Reedley, CA

We were engaged to audit the financial statements of Family Tree Farms, Inc. 401(k) Plan as of and for the years ended December 31, 2010 and 2009, and the supplemental schedule as of and for the year ended December 31, 2010 as listed in the table of contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by First Mercantile Trust Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

FAMILY TREE FARMS, INC. 401K PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

1. Summary of Plan Description

The following description of the Family Tree Farms, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General
The Plan is a defined contribution plan covering all full-time employees of the Company who are age twenty-one or older, with one year of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to the maximum percentage allowed by the Employee Retirement Income Security Act of 1974 (ERISA) of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a safe harbor matching contribution that will match 100% of the aggregate employee salary reduction contribution up to the first 4% of compensation. The matching contributions are invested at the same ratio as the participants select.

Participant Accounts
Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, (c) forfeitures, and charged with an allocation of administration expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Vesting in the Company's safe harbor match is 100% and immediate.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at 4.75%, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

1. Summary of Plan Description (continued)

Payment of Benefits
Upon termination of service, a participant whose balance exceeds $5,000 may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or in monthly, quarterly or annual installments. Participant accounts not exceeding $5,000 will be distributed in a lump-sum amount equal to the vested interest.

Forfeited Accounts
At December 31, 2010 and 2009 there were no forfeited nonvested accounts. Forfeitures may be used to reduce future employer matching contributions or used to reduce administrative expenses of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared using the accrual method of accounting.

Use of Estimates
The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation
In 2006, the Plan entered into a contract with First Mercantile Trust Company. First Mercantile Trust Company maintains the contributions in a managed segregated asset account. The account is divided into sub-accounts each of which is composed of a portfolio of participant directed investments. The contract and the Plan's investments are stated at fair value as reported to the Plan by First Mercantile Trust Company. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits
Benefits are recorded when paid.

Management's Review
In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 26, 2011, the date the financial statements were available to be issued.

3. Information Prepared and Certified By Custodian

3. Information Prepared and Certified By Custodian (continued)

During the fiscal years ending December 31, 2010 and 2009, the Plan's investments (including investments bought, sold and held during the year) appreciated in value as follows:

	2010	2009
Investments at Fair Value as Determined by Quoted Market Price:		
Registered Investment Companies	$ 66,465	$ 90,704
Net Change in Fair Value	$ 66,465	$ 90,704

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

4. Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Pooled separate accounts which wrap a single mutual fund as the underlying investment: The fair value of the mutual fund is a publicly quoted pricing input (level 1) and is used in determining the net asset value of the pooled separate account, which is not publicly quoted.

Guaranteed interest accounts: Fair value is the amount that the plan participants or plan sponsor would receive currently if they were to withdraw or transfer funds with the Plan prior to their maturity. Assigned input level 3.

Participant Loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may or may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010
