Change in Actuarial Cost Method

The following change in funding method occurred during the Plan Year ending 12/31/2010, and is entitled to automatic approval pursuant to Announcement 2010-3.

There has been both a change in the enrolled actuary for the plan and a change in the business organization providing actuarial services to the plan.

The new method is substantially the same as the method used by the prior enrolled actuary and is consistent with the description of the method on the prior Schedule SB. The funding target and target normal cost, as determined by the new enrolled actuary (using the actuarial assumption of the prior enrolled actuary) are both within 5% of those values as determined by the prior enrolled actuary.
