INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Stevens Transport, Inc. 401(k) Plan and Trust

We were engaged to audit the financial statements of Stevens Transport, Inc. 401(k) Plan and Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of and for the year ended December 31, 2010 as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Hartford Life, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2010 AND 2009

Note 1 – Plan Description

The following description of the **STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Stevens Transport, Inc. (the Company), Paragon Leasing and Stevens Transport TL, Inc. who are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Beginning in 2006, the plan does not require one year of service before enrollment.

Contributions – Beginning in 2007, participants may make tax deferred contributions of up to 100% of their covered compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The Company will contribute 50% of the first $800 of each participant's elective deferrals as a matching contribution. Participants are not eligible for employer matching until one year of employment. The Company may also make an annual discretionary contribution. Contributions are subject to federal statutory limits. Forfeitures of matching contributions are applied to reduce administrative costs. The Plan does allow for rollover distributions from other qualified plans.

Participant Accounts – Each participant's account is credited with the participant's contributions, the employer matching contributions and an allocation of the Company's discretionary contribution, if any, plan earnings, and charged with losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service. A participant is 100% vested after six years of credited service based on increases of 20% per year beginning after two years. A participant will also become 100% vested when that participant dies, becomes disabled or reaches 65 years of age.

Distributions and Loans – Hardship distributions are allowed as are distributions on or after a participant reaches 59-1/2 years of age. Loans are also allowed.

Payment of Benefits – On termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her vested account balance or may elect installment payments.

Investment Funds – All of the Plan's investments are participant-directed. Participants have the option of directing their contributions to any combination of approximately 29 funds under a group annuity contract with Hartford Life Insurance Company. All Company contributions are also invested in accordance with each participant's direction.

Forfeited Accounts - At December 31, 2010 and 2009 forfeited non-vested accounts totaled $5,389 and $3,834, respectively. These accounts will be used to reduce future administrative costs. Also, in 2010, $6,350 was used to offset administrative and investment expenses of the Plan.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through October 12, 2011, which is the date the financial statements were available to be issued.

Basis of Accounting - The accompanying financial statements have been prepared on the modified cash basis. That basis differs from generally accepted accounting principles because changes in net assets available for benefits with respect primarily to contributions and expenses are recorded when received and paid, respectively, rather than when earned and incurred, respectively. Investments are reported at fair value under both methods of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The investment contract with Hartford Life is valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements. If available, quoted market prices are used to determine the fair values of each underlying mutual fund within the pooled separate accounts included in the Hartford contract. The Plan's investments represent its units of participation in the mutual funds underlying each pooled separate account. Interest income is recorded on the modified cash basis. The fair value of the fixed account is calculated using a market value adjustment factor formula under the contract with Hartford. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. The Plan provides an allowance for doubtful participant loans, which is based upon a review of outstanding loans, participant investment account balances, and existing economic conditions. The notes are secured by the vested balance in the participant's account and cannot exceed 50% of the account value at the time of the loan. Delinquent receivables are written off based on individual participant account evaluation and specific circumstances of the participant.

Payment of Benefits – Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies (continued)

Adoption of New Accounting Standards – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06 which amends Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 disclosures which are required in 2011. The adoption in 2010 did not materially affect and the future adoption is not expected to materially affect the Plan's financial statements.

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan has adopted this new guidance in its December 31, 2010 financial statements and has reported participant loans of $544,655 and $529,710 at December 31, 2010 and 2009, respectively, as notes receivable from participants. Net assets of the Plan were not affected by the adoption of this new guidance.

Note 3 – Investments

The Plan has a benefit responsive investment contract with Hartford Life. Hartford maintains the contributions in several pooled separate accounts and in a fixed account, which is invested in the general account of Hartford. The accounts are credited with earnings on the underlying investments (see below) and are charged with losses, withdrawals and expenses. The contract is included in the financial statements at fair value as reported to the Plan by Hartford. Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the net assets available for benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value and the fair value are the same for the pooled separate accounts. An adjustment to the contract value, as reported to the Plan by Hartford, for the fixed account has been reflected in the financial statements for 2010 and 2009. In the event that the contract for the fixed account is terminated, a market value adjustment would be made which could limit the Plan's ability to transact at contract value with participants.

The average yield and crediting interest rate for the fixed account was approximately 3.00% for 2010 and 2009. The crediting interest rate on the Fixed Account may be changed from time to time by Hartford. There are no reserves against contract value for credit risk of the contract issuer.

Information Certified by the Custodian (unaudited) - The Plan's investments were held by Hartford Life Insurance Company, the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by Hartford Life as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The contract value of the funds under pooled separate accounts and the fixed account at December 31, 2010 and 2009 as reported by Hartford Life is summarized as follows:

Additionally, the information included in the supplemental schedule of assets held for investments is compiled from information certified by Hartford Life.

Investments representing 5% or more of the net assets consist of the following in 2010 were: Hartford Small Company HLS, Janus Twenty, Fixed Account, and Fidelity VIP Contra Fund. Investments representing 5% or more of the net assets consist of the following in 2009 were: Hartford Money Market HLS, Janus Twenty, Fixed Account, and Fidelity VIP Contra Fund.

Note 4 – Participant Notes Receivable

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years for regular loans and up to 20 years if for the purchase of a principal residence and bear interest at 6%. The notes are secured by the vested balance in the participant's account. Principal and interest payments are made through payroll deductions. Upon termination of employment with the Plan's sponsor, the entire principal balance plus accrued interest become immediately due and payable.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

Note 6 – Reconciliation of Financial Statements to Form 5500

The net assets available for benefits at December 31, 2010 and 2009 of $7,594,094 and $6,801,129, respectively, are the same per the financial statements and the Form 5500.

The change in net assets available for benefits for the year 2010 of $792,965 is equal to the change in net assets reported on the Form 5500 for 2010.

The value of accounts for withdrawing participants who have elected to withdraw from the plan as of December 31, 2010 and 2009 but have not yet been paid totals $0.

Note 7 – Tax Status

The Plan obtained its latest determination letter on January 27, 2005, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan is a standardized, prototype plan, the form of which is intended to comply with the qualification provisions of Internal Revenue Code Section 401(a). Accordingly, the Plan has not requested a determination letter from the IRS. Hartford Life Insurance Company has received an IRS opinion letter for the standardized plan. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Note 8 – Parties-In-Interest Transactions

The plan sponsor absorbed a portion of the administrative costs of the Plan during 2010 and 2009.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Fair Value of Financial Instruments

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The fixed income account is not actively traded and significant other observable inputs are not available. Thus, the fair value of the fixed income account is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The following table provides a summary of changes in fair value of the Company's Level 3 assets, as well as the portion of gains or losses included in income attributable to unrealized gains or losses that relate to those assets held at December 31, 2010 and December 31, 2009. Transfers into and out of Level 3 are determined based on the actual date of the event or change in circumstances that caused the transfer.

Note 10 – Fair Value of Financial Instruments (continued)

The following table presents the Plan's fair value hierarchy for the above assets measured at fair value on a recurring basis as of December 31, 2010 and 2009:

	Fair Value	Quoted Market Prices in Active Markets (Level 1)	Unobservable Inputs (Level 3)
December, 31, 2010			
Mutual funds	$ 5,557,817	$ 5,557,817	$
Fixed income account	1,551,931		1,551,931
Total assets at fair value	$ 7,109,748	$ 5,557,817	$ 1,551,931

	Fair Value	Quoted Market Prices in Active Markets (Level 1)	Unobservable Inputs (Level 3)
December 31, 2009			
Mutual funds	$ 4,857,781	$ 4,857,781	$
Fixed income account	1,460,122		1,460,122
Total assets at fair value	$ 6,317,903	$ 4,857,781	$ 1,460,122

Financial assets and liabilities valued using level 1 inputs are based on unadjusted quoted market prices within active markets for identical assets or liabilities. Financial assets and liabilities valued using level 2 inputs are based primarily on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; modeling with inputs that have observable inputs (i.e. interest rates observable at commonly quoted intervals. Financial assets and liabilities using level 3 inputs were primarily valued using management's assumptions about model-based techniques that use significant assumptions not observable in the market. Valuation techniques utilized to determine fair value are consistently applied.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the investment contract with insurance company for the years ended December 31, 2010 and 2009:

Note 10 – Fair Value of Financial Instruments (continued)

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C*, this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan's product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

Recipient: Hartford Life Insurance Company EIN: 06-0974148

Service Codes: 15, 23, 37, 38, 54, 55, 59, 60, 62, 63, 64, 65, 66, 99, 50 (if direct compensation amount reflected below)

1. Direct Compensation **$8,667.00**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction. Of this amount, our records indicate that Hartford Life Insurance Company received **$2,310.00** . Please review your records to determine what other service providers (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, plan auditor) received all or any portion of the remaining amount.

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Hartford Life Insurance Company are the net result of aggregating direct compensation after the effects of adjustments processed in 2010, some of which may have pertained to prior years.

2. Indirect Compensation

Hartford Life Insurance Company Separate Accounts, 200 Hopmeadow Road, Simsbury, CT 06089

[see fund chart below for percentage]% per annum of the daily Sub-Account values (pursuant to the group annuity contract or funding agreement)

Float compensation **$43.98**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.1415% for 2010) earned on the bank accounts and investment associated with the short-term investment pool for the 2010 calendar year multiplied by an estimate of the assets related to uncashed checks. This estimate does not include float earned for any other reason (e.g., if amounts remitted to Hartford cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[2] This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that affiliates of Hartford Life Insurance Company act as advisor to the Hartford funds. Such affiliates are identified in the fund's prospectus' and receive management fees in the following amounts:

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Stevens Transport, Inc. 401(k) Plan and Trust

We were engaged to audit the financial statements of Stevens Transport, Inc. 401(k) Plan and Trust as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule as of and for the year ended December 31, 2010 as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Hartford Life, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2010 AND 2009

Note 1 – Plan Description

The following description of the **STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Stevens Transport, Inc. (the Company), Paragon Leasing and Stevens Transport TL, Inc. who are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Beginning in 2006, the plan does not require one year of service before enrollment.

Contributions – Beginning in 2007, participants may make tax deferred contributions of up to 100% of their covered compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The Company will contribute 50% of the first $800 of each participant's elective deferrals as a matching contribution. Participants are not eligible for employer matching until one year of employment. The Company may also make an annual discretionary contribution. Contributions are subject to federal statutory limits. Forfeitures of matching contributions are applied to reduce administrative costs. The Plan does allow for rollover distributions from other qualified plans.

Participant Accounts – Each participant's account is credited with the participant's contributions, the employer matching contributions and an allocation of the Company's discretionary contribution, if any, plan earnings, and charged with losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service. A participant is 100% vested after six years of credited service based on increases of 20% per year beginning after two years. A participant will also become 100% vested when that participant dies, becomes disabled or reaches 65 years of age.

Distributions and Loans – Hardship distributions are allowed as are distributions on or after a participant reaches 59-1/2 years of age. Loans are also allowed.

Payment of Benefits – On termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her vested account balance or may elect installment payments.

Investment Funds – All of the Plan's investments are participant-directed. Participants have the option of directing their contributions to any combination of approximately 29 funds under a group annuity contract with Hartford Life Insurance Company. All Company contributions are also invested in accordance with each participant's direction.

Forfeited Accounts - At December 31, 2010 and 2009 forfeited non-vested accounts totaled $5,389 and $3,834, respectively. These accounts will be used to reduce future administrative costs. Also, in 2010, $6,350 was used to offset administrative and investment expenses of the Plan.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through October 12, 2011, which is the date the financial statements were available to be issued.

Basis of Accounting - The accompanying financial statements have been prepared on the modified cash basis. That basis differs from generally accepted accounting principles because changes in net assets available for benefits with respect primarily to contributions and expenses are recorded when received and paid, respectively, rather than when earned and incurred, respectively. Investments are reported at fair value under both methods of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The investment contract with Hartford Life is valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements. If available, quoted market prices are used to determine the fair values of each underlying mutual fund within the pooled separate accounts included in the Hartford contract. The Plan's investments represent its units of participation in the mutual funds underlying each pooled separate account. Interest income is recorded on the modified cash basis. The fair value of the fixed account is calculated using a market value adjustment factor formula under the contract with Hartford. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. The Plan provides an allowance for doubtful participant loans, which is based upon a review of outstanding loans, participant investment account balances, and existing economic conditions. The notes are secured by the vested balance in the participant's account and cannot exceed 50% of the account value at the time of the loan. Delinquent receivables are written off based on individual participant account evaluation and specific circumstances of the participant.

Payment of Benefits – Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies (continued)

Adoption of New Accounting Standards – In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06 which amends Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. The Plan prospectively adopted the new guidance in 2010, except for the Level 3 disclosures which are required in 2011. The adoption in 2010 did not materially affect and the future adoption is not expected to materially affect the Plan's financial statements.

In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. That guidance requires that participant loans be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan has adopted this new guidance in its December 31, 2010 financial statements and has reported participant loans of $544,655 and $529,710 at December 31, 2010 and 2009, respectively, as notes receivable from participants. Net assets of the Plan were not affected by the adoption of this new guidance.

Note 3 – Investments

The Plan has a benefit responsive investment contract with Hartford Life. Hartford maintains the contributions in several pooled separate accounts and in a fixed account, which is invested in the general account of Hartford. The accounts are credited with earnings on the underlying investments (see below) and are charged with losses, withdrawals and expenses. The contract is included in the financial statements at fair value as reported to the Plan by Hartford. Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the net assets available for benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value and the fair value are the same for the pooled separate accounts. An adjustment to the contract value, as reported to the Plan by Hartford, for the fixed account has been reflected in the financial statements for 2010 and 2009. In the event that the contract for the fixed account is terminated, a market value adjustment would be made which could limit the Plan's ability to transact at contract value with participants.

The average yield and crediting interest rate for the fixed account was approximately 3.00% for 2010 and 2009. The crediting interest rate on the Fixed Account may be changed from time to time by Hartford. There are no reserves against contract value for credit risk of the contract issuer.

Information Certified by the Custodian (unaudited) - The Plan's investments were held by Hartford Life Insurance Company, the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by Hartford Life as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The contract value of the funds under pooled separate accounts and the fixed account at December 31, 2010 and 2009 as reported by Hartford Life is summarized as follows:

Additionally, the information included in the supplemental schedule of assets held for investments is compiled from information certified by Hartford Life.

Investments representing 5% or more of the net assets consist of the following in 2010 were: Hartford Small Company HLS, Janus Twenty, Fixed Account, and Fidelity VIP Contra Fund. Investments representing 5% or more of the net assets consist of the following in 2009 were: Hartford Money Market HLS, Janus Twenty, Fixed Account, and Fidelity VIP Contra Fund.

Note 4 – Participant Notes Receivable

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years for regular loans and up to 20 years if for the purchase of a principal residence and bear interest at 6%. The notes are secured by the vested balance in the participant's account. Principal and interest payments are made through payroll deductions. Upon termination of employment with the Plan's sponsor, the entire principal balance plus accrued interest become immediately due and payable.

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

Note 6 – Reconciliation of Financial Statements to Form 5500

The net assets available for benefits at December 31, 2010 and 2009 of $7,594,094 and $6,801,129, respectively, are the same per the financial statements and the Form 5500.

The change in net assets available for benefits for the year 2010 of $792,965 is equal to the change in net assets reported on the Form 5500 for 2010.

The value of accounts for withdrawing participants who have elected to withdraw from the plan as of December 31, 2010 and 2009 but have not yet been paid totals $0.

Note 7 – Tax Status

The Plan obtained its latest determination letter on January 27, 2005, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Plan is a standardized, prototype plan, the form of which is intended to comply with the qualification provisions of Internal Revenue Code Section 401(a). Accordingly, the Plan has not requested a determination letter from the IRS. Hartford Life Insurance Company has received an IRS opinion letter for the standardized plan. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

Note 8 – Parties-In-Interest Transactions

The plan sponsor absorbed a portion of the administrative costs of the Plan during 2010 and 2009.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Fair Value of Financial Instruments

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

The fixed income account is not actively traded and significant other observable inputs are not available. Thus, the fair value of the fixed income account is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The following table provides a summary of changes in fair value of the Company's Level 3 assets, as well as the portion of gains or losses included in income attributable to unrealized gains or losses that relate to those assets held at December 31, 2010 and December 31, 2009. Transfers into and out of Level 3 are determined based on the actual date of the event or change in circumstances that caused the transfer.

Note 10 – Fair Value of Financial Instruments (continued)

The following table presents the Plan's fair value hierarchy for the above assets measured at fair value on a recurring basis as of December 31, 2010 and 2009:

	Fair Value	Quoted Market Prices in Active Markets (Level 1)	Unobservable Inputs (Level 3)
December, 31, 2010			
Mutual funds	$ 5,557,817	$ 5,557,817	$
Fixed income account	1,551,931		1,551,931
Total assets at fair value	$ 7,109,748	$ 5,557,817	$ 1,551,931

	Fair Value	Quoted Market Prices in Active Markets (Level 1)	Unobservable Inputs (Level 3)
December 31, 2009			
Mutual funds	$ 4,857,781	$ 4,857,781	$
Fixed income account	1,460,122		1,460,122
Total assets at fair value	$ 6,317,903	$ 4,857,781	$ 1,460,122

Financial assets and liabilities valued using level 1 inputs are based on unadjusted quoted market prices within active markets for identical assets or liabilities. Financial assets and liabilities valued using level 2 inputs are based primarily on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; modeling with inputs that have observable inputs (i.e. interest rates observable at commonly quoted intervals. Financial assets and liabilities using level 3 inputs were primarily valued using management's assumptions about model-based techniques that use significant assumptions not observable in the market. Valuation techniques utilized to determine fair value are consistently applied.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the investment contract with insurance company for the years ended December 31, 2010 and 2009:
