Notes to Financial Statements

2. Summary of Significant Accounting Policies:

A. Basis of Accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting.

B. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value except for its investment contracts, which are valued at contract value (Note 3). Quoted market prices are used to value investments. In accordance with the policy of stating investments at market value, net unrealized appreciation or depreciation for the year is reflected in the Statement of Changes in Net Assets Available for Benefits. Sales and purchases of securities are reflected on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Gains or losses are recognized on the date the investment is sold.

D. Payment of Benefits:

Benefits are recorded when paid.

3. Investments:

The Plan's investments are held in a life insurance company administered trust fund.

During 2010 and 2009, the Plans investments, including investments bought, sold, and held during the year appreciated (depreciated) in value by \$1,415,708 and \$1,970,190, respectively.

Investments which comprised more than five percent (5%) of plan assets as of December 31, 2010 and 2009 were:

4. Fair Value Measurement:

Financial Accounting Standards Board Accounting Standards Codification Topic 820, Fair Value Measurements, establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes inputs to fair value techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurement) and the lowest priority to unobservable inputs (Level 3 Measurement). The three levels of fair value hierarchy are as follows under the standard:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted market prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation of methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010:

Mutual funds: Valued at the net asset value of shares held by the Plan as of the year end.

Participant loans: Valued at the amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurement, continued:

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

5. Tax Status:

The Internal Revenue Service has determined and informed LINC Government Services, LLC by a favorable determination letter dated April 21, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

6. Certified Information by Trustee:

The Hartford Life Insurance Company was the custodian of the Plan at December 31, 2010 and held substantially all of the Plan's investment assets effective as of and executed transactions therein. Financial information relating to those assets is included in the accompanying financial statements and schedules based upon information provided by Hartford Life Insurance Company as of December 31, 2010 and 2009.

7. Plan Termination:

Although it has not expressed intent to do so, the Company has the right, under the Plan, to discontinue or terminate the Plan at any time, subject to the provisions of Employee Retirement Income Security Act (ERISA). In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. Administrative Expense:

The Plan allows for the administrative expenses to be paid out of the Plan. Administrative expenses absorbed by the plan were \$27,176 for the year ended December 31, 2010 and \$28,079 for 2009.

9. Amounts Allocated to Terminated Participants:

Notes to Financial Statements

10. Reconciliation to Form 5500:

Certain amounts on the Form 5500 may differ due to participant loans receipts and disbursements being reflected at net in the Statement of Changes in Net Assets Available for Benefits at December 31, 2010 and 2009, and reported at gross amounts in the corresponding tax return.

11. Risks and Uncertainties:

The Plan invests in certain mutual funds offered by The Hartford. These securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of certain investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

12. Subsequent Events:

In accordance with ASC Topic 855, the Plan evaluated subsequent events through September 30, 2011, the date these financial statements were issued. There have been no subsequent events that required recognition or additional disclosure in these financial statements.

2010 Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator (“you”) in understanding the fees and compensation associated with your plan. If your plan is required to complete a *Form 5500 Schedule C*, this report identifies the different types of reportable compensation paid with respect to the Hartford product utilized by the retirement plan.

As permitted under the Schedule C reporting rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate, or a formula or rate.

- Where it is an actual dollar amount, no further notation is provided.
- Where it is an estimate, we have used a reasonable method to arrive at the estimate and described the method used to arrive at the estimated amount.
- Where a formula or rate is provided, the formula may be disclosed under the Schedule C reporting rules. Alternatively, for purposes of Schedule C or for your fiduciary review of the compensation paid with respect to the plan’s product, you may calculate an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies. Thus, much of the compensation information being provided can be expressed in the form of a formula.

Please note that all compensation is being reported for the 2010 calendar year. This report includes compensation actually paid to or by The Hartford within the 2010 calendar year as part of your Hartford product. This report does not include amounts deducted from plan assets and paid to third parties (other than The Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here directly from other service providers.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. These service codes are listed in the 2010 Instructions for Schedule C (Form 5500). Please review with your experienced benefits counsel and other professionals to determine the most appropriate service codes for your plan.

Please contact your Hartford Client Service Team should you require additional information regarding the compensation paid to or by The Hartford with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice or accounting or other professional services. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan during the 2010 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

² This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that affiliates of Hartford Life Insurance Company act as advisor to the Hartford funds. Such affiliates are identified in the fund's prospectus² and receive management fees in the following amounts:

Notes to Financial Statements

2. Summary of Significant Accounting Policies:

A. Basis of Accounting:

The financial statements of the Plan are prepared using the accrual basis of accounting.

B. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value except for its investment contracts, which are valued at contract value (Note 3). Quoted market prices are used to value investments. In accordance with the policy of stating investments at market value, net unrealized appreciation or depreciation for the year is reflected in the Statement of Changes in Net Assets Available for Benefits. Sales and purchases of securities are reflected on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Gains or losses are recognized on the date the investment is sold.

D. Payment of Benefits:

Benefits are recorded when paid.

3. Investments:

The Plan's investments are held in a life insurance company administered trust fund.

During 2010 and 2009, the Plans investments, including investments bought, sold, and held during the year appreciated (depreciated) in value by \$1,415,708 and \$1,970,190, respectively.

4. Fair Value Measurement:

Financial Accounting Standards Board Accounting Standards Codification Topic 820, Fair Value Measurements, establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes inputs to fair value techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurement) and the lowest priority to unobservable inputs (Level 3 Measurement). The three levels of fair value hierarchy are as follows under the standard:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted market prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation of methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010:

Mutual funds: Valued at the net asset value of shares held by the Plan as of the year end.

Participant loans: Valued at the amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Linc Government Services 401(k) Plan

Notes to Financial Statements

4. Fair Value Measurement, continued:

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	2010			
	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 372	\$ -	\$ -	\$ 372

5. Tax Status:

The Internal Revenue Service has determined and informed LINC Government Services, LLC by a favorable determination letter dated April 21, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

6. Certified Information by Trustee:

The Hartford Life Insurance Company was the custodian of the Plan at December 31, 2010 and held substantially all of the Plan's investment assets effective as of and executed transactions therein. Financial information relating to those assets is included in the accompanying financial statements and schedules based upon information provided by Hartford Life Insurance Company as of December 31, 2010 and 2009.

7. Plan Termination:

Although it has not expressed intent to do so, the Company has the right, under the Plan, to discontinue or terminate the Plan at any time, subject to the provisions of Employee Retirement Income Security Act (ERISA). In the event of Plan termination, participants will become 100 percent vested in their accounts.

8. Administrative Expense:

The Plan allows for the administrative expenses to be paid out of the Plan. Administrative expenses absorbed by the plan were \$27,176 for the year ended December 31, 2010 and \$28,079 for 2009.

9. Amounts Allocated to Terminated Participants:

Amounts allocated to individuals who had withdrawn from the Plan but had not received their distributions as of December 31, 2010 and 2009 was \$693,343 and \$685,730.

Linc Government Services 401(k) Plan

Notes to Financial Statements

10. Reconciliation to Form 5500:

Certain amounts on the Form 5500 may differ due to participant loans receipts and disbursements being reflected at net in the Statement of Changes in Net Assets Available for Benefits at December 31, 2010 and 2009, and reported at gross amounts in the corresponding tax return.

11. Risks and Uncertainties:

The Plan invests in certain mutual funds offered by The Hartford. These securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of certain investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

12. Subsequent Events:

In accordance with ASC Topic 855, the Plan evaluated subsequent events through September 30, 2011, the date these financial statements were issued. There have been no subsequent events that required recognition or additional disclosure in these financial statements.
