NOTE 1. - DESCRIPTION OF THE PLAN

The following description of the Goldberg Segalla Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code (IRC) and is sponsored by Goldberg Segalla LLP (the Company). The Plan covers all employees of the Company who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Broker commissions associated with investment transactions are paid by the Plan and netted against earnings on investments. Administrative expenses are paid by the Plan or the Plan Sponsor. The Plan's assets were held by OFI Trust Company (OFI), the trustee and custodian, through July 17, 2009. Effective July 17, 2009, the Company changed custodians to Frontier Trust Company. However, OFI remained the trustee of the Plan.

Contributions - Participants may authorize an elective deferred contribution rate up to the maximum annual limitations as provided by the IRC. In addition, participants may contribute employee after-tax contributions up to the maximum allowed by the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans.

Upon employment, unless an affirmative election not to participate in the Plan is made, all employees hired on or after April 1, 2007, are automatically enrolled in the Plan and deemed to have elected to contribute 1% of compensation.

In addition, the Company may make a discretionary employer contribution. The Company matched 50% of deferrals up to 3% of participants' compensation during the years ended December 31, 2010 and 2009. Additionally, profit sharing amounts may be contributed at the discretion of the Company. No profit sharing contributions were made for the Plan years ended December 31, 2010 and 2009.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are vested immediately in their contributions plus actual earnings thereon. Participants are 20% vested in employer contributions after one year of service, with a 20% annual increase in each of the next four years.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates from 3.25 percent to 8.25 percent, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures - At December 31, 2010, forfeited non-vested accounts totaled $75,538 ($21,265 - 2009). Employer matching contributions forfeited by participants are used to reduce future employer matching contributions. Employer matching contributions forfeited during the year ended December 31, 2010 amounted to $46,529 ($5,719 - 2009). Employer matching contributions were not reduced from forfeited non-vested accounts during the year ended December 31, 2010 and 2009.

Withdrawals and Distributions - Unless a participant elects otherwise, distributions will be made as soon as practicable after a participant's normal retirement date or actual retirement date. The normal retirement date is the date upon which a participant reaches age 65. The normal form of distributions is a lump sum payment.

Participants are eligible to receive vested benefits upon retirement, death, permanent disability, upon attainment of age 59½ or when they cease employment. In addition, a participant can withdraw all or any portion of his or her elective contributions and rollover contributions in the event of financial hardship.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation on investments include the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of Benefits - Benefit payments to participants are recorded upon distribution.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Recently Issued Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) 2010-06, "Improving Disclosures About Fair Value Measurements." Topic 820 of the Accounting Standards Codification (ASC) requires new disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for periods beginning after December 15, 2010. Disclosures required under Updated 2010-06 are included in the notes to the Plan's financial statements for the years ended December 31, 2010, except for the disclosures related to Level 3 fair value measurements, which will be included in the notes to the Plan's financial statements effective January 1, 2011. Other than requiring additional disclosures, the adoption of this new guidance did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued Update 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans". This Update requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for annual periods ending after December 15, 2010 with early adoption permitted. The guidance should be applied retrospectively to all periods presented. The Plan adopted this guidance as of December 31, 2010 and reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes - Effective June 1, 2001, the Plan adopted a non-standardized form of a prototype plan sponsored by Delaware Charter Guarantee & Trust Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process. The Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Subsequent Events - The Plan has evaluated subsequent events through September 26, 2011, the date the financial statements were available to be issued.

Reclassifications - Participant loans previously reported as a component of investments have been reclassified to a component of receivables in order to conform to the current year presentation.

NOTE 3. - FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2010 and 2009, as well as investment earnings and investment transactions for the years then ended has been derived from information provided by OFI Trust Company, the trustee of the Plan, and has been certified by it as complete and accurate. The incorporation of this financial information in the accompanying financial statements is based solely on their certifications and has not been audited by independent accountants.

	2010	2009
Investments at fair value:		
Money market fund	$ **248,380**	$ 309,205
Shares of registered investment companies	$ **10,861,898**	$ 8,311,004
Transactions for the years ended:		
Interest and dividend income	$ **232,524**	$ 129,922
Net appreciation on investments	$ **950,112**	$ 1,713,609

NOTE 4. - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board's Accounting Standards Codification (ASC) 820: *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Money market fund: Valued at amortized cost, which approximates fair value and are classified as level 2 investments.

Shares of registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Shares of registered investment companies are classified as level 1 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8. - NON-EXEMPT TRANSACTIONS

During the year ended December 31, 2009, the Plan Sponsor inadvertently failed to deposit $35,461 of participant elective deferrals, employer matching contributions and loan repayments within the required time frame as stated by the Department of Labor (DOL). The DOL considers late deposits to be non-exempt transactions. The Plan filed Form 5330 for 2009 during 2011 and paid applicable excise tax. The excise tax payments were made from the Plan Sponsor's assets and not from the assets of the Plan.
