INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Holland & Knight Profit Sharing Plan and Trust and its Participants:

We were engaged to audit the accompanying statements of net assets available for benefits of the Holland & Knight Profit Sharing Plan and Trust (the Plan) as of December 31, 2010 and 2009, the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the Trustee executes investment transactions. The Plan administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF THE PLAN

The following description of the Holland & Knight Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General and Eligibility

The Plan is a defined contribution plan covering partners and employees of Holland & Knight LLP (the Firm). The Plan was established effective January 1, 1969. Members of a collective bargaining unit, non-resident aliens and leased employees are not eligible for the Plan. New employees are eligible for the Plan upon employment and are eligible to participate in Firm contributions after completing one year of service (at least 1,000 hours in a 12-consecutive-month period). Employees may begin to contribute to the Plan on January 1 or July 1 following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participant Contributions

Participants may contribute up to 75% of their pre-tax annual compensation, as defined by the Plan, not to exceed the maximum allowable contribution under the Internal Revenue Code (the Code). Effective January 1, 2009, employees may also make Roth contributions into the Plan. The maximum allowable contribution under the Code totaled $16,500 for the years ended December 31, 2010 and 2009. Participants who have attained age 50 before the end of the Plan year may make additional catch-up contributions, subject to limitations imposed by the Code. Participants are permitted to make rollover contributions to the Plan.

Firm Contributions

The Firm may make matching and non-elective profit sharing contributions to the Plan at its discretion. In order to share in Firm matching and non-elective profit sharing contributions, the participant must complete one year of service and be employed by the Firm as of the last day of the Plan year. Effective January 1, 2009, associate attorneys, senior counsel and contract attorneys are not eligible for matching or profit sharing contributions.

During the years ended December 31, 2010 and 2009, the Firm matched 25% of each eligible participant's contributions to the Plan, not to exceed 8% contributed by the participant for a maximum Firm contribution of 2%. Firm matching contributions totaled $1,635,112 and $1,732,173 during the years ended December 31, 2010 and 2009, respectively.

1. **DESCRIPTION OF THE PLAN – cont'd.**

Firm Contributions – cont'd.

The Firm made profit sharing contributions to the accounts of all eligible employees totaling a maximum of 3.86% of compensation for non highly compensated employees and 11.58% for highly compensated employees (not to exceed Section 415 annual limits). The minimum contribution totaled 3% up to the Social Security base wages of $106,800 and 6% of compensation exceeding the Social Security limits up to the IRS 401(a) compensation limit of $245,000 for the years ended December 31, 2010 and 2009. Profit sharing contributions totaled $13,009,824 and $12,770,175 for the years ended December 31, 2010 and 2009, respectively.

Participant Accounts

Each participant's account is participant-directed and credited with the participant's contributions and allocations of: (a) Firm contributions, (b) Plan earnings, and (c) administrative expenses. Any earnings, losses, and administrative expenses are allocated to each participant's account based upon the balance in each account.

Vesting

Participants are immediately vested in participant contributions and rollover contributions. Participating employees are subject to a six-year graduated vesting schedule for amounts credited to the Firm's profit sharing contribution account and the Firm's matching contribution account. Partners are subject to a three-year cliff-vesting schedule for amounts credited to the Firm matching and profit sharing contribution account.

Forfeitures

Forfeitures of Firm contributions are first applied to pay Plan expenses. The residual amount, if any, may be used by the Firm to offset Firm contributions for the Plan year. As of December 31, 2010 and 2009, forfeited nonvested accounts totaled $114,617 and $242,100, respectively. During the years ended December 31, 2010 and 2009, $198,278 and $205,487 of forfeitures were used to offset Firm contributions, respectively.

1. DESCRIPTION OF THE PLAN – cont'd.

Notes Receivable from Participants

Participants may borrow a minimum of $500 up to an aggregate maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Note terms range from one to five years or up to 15 years for the purchase of a primary residence. Only one regular note and one primary residence note are allowable per participant per year. Notes are secured by the vested balance in the participant's account and bear interest at a rate comparable to that charged by an independent lender. The notes must provide at least quarterly repayments paid under a level amortization schedule. Principal and interest payments are made ratably through payroll deductions. Effective May 27, 2009, a participant can have up to 5 notes outstanding at any one time.

Notes receivable from participants are measured at their unpaid balances plus accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Upon termination of service due to death, disability, or attainment of age 59 ½, a participant or their beneficiary, in the event of death, may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, a life annuity with guaranteed payment for 10 years or periodic installments over a period not exceeding the longer of the life expectancy of the participant or the joint life expectancy of the participant and the participant's spouse. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed by the participant may be withdrawn for a hardship purpose. Distributions are subject to the applicable provisions of the Plan agreement. Certain income taxes and penalties may apply to withdrawals or distributions prior to age 59 ½. As of December 31, 2010 and 2009, there were no net assets of the Plan allocated to accounts of participants who had elected to withdraw from the Plan but had not received such distributions as of year-end.

Administrative Expenses

All administrative expenses are paid with the assets of the Plan, unless paid by the Firm, at its discretion. During the years ended December 31, 2010 and 2009, the Firm paid a portion of the expenses related to the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their accounts.

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting.

Codification of Accounting Standards

Accounting Standards Codification (ASC) 105, *Generally Accepted Accounting Principles*, defines the Financial Accounting Standards Board (FASB) ASC as the single source of authoritative accounting principles generally accepted in the United States of America (US GAAP) recognized by the FASB to be applied by nongovernmental entities. ASC 105 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The ASC has superseded all existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the ASC is non-authoritative. With the adoption of ASC 105, the FASB no longer issues new standards in the form of Statements, FASB Staff Positions, or Emerging Issues Task Force Abstracts. Instead, the FASB issues Accounting Standards Updates, which serve only to: (a) update the Codification; (b) provide background information about the guidance; and (c) provide the bases for conclusions on the change(s) in the Codification. The adoption of ASC 105 did not have an impact on the Plan's financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to net assets and deductions from net assets during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd.

Investment Valuation and Income Recognition

All investments other than the cash surrender value of life insurance policies, preferred stock, and the common/collective investment trust are stated at fair value as determined by quoted market prices. Cash surrender values of life insurance policies are valued at their redemption values. Preferred stock has been valued at fair value as determined by independent appraisal. The fair value of the common/collective trust is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. See Note 4 for further information regarding fair value measurements.

As described in ASC 962, *Plan Accounting-Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust (the Fidelity Managed Income Portfolio). As required by ASC 962, the statements of net assets available for benefits present the fair value of the Fidelity Managed Income Portfolio and the adjustment from fair value to contract value. The fair value of the Plan's interest in the Fidelity Managed Income Portfolio is based on information reported by the issuer of the common/collective trust at year-end. The contract value of the Fidelity Managed Income Portfolio represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan provides for investments in assets that, in general, are exposed to risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur and materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd.

Recently Issued Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update No. 2010-06 (ASU 2010-06) entitled *Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements.* ASU 2010-06 amends the fair value measurements and disclosures topic of the ASC to add new disclosure requirements about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements in the reconciliation for fair value measurements using significant unobservable inputs under Level 3. It also clarifies existing disclosure requirements relating to the levels of disaggregation for fair value measurement and inputs and valuation techniques used to measure fair value. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for disclosures about purchases, sales, issuances, and settlements in the rollforward of activity in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of ASU 2010-06 did not have a material impact on the Plan's financial statements.

ASC 962 requires that participant loans be classified as notes receivable from participants on the statements of net assets available for benefits. This requirement is effective on a retrospective basis for interim or annual periods ending after December 15, 2010. The Plan adopted this requirement during the year ended December 31, 2010, and accordingly, participants loans are recorded as notes receivable from participants in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009.

The 2009 financial statements have been restated to reflect the change in valuation and presentation of participant loans. Loans were previously valued using a discounted cash flow analysis. Under ASC 962, loans must be reported as receivables at their unpaid balance plus accrued but unpaid interest. This change in valuation resulted in a decrease in 2009 net assets available for benefit of $369,838. The amount has been reflected as a component of net appreciation in fair value of investments on the 2009 statements of changes in net assets available for benefits.

Accounting for Uncertainty in Income Taxes

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. As the Plan is tax exempt and has no unrelated business income, the implementation did not have an impact on the Plan's financial statements. The Plan recognizes interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of December 31, 2010 and 2009.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - cont'd.

Accounting for Uncertainty in Income Taxes – cont'd.

The Plan is subject to routine audits by the IRS and Department of Labor; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject examinations for Plan years prior to 2007.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through October 6, 2011, the date the financial statements were available to be issued, and determined there were no material events that warrant disclosure.

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. Reclassifications consist of notes receivables from participants (Note 1) and investment classifications within fair value measurements (Note 4).

3. INVESTMENTS

The Plan's investments (including investments bought, sold and held during the year) appreciated (depreciated) in fair value as follows during the years ended December 31,:

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurement and Disclosures,* defines fair value as the amount that would be received for an asset or paid to transfer a liability (i.e., an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes the following three levels of inputs that may be used:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

4. FAIR VALUE MEASUREMENTS – cont'd.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2010 and 2009. The following is a description of the valuation methodologies used for assets measured at fair value.

Cash and cash equivalents: Valued at amortized cost which approximates fair value.

Interests in registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year-end. Shares are traded on an active market.

Interest in common/collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Other: Corporate obligations and U.S. government and government agency securities valued at fair value determined by quoted market prices. Cash surrender values of life insurance policies valued at their redemption values. Preferred stocks valued at fair value determined by independent appraisals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS – cont'd.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total

5. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan is invested in a fully benefit-responsive investment contract. The issuer maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the investment funds are fully benefit-responsive, contract value is the relevant measurement for that portion of the net assets available for benefits attributable to the investment funds. Contract value, as reported to the Plan by the issuer, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a periodic basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the issuer to terminate the agreement prior to the scheduled maturity dates.

The average yields of the fully benefit responsive contract are as follows as of and for the years ended December 31,:

	2010	2009
Based on actual earnings	2.72%	3.16%
Based on interest rate credited to participants	1.33%	1.20%

6. INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated November 7, 2003, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of investment funds managed by Fidelity. The Plan allows participants to take out notes receivable against their vested account balances. The Firm provides certain accounting and administrative services to the Plan for which no fees are charged. Such transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

8. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31,:
