INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Associated Benefits Corporation
Plan Administrator for The Swiss Valley Farms Cooperative
Employee Retirement Plan and Participants:

We were engaged to audit the financial statements — modified cash basis and supplemental schedule of The Swiss Valley Farms Cooperative Employee Retirement Plan (the "Plan") as of December 31, 2010 and 2009, and for the years then ended, listed in the Table of Contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Wells Fargo Bank, n.a., the trustee of The Thrift and Profit Sharing Trust for Cooperatives, of which the Plan is a participant, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee that the information as of and for the years ended December 31, 2010 and 2009 provided to the plan administrator by the trustee is complete and accurate.

As described in Note 2 to the financial statements, these financial statements were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements — modified cash basis and supplemental schedule taken as a whole. The form and content of the information included in the financial statements — modified cash basis and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE SWISS VALLEY FARMS COOPERATIVE EMPLOYEE RETIREMENT PLAN

Administered By Associated Benefits Corporation

NOTES TO FINANCIAL STATEMENTS — MODIFIED CASH BASIS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2010 AND 2009

1. DESCRIPTION OF THE PLAN

The Swiss Valley Farms Cooperative Employee Retirement Plan is a prototype defined contribution plan administered by Associated Benefits Corporation (“Plan Administrator”). The participating employer, Swiss Valley Farms, Co., Group 260, has adopted the Thrift/Profit Sharing Plan with 401(k) provisions (“Plan”). The following description of the Plan provides only general information. Participants should refer to the Plan document for more complete information.

General — The Plan is a defined contribution plan available to all full-time employees of the participating employer who have attained age 18 and completed 60 days of service. Wells Fargo Bank, n.a. (“Trustee”) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions — Each year, participants may contribute up to 100 percent of their compensation on a pre-tax basis, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. In addition, after-tax contributions to the Plan are permitted up to the limits allowed by law. The participating employer contributes 50 percent of the first 6 percent of base compensation that a participant contributes to the Plan. An additional contribution is made into the accounts of those participants who were participants in the employer’s pension plan that was frozen on December 31, 2003. This additional contribution has two components. The first component is computed at various percentages of the participants’ compensation based on the age of each participant. The second component is computed at various percentages of the participants’ compensation based on the age and years of service of each participant as of December 31, 2003.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s and employer contributions and an allocation of Plan earnings (losses) and charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments — Participants direct the investment of their contributions and employer contributions into any combination of the investment alternatives offered by the Plan in multiples of one percent. Plan participants may transfer funds from one investment fund to another. Transfers are effective the day made or the next business day.

Vesting — Participants are immediately vested in their contributions and earnings (losses) thereon. Participants hired prior to October 1, 2009 are immediately vested in the employer contributions and earnings (losses) thereon. Participants hired subsequent to October 1, 2009 become vested in the employer contributions and earnings thereon at a rate of 20 percent per year.

Forfeited amounts are used to reduce future employer contributions.

Notes Receivable from Participants — Participants may borrow from their fund accounts, subject to balance limitations. The repayment period for the loans is not to exceed five years, or fifteen years if the loan is for the purchase of the participant’s principal residence. The loans are secured by the balance in the participant’s account. The interest rate charged on the loans is two percentage points above the rate

Wells Fargo Bank, n.a. would pay on a certificate of deposit with a term of 36 months. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits — On termination of service, a participant may elect to receive either a lump-sum payment equal to the value of his or her vested account, or installment payments over various periods as elected by the participant.

Forfeited Accounts — At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$2,066 and \$1,799, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2010 and 2009, employer contributions were reduced by \$31,786 and \$10,619, respectively, from forfeited nonvested accounts.

Transfer of Assets Due to Merger — Effective January 1, 2009, RCS Acquisition LLC (Davenport, IA) merged into the Plan. Assets of \$2,288,485 were transferred to the Plan and are shown as transfer of assets due to merger.

Transfer of Assets Due to Conversion — Effective September 29, 2009, the Participating Employer merged the Restated Thrift / Profit Sharing Plan for Cooperatives Plan into the Plan. Assets of \$3,400,567 were transferred into the Plan and are shown as transfer of assets due to conversion.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED MATTERS

Basis of Accounting — The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). Under the modified cash basis of accounting, transactions are recorded in the financial statements on the cash receipts and disbursement basis; however, investments are adjusted to fair value. Accordingly, these statements are not intended to present the Plan's financial position or changes in financial position in conformity with GAAP. The principal differences in the Plan's statements relate to investment income and contributions, which are not recorded until received.

