We were engaged to audit the accompanying statements of net assets available for benefits of the Aurora Salary Deferred Savings Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009, and the supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year) as of the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank and Trust Company and Massachusetts Fidelity Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustees hold the Plan's assets and execute transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2010 and 2009, and for the years ended December 31, 2010 and 2009, that information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Aurora Salary Deferred Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

1. Description of the Plan

Established October 1, 2003, the Aurora Salary Deferred Savings Plan (the Plan) is a defined contribution 401(k) profit sharing plan covering all eligible employees of affiliates of Aurora Cares, LLC d/b/a Tara Cares, (the Company) and is intended to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, when applicable.

Information about the plan agreement and the vesting and benefit provisions, beyond the information provided below, is contained in the Plan Document and Summary Plan Description. Copies of these documents are available from the plan administrator.

Participation

All employees who have attained the age of 18 and have completed three months of entry service are eligible to participate in the Plan.

Contributions

Employees who are eligible to participate in the Plan may elect to contribute up to 50% of their eligible pay to the Plan, subject to certain limitations. Employees who are age 50 or older by the end of the calendar year are allowed to make an additional "catch-up" contribution. This contribution was limited to $5,500 for 2010 and 2009. The "catch-up" contribution is not eligible for the employer discretionary matching contribution.

The Company may make discretionary matching contributions as determined periodically by the Company. There were no discretionary matching contributions for the years ended December 31, 2010 and 2009.

All contributions are invested, at the option of the participant, in one or more of the available funds. Contributions may be invested 100% in one of the available funds, or in more than one fund.

Vesting

All participants are 100% vested in their contributions and allocated earnings and they become 100% vested in the Company contributions after completion of three years of service, as defined in the Plan Document.

1. Description of the Plan (continued)

Withdrawals of Participants

Participating employees may make financial hardship withdrawals up to the value of their vested employee contributions including rollover contributions.

Notes Receivable from Participants

Participating employees who have a balance in their Plan account are eligible to borrow funds from their Plan account. Participants may borrow a minimum of $1,000 per loan up to a maximum equal to the lesser of 50% of their account balance or $50,000. The number of loans outstanding is limited to one per participant. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, involuntary or voluntary termination, or retirement, a participant or their beneficiaries will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Normal retirement age is age 65. Participating employees who attain age 59½ may withdraw all or any part of their vested account balance.

Forfeited Accounts

These accounts may first be used for the restoration of participant's forfeitures, then to offset plan expenses, and then to reduce the Company's discretionary matching contribution. At year-end there were no forfeited non-vested accounts.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with (a) the participant's contribution and (b) an allocation of the plan's earnings and expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Recently Issued Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) 2010-06, "Improving Disclosures About Fair Value Measurements." Topic 820 of the Accounting Standards Codification (ASC) requires new disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for periods beginning after December 15, 2010. Disclosures required under Updated 2010-06 are

2. Summary of Significant Accounting Policies (continued)

included in the notes to the Plan's financial statements for the years ended December 31, 2010 and 2009, except for the disclosures related to Level 3 fair value measurements, which will be included in the notes to the Plan's financial statements effective January 1, 2011. Other than requiring additional disclosures, the adoption of this new guidance did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued Update 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans". This Update requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for annual periods ending after December 15, 2010 with early adoption permitted. The guidance should be applied retrospectively to all periods presented. The Plan adopted this guidance as of December 31, 2010 and reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of Benefits

Benefit payments to participants are recorded when paid.

Reclassification

Participant loans previously reported as a component of investments have been reclassified to a component of receivables in order to conform to the current year presentation.

Subsequent Event

These financial statements have not been updated for subsequent events occurring after October 12, 2011 which is the date these financial statements were available to be issued.

3. Investments

At December 31, 2010 and 2009 the following investments comprised 5% or more of the Plan's net assets:

	2010	2009
Stable Pooled Fund	**$ 1,080,701**	$ 1,039,429
Intermediate/Long Horizon Asset Allocation Fund	**$ 706,083**	$ 494,332
Intermediate Horizon Asset Allocation	**$ 430,187**	$ 329,821
Long Horizon Asset Allocation Fund	**$ 383,725**	$ 329,092
Stock Index Fund	**$ 313,572**	$ 252,945

3. Investments (continued)

The contract value for the Stable Pooled Fund is $1,057,971 for the year ended December 31, 2010 ($1,037,777 – 2009).

During the year ended December 31, 2010, the Plan's investments (including gains and losses bought and sold, as well as held during the year) appreciated in value by $446,202 (appreciated $525,125 – 2009).

4. Fair Value Measurements

Financial Accounting Standards Board's Accounting Standards Codification (ASC) 820: *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability;

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common collective trust: Valued at fair value determined using the market price of the underlying securities and the value of the investment contracts. The Plan's interest in this fund is based on information reported by the trustee using the audited financial statements of the fund at year end. The common collective trust is classified as a level 2 investment.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

5. Financial Certification

The following financial information relating to the Plan's assets at December 31, 2010 and 2009, as well as the income and transactions for the years then ended have been derived from information provided by State Street Bank and Trust Company and Massachusetts Fidelity Trust Company, the trustees of the Plan, and has been certified by them as complete and accurate to the best of their knowledge. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

5. Financial Certification (continued)

	2010	2009
Investments at fair value:		
Investment in common collective trust	$ **1,057,971***	$ 1,037,777*
Investments in registered investment companies	$ **4,193,055**	$ 3,332,515
Transactions for the years ended:		
Net investment gain (loss) from Investments	$ **446,202**	$ 525,125
Interest and dividends	$ **61,937**	$ 61,169

* These amounts are certified at contract value.

6. Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 10, 2011, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Transaction with Parties in Interest

Certain legal and accounting services were provided at the expense of the plan sponsor. Fees paid from plan assets during the year for other services rendered by parties in interest were based on customary and reasonable rates for such services. Fees paid by the Plan for such services amounted to $16,590 for the year ended December 31, 2010 ($12,917 – 2009).

Plan investments consist of shares of registered investment companies managed by Transamerica Partners Funds Group, an affiliate of Diversified Investment Managers (Diversified). Diversified is the third party administrator and, therefore, these transactions qualify as party-in-interest. Net investment gains on these investments and participant loans amount to $508,138 for the year ended December 31, 2010 (gains of $586,294 – 2009).

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009, to Form 5500:

	2010	2009
Net assets available for plan benefits per the financial statements	$ 5,445,791	$ 4,495,576
Differences in:		
Investments	(194,765)	(125,284)
Notes receivable from participants	194,765	125,284
Net assets available for plan benefits per the Form 5500	$ 5,445,791	$ 4,495,576
