Omnicare Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description

The following description of Omnicare Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - Effective August 1, 1998, Omnicare, Inc. established the Plan. The Plan is a defined contribution plan covering certain full time employees of Omnicare, Inc. (the "Company") and its participating subsidiaries, except those covered under collective bargaining agreements. The Plan's trustee since September 1, 1995 has been Charles Schwab Trust Company. The Plan was amended and restated effective January 1, 2006 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). As of December 31, 1998, all shares of Omnicare stock have been allocated and as of January 1, 1999, generally all employer contributions are made directly into the Omnicare Employees' Savings and Investment Plan.

Contributions - Omnicare may make discretionary employer contributions to the Plan. Plan participants are not permitted to make contributions to the Plan; however, participants must have contributed to the Omnicare Employees' Savings & Investment Plan in order to receive benefits under the Plan. Employer contributions are invested in Omnicare stock.

Participant Accounts - Participants were permitted to diversify the investment in all or a portion of their account that is invested in Omnicare common stock after 10 years. Effective January 1, 2007, participants may diversify their Omnicare common stock investment after three years of service. Eligible diversification amounts will be based on the participant's age. The Plan offers seven mutual funds and a self-directed brokerage account (the Personal Choice Retirement Accounts (PCRA)).

Each participant account is credited with an allocation of the Plan's earnings. Allocations are based on the participants' respective account balances.

Vesting - Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service and an additional 20 percent after each additional year of service until they become fully vested after six years of service.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account or in the form of Company common shares plus cash for any fractional shares.

Omnicare Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 1 - Plan Description (Continued)

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to pay plan expenses or are reallocated to participants at the Company's discretion. At December 31, 2010 and 2009, forfeited account balances totaled \$76,034 and \$69,652, respectively.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Charles Schwab Trust Company or its affiliates. Charles Schwab Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The money market funds are valued at their outstanding balances, which approximates fair value. Investments in partnerships/joint venture interest are valued based the net asset value based on the fair value of the underlying investments, which is based on audited financial statements of the funds where available, with adjustments to account for partnership activity and other applicable valuation adjustments. All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Omnicare Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 19, 2011, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Charles Schwab Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying 2010 financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Transfers to participant-directed investments	(542)

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2010 and 2009 and the valuation techniques used by the Plan to determine those fair values.

Level I - In general, fair values determined by Level I inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Omnicare Employee Stock Ownership Plan

Notes to Financial Statements December 31, 2010 and 2009

Note 5 - Fair Value Measurements (Continued)

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
