Kittrich Corporation 401 (K) Plan
NOTES TO FINANCIAL STATEMENTS
Year Ended December 31, 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Kittrich Corporation ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service, 1,000 hours of service and are twenty-one years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2010, participant's contributions can't exceed the lesser of 100% of their salary or $16,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in excess of the maximum contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A 401 (k) contribution can either be a Pre-Tax 401(k) contribution or Post-Tax Roth 401(k) contribution. Participants select the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty fund options for participants.

During 2009, the Company discontinued matching employee contributions into the plan Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in the same manner as the 401(K) contribution is invested. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any. Profit sharing allocations, if any, are allocated in the ratio of a participant's compensation to the total compensation of all Participants eligible to receive an allocation for the Allocation Period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN - Continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
2	33%
3	66%
4	100%

However, the vesting schedule in the Plan was amended. If an employee had completed three years of service as of the expiration of the election period, the employee could elect to have their vested percentage determined under the pre-amendment vesting schedule. The election period would commence on the adoption date of the amendment and would end 60 days after the later of (a) the adoption date of the amendment, (b) the effective date of the amendment, or (c) the date the employee received written notice of the amendment from the Employer or Administrator. The pre-amendment vesting schedule is as follows:

Number of Years of Completed Service	Percentage of Vested Interest
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.75%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular bi-weekly payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN - Continued

Payment of Benefits

Participants who terminate employment for any reason will have their account distributed to them in a lump sum as soon as administratively possible. Vested interest can either be distributed in a lump sum or can be rolled over either to another qualified retirement plan that agrees to receive the distribution or to an individual retirement account.

In addition to the benefit payments described above, there are rules which require that certain minimum distributions be made from the Plan. Generally, the minimum distributions must begin not later than (a) the April 1st following the end of the calendar year in which you reach age 70 ½ or (b) the April 1st flowing the end of the calendar year in which you retire.

An employee's vested interest upon death will be distributed to the employee's beneficiary as soon as administratively feasible.

Hardship Distributions

Employees can take a distribution to pay for a financial hardship. Financial hardships generally would include:

1. Expenses for(or necessary to obtain) medical care;
2. Costs directly related to the purchase of a principal residence;
3. Payments necessary to prevent eviction from the Participant's principal residence or to prevent foreclosure on the mortgage o the principal residence;
4. Tuition, related educational fees, and room and board for twelve months.

Forfeitures

Forfeitures of non-vested Company contributions are used to reduce future Company contributions. During 2010, $0 of forfeited participant accounts were used to reduce the Company's contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition

The Investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2010 and 2009.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

For the year-ended December 31, 2010, the Company has evaluated subsequent events for potential recognition and disclosure through September 29, 2011, the date of financial statement issue.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the evaluation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Values at the net asset value (NAV) of shares held by the plan at year-end.

Fixed Annuities – The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

Assets at Fair Value as of December 31, 2010

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,154,750	$ -	$ -	$ 1,154,750
Fixed Annuities	-	218,674	-	218,674
Participant Loans	-	-	27,084	27,084
	$ 1,154,750	$ 218,674	$ 27,084	$ 1,400,508

The following table sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

	Participant Loans
Balance, Beginning of Year	$ 36,222
Purchases, Sales, Issuances and Settlements (Net)	(9,138)
Balance, End of Year	$ 27,084

NOTE 4 – INVESTMENTS – INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

At December 31, 2010 and 2009, the Plan's investments were held by the Reliance Trust Company, LLC (2009 & 2010) and Mid Atlantic Trust Company (2010) as Custodians ("Custodians"). NOTE 5 – TAX STATUS

The Internal Revenue Service has determinate and informed the Company by a letter dated November 26, 2001, that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account ba lances and the amounts reported in the statement of net assets available for benefits.

NOTE 8 – DELINQUENT PARTICIPANT CONTRIBUTIONS

The Department of Labor (DOL Reg. 2580.412-11) requires an employer to segregate participant contributions from its general assets as soon as practicable, but in no event later than the 15th business day following the end of the month in which amounts are contributed by participants or withheld from their wages. During the year ended December 31, 2010, the Company adequately segregated all participant contributions and there were no delinquent remittals of participant contributions to the Custodian.

Kittrich Corporation 401 (K) Plan
NOTES TO FINANCIAL STATEMENTS
Year Ended December 31, 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Kittrich Corporation ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service, 1,000 hours of service and are twenty-one years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

For 2010, participant's contributions can't exceed the lesser of 100% of their salary or $16,500 of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in excess of the maximum contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. A 401 (k) contribution can either be a Pre-Tax 401(k) contribution or Post-Tax Roth 401(k) contribution. Participants select the investment of their contributions into various investment options offered by the Plan. The Plan currently offers thirty fund options for participants.

During 2009, the Company discontinued matching employee contributions into the plan Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested in the same manner as the 401(K) contribution is invested. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching contribution, if any. Profit sharing allocations, if any, are allocated in the ratio of a participant's compensation to the total compensation of all Participants eligible to receive an allocation for the Allocation Period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN - Continued

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of service. The following schedule describes the participant's level of vesting after each year of service.

Number of Years of Completed Service	Percentage of Vested Interest
2	33%
3	66%
4	100%

However, the vesting schedule in the Plan was amended. If an employee had completed three years of service as of the expiration of the election period, the employee could elect to have their vested percentage determined under the pre-amendment vesting schedule. The election period would commence on the adoption date of the amendment and would end 60 days after the later of (a) the adoption date of the amendment, (b) the effective date of the amendment, or (c) the date the employee received written notice of the amendment from the Employer or Administrator. The pre-amendment vesting schedule is as follows:

Number of Years of Completed Service	Percentage of Vested Interest
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.75%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through regular bi-weekly payroll deductions.

NOTE 1 - DESCRIPTION OF PLAN - Continued

Payment of Benefits

Participants who terminate employment for any reason will have their account distributed to them in a lump sum as soon as administratively possible. Vested interest can either be distributed in a lump sum or can be rolled over either to another qualified retirement plan that agrees to receive the distribution or to an individual retirement account.

In addition to the benefit payments described above, there are rules which require that certain minimum distributions be made from the Plan. Generally, the minimum distributions must begin not later than (a) the April 1st following the end of the calendar year in which you reach age 70 ½ or (b) the April 1st flowing the end of the calendar year in which you retire.

An employee's vested interest upon death will be distributed to the employee's beneficiary as soon as administratively feasible.

Hardship Distributions

Employees can take a distribution to pay for a financial hardship. Financial hardships generally would include:

1. Expenses for(or necessary to obtain) medical care;
2. Costs directly related to the purchase of a principal residence;
3. Payments necessary to prevent eviction from the Participant's principal residence or to prevent foreclosure on the mortgage o the principal residence;
4. Tuition, related educational fees, and room and board for twelve months.

Forfeitures

Forfeitures of non-vested Company contributions are used to reduce future Company contributions. During 2010, $0 of forfeited participant accounts were used to reduce the Company's contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition

The Investments in all of the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2010 and 2009.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

For the year-ended December 31, 2010, the Company has evaluated subsequent events for potential recognition and disclosure through September 29, 2011, the date of financial statement issue.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements and Disclosures, establishes framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the evaluation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Values at the net asset value (NAV) of shares held by the plan at year-end.

Fixed Annuities – The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010:

Assets at Fair Value as of December 31, 2010

	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 1,154,750	$ -	$ -	$ 1,154,750

	$ 1,154,750	$ 218,674	$ 27,084	$ 1,400,508

The following table sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2010:

	Participant Loans
Balance, Beginning of Year	$ 36,222
Purchases, Sales, Issuances and Settlements (Net)	(9,138)
