investment options in fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Subsequent Events
Subsequent events have been evaluated by the Plan through October 13, 2011, the date the financial statements were available to be issued.

3. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their total accounts. The Company has not expressed any intent to terminate the Plan or discontinue contributions.

4. Tax Status

In May 23, 2008, the Internal Revenue Service stated that the nonstandardized prototype adopted by the Plan, as then designed, qualifies under section 401(a) of the Internal Revenue Code (the "IRC") and that an employer that adopts this plan may rely on this letter with respect to the qualification of its plan under Code section 401(a). While the Plan has not received a separate determination letter, specific to the Plan itself, the Plan administrator and the Plan's tax counsel believe that the Plan, as required by the IRS Opinion, was designed in accordance with all applicable requirements, and was being operated in compliance with all such applicable requirements of the IRC as well as with the terms of the Plan. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions that would require disclosure in the financial statements. The plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2006.

5. Fair Value Measurements

Financial Accounting Standards Board Codification Topic 820, *Fair Value Measurements* ("ASC 820") establishes a framework for measuring fair value and expands disclosures about fair value measurements in financial statements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2010 and 2009.

Common Collective Trust: Valued using the market prices of the underlying securities and the value of the investment contract. The investment contract is valued by discounted cash flows based on the current yields of similar instruments with comparable durations taking into consideration the credit-worthiness of the issuer. Contracts may be subject to penalties if they are terminated before their stated maturity if the purpose for termination is other than to obtain funds for ordinary participant benefit payments. Certain factors may limit the ability of the Plan to transact at contract value with the issuer including premature termination of the contracts by the Plan, layoffs, plan termination, bankruptcy, mergers and early retirement incentives.

Mutual Funds: Valued at fair value using quoted prices.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total

8. Party-in-Interest Transactions

The Company, the participants and the Trustee have all been identified as parties-in-interest. Substantially all expenses related to the administration of the Plan are paid by the Company, which qualifies as a party-in-interest. The Plan invests in shares of a common collective trust managed by the Trustee. Transactions in this investment qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Participant loans also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets available for benefits per the Form 5500 at December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	$ 99,313,018	$ 89,499,172
Adjustment to fair value for stable value fund	950,469	244,577
Net assets available for benefits per the Form 5500	$ 100,263,487	$ 89,743,749

The following is a reconciliation of net appreciation in the common collective trust per the financial statements to the net investment gain in common collective trusts per the Form 5500 for the year ended December 31, 2010.
