TRENTON TECHNOLOGY 401(k) PLAN

We were engaged to audit the accompanying financial statements of the **TRENTON TECHNOLOGY 401(k) PLAN** as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedule as of and for the year ended December 31, 2010, as listed in the table of contents. The financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information described in Note 5, which was certified by the State Street Bank and Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and schedule other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Trenton Technology 401(k) Plan (the "Plan") is provided for only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code. The Plan is funded by employee and employer contributions and covers substantially all eligible employees of Trenton Technology Inc. (the "Company") who have completed twelve months of service and are at least 21 years of age. Investment fees are paid by the Plan through a reduction of investment income. The assets of the Plan are maintained in investment funds held by State Street Bank and Trust (State Street), the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may authorize an elective deferred contribution of eligible earnings in 1% increments, up to 15% or the maximum annual contribution limitations as provided by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company's match of employee contributions is 40% of the participant's contributions, up to 3% of the employee's deferrals each payroll period. Participants direct the investment of their contributions and any employer matches or discretionary contributions into various investment options offered by the Plan. Participants may change their options on a daily basis.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (*a*) the Company's contribution and (*b*) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in both their elective deferrals into the Plan and also the employer's matching contribution plus actual earnings thereon.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 – DESCRIPTION OF PLAN – Continued

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum amount of the lesser of $50,000 or 50% of their vested account balance. The maximum loan term is 5 years and may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump sum distribution equal to the vested balance in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant of at least 59-1/2 years of age may also be eligible to receive in-service distributions subject to other requirements.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 6 for a discussion of investment contracts.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net Appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Subsequent Events

Management has evaluated subsequent events through October 12, 2011, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires new disclosures for transfers in and out of Level 1 and 2 classifications and more detail about the activity in Level 3 fair value measurements. The new guidance also clarifies previous disclosure requirements by increasing the level of disaggregation to the class level for investments and by requiring more disclosures about inputs and valuation techniques for fair value measurements in Level 2 and Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for reporting the activity in Level 3 which is effective for fiscal years beginning after December 15, 2010. The partial adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or changes in net assets available for benefits. See Note 4 – Fair Value Measurements for expanded disclosures.

In September 2010, the FASB issued new guidance for reporting loans to participants by defined contribution plans. The new guidance requires that participant loans be classified as notes receivable from participants, which are segregated from Plan investments, and measured at their unpaid principal balances plus any accrued but unpaid interest. Previously, loans were measured at fair value and classified as investments. This guidance is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. The adoption of this guidance did not have a material effect on the Plan's statements of changes in net assets available for benefits. Participant loans have been reclassified to notes receivable from participants in the statements of net assets available for plan benefits as of December 31, 2009.

NOTE 3 – INVESTMENTS

At December 31, 2010 and 2009, the fair market value of the Plan's investments that represent 5% or more of the Plan's net assets consisted of the following:

	2010	2009
State Street S&P Mid Cap Index Fund	$ 481,195	$ 361,133
State Street Stable Value Fund	389,179	366,833
State Street Government Money Market Fund	228,844	241,961
State Street S&P 500 Index Fund	202,561	134,219
State Street Large Cap Blend Fund	178,305	157,376
Neuberger Berman Partners	153,615	148,200
George Putnam Balanced Fund	140,017	142,959
State Street International Index Fund	139,548	130,545
T. Rowe Price Mid Cap Value	135,811	109,289

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and the lowest priority to unobservable inputs (level 3 inputs). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS – Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Interest-Bearing Cash: Valued at cost plus interest.

Mutual Funds: Valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common/Collective Trusts: Valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of units outstanding.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the fair value of the Plan's assets recorded at fair value as of December 31, 2010.

Assets at Fair Value as of December 31, 2010

NOTE 5 – INFORMATION CERTIFIED BY TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained a trustee certification from the State Street Bank and Trust Company as of December 31, 2010 and 2009 and for the years then ended. All investment information disclosed in the accompanying financial statements as of December 31, 2010 and 2009 and supplemental schedule including investments and notes receivable from participants held at December 31, 2010 and net appreciation in fair value of investments, interest, dividends and investment expenses for the years ended December 31, 2010 and 2009 were obtained or derived solely from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 6 – STABLE VALUE FUND

The Plan invests in investment contracts indirectly through the SSGA Stable Value Fund held with State Street Bank and Trust Company. The contracts are considered to be fully benefit responsive and are required to be reported at contract value. The Plan's investments in the SSGA Stable Value Fund are reported at contract value in the statements of net assets available for benefits and in the statements of changes in net assets available for benefits. As of December 31, 2010 and 2009, the contract value of the SSGA Stable Value Fund approximated fair value and therefore there was no adjustment to contract value reflected in the statements of net assets available for benefits.

The actual yield of the SSGA Stable Value Fund earned by the Plan at December 31, 2010 and 2009 was 2.42% and 3.53%, respectively.

NOTE 7 – TAX STATUS

The Internal Revenue Service has ruled that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan utilizes the ADP Non-Standardized Prototype Profit Sharing Plan updated and approved on September 29, 1999. The Plan Administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

State Street Bank and Trust Company is the Trustee of the Plan's assets. As such, transactions between State Street Bank and Trust Company and the Plan qualify as party-in-interest transactions. Transactions involving participant loans also qualify as party-in-interest transactions.