Use of Estimates — The preparation of financial statements in conformity with the modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP, requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment securities, including U.S. government securities, corporate debt instruments, and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The general fund is a stabilized fixed income portfolio managed by the Trustee. The objective of the general fund is to produce stable returns that are usually higher than traditional money market investments. The general fund usually experiences little or no fluctuation in principal value as it is invested predominately in direct obligations of the U.S. Government and U.S. Government Agencies. The general fund is stated at fair value and then adjusted to contract value as described below. The

underlying investments in the general fund are stated at estimated fair value based upon quoted market prices as of year end or yields available on comparable investments as determined and certified by the Trustee. Purchases and sales of securities are recorded on a trade-date basis. Dividend and interest income are recorded as received.

In accordance with GAAP, the general fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statements of changes in net assets available for benefits are presented on a contract value basis.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Valuation of Investments (Investment Contracts) — The Plan's investment contracts with J.P. Morgan Chase Bank N.A. and Monumental Life Insurance Co. included in the general fund are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Notes Receivable from Participants — Notes receivable from participants are valued at unpaid principal balance plus accrued but unpaid interest.

Administrative Expenses — Administrative expenses of the Plan are paid by the Plan as provided in the Plan document. Certain fees are paid by the Plan Sponsor which are not reflected in the statements of changes in net assets available for benefits.

Payment of Benefits — Benefit payments to participants are recorded upon distribution. As of December 31, 2010 and 2009, net assets available for benefits included no benefits due to participants who had withdrawn from participation in the Plan but have not yet been paid.

New Accounting Standards —

ASU No. 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans — In September 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. The ASU requires that participant loans be classified as notes receivable rather than a plan investment and measured at unpaid principal balance plus accrued but unpaid interest rather than fair value. The Plan retrospectively adopted the new accounting in 2010. The adoption did not have a material effect on the Plan's financial statements.

ASU No. 2010-06, Fair Value Measurements and Disclosures — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820 (originally issued as FASB Statement No. 157, *Fair Value Measurements*), adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 reconciliation disclosures, which are required in 2011. The adoption in 2010 did not materially affect, and the future adoption is not expected to materially affect, the Plan's financial statements.

3. FAIR VALUE MEASUREMENTS

ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair market value measurements. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels at the actual date of the event or change in circumstances that caused the transfer.

The following tables set forth by level within the fair value hierarchy, including the major categorization for debt and equity securities on the basis of the nature and risk of the investments, a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2010 and 2009.

Fair Value Measurements at December 31, 2010, Using				
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Funds:

Total	<u>\$ 13,655,804</u>	<u>\$ 6,406,456</u>	<u>\$ -</u>	<u>\$ 20,062,260</u>

Fair Value Measurements at December 31, 2009, Using				
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Funds:				
Domestic stock funds	\$ 8,956,521	\$ -	\$ -	\$ 8,956,521
International stock funds	1,378,535			1,378,535
Fixed income funds	870,364			870,364
Target retirement date funds	<u>1,198,892</u>			<u>1,198,891</u>

Total	<u>\$ 12,404,311</u>	<u>\$ 5,714,822</u>	<u>\$ -</u>	<u>\$ 18,119,133</u>

For the year ended December 31, 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. INVESTMENTS

The Plan's investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009, are as follows:

	2010	2009
Vanguard Institutional Index Fund	\$ 1,932,837	\$ 1,813,402
Artio International Equity Fund	1,302,544	1,378,535

General Fund — The general fund primarily invests in traditional guaranteed investment contracts (GICs) and security backed contracts issued by insurance companies and other financial institutions.

Traditional GICs are backed by the general account of the contract issuer. The general fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period. Interest is accrued on either a simple or fully compounded basis, and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest).

A security backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds that are owned by the general fund. Security-backed contracts are considered either "targeted benchmark" (underlying investments are managed to a specific benchmark) or "targeted duration" (underlying investments are managed to a specific duration). The portfolio underlying the contract is maintained separately from the contract issuer's general assets, usually by a third party custodian. The interest crediting rate of a security-backed contract is based on the contract value, and the fair value, duration, and yield to maturity of the underlying portfolio. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of the general fund. The issuer guarantees that all qualified participant withdrawals will be at contract value.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security backed contracts have the risk of default or the lack of liquidity of the underlying portfolio assets.

The primary variables impacting the future crediting rates of security backed contracts include:

- The current yield of the assets underlying the contract
- The duration of the assets underlying the contract

- The existing difference between the fair value and contract value of the assets within the contract.

GICs provide a fixed rate of interest over the term to maturity of the contract, and therefore do not experience fluctuating crediting rates. The security backed contracts are designed to reset their respective crediting rates on a quarterly basis. GIC crediting rates are not reset. Security backed contracts cannot credit an interest rate that is less than 0%.

The crediting rate of security backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

To the extent that the underlying portfolio of a security backed contract has unrealized and/or realized losses, a positive adjustment is made to the adjustment from fair value to contract value under contract value accounting. As a result, the future crediting rate may be lower over time than the then current market rates. Similarly, if the underlying portfolio generates unrealized and/or realized gains, a negative adjustment is made to the adjustment from fair value to contract value, and the future crediting rate may be higher than the then current market rates.

Average Yields — The yield earned by the general fund at December 31, 2010 and 2009 was 3.59% and 3.49%, respectively. This represents the annualized earnings of all investments in the general fund divided by the fair value of all investments in the general fund at December 31, 2010 and 2009.

The yield earned by the general fund with an adjustment to reflect the actual interest rate credited to participants in the general fund at December 31, 2010 and 2009 was 2.74% and 4%, respectively. This represents the annualized earnings credited to participants in the general fund divided by the fair value of all investments in the general fund at December 31, 2010 and 2009.

Limitations on the Ability of the GIC to Transact at Contract Value — GICs and security backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of the general fund operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events may include all or a portion of the following:

- Material amendments to the general fund's structure or administration;
- Changes to the participating plans' competing investment options including the elimination of equity wash provisions;
- Complete or partial termination of the general fund, including a merger with another fund;
- The failure of the general fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- The redemption of all or a portion of the interests in the general fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;

- Any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the general fund or participating plans;
- The delivery of any communication to plan participants designed to influence a participant not to invest in the general fund.

GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. Security backed contracts generally are evergreen contracts that contain termination provisions, allowing the general fund or the contract issuer to terminate with notice, at any time at fair value, and providing for automatic termination of the contract if the contract value or the fair value of the underlying portfolio equals zero. The issuer is obligated to pay the excess contract value when the fair value of the underlying portfolio equals zero.

In addition, if the general fund defaults in its obligations under the security-backed contract (including the issuer's determination that the agreement constitutes a non-exempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the general fund will receive the fair value as of the date of termination.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Wells Fargo Bank, n.a. Wells Fargo Bank, n.a. is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return earned on each fund.

6. PLAN TERMINATION

Although it has not expressed any intention to do so, the participating employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

7. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan Administrator by a letter dated September 29, 1995, that the Plan and related Trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plans' financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan as of December 31, 2010 and 2009, and for the years then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Wells Fargo Bank, n.a., the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	2010	2009
Statements of Net Assets Available for Benefits — Modified Cash Basis:		
Participant-directed investments at fair value as determined by quoted market price	\$ 13,655,804	\$ 12,404,311
Participant-directed investments at estimated fair value	6,406,456	5,714,822
Notes receivable from participants	306,546	380,516
Adjustment from fair value to contract value for fully benefit responsive investment contracts	(202,858)	(98,289)

During the years ended December 31, 2010 and 2009, investment income, as certified by the Trustee, includes interest and dividend income and net appreciation (depreciation) on investments. Net appreciation (depreciation) on investments includes gains and losses on investments bought and sold, as well as held during the year. Investment income is as follows:

	2010	2009
Statements of Changes in Net Assets Available for Benefits — Modified Cash Basis:		
Investment income	\$ 1,905,075	\$ 2,500,329
Interest income on notes receivable from participants	15,404	20,298

Supplemental schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year).

Notes 3 and 4: All investment balances and investment information in the notes, except for the classification of investments into levels within the fair value hierarchy.

9. SUBSEQUENT EVENTS

Subsequent events related to the financial statements — modified cash basis have been evaluated through August 31, 2011, which is the date the financial statements — modified cash basis were available to be issued, and the Plan has determined that there are no material events that required adjustment to the disclosures in these financial statements — modified cash basis.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of net assets available for benefits per the financial statements to the total net assets per the Form 5500 as of December 31, 2010, and the increase in net assets per the financial statements to the net income per the Form 5500 for the year ended December 31, 2010, is as follows:

Net assets available for benefits per the financial statements	\$ 20,165,948
Adjustment from contract value to fair value for fully benefit-responsive stable value fund	<u>202,858</u>
Total net assets per the Form 5500	<u>\$ 20,368,806</u>
Increase (decrease) in net assets per the financial statements	\$ 1,764,588
Adjustment from contract value to fair value for fully benefit-responsive stable value fund — December 31, 2010	<u>202,858</u>
Net income per Form 5500	<u>\$ 1,967,446</u>
