INDEPENDENT AUDITORS' REPORT

To the Pension Committee
Lafarge North America Inc. Pension Plan for
Hourly Compensated Employees (Marblehead Stone)

We were engaged to audit the financial statements of Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Marblehead Stone) (the Plan) as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by State Street Bank and Trust Company and The Northern Trust Company, the Trustees of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that The Northern Trust Company held the Plan's investment assets and executed investment transactions from September 1, 2009 to December 31, 2010, and that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions for the period from January 1, 2009 to September 1, 2009. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the Trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Description of plan

The following description of the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Marblehead Stone) (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

The Plan, created in 1950, covers hourly employees who meet specified service requirements of Lafarge North America Inc.'s (the Company) facility located in Marblehead, Ohio. The Plan is a noncontributory defined benefit plan that provides for pension and disability benefits. The Plan provides for normal retirement at age 65 and the fifth anniversary of the participant's plan commencement date, with early retirement after age 60 and 10 years of credited service. The normal retirement benefit is reduced for benefits commencing immediately after early retirement. The Plan also provides for benefits to participants with at least 5 years of credited service who meet certain disability requirements. If a vested participant dies before electing to retire, his or her surviving spouse may be eligible to receive benefits. The Plan was amended and restated effective January 1, 2008, for the purpose of incorporating prior amendments and making certain other changes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The assets of the Plan and certain other pension plans of the Company are held in the Lafarge North America Inc. Master Trust (Master Trust). During the year ended December 31, 2010, assets in the Master Trust were held by the Northern Trust Company. During the year ended December 31, 2009, assets in the Master Trust were held by The Northern Trust Company and State Street Bank and Trust Company (the Trustees). At January 1, 2009, all assets in the Master Trust were held by State Street Bank and Trust Company. Effective September 1, 2009, all assets held by State Street Bank and Trust Company were transferred to The Northern Trust Company. Upon the order of the Company, the Trustees pay amounts to specified Plan beneficiaries. SEI Investments Company (SEI) currently acts as investment manager and has authority to invest and reinvest the Master Trust assets.

In compliance with the Tax Reform Act of 1986, participants of the Plan become fully vested after five years of credited service. The Company has contributed such amounts as it believes are necessary to provide assets sufficient to meet the benefits to be paid to the Plan's participants. These contributions are also sufficient to meet the minimum funding requirements of ERISA.

The Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination, all accrued benefits become 100% vested, and the net assets of the Plan are set aside for payment of such vested benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at the time of termination. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not, as described in the articles of the Plan.

Note 2 – Significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the accounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments – Investments are stated at fair value. Investment transactions are recorded at the trade date. The Plan's net interest in the Master Trust is stated at the fair value of the underlying net assets of the Master Trust as estimated by the Trustees. The investments in the Master Trust, including securities, are stated at fair value based upon quotations of national security exchanges or, for unlisted securities, upon quotations obtained by the Trustees from brokerage firms. Where investments comprise shares in commingled equity investment funds, estimated fair values were obtained by the Trustees from the administrator of such investment funds. Investments in mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Master Trust at year-end. Under the Master Trust, investment transactions, income on investments, and realized and unrealized appreciation and depreciation have been prorated by the Trustees among the plans based on each plan's proportionate share of the market value of the Master Trust on a monthly basis.

Cash and cash equivalents – For purposes of the disclosure of investments in the Master Trust (see Note 6), the Plan considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Cash and cash equivalents held in the Master Trust may include short-term investments held by institutions that are not covered by the Federal Deposit Insurance Corporation.

Risks and uncertainties – The Master Trust provides for investments in various investment securities, which are exposed to various risks such as interest rate, credit, and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Master Trust contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Administrative expenses – Administrative expenses include plan-specific expenses as well as expenses incurred by the Master Trust. Expenses related specifically to the Master Trust are allocated to the plans based on the ending market value of assets held in each plan as a percentage of total assets in the Master Trust.

Employer contributions and benefit payments – Employer contributions and benefit payments to participants are specifically identified by the plan administrator with respect to each plan, as reflected in the accompanying statements of changes in net assets available for benefits. Benefit payments are recorded when paid.

Accumulated plan benefits – Accumulated plan benefits (see Note 3) are those periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service as of their last date of employment. The accumulated plan benefits for active employees are based on credited service earned preceding the valuation date. Benefits payable under all circumstances (retirement, death, disability, and

termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Fair value measurement – The Fair Value Measurements and Disclosures Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) provides a single authoritative definition of fair value and enhanced guidance for measuring the fair value of assets and liabilities. It requires additional disclosures regarding the extent to which the Plan measures assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within level 1 of the valuation hierarchy.

Common stock – These investments are valued at the closing price reported on the New York Stock Exchange Composite Listing or other active market on which these investments are traded. These securities are classified within level 1 of the valuation hierarchy.

Cash and cash equivalents – These investments are public investment vehicles valued using $1 for the NAV, and are classified within level 1 of the valuation hierarchy.

Recent accounting pronouncements – In January 2010, the FASB issued guidance to improve disclosures regarding fair value measurements. The update requires entities to (i) disclose separately the amounts of significant transfers in and out of level 1 and level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in level 3 fair value measurements. The update requires fair value disclosures by class of assets and liabilities rather than by major category or line item in the statements of net assets available for benefits. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both

level 2 and level 3 are also required. For all portions of the update except the gross presentation of activity in level 3 roll forward, this standard is effective for interim and annual reporting periods beginning after December 15, 2009. For the gross presentation of activity in the level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. In the period of initial adoption, this guidance does not require comparative presentation of new disclosure requirements for previous periods. As this guidance is only disclosure related, it did not have any changes to the carrying value of the investments on the statements of net assets available for benefits as of December 31, 2010 and 2009.

Note 3 – Actuarial present value of accumulated plan benefits

The actuarial information is based on reports prepared by the Plan's actuary, Towers Watson, as of January 1, 2010. The actuarial calculations are based on participants becoming fully vested after five years of continuous service. Employer contributions to the Plan are calculated in accordance with the Company's policy of funding an amount within the minimum required and the maximum allowable contributions as calculated each year in accordance with ERISA regulations. The Company's contributions for 2010 and 2009 exceeded the minimum funding requirements of ERISA.

The actuarial present value of accumulated plan benefits was calculated using the present value of accrued benefits method as required by the Pension Protection Act of 2006 (PPA). As of January 1, 2010, significant assumptions underlying the actuarial computations include an effective interest rate of 6.68%, the use of the RP-2000 Employees and RP-2000 Healthy Annuitants mortality tables used for the calculation of the current liability, and the assumption that retirement takes place at the age of 65. The actuarial value of assets was determined using the average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, with certain adjustments made for contributions, benefits, administrative expenses and expected earnings. Additionally, the funding interest rate changed from IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date to the IRS prescribed segment rates without 3-year transition based on bond yields through the August preceding the valuation date.

The actuarial present value of accumulated plan benefits as of January 1, 2010 is as follows:

Vested benefits	
Participants currently receiving payments	$ 697,574
Other participants	1,878,539
Total vested benefits	2,576,113
Non-vested benefits	35,167
Total actuarial present value of accumulated plan benefits	$ 2,611,280

The following is a summary of the changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2010:

Actuarial present value of accumulated plan benefits, beginning of year	$ 2,330,852
Increase (decrease) during the year attributable to:	
Benefits accumulated	62,556
Increase for interest due to decrease in discount period	171,421
Benefits paid	(92,148)
Assumption changes	78,304
Plan amendments (Note 5)	60,295
Net increase	280,428
Actuarial present value of accumulated plan benefits, end of year	$ 2,611,280

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 – Income tax status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated January 14, 2009 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2007.

Note 5 – Changes in Plan provisions

Plan provisions have been updated to correspond with IRS guidelines and negotiated collective bargaining agreements for certain covered groups. These changes did not have a material impact on the Plan's financial statements.

Note 6 – Investment in the Master Trust

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2010 and 2009 and net investment income in the Master Trust for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustees. The Trustees have also certified the Plan's proportionate share of such items to be complete and accurate.

Effective September 2009, all assets previously held in the Blue Circle Heritage Master Trust, totaling $4,938,496, were transferred into the Master Trust. Assets in the Master Trust were transferred from State Street Bank and Trust Company to The Northern Trust Company at this time.

Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Trustees. At December 31, 2010 and 2009, the Plan's interest in the investments of the Master Trust was approximately .54% and .50%, respectively.

The following table presents the fair values of investments in the Master Trust:

	December 31,	
	2010	2009
Investments at fair value, as determined by quoted market prices:		
Common stock	$ -	$ 68,194
Mutual funds	502,250,899	438,216,898
Cash and cash equivalents	3,117,332	3,116,726
	$ 505,368,231	$ 441,401,818

Investment income for the Master Trust was as follows:

	Year ended December 31,	
	2010	2009
Net appreciation in fair value of investments	$ 48,069,320	$ 80,897,451
Interest and dividends	12,829,917	9,206,540
	$ 60,899,237	$ 90,103,991

During the years ended December 31, 2010 and 2009, substantially all of the net appreciation in fair value of investments is attributable to mutual funds.

The fair value of individual investments that represent 5% or more of the Master Trust's net assets are as follows:

	December 31,	
	2010	2009
SEI Instl Invts Tr Large Cap Disciplined Equity Fund	$ 98,721,001	$ 93,260,758

* Investments < 5 % of Master Trust net assets at end of plan year

See "Fair value measurement" in Note 2 above for discussion of the methodologies and assumptions used to determine the fair value of the Master Trust's investments.

Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Marblehead Stone) Assumptions and Methods

Economic Assumptions

Funding interest rate basis:

— Applicable month	September 2009
— Yield curve basis	Segment rates
— Transition from current liability rates	No

Funding interest rate:

▸ First segment rate	5.03%
▸ Second segment rate	6.73%
▸ Third segment rate	6.82%
For plan reporting (formerly FAS 35)	7.50%

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefit
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year

Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.
Benefits Not Valued	All benefits described in the Plan Provisions of this report were valued except (unless otherwise stated) plant shutdown and other "unpredictable contingent event benefits" which are not valued until and unless the triggering event occurs. Towers Watson is not aware of any significant benefits required to be valued that were not.

Change in Assumptions & Methods

The funding interest rate changed from the IRS prescribed one-month average yield-curve based on bond yields during the October preceding the valuation date to the IRS prescribed segment rates without 3-year transition based on bond yields through the August preceding the valuation date.

The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.

The assumption for administrative expenses included as part of the target normal cost, was changed from the prior year.

Data Sources

Towers Watson used asset data and retiree data supplied by the trustees. Lafarge North America Inc. furnished other participant data and the dates and amounts of the contributions that were paid in 2010. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by the Towers Watson actuaries when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

At the end of 2010, Lafarge amended the Lafarge North America Inc. Pension Plan for Hourly Compensated Employees (Marblehead Stone) ("Marblehead Plan") to provide for a schedule of benefit improvements pursuant to collective bargaining, including the following multiplier increases:

Effective May 16, 2010, the pension benefit multiplier for active participants who terminate on or after that date increased from $31.00 to $34.00. For participants with ten or more years of service the disability pension multiplier also increased from $31.00 to $34.00. For participants with fewer than ten years of service the disability pension multiplier increased from $26.00 to $29.00.

Monthly preretirement death benefit	50% of the accrued monthly pension benefit as of the date of death, reduced for 50% joint and survivor election and reduced for payment as early as the participant's earliest retirement date.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	The first day of the month coinciding with or next following the attainment of age 60 with 10 years of credited service.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reason other than death or retirement after completing 5 years of credited service.
Disability retirement	A participant who is unable to obtain gainful employment by reason of physical or mental disability, and if such disability continues for at least six months and the participant is eligible for company long-term disability benefits, will be eligible for plan disability benefits.
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit actuarially reduced if payments commence prior to age 65.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit is equal to the accrued normal retirement benefit as of the date of termination. If the benefit starts before normal retirement date, the benefit will be actuarially reduced.
Disability retirement	The monthly pension benefit prior to May 16, 2006 is $11.00; the monthly pension benefit effective May 16, 2006 is equal to $22.50 multiplied by credited service. The benefit multiplier increases to $24.00 effective May 16, 2007; $25.00 effective May 16, 2008; $26.00 effective May 16, 2009. Benefits begin immediately and are not subject to early retirement reductions. At age 65, the benefit is recalculated using the service they would have had at the time and the normal retirement benefit multiplier in effect on the date of his disability retirement. Effective May 16, 2006 for employees with 10 years of credited service, the disability benefit is the monthly pension benefit.
Preretirement death	Monthly preretirement death benefit on behalf of both active and terminated vested employees are reduced as described above.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity, or, if the participant elects and the spouse consents, an actuarially equivalent 75% joint and survivor annuity. Actuarial equivalence for optional form conversion: — Participant mortality: GAM 1971 Male — Beneficiary mortality: GAM 1971 Male Interest rate: 5.00%
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

Towers Watson is not aware of any future plan changes which are required to be reflected, or Lafarge has elected to reflect, other than any scheduled pension increases during the plan year.

Change in Plan Provisions Since Prior Year

New pension multipliers were adopted since the prior valuation.
