Independent Auditors' Report

The Plan Administrator
AEP Industries Inc.

401(k) Savings and Employee Stock Ownership Plan:

We were engaged to audit the accompanying financial statements of the AEP Industries Inc. 401(k) Savings and Employee Stock Ownership Plan (the Plan) as of December 31, 2010 and 2009, and for the years then ended, the Supplemental Schedule H, Line 4(a) for the year ended December 31, 2010, and the Supplemental Schedule H, Line 4(i) as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 5, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

Effective January 1, 2007, the Board of Directors of AEP Industries Inc. (AEP or the Company) approved the merger of the AEP Industries Inc. Employee Stock Ownership Plan (ESOP) into the AEP Industries Inc. 401(k) Savings Plan. The assets of the ESOP were transferred to the 401(k) Savings Plan and the two plans were renamed the AEP Industries Inc. 401(k) Savings and Employee Stock Ownership Plan (the Plan) on January 1, 2007. The merger did not impact the rights of the participants as the provisions of the ESOP were incorporated into the merged plan.

On October 30, 2008, AEP completed the acquisition of substantially all of the assets of the stretch films, custom films, and institutional products divisions of Atlantis Plastics, Inc. and certain of its subsidiaries (Atlantis). The funds held in the prior Atlantis pension plan totaling \$4.0 million were transferred to the Plan in January 2009.

The following brief description of the Plan provides only general information. Participants should refer to the plan document for a more detailed description of the Plan's provisions. Specific terms and conditions of the merged plan are available in the sixth amendment to the plan document or the summary plan description as amended on January 1, 2007.

(a) General

The Plan is a defined contribution plan available to all employees, except leased employees and those covered by a collective bargaining agreement (other than Local 195T union employees located at the Mountaintop, PA facility who are eligible), of AEP, as defined, who are scheduled to work thirty hours per week or more. Each eligible employee can enroll immediately upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Contributions

Under the provisions of the Plan, allowable contributions are as follows:

Employee Contributions

Participants may elect to defer from 1% to 95% of their compensation, as defined, in each plan year not to exceed the limitations imposed by the Internal Revenue Code (IRC). The limit was \$16,500 for each of the years ended December 31, 2010 and 2009.

A catch-up contribution option is available, up to the Internal Revenue Service (IRS) limitation, to all eligible employees that are age 50 or older and have reached the contribution limit of \$16,500. The limit was \$5,500 for each of the years ended December 31, 2010 and 2009.

Employer Matching Contributions

The Company's matching contribution equals 100% of the participant's first 3% of salary deferred contributions, as defined, for the plan year and 50% of the following 2% of the participant's salary deferred contributions. In order to receive an employer matching contribution, employees must have

401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

completed one year of service with the Company or have retired, died, or become disabled during the plan year.

Prior to the 2006 plan year, the Company's matching contribution to each participant's account was made to the ESOP in the form of AEP common stock. The number of shares of AEP common stock contributed to the ESOP as employer contribution was determined by dividing the dollar amount of the contributions by the average market price of the shares for the first ten business days in the month of February following the end of the plan year.

Commencing with the Company's matching contribution in 2007 related to the 2006 plan year, contributions to each participant's account were made in cash instead of the Company's common stock.

Employer Fixed and Discretionary Contributions

In addition to the employer matching contribution, the Company provides a fixed contribution equal to 1% of the employees' annual compensation, as defined. This contribution will be made if employees have completed twelve consecutive months and 1,000 hours of service and are employed at the end of the plan year, or have retired, died or become disabled during the plan year. The employer fixed contribution will be made to participant accounts regardless of whether employees deferred any salary savings contributions to the Plan for that year.

Beginning on January 1, 1996, the Company, at its sole discretion, may make an additional employer contribution, regardless of whether employees deferred any salary savings contributions to the Plan for that plan year. Any employer discretionary contributions will be made to eligible employees in cash, in an amount proportional to the amount which the employee compensation for the plan year bears to the total compensation of all participants sharing in contributions for the plan year.

(c) Vesting

Participants are always 100% vested in both employee and employer matching contribution and rollover funds. Participants vest in the Company's fixed and discretionary contribution 25% each year following one year of service.

(d) Withdrawals

Prior to termination of employment, a participant, upon reaching the age of 59½ may withdraw all or any portion of his or her elective deferral contribution subject to IRS regulations. Hardship withdrawals are permitted for specified reasons authorized by IRS regulations.

(e) Retirement

A participant's normal retirement date occurs upon the attainment of age 65.

