Independent Auditors' Report

The Plan Administrator and Participants
NTR Metals 401(k) Retirement Plan

We were engaged to audit the financial statements and the supplemental schedule of the NTR Metals 401(k) Retirement Plan, (the "Plan") as of December 31, 2010, and for the year ended December 31, 2010 as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by John Hancock Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the NTR Metals 401(k) Retirement Plan, as of December 31, 2009, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting, in the form of financial statements, information that is the representation of management. 1. Description of Plan

The following description of the NTR Metals 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan available to qualifying employees of NTR Metals, LLC and NTR Metals West, LLC (collectively, the "Company"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility
All employees, excluding members of a collective bargaining unit and non-resident aliens, who have completed one month of service and attained the age of 18 are eligible to participate in the Plan.

Contributions
Participants may elect to contribute a percentage of their eligible compensation, as defined by the Plan, subject to certain Internal Revenue Service ("IRS") limitations. All employees are automatically enrolled at 3% when they become eligible unless a positive election is made declining participation in the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Such contributions and any earnings thereon are nontaxable until withdrawn from the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution or benefit plans.

The Company, at its discretion, may contribute on behalf of each participant a matching contribution equal to a percentage of the participant's elective deferrals. The Company may also make discretionary non-elective contributions. The amount contributed will be allocated proportionately based on the participants compensation compared to the total compensation in the group (Group A: Owners, Group B: Non-owners). No discretionary matching contributions or non-elective contributions were made by the company for the years ending December 31, 2010 or 2009.

Participant Accounts
Each participant's account is credited with the participant's voluntary contributions and any Company contributions. Earnings are credited to each participant account based on the performance of the underlying investments. Participants may direct the investment of their account balances into various investment options offered by the Plan.

Vesting
Participants are immediately vested in their voluntary and rollover contributions plus any earnings thereon. Participants become 100% vested in discretionary Company matching and non-elective contributions plus any earnings thereon ratably over five years of service. Participants are credited with a year of service for each plan year in which they earn 1,000 hours of service.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010 and 2009

1. Description of Plan (continued)

Payment of Benefits
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive their vested benefit in either a lump-sum distribution or a direct rollover distribution. Participants who are still employed by the Company but have reached age 59 ½ may withdraw all or any part of their vested balance, subject to Plan provisions.

Forfeitures
Forfeitures by non-vested participants may be used to reduce employer contributions. As of December 31, 2010 and 2009, no unallocated forfeitures were available for future use.

Administrative Expenses
The Company pays certain administrative expenses incurred by the Plan, including recordkeeping, trustee and audit fees. Transaction costs borne by the Plan are charged to the individual participant who initiated the transaction to which the charge relates by reducing the participant's account balance.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Risks and Uncertainties
The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Benefit Payments
Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and non-forfeitable.

Subsequent Events
Subsequent events have been evaluated through the date of the independent auditors' report.

3. Investments

The fair value of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2010 and 2009 are summarized as follows:

	2010		2009	
Retirement Living at 2040	**$ 203,389**		$ -	*
Retirement Living at 2035	**132,227**		-	*
Lifestyle Aggressive	**112,053**		49,690	
Lifestyle Growth	**112,834**		65,060	
John Hancock Stable Value	**61,711**		49,042	
Lifecycle 2035	**-**	*	37,824	
Lifecycle 2040	**-**	*	139,270	

* Fund balance did not represent 5% or more of the fair value of net assets available for benefits. Information has been included for comparative purposes.

4. Information Certified by the Plan's Custodian (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information as of December 31, 2010 and 2009, included in the accompanying financial statements and supplemental schedule has been certified by the custodian as complete and accurate:

	2010	2009
Pooled separate accounts	**$ 1,130,635**	$ 482,342

The following investment income information for the year ended December 31, 2010 has been certified as complete and accurate by the custodian:

	2010
Net appreciation in fair value of pooled separate accounts	**$ 120,677**

As permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to the information certified to by the Plan trustee except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 inputs).

The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2010.

5. Fair Value Measurements (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:

6. Tax Status

The Plan uses a volume submitter plan document sponsored by Paragon TPA Group, Inc. ("Paragon"). Paragon received an opinion letter from the Internal Revenue Service (IRS) dated October 24, 2008, which states that the volume submitter document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:
