ROBERT FOX, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2010 AND 2009
AND FOR THE YEAR ENDED DECEMBER 31, 2010

1. Description of Plan

The following description of the Robert Fox, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated July 1, 2009, is a participant-directed defined contribution plan covering all eligible employees of Robert Fox, Inc. and its wholly-owned subsidiary, Orchard Apparel Group, Ltd. (collectively referred to as "Employer") with one year of service who have reached the age of twenty-one. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute to the Plan amounts not less than 1% of compensation, as defined, up to a maximum percentage as determined by the Plan administrator. The Plan requires an automatic deferral contribution of 3% of compensation for new employees, unless the participant elects not to make a contribution or elects a different percentage. Such contributions are excluded from the participant's Federal taxable income until received as a withdrawal or distribution from the Plan. Participants may also contribute amounts representing rollover distributions from other qualified plans. The employer may make discretionary matching contributions to the Plan. For 2010, the employer matching contribution was 25% of the first 4% of base compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with the participant's contribution, earnings (loss) and an allocation of the Employer's contribution. Allocations of Employer contributions are based on the participants' salary deferral. As a participant-directed plan, each participant's investments determine their share of earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The value of each investment is determined on a daily basis.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in employer's matching contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested in employer's contributions and earnings thereon after 6 years of credited service.

Participant Investment Options

Upon enrollment in the Plan, participants may direct their contributions in various investment alternatives made available by the Employer under the Plan. Participants may change their contribution investment options daily, transfer part or all of past investments to other funds daily, and may elect to change their deferral percentage or stop making contributions at any time.

1. Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their vested fund account balance a minimum of $1,000 and up to a maximum equal to the lesser of (a) $50,000 reduced by the highest outstanding Plan loan balance during the preceding year or (b) one-half of the value of their vested fund account balance reduced by any outstanding loan balance. The maximum payment term allowed for any loan will be five years (unless the loan is for the purchase of a principal residence in which case the term may not exceed 30 years) with interest fixed at prime rate plus 1% at the time of the approval of the loan. The loans are measured at their unpaid principal balance plus any accrued but unpaid interest. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 10.25%. Principal and interest are paid ratably through payroll deductions. Loans mature at various dates through July 2015.

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account will be reinstated. At December 31, 2010 and 2009, forfeited non-vested accounts were immaterial. Unvested forfeitures may be used to pay expenses of the Plan, then to reduce the Employer's matching contribution.

Hardship Withdrawals

Hardship withdrawals by the Plan participants may be made upon written request and approval of the Plan administrator. The distribution is limited to the value of the vested interest in their account.

Payment of Benefits

On termination of service due to death, disability or retirement, as defined in the Plan, participants are generally entitled to a fully vested lump-sum payment of their account balance. For termination of service due to other reasons, participants are entitled to the value of the vested interest in their account as a lump-sum distribution. The Plan shall make automatic rollovers of vested account balances that are not more than $5,000, if participant does not make own cash or rollover election.

Expenses of the Plan

Certain administrative functions are performed by officers or employees of the Employer. No such officer or employee receives compensation from the Plan. Certain Plan expenses are deducted from participant accounts, and the remainder of the Plan expenses are generally paid by the Employer.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Pooled separate investment accounts and mutual funds are valued at the net asset value of shares or units held by the Plan. Common collective trust funds are valued at the sum of the market value of all of the trust's investments. There have been no changes in the methodologies used at December 31, 2010 and 2009.

In accordance with the authoritative guidance of the Financial Accounting Standards Board ("FASB"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment in a common collective trust should be stated at fair value and then adjusted to contract value as discussed above because the investment contract is fully- benefit responsive. The difference between fair value and contract value at December 31, 2010 and 2009 is immaterial, and accordingly, no adjustment to fair value is required. Withdrawals or transfers prior to maturity were based on fair market value.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

2. Summary of Significant Accounting Policies (Continued)

Benefits to Participants

Participants' benefits are recorded when paid.

Deemed Distributions

Deemed distributions are recorded when a participant ceases making repayments on a loan from the Plan. These amounts are no longer included in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through the date these financial statements were issued, October 13, 2011.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-6, Improving Disclosures about Fair Value Measurements ("ASU 2010-6") which provides amendments to ASC Topic 820, Fair Value Measurements and Disclosures ("ASC 820"). ASU 2010-6 requires entities to make new disclosures about recurring or nonrecurring fair value measurements of assets and liabilities, including (i) the amounts of significant transfers between Level 1 and Level 2 fair value measurements and the reasons for the transfers, (ii) the reasons for any transfers in or out of Level 3, and (iii) information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of recurring Level 3 fair value measurements. The FASB also clarifies existing fair value measurement disclosure guidance about the level of disaggregation of assets and liabilities, and information about the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. Except for certain detailed Level 3 disclosures, which are effective for fiscal years beginning after December 15, 2010, and interim periods within those years, the new guidance became effective during 2010. The Plan did not have any transfers of assets and liabilities in or out of Level 1 and Level 2 fair value measurements. The adoption of this disclosure only guidance is included in Note 4 - Fair Value Measurements and did not have an impact on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans ("ASU 2010-25")*. ASU 2010-25 requires that participant loans be measured at their unpaid principal balance plus accrued interest and be reflected as notes receivable in the Statement of Net Assets Available for Benefits. ASU 2010-25 is effective for fiscal years ended after December 15, 2010, and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loan balances were reclassified from investments at fair value to notes receivable from participants in the Statement of Net Assets Available for Benefits as of December 31, 2010 and 2009.

2. **Summary of Significant Accounting Policies (Continued)**

Reclassifications

Certain 2009 items have been reclassified to conform to the 2010 presentation.

3. **Information Certified by the Custodians**

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company ("Principal Life") and MG Trust Company, LLC ("MG"), except for comparing such information certified by the custodians to information included in the Plan's financial statements and supplemental schedule.

Principal Life, as the custodian of the Plan, held all the Plan's investment assets and executed investment transactions for the period from January 1, 2009 to July 6, 2009.

Effective July 7, 2009, MG became the new custodian. MG held the Plan's investment assets and executed investment transactions from July 7, 2009 to December 31, 2010, except for one investment, Principal Life U.S. Property Account, which remained with Principal Life until the final amount was transferred to MG in October 2010. The Plan administrator has obtained certifications from the custodians that the information provided to the Plan administrator by the custodians as of December 31, 2010 and 2009 and for the year ended December 31, 2010 is complete and accurate.

3. **Information Certified by the Custodians (Continued)**

The following table summarizes the investments in the Plan that were certified as to their accuracy and completeness by the Custodians. Single investments that represent five percent or more of the Plan's net assets are separately identified (*).

	2010	2009
Principal Life Insurance Company:

MG also certified to the completeness and accuracy of $228,112 of net appreciation in fair value of investments and $42,017 of dividends related to the aforementioned investments for the year ended December 31, 2010. In addition the custodian certified to the cash balances of $7,631 and $7,701 as of December 31, 2010 and 2009, respectively.

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by $234,308 as follows:

Pooled separate investment accounts	$ 6,196
Common collective trust	5,565
Mutual funds	222,547
	$ 234,308

4. Fair Value Measurements

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

As of December 31, 2010:

	Level 1	Level 2	Total
Mutual funds	$ 3,102,701	$ -	$ 3,102,701
Common collective trust	-	269,113	269,113
Total investments at fair value	$ 3,102,701	$ 269,113	$ 3,371,814

4. Fair Value Measurements (Continued)

As of December 31, 2009:

	Level 1	Level 2	Level 3	Total

Total investments at fair value	$ 2,427,726	$ 214,050	$ 150,307	$ 2,792,083

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2010:

	Pooled Separate Investment Account
Balance, beginning of year	$ 150,307
Purchases, sales, issuances, and settlements (net)	(150,307)
Balance, end of year	$ -

5. Related Party Transactions

Certain Plan investments are investment accounts managed by the custodians, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

6. Plan Amendments

The Employer has the right under the Plan to amend the Plan at any time.

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

8. Tax Status

The Company adopted, effective July 1, 2009, a standardized Prototype 401(k) Savings Plan, sponsored by ExpertPlan, Inc., which received a favorable opinion letter from the Internal Revenue Service ("IRS"), dated March 31, 2008, as to the prototype Plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the IRC. Accordingly, no provision for income taxes has been included in the Plan's financial statements. The Plan is currently under examination from the IRS for Plan year ended December 31, 2009.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits at December 31, 2010 and 2009 from the financial statements to the Form 5500:
