Report of Independent Auditors

The Employee Benefits Committee
SuperMedia Pension Plan for Management Employees

We were engaged to audit the accompanying statements of net assets available for benefits of the SuperMedia Pension Plan for Management Employees (formerly known as Idearc Pension Plan for Management Employees) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 6, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee, as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of Plan

The following is a brief description of the SuperMedia Pension Plan for Management Employees (formerly known as the Idearc Pension Plan for Management Employees) (the Plan), participants should refer to the Plan document for more complete information.

General

The Plan is a cash balance defined benefit plan established for the purpose of providing retirement benefits for eligible employees and former employees of SuperMedia Inc. and its Affiliates formerly doing business as “Verizon Information Services” (Verizon) and their predecessors, for whom pension assets and liabilities were transferred to the Plan. The Company was formed from the spin-off of Verizon to the shareholders of Verizon Communications Inc. on November 17, 2006. As a result of this spin-off, the Company established the Plan to mirror the plan provided by Verizon Communications Inc. On or about the spin date Verizon Communications Inc. transferred assets equal to approximately 90% of the estimated pension liability to the SuperMedia Inc. Master Trust (the Master Trust). The remaining 10% was transferred to the Company during 2009 and is shown as a transfer in from Verizon Communications Inc. on the statement of changes in net assets available for benefits for the year ended December 31, 2009. The related income or loss on the assets for the period held by Verizon is shown as other income on the statement of changes in net assets available for benefits for the year ended December 31, 2009.

- The Plan was closed to new hires as of January 1, 2006.
- All management employees with accrued benefits in the Plan who were both actively participating in the Plan and actively employed by a participating company on June 30, 2006 (but not employees covered by collective bargained agreements or in non-covered employment with an affiliate) fully vested on June 30, 2006. All management employees who, on June 30, 2006, were actively participating in the Plan and were high average pay (HAP)-formula-eligible were credited with 18 months of additional pension accrual service on June 30, 2006, for purposes of calculating their HAP formula benefits. The accrued HAP formula benefit was calculated and frozen as of June 30, 2006. The additional 18 months did not count toward eligible service.
- All management employees who, on June 30, 2006, were actively participating in the Plan had 18 additional months of pay credits credited to their cash balance accounts on June 30, 2006.

SuperMedia Pension Plan for Management Employees
(Formerly Known as Idearc Pension Plan for Management Employees)

Notes to Financial Statements (continued)

1. Description of Plan (continued)

- Effective July 1, 2006, there were no future accruals earned by management employees under the provisions of the plan, with the exception of benefits accrued for periods on or before June 30, 2006, by participants who return from military leave or educational leave.
- Active employees who are participants with frozen accruals will continue to earn net credited service to be used for eligibility for early retirement, disability pension, and for consideration in early retirement reductions for non-cash-balance formula benefits.

In March of 2009, Idearc Inc. filed for protection under the United States Bankruptcy Code (the Bankruptcy Code). On May 15, 2009, a joint plan of reorganization and disclosure statement was submitted for consideration by the Bankruptcy Court and affected creditors. On September 8, 2009, the First Amended Joint Plan of Reorganization (the Reorganization Plan) was filed with the Bankruptcy Court, which was later modified on November 19, 2009, and approved by the Bankruptcy Court on December 22, 2009. Idearc Inc. emerged from bankruptcy on December 31, 2009, and changed its name to SuperMedia Inc. (SuperMedia), on January 4, 2010. As a result of emergence from Chapter 11 of the Bankruptcy Code, SuperMedia Inc. is the successor registrant to Idearc Inc. pursuant to Rule 12-g3 under the Securities Exchange Act of 1934. No provisions of the Plan were changed in the Reorganization Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Employee Benefits Committee (the Committee) is responsible for the general administration of the Plan.

Pension Benefits

Benefits are credited to the benefit of the participant under one or more benefit formulas set forth in the Plan. Benefits available depend on the service and the legacy employer of the participant. Generally, there is a (a) cash balance formula, (b) highest average pay formula, (c) grandfathered GTE benefit formula, and (d) grandfathered Bell Atlantic formula.

(Formerly Known as Idearc Pension Plan for Management Employees)

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Death and Disability Benefits

Death benefits are based on the greater of (a) the combined value of the participant's cash balance account and any unconverted annuity benefit; or (b) if the participant was a participant with 10 or more years of service on January 1, 2002 or a former GTE employee with change in control protection, the value of the 50% joint and survivor single life annuity or lump sum option benefit.

Active participants with a frozen June 30, 2006 pension will continue to earn net credited service toward eligibility for their disability pension. Should they qualify for a disability pension after June 30, 2006, their disability pension would be calculated based on the frozen accrued benefit.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting, in accordance with generally accepted accounting principles in the United States (GAAP).

Subsequent Events

Subsequent events have been evaluated through October 14, 2011 the date the accompanying financial statements were available to be issued.

Use of Estimates

The preparation of the financial statements in conformity with GAAP, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

Financial Statement Reclassification

Certain prior-year amounts in the statement of net assets available for benefits and the statement of changes in net assets available for benefits and related footnotes have been reclassified in these financial statements to conform with the current-year presentation.

Payments of Benefits

Benefits paid directly to participants are recorded upon distribution.

Investment Valuation and Income Recognition

The Plan participates in the Master Trust along with the SuperMedia Pension Plan for Collectively Bargained Employees. Each participating plan has an undivided interest in the Master Trust. The assets of the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion and disclosures related to fair value measurements. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from the Master Trust. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses are paid by the Company on behalf of the Plan.

2. Summary of Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) ASU 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended certain of the disclosures required under Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, to clarify certain existing disclosures and to require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirements for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and to present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirements to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 became effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, its adoption did not affect the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan’s financial statements.

2. Summary of Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent third-party actuary. This value is computed by applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2009, were (a) life expectancy of participants (the IRS 2010 Static Mortality Table was used), (b) retirement age assumptions (the assumed average retirement age was 65), and (c) an assumed average rate of return of 7.0%. The RP-2000 Combined Healthy Mortality Table was used in the valuation as of December 31, 2008. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. See Note 5 for additional information related to the actuarial present value of accumulated plan benefits.

3. Funding Policy

It is the Company's policy to make contributions to the Plan sufficient to comply with the minimum funding standards imposed by the Internal Revenue Code (the Code). The Company's contributions shall be determined annually, or more frequently, by the Board of Directors of the Company. Each contribution made to the Plan shall be made on the condition that it is currently deductible under Section 404 of the Code for the taxable year with respect to which the contribution is made. For the Plan years ended December 31, 2010 and 2009, there is no funding required under the ERISA minimum funding requirements, and the Company elected not to make any contributions to the Plan.

4. Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Upon termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations and the plan document, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (vested benefits not insured by the PBGC).
- d. All nonvested benefits.

SuperMedia Pension Plan for Management Employees
(Formerly Known as Idearc Pension Plan for Management Employees)

Notes to Financial Statements (continued)

4. Plan Termination (continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Some benefits may be fully or partially provided for, while other benefits may not be provided for at all.

5. Actuarial Present Value of Accumulated Plan Benefits

The actuarially computed present value of accumulated plan benefits calculated by independent third-party actuaries as of December 31, 2009, is as follows:

Vested benefits:	
Participants currently receiving payments	\$ 103,645,807
Other participants	<u>174,541,521</u>
	278,187,328
Nonvested benefits	<u>19,102,533</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 297,289,861</u></u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 295,027,913
Increase (decrease) during the year attributable to:	
Benefits accumulated	13,051,584
Effect of assumption changes	20,370,301
Increase for interest due to the decrease in the discount period	18,899,861
Benefits paid	<u>(50,059,798)</u>
Net increase	<u>2,261,948</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 297,289,861</u></u>

6. Interest in SuperMedia Inc. Master Trust

All investment information for the Plan and the Master Trust disclosed in the accompanying financial statements, including the Plan interest in the SuperMedia Inc. Master Trust at December 31, 2010 and 2009, and net investment gain (loss) from Plan interest in the SuperMedia Inc. Master Trust for the years ended December 31, 2010 and 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan and the Master Trust.

The assets of the Master Trust are held by State Street Bank and Trust Company (the Trustee) at December 31, 2010 and 2009, and for the years then ended. At December 31, 2010 and 2009, the Plan's interest in the net assets of the Master Trust was approximately 70.0% and 69.2%, respectively. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. The Master Trust is authorized to charge and collect from the fund expenses incurred, unless such expenses are paid directly by the Company.

The following schedules reflect the Master Trust's net assets and net investment income (loss):

Fair Value Measurements

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Master Trust discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to valuations based upon unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to valuations based upon unobservable inputs that are significant to the valuation (Level 3 measurements). The guidance establishes three levels of the fair value hierarchy as follows:

Level 1 – Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Level 2 inputs utilize inputs other than quoted prices included in Level 1 that are observable for an asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities in active markets and inputs other than quoted prices that are observable for an asset or liability.

Level 3 – Level 3 inputs are unobservable inputs for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

SuperMedia Pension Plan for Management Employees
(Formerly Known as Idearc Pension Plan for Management Employees)

Notes to Financial Statements (continued)

6. Interest in SuperMedia Inc. Master Trust (continued)

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Committee. The Committee considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. There were no transfers between Level 1 and Level 2 for the years ended December 31, 2009 and 2010.

Following is a description of the valuation methodologies used for the Master Trust financial assets measured at fair value.

State Street Bank and Trust Company Government Short Term Investment Fund (the STIF): Valued at net asset value based on the fair value of the underlying investments of the trust as determined by the sponsor of such trust.

Fixed-income securities: United States Treasury Bonds, corporate bonds, and municipal bonds are valued based on closing prices reported on the last business day of the Plan year in the active market in which the security is traded.

Hedge funds: Valued at net asset value (NAV) as determined and reported by the general partners of the fund and validated by third-party service providers. Additionally, the hedge funds are audited annually.

Interest rate swaps: Unrealized gain or loss on swap contracts is calculated by taking the difference between the present value of the estimated future cash flows to be received and paid pursuant to the terms of the swap contracts as of the valuation date. Interest rate swaps are valued by using external pricing sources that use quoted inputs on the valuation date, such as specific yield curves. The Master Trust's investment manager has a counterparty approval process that ensures that all counterparties meet minimum credit ratings. The interest rate swaps are traded under the terms of an International Swaps and Derivatives Association (ISDA) agreement and accompanying credit support annex, which further provides assurance that the counterparties meet the required credit quality. The Plan's investment manager seeks to minimize any counterparty credit exposure by actively collateralizing the interest rate swap exposure.

6. Interest in SuperMedia Inc. Master Trust (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Committee believes the Master Trust's valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Master Trust assets as of December 31, 2010:

Additional information about the STIF and hedge fund investments follows.

STIF: The STIF is an open-ended investment in a fund that invests in a diversified portfolio of U.S. government securities. The investment strategy is to provide safety of principal, daily liquidity, and a competitive yield by industry. There are no redemption restrictions on this investment.

Hedge fund investments: The Master Trusts holds hedge fund investments that are made through limited partnership interests in various hedge funds that employ different trading strategies. Below are the categories and strategies followed by the hedge funds. As of December 31, 2010, no hedge fund made up more than 3.6% of total Master Trust assets and there are no unfunded commitments. In addition, the Master Trust has redemption rights with respect to hedge fund investments that range up to three years.

Directional

A directional strategy entails taking a net long or short position in a market, requiring forecasting the movement of the market.

Macro: These funds are positioned to take advantage of anticipated price movements of stock markets, interest rates, foreign exchange, and physical commodities.

Equity long/short opportunistic: These funds consist of a core holding of long equities hedged at all times with short sales of stocks and/or stock index options.

Other directional: These funds are invested in a broad group of directional strategies, often with little hedging.

Relative Value

This strategy is intended to take advantage of mispricing between two related and often correlated securities.

Statistical arbitrage: The funds in this strategy profit from temporary pricing discrepancies between related securities. The discrepancies offer an opportunity to take a long position on the cheaper security and to short the more expensive one in an attempt to profit as the prices of the two revert to their norm, or mean.

Equity long/short high hedge: These funds seek to profit from pricing inefficiencies between related equity securities, neutralizing exposure to market risk by combining long and short positions.

Event Driven

This strategy uses different investment approaches to profit from reaction to various events.

Distressed: These funds invest in, and may sell short, the securities of companies where the security's price has been, or is expected to be, affected by a distressed situation such as a bankruptcy or corporate restructuring.

Event-driven credit: These funds invest in debt securities created by significant transactional events, such as spin-offs, mergers and acquisitions, bankruptcy reorganizations, and recapitalizations.

Restructuring and value: These funds invest in restructuring companies that are undergoing significant corporate events, such as spin-offs, recapitalizations, litigation events, strategic realignment, and other major changes. It also includes "value" investments in securities that are believed to be underpriced relative to their intrinsic or fundamental value or that are expected to appreciate in value if circumstances change or an anticipated event occurs.

Derivatives

The Master Trust invests in derivative contracts to hedge interest rate risk associated with the pension obligations and to augment returns through yield-curve trades. The Master Trust is a party to two types of derivatives contracts; interest rate swaps and futures.

The Master Trust has entered into Interest Rate Swaps (Swaps), where interest rates were determined at the beginning of the contract with one party paying cash flows based on a fixed interest rate and the other party paying cash flow based on a floating interest rate. At December 31, 2010 and 2009, the Master Trust held 35 and 18 interest rate swap agreements, respectively. At December 31, 2010 and 2009, the total notional amount of the Swaps were approximately \$484 million and \$282 million, respectively, with Goldman Sachs International as the counterparty. Differences in the value of the swaps are settled daily, thus reducing default risk.

Swaps in an asset position were \$497,345,338 and \$270,758,729 at December 31, 2010 and 2009, respectively, and Swaps in a liability position were \$484,697,477 and \$281,661,743 at December 31, 2010 and 2009, respectively, resulting in a net asset position of \$12,647,861 at December 31, 2010, and a net liability position of \$10,903,014 at December 31, 2009.

The net Swap position is recorded at fair value on the statements of net assets available for benefits in Plan interest in SuperMedia, Inc. Master Trust, with changes in fair values reported in the statements of changes in net assets available for benefits in net investment gain (loss) from Plan interest in SuperMedia, Inc. Master Trust. Also see the fair value hierarchy table above as well as the net investment income (loss) from Master Trust table above.

Futures Contracts

As of December 31, 2010, the Master Trust utilized futures contracts to hedge the Master Trust's interest rate risk and to augment returns through yield curve trades. These contracts, which are considered derivatives under ASC 815, *Derivatives and Hedging*, are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into such a contract on behalf of the Master Trust, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded on a daily basis by the trustee as a realized gain or loss equal to the difference in the value of the contract between daily closing prices.

7. Tax Status

The Plan has applied for a determination letter from the Internal Revenue Service (IRS); however, the Plan has not received a ruling on the Plan's qualified status from the IRS under Section 401(a) of the Code. The plan administrator believes that the Plan has been designed to comply with the requirement of the Code and has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code. Therefore, no provision for income tax has been included in the Plan's financial statements.

SuperMedia Pension Plan for Management Employees
(Formerly Known as Idearc Pension Plan for Management Employees)

Notes to Financial Statements (continued)

7. Tax Status (continued)

Accounting principles generally accepted in the United States of America require management of the Plan to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Related Party Transactions

Certain of the Plan's assets in the Master Trust are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Net decrease in net assets available for benefits per the Form 5500	<u><u>\$ (6,207,871)</u></u>

Amounts allocated to withdrawn participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to year-end but not yet paid.

11. Commitments and Contingencies

On November 25, 2009, three former Bell retirees filed a putative class action suit against the Company's and Verizon's pension plans and the Company's and Verizon's Employee Benefits Committees. All three named plaintiffs are receiving the single life monthly annuity. All complain that Verizon transferred them against their will from the Verizon pension plans to the Idearc pension plans at or near the spin-off. The complaint alleges that both the Verizon and Company defendants failed to provide requested plan documents, which would entitle the plaintiffs to statutory penalties under ERISA; that both the Verizon and Company defendants breached their fiduciary duty for refusal to disclose pension plan information; and other class action counts aimed directly at the Verizon defendants. The plaintiffs seek class action status only against Verizon, statutory penalties, damages, and a reversal of the employee transfers.

Notes to Financial Statements (continued)

11. Commitments and Contingencies (continued)

On January 6, 2010, the plaintiffs filed an amended complaint without prior Court approval, adding Idearc Inc. as a party, and subsequently the Court dismissed Idearc Inc. On March 10, 2010, the Company defendants filed their motion to dismiss the plaintiffs' complaint. On October 18, 2010, the Court ruled on the motion, dismissing all the claims against the Company pension plans and all the claims against the Company Employee Benefits Committee (the EBC) relating to production of documents and statutory penalties for failure to produce the same. The only claims remaining are procedural ERISA claims against the EBC. The EBC filed its answer and moved to dismiss one of the two remaining claims against it and have moved for summary judgment. Pursuant to an agreement between the Verizon defendants and the plaintiffs, the Court entered an agreed order certifying the class against the Verizon defendants.

The parties have agreed on a scheduling order and discovery has commenced. The Company plans to honor its indemnification obligations and vigorously defend the lawsuit on the defendants' behalf. The Company has notified its carrier of this action. An estimate of the possible loss cannot be made as of December 31, 2010.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Description of Weighted Average Retirement Age Calculation

The rates of retirement at each age depend on the following factors:

- age
- gender
- service

The detailed description of the exact rates that apply at each age for each of the various categories is contained in the attachment to Part V.

In calculating the weighted average retirement age, the weight applied to each age is (a)/(b), where (a) and (b) are defined as follows:

(a) the number of participants expected to retire at the retirement age to which the weight is being applied. The number of participants expected to retire is estimated by applying the assumed retirement decrement rates to the current active population at that age.

(b) the total number of participants expected to retire. The number of participants expected to retire is estimated by applying the assumed retirement decrement rates to the current active population.

Demographic Assumptions

Retirement

The retirement decrement assumptions for active participants are summarized in Exhibit A. The weighted average retirement age is 62. All deferred vested participants are assumed to retire at age 65.

Withdrawal

The withdrawal decrement assumptions are summarized in Exhibit B.

Disability

The disability decrement assumptions are summarized in Exhibit C.

Mortality

The mortality table, in accordance with Treasury regulations 1.430(h)(3), is the prescribed 2010 static mortality table, with separate rates for annuitants and non-annuitants. For Lump Sum conversion, the mortality table used is defined in the plan document.

Timing

Decrements are assumed to apply as of the middle of the year.

Marital status

Husbands are assumed to be 3 years older than wives.

Other Assumptions

Form of payment

The form of payment for 80% of future retirees is assumed to be a lump sum, while the remaining 20% are assumed to take an annuity.

Administrative expenses

The ASC 715-30 expected return on assets have been reduced by 0.25% to reflect administrative expenses paid from the trust.

The Funding Target Normal Cost includes a load for estimated administrative expenses equal to 0.30% of assets as of valuation date.

Sickness Death Benefit

The percentage of active and retired participants who have beneficiaries that qualify for this benefit is summarized in Exhibit D.

Valuation earnings

The valuation earnings are actual 2006 pension compensation. Since the plan was frozen as of June 30, 2006, current compensation is not considered in the valuation.

Other Assumptions (Continued)

Maximum earnings

The maximum compensation limit under IRC section 401(a)(17) is \$245,000 for 2010. For calculating ASC 715-30 pension cost, the maximum compensation limit is assumed to increase 3.00% per year, compounded annually.

Maximum benefit

The maximum benefit payable under IRC section 415 at normal retirement age is \$195,000 for 2010. For calculating ASC 715-30 pension cost, the maximum benefit payable is assumed to increase 3.00% per year, compounded annually.

Social security wage base

The 2010 taxable wage base of \$106,800 is assumed to increase 3.50% per year, compounded annually.

Changes from Prior Year

Yield curve interest rates

The sponsor elected to change the yield curve interest rates for the ERISA valuation from the full yield curve in effect during December for 2009 to the three-segment rates using September as the applicable lookback month for 2010.

Lump sum interest rate and cash balance interest credit rate (ASC 715-30)

The GATT lump sum interest rate decreased by 1.00%, the PBGC lump sum interest rate decreased by 0.75% and the cash balance interest crediting rate decreased by 1.25% for the ASC 715-30 pension cost.

Lump sum interest rate (Funding)

The GATT lump sum interest rate was decreased by 0.25% and the cash balance interest crediting rate was decreased by 0.50% for funding calculations to reflect interest rate outlook.

Lump sum take rate

The lump sum take rate assumption for retirements and terminations was increased from 70% in 2009 to 80% in 2010 to reflect past experience and anticipated plan experience.

Retirement

The retirement decrement rate assumptions for active participants were updated to reflect past experience and anticipated plan experience. Please see Exhibit A for current rates.

Withdrawal

The withdrawal decrement rate assumptions for active participants were updated to reflect past experience and anticipated plan experience. Please see Exhibit B for current rates.

Disability

The disability decrement rate assumptions for active participants were updated to reflect anticipated plan experience. Please see Exhibit C for current rates.

Changes from Prior Year (Continued)

Mortality

For ASC 715-30, the mortality table changed from the RP-2000 Combined Healthy table to the 2010 IRS Static table, with separate rates for annuitants and non-annuitants. For Funding, the mortality table changed in accordance with Treasury regulation 1.430(h)(3) from the prescribed 2009 static mortality table to the 2010 static mortality table. Both 2009 and 2010 funding tables are based on separate rates for annuitants and non-annuitants

Discount rate

The discount rate for ASC 715-30 pension cost valuation changed from 6.75% for 2009 to 6.00% for 2010.

Actuarial Methods

Valuation date

The valuation date is January 1.

Calculation of normal costs and liabilities

The method used to calculate the service cost and projected benefit obligation for determining pension expense is the projected unit credit cost method.

Under this method, benefits are estimated at each decrement age by crediting future accruals based on projected pay. The liability is calculated by prorating the present value of the projected benefit by service at the valuation date over benefit service projected to the date of decrement.

The service cost is the amount of the present value of projected benefits attributable to the valuation year.

The method used to calculate the ERISA target normal cost and funding target, PBGC premium funding target, and ASC 960 liabilities is the unit credit cost method.

Under this method, benefits are estimated at each decrement age using service and earnings as of the valuation date. The present value of these estimated benefits using the applicable ERISA or ASC 960 assumptions is the ERISA funding target or ASC 960 actuarial present value of accumulated plan benefits. The target normal cost is the present value of the benefits earned during the year.

For calculating the actuarial present value of vested benefits, including the PBGC premium funding target, benefits at each decrement age are determined in the same manner, but are then multiplied by each participant's vesting percentage as of the valuation date. The present value of these estimated vested benefits is determined without recognition of any benefit for which a participant will become entitled only through the advancement in service or age while actively employed. In addition, the following ancillary benefits have not been treated as vested: subsidized disability benefits.

Actuarial Methods

Yield curve interest rates

The company has elected to use the three-segment yield curve interest rates using the September preceding the valuation date as the applicable lookback month.

Actuarial value of assets

The actuarial value of assets is used to calculate contribution requirements under ERISA. The actuarial value of assets is determined by recognizing asset gains and losses over a period of three years. Asset gains and losses are defined as the difference between the expected return on the market value of assets, using a return assumption not to exceed the third segment rate, and the actual return on the market value of assets. This gain or loss is recognized over a period of three years at 33% per year, beginning in the current year. The actuarial value of assets must be within 10% of the market value of assets.

Changes from prior year

The sponsor elected to change the yield curve interest rates for the ERISA valuation from the full yield curve in effect during the December preceding the valuation date for 2009 to the three-segment yield curve interest rates using the September preceding the valuation date as the applicable lookback month for 2010.

As permitted by IRC 1.430 (g)(3)(B), the sponsor elected to change the actuarial value of assets from market value for 2009 to a smoothed value recognizing asset gains and losses over a three year period for 2010.

Summary of Plan Provisions

Effective Date

November 1, 2006

Plan Year

January 1 to December 31, with the exception of the first plan year which is from November 1, 2006 to December 31, 2006.

Expenses

All reasonable expenses of administering the Plan (including, without limitation, the expenses of the Employee Benefits Committee) shall be paid out of the assets of the Pension Fund, except to the extent paid by the Company.

Participation

Eligible employees became participants immediately upon hire. Effective January 1, 2006, no new participants entered the plan.

Definitions

Transition Employee

An employee with 10 or more years of service as of January 1, 2002.

Cash Balance Account

Equal to the sum of opening account balance, if applicable, plus pay and interest credits.

Pay Credits

As of June 30, 2006, participants no longer earn pay credits. Prior to June 30, 2006, cash balance accounts were credited monthly by an amount equal to a percentage of monthly compensation based on points (age plus service) at the beginning of each year as follows:

Points	Pay Credit Percentage
Less than 35	4%
35-49 5%	
50-64 6%	
65 or more	7%

On June 30, 2006, a special one-time pay credit was made for all active participants at that time equal to 18 months of pay credits.

