FOREST CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 1 - PLAN DESCRIPTION

The following description of the Forest Corporation 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Nature of operations

The Plan became effective on January 1, 1994 to encourage employee savings and to provide retirement benefits to participants and / or their beneficiaries. The Plan is a defined contribution plan covering all employees of the Company who have completed one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each participant may contribute between 1% and 70% of his / her earnings to a separate account. A participant may also be permitted to contribute amounts representing distributions from other qualified plans. As of the last day of each plan year, the Company may make a discretionary profit sharing contribution pursuant to a resolution of its board of directors. Contributions are subject to certain limitations as required by federal regulations. The Company made no profit sharing contributions in 2010 or 2009.

Participant accounts

Each participant's account is credited with the participant's contributions, an allocation of any of the discretionary profit sharing contribution and plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment options

Upon enrollment in the Plan, a participant may direct that his / her account balance be invested among certain specific funds selected by the plan administrator.

Vesting

Participants are immediately vested in their elective contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts is based on years of service. A participant is 100% vested after six years of credited service.

Payment of benefits

Benefit payments to participants are made payable in the event of retirement, death, disability, termination of employment, or termination of the Plan. Payments may be made in lump-sum distributions or in other forms as specified in the Plan.

Forfeited accounts

Any nonvested portion of a participant's account is deemed forfeited after employment is terminated and distribution is received. Forfeitures are used to reduce the Company's contribution to the Plan. At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$2,737 and \$1,616 respectively. During 2010 and 2009, no forfeited nonvested accounts were used by the Plan.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 1 - PLAN DESCRIPTION (Continued)

Notes receivable from participants

Participants may borrow up to 50% of their vested account balances subject to a maximum of \$50,000 and a minimum of \$500. All loans bear interest at the published prime rate plus 1.0% (as determined by the plan administrator) and are secured by the vested account balance of the participant. Principal and interest is paid ratably through monthly payroll deductions. The interest rates on outstanding loans to participants ranged from 4.25% to 9.25% in 2010 and 2009.

Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accounting records of the Plan are maintained on the accrual basis.

Investment valuation

The Plan's investments are stated at fair value. Fair value is a price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Use of estimates

In preparing financial statements in conformity with generally accepted accounting principles, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative expenses

Significant plan administrative expenses are paid by Forest Corporation.

FOREST CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of benefits

Benefits are recorded when paid.

Risks and uncertainties

The Plan provides the various investment options in any combination of registered investment companies and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of assets available for benefits and the statements of changes in assets available for benefits.

Adoption of new accounting standard

In September 2010, the FASB issued guidance under ASU 2010-25 clarifying the classification and measurement of participant notes by defined contribution plans. The standard requires that participant notes receivable be classified as notes receivable from participants and measured at their unpaid principal balance, plus any accrued but unpaid interest. The Plan adopted this new standard in its December 31, 2010 financial statements and has reclassified participant notes of \$136,787 for the year ended December 31, 2009, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new standard.

Reclassification

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

NOTE 3 - CERTIFIED INFORMATION

State Street Bank, trustee of the Plan, holds the Plan's investment assets and executed all transactions. Financial information relating to those assets, which comprises substantially all of the Plan's assets, is included in the accompanying financial statements based on information provided by the trustee. That information, which has not been audited by independent accountants, is summarized as follows:

	<u>2010</u>	<u>2009</u>

FOREST CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 4 - TAX STATUS

The Plan is maintained using a prototype non-standardized profit sharing plan with CODA sponsored by ADP, Inc. The Internal Revenue Service issued an opinion letter, dated May 3, 2002 approving the form of the prototype plan as being in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since the opinion letter was received. However, the Plan's administrator, consultant, and trustee believe the Plan is currently being operated in compliance with the applicable requirements of the prototype plan and the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The plan administrator believes it is no longer subject to income tax examinations for periods prior to 2007.

NOTE 5 - INVESTMENTS

The Plan's investments are held in a trust by the Plan's trustee. The following table presents those investments. Investments that represent five percent or more of the Plan's net assets are separately identified.

NOTE 6 - PARTY IN INTEREST

State Street Bank is the Trustee of the Plan and commands physical and administrative control of certain plan assets and is responsible for the safekeeping of the Plan's assets, investments of funds, and other transactions as directed by the plan administrator or participants. The Plan assets are invested in units of common / collective trusts by State Street Bank.

NOTE 7 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following schedule is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.

	2010	2009
Net assets available for benefits per the financial statements	\$ 2,804,026	\$ 2,795,417

Net Assets Per Form 5500	<u><u>\$ 2,790,340</u></u>	<u><u>\$ 2,772,949</u></u>

Deemed distributions reported on Form 5500 are not included in the financial statements. Deemed distributions reported per Form 5500 were \$14,038 and \$17,408 for 2010 and 2009, respectively.

NOTE 8 - FAIR VALUE MEASUREMENT

The Plan adopted the provisions of Financial Accounting Standards Board Interpretation No. 820-10, "Fair Value Measurements and Disclosure" (FASB ASC 820-10), effective January 1, 2008. Under this standard, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

FASB ASC 820-10 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

FOREST CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

NOTE 8 - FAIR VALUE MEASUREMENT (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

- Registered investment companies: Valued at the net asset value (NAV) of shares held by the plan at year end.
- Common / collective trusts: Fair value is estimated based on net asset value (NAV). While NAV for a CCT is quoted in a market that is not active, classification is based on the observability of the investments held in the CCT.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

Assets at Fair Value as of December 31, 2010
