INDEPENDENT AUDITORS' REPORT

Board of Trustees
Millis Transfer, Inc.
Employee Stock Ownership and Savings Plan
Chippewa Falls, Wisconsin

We have audited the accompanying statement of net assets available for benefits (Form 5500, Schedule H) of the Millis Transfer, Inc. Employee Stock Ownership and Savings Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits (Form 5500, Schedule H) for the year ended December 31, 2010. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Millis Transfer, Inc. Employee Stock Ownership and Savings Plan as of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the year ended December 31, 2010, in conformity with accounting principles generally accepted in the United States.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule [Form 5500, Schedule H, Part IV, Line 4(i)] as of December 31, 2010, is presented for purposes of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Millis Transfer, Inc. Employee Stock Ownership and Savings Plan

Notes to Financial Statements

Note 1

Description of Plan

The following description of the Millis Transfer, Inc. Employee Stock Ownership and Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan with a 401(k) feature and is designed to comply with sections 401(a) and 4975(e)(7) and the regulations hereunder of the Internal Revenue Code of 1986 (the "Code"), as amended, and is subject to ERISA, as amended. The Plan is administered by Millis Transfer, Inc. (the "Company").

The Plan can purchase Company common shares using the proceeds of debt financing. As the Plan makes payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with the applicable regulations under the Code. Shares are subject to the Plan's vesting schedule. The Plan currently has no outstanding loans for the purchase of Company common stock.

The Plan owns 25,188.41 shares of common stock of Millis Transfer, Inc., the Plan's sponsoring company, at December 31, 2010.

Employees, subject to certain exclusions, are eligible to participate in the 401(k) after three months of service and attaining age 18 or older. Participants are eligible for ESOP contributions after one year of service and attaining age 21. Participants who do not have at least 1,000 hours of service during a plan year or are not employed on the last working day of a plan year are not eligible for an allocation of employer stock contributions for the year.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Starting September 2010, the Company reintroduced their company match of 20% of the first 15% of the participant's salary deferrals contributed during the year. Additional amounts may also be contributed at the option of the Company's Board of Directors. The Company may not make a contribution to the Plan for any plan year to the extent the contribution would exceed the Participant's maximum permissible amount.

Note 1 Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) plan earnings, and (c) ESOP forfeitures of terminated participants' nonvested accounts. The Company's contribution and ESOP forfeitures are allocated to the individual participant's account in the ratio which the individual's compensation bears to the total compensation of all participants. Plan earnings are allocated in proportion to the percentage of an individual participant's account balance to the total of all account balances.

Participants have the option of directing their account balance to one or more different investment composites or portfolios. The composite investment options available are Cash Equivalents, Fixed Income, Large Cap Equity, Small Cap Equity, and International Equity. The portfolio investment options available are Short-Term, Medium-Term, Long-Term, and All Equity. Company contributions made under provisions of the ESOP portion of the Plan are invested primarily in Company common stock.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting on the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is as follows:

Years of Service	Nonforfeitable Percentage
Less than 2	0
2	20
3	40
4	60
5	80
6 or more	100

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. Loan transactions are treated as a transfer from (to) the investment funds to (from) the participant loan fund. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 6% to 10%. Principal and interest are paid ratably through payroll deductions. All loans have a definite repayment period not to exceed five years.

Payment of Benefits

The Plan provides for payment of the entire balance in the participant's account upon retirement, death, or disability. The method of payment will generally be in the form of a lump sum or installments.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2010, the Company repurchased from participants 987.99 shares at prices determined from the independent appraisal.

Forfeitures

In accordance with the Plan, forfeitures are used to reduce employer contributions. Forfeitures are the amounts by which the value of a participant's account exceeds his or her vested interest. Forfeitures in the amount of \$49,912 were used to reduce employer contributions in 2010.

Put Option

Under Federal income tax regulations, the employer stock that is held by the plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1 Description of Plan (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Note 2 Summary of Accounting Policies

Basis of Accounting

The accounting records of the Plan are maintained on the accrual basis except for interest and dividends on investments, which are reported when received, and benefit payments to retired and terminated participants, which are reported when paid.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan's administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

The Plan's administrative fees are paid by the Company. The investment advisory, distribution, and loan fees are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2011, the date the financial statements were available to be issued.

Note 2 Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 3 Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Millis Transfer, Inc. Employee Stock Ownership and Savings Plan

Notes to Financial Statements

Note 3 Fair Value Measurements (Continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Stable value fund: Valued at the closing price reported in the active market in which the fund is traded.

Sponsor company stock: Investment in Sponsor Company Stock is stated at fair market value based on a valuation prepared by an independent appraiser using an income and market approach. The fair market value per share at December 31, 2010 was \$15.46.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value as of December 31, 2010 and 2009 :

	<i>Assets at Fair Value as of December 31, 2010</i>			<i>Total</i>

Note 4 *Administration of Plan Assets*

The Plan's assets are held by the Trustee of the plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the company or its subsidiaries. No such officer or employee receives compensation from the plan. Administrative expenses for the Trustee's fees are paid directly by the company.

The following investments represent 5% or more of the Plan's net assets,

Notes to Financial Statements

Note 7 Benefit Obligations

Net assets available for benefits at December 31, 2010 and 2009 include \$2,022,726 and \$1,715,804, respectively, allocated to the accounts of persons who as of, or prior to, that date had withdrawn from participating in the operations of the Plan. The affected participants have elected to defer distribution as allowed by the Plan.

Note 8 Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated May 6, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended for subsequent legislation. The Plan administrator and the Plan's tax counsel believe the Plan and related trust are designed and are currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