(f) Investments

Participants are required to designate the fund(s) into which their contributions are to be invested. Contributions may be allocated to any combination of funds.

Notes to Financial Statements

December 31, 2010 and 2009

(g) Notes Receivable from Participants

Notes receivable from participants may not exceed the lesser of \$50,000 (subject to limitations) or 50% of the participant's account balance and are secured by the participant's account balance. Only one note per participant can be outstanding at any given time. Notes receivable from participants can be repaid over a period ranging from one to five years, except for notes for the purchase of a primary residence, which can be repaid over a period not to exceed ten years. The interest rate on the notes is fixed at the prevailing prime rate at origination of the note plus 1% (ranging from 4.25% to 10.5% over the term of the existing notes at December 31, 2010 and 2009). Earnings from these notes are credited directly to the individual participant's accounts. The notes receivable are valued at amortized cost.

(h) Forfeitures

As of December 31, 2010 and 2009, forfeited nonvested accounts totaled \$19,557 and \$16,483, respectively. The accounts are applied first to the payment of administrative expenses each year, and if there are forfeitures remaining, such forfeitures shall be applied to reduce future employer contributions. In 2010 and 2009, employer contributions were reduced by \$13,199 and \$25,479, respectively.

(i) Payment of Benefits

Benefits are payable upon retirement, disability, death, or termination of employment. Participants may elect to receive either a lump-sum, installment, or annuity payments for contributions made for plan years beginning prior to January 1, 1993 or a lump-sum payment for contributions made for plan years beginning on or after January 1, 1993.

(j) Diversification Options

The Plan was amended for the 2007 plan year as per the Pension Protection Act. Participants under the age of 55 and with three years of service could diversify one-third of their AEP common stock. A participant who was age 55 and had three or more years of service could diversify up to one-hundred percent of their AEP common stock.

(k) Plan Termination

Although the Company has not expressed any intention to do so, the Company has the right to discontinue its contributions to the Plan and to terminate the Plan. In the event of termination, each participant becomes fully vested and is entitled to the value of their account balance, which will be distributed in accordance with the provisions of the Plan.

(2) Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Plan:

(a) Basis of Reporting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Certain prior year amounts have been reclassified to conform to the 2010 presentation.

The Company has evaluated subsequent events from the balance sheet date through October 14, 2011, the date at which the financial statements were available to be issued.

(b) Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value (See note 6). Investment transactions are recorded on a trade-date basis. Net realized gains (losses) from the sale of investments are determined for accounting purposes using the moving average method. Dividend income is recorded on the ex-dividend date. Interest income is recognized as earned.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on contract value basis.

(c) Administration of the Plan

Fidelity Management Trust Company (Fidelity) is the trustee, record-keeper, and custodian of the Plan. The trust agreement provides Fidelity with exclusive authority and discretion to manage, acquire, and dispose of the assets in the Plan, as defined in the trust agreement. The Plan administrator is AEP.

The Plan paid fees and expenses to Fidelity, which totaled \$40,843 and \$19,578 for administration and management of the Plan for 2010 and 2009, respectively. The Company paid other administrative fees, which totaled \$39,480 and \$46,697 for 2010 and 2009, respectively, which are not reflected in the Plan's financial statements.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

that could affect the reported amounts of net assets and contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in the net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(f) *Risks and Uncertainties*

The Plan provides for various investment options in any combination of stock funds, bond funds, fixed income securities, and other investment securities. The Plan also contains investments in AEP common stock. These investments are exposed to various risk conditions of the individual fund objectives, stock and bond market fluctuations, interest rate changes, economic conditions and world affairs and risks specific to AEP's business and operations. Due to the level of risk associated with certain investment securities and AEP common stock and the level of uncertainty related to changes in the value of investment securities and AEP common stock, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

(g) *Adoption of New Accounting Pronouncements*

In January 2010, the Financial Accounting Standards Board (FASB) issued authoritative guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the rollforward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statement of financial position. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in the Level 3 rollforward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 rollforward, this guidance is effective for fiscal year beginning after December 15, 2010. As this guidance is only disclosure related, it will not have an impact on the Plan's financial statements.

(3) *Related-Party Transactions*

Plan investments are managed by Fidelity as Trustee and certain investment choices are funds offered by affiliates of Fidelity. The plan sponsor and plan administrator is AEP.

(4) *Tax Status*

The Plan obtained its latest determination letter dated September 29, 2006 in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. In the opinion of the plan administrator, the Plan is being operated in compliance with the plan document, as amended, and the applicable requirements of the IRC, and therefore, no provision for income taxes is required.

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

The Company discovered that for a total of 495 employees who terminated between January 1, 2001 and December 31, 2008, it failed to pay a single matching contribution to the Plan, which would have occurred on a contribution date in the year following termination. A Voluntary Fiduciary Correction Program filing related to the missed matching contributions was made on April 1, 2011. The Company does not believe these operational errors will impact the tax status of the Plan and the Company intends to pay all costs associated with the corrections. The sum of all corrections as of December 31, 2010, will result in additional contributions of approximately \$562,000, including estimated interest and penalties. The employer contribution receivable at December 21, 2010 includes approximately \$562,000 receivable from the Company. The Plan expects to remit the monies to the former employees during 2012.

Participant contributions of \$3,261,683 were not remitted to the plan's trust within the time frame required by the Department of Labor under the plan asset rules. The Company made corrective contributions on April 28, 2011 and July 21, 2011 totaling \$1,808 associated with the untimely remittances. The Company does not believe these operational errors will impact the tax status of the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2007.

(5) Information Certified by the Trustee

Under the Department of Labor's Rules and Regulations 29 CFR 2520.103-8, information prepared and certified to by an entity which is regulated, supervised, and subject to periodic examination by a state or federal agency need not be audited. The plan administrator has received certification from Fidelity of the Plan's investment portfolio and loans as of December 31, 2010 and 2009, and for the years ended December 31, 2010 and 2009. The Plan's financial statements have been prepared based on this certified information.

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

The following table represents individual investments which exceed 5% of the Plan's net assets at December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
AEP Industries Inc. common stock	\$ 7,594,009	12,566,490
American Beacon Large Cap Value	6,094,976	5,916,323
Thornburg International Value	3,796,380	3,505,444
Fidelity Balanced	4,361,482	3,712,411
SEI Stable Asset	5,985,494	6,256,740
T. Rowe Price Retirement Funds	24,432,191	19,587,424
PIMCO Total Return	4,041,384	3,439,433

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2010</u>	<u>2009</u>
AEP Industries Inc. common stock	\$ (3,983,037)	8,123,109
Mutual funds	5,453,270	9,374,618
	<u>\$ 1,470,233</u>	<u>17,497,727</u>

The SEI Stable Asset Fund (the Fund) consists of fully benefit-responsive investment contracts. The Plan's interest in this investment is calculated by applying the Plan's ownership percentage in the Fund to the total fair value of the entire Fund. Average annual yields relating to the Fund are presented below:

	<u>2010</u>	<u>2009</u>
Based on annualized earnings of the Fund	1.63%	3.69%
Based on annualized earnings credited to the Fund participants	0.89	1.40

Crediting interest rates on the Fund are typically determined quarterly and are based on a formula used by the Fund, including the market value of the underlying assets, the current economic and market conditions, and the general interest rate environment. There is no correlation between future crediting rates and the adjustment from the contract value to the fair value as reported on the statement of net assets available for benefits. Certain events could limit the ability of the Plan to transact at the contract value with the issuers of the contracts held by the Fund. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Such events could include, but are not limited to, the following: partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if issuers' consent is not obtained, premature termination of contracts by the Fund, Plan termination, bankruptcy, significant credit event, partial plan termination or plan mergers, early retirement incentives that could cause significant withdrawals from the Plan and failure of the Plan to

Notes to Financial Statements

December 31, 2010 and 2009

qualify under the applicable sections of the IRC. AEP does not believe that the occurrence of these events, which could limit the Plan's ability to transact at contract value with participants, is probable.

(6) Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value and expanding disclosures about fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation.

The following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such investments in the fair value hierarchy:

AEP Industries Inc. common stock – Valued at closing price reported on the Nasdaq.

Mutual funds – Valued at the net asset value (NAV) of shares held by the plan at period-end. The NAV is a quoted price in an active market and is classified within Level 1 of the fair value hierarchy.

Bank commingled trust fund (SEI stable asset) – Valued based on the contract terms of the underlying guaranteed investment contract. The commingled trust fund is priced daily using a mil rate. The mil rate is a blend of the contracts' rate of return and the liquidity component's daily mil rate. The NAV is classified within Level 2 of the fair value hierarchy as the unit price is not quoted in an active market. However, the unit price is based on underlying investments, which are either traded on an active market or are valued based on observable inputs such as market interest rates and quoted prices for similar securities.

(8) Subsequent Event

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements. As of September 30, 2011, AEP's common stock decreased and was trading at \$22.20 per share, versus \$25.95 per share at December 31, 2010.

Independent Auditors' Report

The Plan Administrator
AEP Industries Inc.

401(k) Savings and Employee Stock Ownership Plan:

We were engaged to audit the accompanying financial statements of the AEP Industries Inc. 401(k) Savings and Employee Stock Ownership Plan (the Plan) as of December 31, 2010 and 2009, and for the years then ended, the Supplemental Schedule H, Line 4(a) for the year ended December 31, 2010, and the Supplemental Schedule H, Line 4(i) as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 5, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2010 and 2009 that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

Effective January 1, 2007, the Board of Directors of AEP Industries Inc. (AEP or the Company) approved the merger of the AEP Industries Inc. Employee Stock Ownership Plan (ESOP) into the AEP Industries Inc. 401(k) Savings Plan. The assets of the ESOP were transferred to the 401(k) Savings Plan and the two plans were renamed the AEP Industries Inc. 401(k) Savings and Employee Stock Ownership Plan (the Plan) on January 1, 2007. The merger did not impact the rights of the participants as the provisions of the ESOP were incorporated into the merged plan.

On October 30, 2008, AEP completed the acquisition of substantially all of the assets of the stretch films, custom films, and institutional products divisions of Atlantis Plastics, Inc. and certain of its subsidiaries (Atlantis). The funds held in the prior Atlantis pension plan totaling \$4.0 million were transferred to the Plan in January 2009.

The following brief description of the Plan provides only general information. Participants should refer to the plan document for a more detailed description of the Plan's provisions. Specific terms and conditions of the merged plan are available in the sixth amendment to the plan document or the summary plan description as amended on January 1, 2007.

(a) General

The Plan is a defined contribution plan available to all employees, except leased employees and those covered by a collective bargaining agreement (other than Local 195T union employees located at the Mountaintop, PA facility who are eligible), of AEP, as defined, who are scheduled to work thirty hours per week or more. Each eligible employee can enroll immediately upon hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Contributions

Under the provisions of the Plan, allowable contributions are as follows:

Employee Contributions

Participants may elect to defer from 1% to 95% of their compensation, as defined, in each plan year not to exceed the limitations imposed by the Internal Revenue Code (IRC). The limit was \$16,500 for each of the years ended December 31, 2010 and 2009.

A catch-up contribution option is available, up to the Internal Revenue Service (IRS) limitation, to all eligible employees that are age 50 or older and have reached the contribution limit of \$16,500. The limit was \$5,500 for each of the years ended December 31, 2010 and 2009.

Employer Matching Contributions

The Company's matching contribution equals 100% of the participant's first 3% of salary deferred contributions, as defined, for the plan year and 50% of the following 2% of the participant's salary deferred contributions. In order to receive an employer matching contribution, employees must have

401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

completed one year of service with the Company or have retired, died, or become disabled during the plan year.

Prior to the 2006 plan year, the Company's matching contribution to each participant's account was made to the ESOP in the form of AEP common stock. The number of shares of AEP common stock contributed to the ESOP as employer contribution was determined by dividing the dollar amount of the contributions by the average market price of the shares for the first ten business days in the month of February following the end of the plan year.

Commencing with the Company's matching contribution in 2007 related to the 2006 plan year, contributions to each participant's account were made in cash instead of the Company's common stock.

Employer Fixed and Discretionary Contributions

In addition to the employer matching contribution, the Company provides a fixed contribution equal to 1% of the employees' annual compensation, as defined. This contribution will be made if employees have completed twelve consecutive months and 1,000 hours of service and are employed at the end of the plan year, or have retired, died or become disabled during the plan year. The employer fixed contribution will be made to participant accounts regardless of whether employees deferred any salary savings contributions to the Plan for that year.

Beginning on January 1, 1996, the Company, at its sole discretion, may make an additional employer contribution, regardless of whether employees deferred any salary savings contributions to the Plan for that plan year. Any employer discretionary contributions will be made to eligible employees in cash, in an amount proportional to the amount which the employee compensation for the plan year bears to the total compensation of all participants sharing in contributions for the plan year.

(c) Vesting

Participants are always 100% vested in both employee and employer matching contribution and rollover funds. Participants vest in the Company's fixed and discretionary contribution 25% each year following one year of service.

(d) Withdrawals

Prior to termination of employment, a participant, upon reaching the age of 59½ may withdraw all or any portion of his or her elective deferral contribution subject to IRS regulations. Hardship withdrawals are permitted for specified reasons authorized by IRS regulations.

(e) Retirement

A participant's normal retirement date occurs upon the attainment of age 65.

(f) Investments

Participants are required to designate the fund(s) into which their contributions are to be invested. Contributions may be allocated to any combination of funds.

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(g) Notes Receivable from Participants

Notes receivable from participants may not exceed the lesser of \$50,000 (subject to limitations) or 50% of the participant's account balance and are secured by the participant's account balance. Only one note per participant can be outstanding at any given time. Notes receivable from participants can be repaid over a period ranging from one to five years, except for notes for the purchase of a primary residence, which can be repaid over a period not to exceed ten years. The interest rate on the notes is fixed at the prevailing prime rate at origination of the note plus 1% (ranging from 4.25% to 10.5% over the term of the existing notes at December 31, 2010 and 2009). Earnings from these notes are credited directly to the individual participant's accounts. The notes receivable are valued at amortized cost.

(h) Forfeitures

As of December 31, 2010 and 2009, forfeited nonvested accounts totaled \$19,557 and \$16,483, respectively. The accounts are applied first to the payment of administrative expenses each year, and if there are forfeitures remaining, such forfeitures shall be applied to reduce future employer contributions. In 2010 and 2009, employer contributions were reduced by \$13,199 and \$25,479, respectively.

(i) Payment of Benefits

Benefits are payable upon retirement, disability, death, or termination of employment. Participants may elect to receive either a lump-sum, installment, or annuity payments for contributions made for plan years beginning prior to January 1, 1993 or a lump-sum payment for contributions made for plan years beginning on or after January 1, 1993.

(j) Diversification Options

The Plan was amended for the 2007 plan year as per the Pension Protection Act. Participants under the age of 55 and with three years of service could diversify one-third of their AEP common stock. A participant who was age 55 and had three or more years of service could diversify up to one-hundred percent of their AEP common stock.

(k) Plan Termination

Although the Company has not expressed any intention to do so, the Company has the right to discontinue its contributions to the Plan and to terminate the Plan. In the event of termination, each participant becomes fully vested and is entitled to the value of their account balance, which will be distributed in accordance with the provisions of the Plan.

Notes to Financial Statements

December 31, 2010 and 2009

(2) Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Plan:

(a) Basis of Reporting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Certain prior year amounts have been reclassified to conform to the 2010 presentation.

The Company has evaluated subsequent events from the balance sheet date through October 14, 2011, the date at which the financial statements were available to be issued.

(b) Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value (See note 6). Investment transactions are recorded on a trade-date basis. Net realized gains (losses) from the sale of investments are determined for accounting purposes using the moving average method. Dividend income is recorded on the ex-dividend date. Interest income is recognized as earned.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on contract value basis.

(c) Administration of the Plan

Fidelity Management Trust Company (Fidelity) is the trustee, record-keeper, and custodian of the Plan. The trust agreement provides Fidelity with exclusive authority and discretion to manage, acquire, and dispose of the assets in the Plan, as defined in the trust agreement. The Plan administrator is AEP.

The Plan paid fees and expenses to Fidelity, which totaled \$40,843 and \$19,578 for administration and management of the Plan for 2010 and 2009, respectively. The Company paid other administrative fees, which totaled \$39,480 and \$46,697 for 2010 and 2009, respectively, which are not reflected in the Plan's financial statements.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

that could affect the reported amounts of net assets and contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in the net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(f) *Risks and Uncertainties*

The Plan provides for various investment options in any combination of stock funds, bond funds, fixed income securities, and other investment securities. The Plan also contains investments in AEP common stock. These investments are exposed to various risk conditions of the individual fund objectives, stock and bond market fluctuations, interest rate changes, economic conditions and world affairs and risks specific to AEP's business and operations. Due to the level of risk associated with certain investment securities and AEP common stock and the level of uncertainty related to changes in the value of investment securities and AEP common stock, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

(g) *Adoption of New Accounting Pronouncements*

In January 2010, the Financial Accounting Standards Board (FASB) issued authoritative guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number) information about purchases, sales, issuances, and settlements in the rollforward of changes in Level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statement of financial position. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and Level 3 are also required. For all portions of the update except the gross presentation of activity in the Level 3 rollforward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the Level 3 rollforward, this guidance is effective for fiscal year beginning after December 15, 2010. As this guidance is only disclosure related, it will not have an impact on the Plan's financial statements.

(3) *Related-Party Transactions*

Plan investments are managed by Fidelity as Trustee and certain investment choices are funds offered by affiliates of Fidelity. The plan sponsor and plan administrator is AEP.

(4) *Tax Status*

The Plan obtained its latest determination letter dated September 29, 2006 in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. In the opinion of the plan administrator, the Plan is being operated in compliance with the plan document, as amended, and the applicable requirements of the IRC, and therefore, no provision for income taxes is required.

AEP INDUSTRIES INC.
401(k) SAVINGS AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2010 and 2009

The Company discovered that for a total of 495 employees who terminated between January 1, 2001 and December 31, 2008, it failed to pay a single matching contribution to the Plan, which would have occurred on a contribution date in the year following termination. A Voluntary Fiduciary Correction Program filing related to the missed matching contributions was made on April 1, 2011. The Company does not believe these operational errors will impact the tax status of the Plan and the Company intends to pay all costs associated with the corrections. The sum of all corrections as of December 31, 2010, will result in additional contributions of approximately \$562,000, including estimated interest and penalties. The employer contribution receivable at December 21, 2010 includes approximately \$562,000 receivable from the Company. The Plan expects to remit the monies to the former employees during 2012.

Participant contributions of \$3,261,683 were not remitted to the plan's trust within the time frame required by the Department of Labor under the plan asset rules. The Company made corrective contributions on April 28, 2011 and July 21, 2011 totaling \$1,808 associated with the untimely remittances. The Company does not believe these operational errors will impact the tax status of the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2007.

(5) Information Certified by the Trustee

Under the Department of Labor's Rules and Regulations 29 CFR 2520.103-8, information prepared and certified to by an entity which is regulated, supervised, and subject to periodic examination by a state or federal agency need not be audited. The plan administrator has received certification from Fidelity of the Plan's investment portfolio and loans as of December 31, 2010 and 2009, and for the years ended December 31, 2010 and 2009. The Plan's financial statements have been prepared based on this certified information.

T. Rowe Price Retirement Funds	24,432,191	19,587,424
PIMCO Total Return	4,041,384	3,439,433

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2010</u>	<u>2009</u>
AEP Industries Inc. common stock	\$ (3,983,037)	8,123,109
Mutual funds	5,453,270	9,374,618
	<u>\$ 1,470,233</u>	<u>17,497,727</u>

The SEI Stable Asset Fund (the Fund) consists of fully benefit-responsive investment contracts. The Plan's interest in this investment is calculated by applying the Plan's ownership percentage in the Fund to the total fair value of the entire Fund. Average annual yields relating to the Fund are presented below:

	<u>2010</u>	<u>2009</u>
Based on annualized earnings of the Fund	1.63%	3.69%
Based on annualized earnings credited to the Fund participants	0.89	1.40

Crediting interest rates on the Fund are typically determined quarterly and are based on a formula used by the Fund, including the market value of the underlying assets, the current economic and market conditions, and the general interest rate environment. There is no correlation between future crediting rates and the adjustment from the contract value to the fair value as reported on the statement of net assets available for benefits. Certain events could limit the ability of the Plan to transact at the contract value with the issuers of the contracts held by the Fund. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Such events could include, but are not limited to, the following: partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if issuers' consent is not obtained, premature termination of contracts by the Fund, Plan termination, bankruptcy, significant credit event, partial plan termination or plan mergers, early retirement incentives that could cause significant withdrawals from the Plan and failure of the Plan to

qualify under the applicable sections of the IRC. AEP does not believe that the occurrence of these events, which could limit the Plan's ability to transact at contract value with participants, is probable.

(6) Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value and expanding disclosures about fair value measurements. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability. In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation.

The following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such investments in the fair value hierarchy:

AEP Industries Inc. common stock – Valued at closing price reported on the Nasdaq.

Mutual funds – Valued at the net asset value (NAV) of shares held by the plan at period-end. The NAV is a quoted price in an active market and is classified within Level 1 of the fair value hierarchy.

Bank commingled trust fund (SEI stable asset) – Valued based on the contract terms of the underlying guaranteed investment contract. The commingled trust fund is priced daily using a mil rate. The mil rate is a blend of the contracts' rate of return and the liquidity component's daily mil rate. The NAV is classified within Level 2 of the fair value hierarchy as the unit price is not quoted in an active market. However, the unit price is based on underlying investments, which are either traded on an active market or are valued based on observable inputs such as market interest rates and quoted prices for similar securities.

(8) Subsequent Event

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements. As of September 30, 2011, AEP's common stock decreased and was trading at \$22.20 per share, versus \$25.95 per share at December 31, 2010.