Interest Credits

Up to the benefit commencement date, interest is credited based on the average annual yield on one-year Treasury bills plus one percentage point with the total limited to the yield on 30-year Treasury bonds.

Pension Benefit Formulas

Post-2001 Modified Former Plan Formula (MFPF) -- Sum of:

- (a) MFPF accrued benefit as of 12/31/2001 (see Special Benefit Provisions).
- (b) 1.35% of Average Compensation times service from 1/1/2002 to 6/30/2006.

Highest Average Pay (HAP):

Transition Employee, 1.35% of Average Compensation (to 6/30/2006) times service to 6/30/2006, including an 18 month enhancement for service as of 6/30/2006.

Non-Transition Employee: 1.35% of Average Compensation (to 5/31/2004) times service to 5/31/2004.

Integrated Formula –

Transition Employee, sum of:

(a) 1.15% of Average Compensation (to 5/31/2004) up to Social Security Integration Level plus 1.45% of Average Compensation (to 5/31/2004) over the Social Security Integration Level times service to 5/31/2004.

(b) 1.35% of Average Compensation (to 6/30/2006) times service from 6/1/2004 to 6/30/2006.

Non-Transition Employee:

1.15% of Average Compensation (to 5/31/2004) up to Social Security Integration Level plus 1.45% of Average Compensation (to 5/31/2004) over the Social Security Integration Level times service to 5/31/2004.

Social Security Integration Level

Average annual wages under the Social Security Act for a worker attaining age 65, computed as though the annual wages were equal to the maximum amount of the taxable wages under the Social Security Act based on the calendar year an employee separates from employment.

Compensation

Base pay (highest rate for the month), sales bonuses and commissions, short term performance incentives (excluding Senior Managers), lump sum merit payments, foreign service payments, premiums, corporate profit sharing, differentials and back pay awards. Salary reduction amounts under IRC Section 125 or 401(k) are included. Qualified plan compensation is limited to \$245,000 for 2010.

Average Compensation

The average of Compensation over the sixty (60) consecutive calendar months during which the average is the highest.

Normal Retirement

Eligibility

Later of age 65 or fifth anniversary from date of hire.

Benefit

Participants hired on or after 1/1/2002: Cash balance benefit.

Participants hired before 1/1/2002:

Transition Employees:

- fBA: Greater of cash balance benefit, HAP benefit.
- fGTE: Greater of cash balance benefit, HAP benefit, or Integrated benefit.

Non-Transition Employees:

- fBA: Cash balance benefit.
- fGTE: Greater of cash balance benefit, HAP benefit, or Integrated benefit.

Early Retirement

Eligibility

75 age/service points with 15 years net credited service.

Benefit

Accrued normal retirement benefit with the following reductions applied to each separate formula:

Cash Balance: no reductions.

Post 2001 MFPP: Refer to Special Benefit Provisions section.

HAP and Integrated benefits: Unreduced at age 55; 3% per year from age 55, maximum reduction 18%.

Vested Termination

Eligibility

For terminations prior to June 30, 2006, five years of Vesting Service. All participants actively employed as of June 30, 2006 were fully vested at that time.

Benefit

Accrued normal retirement benefit using compensation and credited service as of date of separation from service, and reduced, if applicable, for receipt prior to age 65.

Disability

Eligibility

Fifteen years of Credited Service and total and permanent disability (excludes Connected Solutions employees).

Benefit

Accrued normal retirement benefit with no reduction applied for receipt prior to age 65.

Preretirement Death Benefit

Beneficiaries eligible

Spouse or other designated beneficiaries of vested active participants who die before payments commence, and designated beneficiaries of vested former participants.

Death benefit

If the deceased participant was an active employee or a vested former participant who terminated after the plan's effective date, the death benefit is the greater of the full value of the Cash Balance Account or a 50% survivor benefit under alternative formulas.

fBA North: Pre-2002 Deferred Vested Employees – Upon the death of a deferred vested participant who did not waive the preretirement survivor's benefit, 50% of the participant's accrued benefit deferred to the earliest age when the deferred vested pension would have been payable. This benefit is reduced for early commencement and the cost of a 50% survivor annuity.

fBA South and Enterprises: Pre-2002 Deferred Vested Employees – 44% of the accrued benefit payable at the time the participant would have attained age 65. If earlier commencement is elected, benefit is the amount that would have been payable to the spouse if participant terminated employment, survived to the commencement date, retired with a 50% Joint-and-Survivor Annuity, and then died.

Sickness Death Benefit

Beneficiaries eligible

fBA North: Mandatory beneficiaries of retired employees hired before July 1, 1985 and retired before January 1, 2002 are eligible if death occurs from an illness or an off-the-job accident.

fBA South and Enterprises: Mandatory beneficiaries of all active and retired employees hired before April 1, 1991 and retired before January 1, 2002 are eligible if death occurs from an illness or an off-the-job accident. Participants who received a 100% cash-out in 1993, 1994, or 1995 and make an election to receive this benefit from another source are excluded.

Death benefit

fBA North: One year's pay based on pay on the earlier of the employee's retirement date and June 30, 1985.

fBA South and Enterprises: One year's pay based on pay on the earlier of the employee's retirement date and December 31, 1991.

Forms of Payment

Normal form

Single participants: life annuity.

Married participants: 50% Joint-and-Survivor Annuity with the spouse as the survivor.

Optional forms

Lump-sum cash out.

Combination annuity and lump-sum cash out. Designated amount in 10% increments (up to 50%) paid as a lump-sum cash out and the remaining portion distributed in any of normal or optional payment forms.

33-1/3%, 50%, 66-2/3% or 100% Joint-and-Survivor with designated beneficiary as the survivor.

50%, 75% or 100% Joint-and-Survivor with designated beneficiary as survivor with monthly payments restored to the life annuity level if the beneficiary predeceases the participant (pop-up).

Special Benefit Provisions

Modified Former Plan Formula (MFPF) Minimum

Eligibility: fBA Employees with 15 years of service on 9/1/1999.

Modified Former Pension Formula: 1.6% of career average pay (for service prior to 1/1/1991, the average pay from 1/1/1987 to 12/31/1991 times service through 12/31/1991 is used).

Retirement Eligibility: Age 65 with 10 years of service, age 60 with 15 years of service, age 55 with 20 years of service, age 50 with 25 years of service, or at 30 years of service.

Early Retirement Reductions with 30 or More Years of Service: No reductions on benefit earned through 12/31/1995; 3% per year reductions from age 59 (pre-2002) or age 60 (2002 and after) on the benefit earned after 12/31/1995.

Early Retirement Reductions with Less Than 30 Years of Service: 6% per year from age 59 (pre-2002) or from age 60 (2002 and after).

Retention bonus

Eligibility: Designated fGTE participants who remained employed throughout the Retention Bonus Period (4/1/1999 through 9/30/2000).

Benefit Amount: An additional lump sum equal to 2% of the total monthly compensation for the 12 month period ending in the date the participant separates from service times the number of full calendar months (up to 18) worked during the Retention Bonus Period.

In-Service Distribution

Active participants age 55 or older who satisfied the Rule of 76 (76 age/service points with 15 years service) on 1/1/2000 are eligible to elect an in-service distribution. The pension payable at subsequent retirement will be based on service after the election date.

Summary of Plan Changes

None.

Lump sum interest rate (Funding)

The GATT lump sum interest rate was decreased by 0.25% and the cash balance interest crediting rate was decreased by 0.50% for funding calculations to reflect interest rate outlook.

Lump sum take rate

The lump sum take rate assumption for retirements and terminations was increased from 70% in 2009 to 80% in 2010 to reflect past experience and anticipated plan experience.

Retirement

The retirement decrement rate assumptions for active participants were updated to reflect past experience and anticipated plan experience. Please see Exhibit A for current rates.

Withdrawal

The withdrawal decrement rate assumptions for active participants were updated to reflect past experience and anticipated plan experience. Please see Exhibit B for current rates.

Disability

The disability decrement rate assumptions for active participants were updated to reflect anticipated plan experience. Please see Exhibit C for current rates.

Schedule SB, line 25 - Change in Method

Changes from prior year

As permitted by IRC 1.403 (h)(2), the sponsor elected to change the yield curve interest rates for the ERISA valuation from the full yield curve in effect during the December preceding the valuation date for 2009 to the three-segment yield curve interest rates using the September preceding the valuation date as the applicable lookback month for 2010.

As permitted by IRC 1.430 (g)(3)(B), the sponsor elected to change the actuarial value of assets from market value for 2009 to a smoothed value recognizing asset gains and losses over a three year period for 2010.
