INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Jamestown Companies Retirement Plan & Trust
Boca Raton, Florida

We have audited the accompanying statements of net assets available for benefits of the Jamestown Companies Retirement Plan & Trust (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held (at end of year) as of December 31, 2010 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

(1) Description of plan

The following description of the Jamestown Companies Retirement Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by Jamestown Metal Marine Sales, Inc. (the "Company") for the benefit of its full-time employees (subject to certain exclusions as defined in the Plan) who have one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Participants may contribute up to the maximum amount of their qualified compensation allowed by law, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan.

The Company may also contribute to the Plan in the form of a matching or profit sharing contribution. These contributions are determined annually and are made at the discretion of the Company. Discretionary profit sharing contributions are allocated to each eligible participant's account in the same proportion that compensation plus compensation in excess of social security taxable wage base ("excess compensation") bears to the total compensation plus excess compensation of all eligible participants, provided the total to be allocated for the year does not exceed 5.7% of total eligible compensation plus excess compensation. Any remaining employer contribution is then allocated in the proportion that the total compensation paid to the participant for that Plan year bears to the total compensation paid to all eligible participants for the same year. The Company's contributions are subject to certain limitations prescribed by the Internal Revenue Code (the "Code").

On the anniversary date of the Plan year in which they occur (or such time as shall be determined by the administrator), forfeitures of profit sharing contributions shall be credited to the Employer Contribution Accounts of the same participants who are entitled to share in the employer's contribution for the Plan year and allocated in the same manner as the employer's contribution, as noted above. For purposes of determining eligibility for profit sharing contributions, participants must be employed on the last day of the plan year and have completed at least 1,000 hours of service. Participants who satisfy the eligibility requirements during the first six months of the plan year, will enter the plan on the first day of the plan year while participants who become eligible during the last six months of the plan year, will enter the plan on the first day of the following year.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers common collective trust funds and an insurance investment contract as investment options for participants.

(1) Description of plan (continued)

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the plan administrator and must be repaid to the Plan within a five year period, unless the loan is used for the purchase of a residence. Principal and interest is paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability or retirement, if the vested account balance exceeds $5,000, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or certain periodic payments. If the vested balance in a participant's account is less than $5,000 then a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts – At December 31, 2010 and 2009, forfeited nonvested accounts totaled $13,850 and $5,142, respectively. The 2010 and 2009 amounts were allocated to participant accounts in the same manner as profit sharing contributions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on the contract value basis.

(2) Summary of significant accounting policies (continued)

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

New accounting pronouncements - The following new accounting pronouncements were adopted during the year ended December 31, 2010:

Fair Value Disclosures - In January 2010, the Financial Accounting Standards Board (the "FASB") issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. Net assets available for benefits and changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Notes Receivable from Participants - In September 2010, the FASB issued guidance clarifying the classification and measurement of participant loans by defined contribution pension plans. Participant loans are required to be classified as notes receivable from participants (rather than investments) and measured at their unpaid principal balance, plus any accrued but unpaid interest. The guidance, which must be applied retrospectively, is effective for fiscal years ending after December 15, 2010 with early adoption permitted. The Plan adopted this guidance in its December 31, 2010 financial statements and has reclassified participant loans at December 31, 2009 from investments to notes receivable from participants. Additionally, interest income on notes receivable from participants has been reclassified from interest income for the year ended December 31, 2009. Net assets available for benefits of the Plan were not affected by the adoption of the new guidance.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(2) Summary of significant accounting policies (continued)

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Unit values - Individual participant accounts for the common collective trust funds are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Administrative expenses include record keeping and investment management fees.

Reclassification - Certain items from the 2009 financial statements have been reclassified to conform with the 2010 presentation.

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31,	
	2010	2009
WTFSC GIC Portfolio	$ 4,820,484	$ 5,524,712
WTFSC Strategic Bond Portfolio	617,164	610,599
WTFSC Large Company Value Portfolio	763,860	619,213
WTFSC Overseas Equity Portfolio	588,335	*
WTFSC Total Return Reit Portfolio	708,828	*

*Not applicable, investment amount is below five percent.

During 2010 and 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in values as follows:

	Years Ended December 31,	
	2010	2009
Common collective trusts	$ 761,616	$ 667,750
Guaranteed investment account	49,273	51,328
	$ 810,889	$ 719,078

(3) Investments (continued)

Guaranteed investment contract - The Plan has a benefit-responsive guaranteed investment contract with Wilmington Trust Company ("WTRISC"). WTRISC maintains the contributions in a separate account. The investment contract issuers within the collective trust are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Trust.

Because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by WTRISC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contracts generally do not permit the contract issuers to terminate the agreements prior to the scheduled maturity date.

The average yields for the years ended December 31, 2010 and 2009 are as follows:

	December 31,	
	2010	**2009**
Fair value	$ 4,820,484	$ 5,524,712
Average yields:		
Based on actual earnings	4.55%	0.62%
Based on interest rate credited to participants	0.75%	0.57%

(4) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Guaranteed investment contract portfolio: Valued at fair value which represents the liquidating value as documented in the contract. Liquidation value is the market value of assets in the separate accounts. See Note 3.

Common collective trust funds: Valued at the net asset value (NAV) of shares held by the portfolio at year end. The NAV is based on the value of the underlying assets owned by the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(4) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

	Investments at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
GIC portfolio	$ -	$ -	$ 4,820,484	$ 4,820,484

Total investments at fair value	$ -	$ 5,020,386	$ 4,820,484	$ 9,840,870

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009:

	Investments at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total
GIC portfolio	$ -	$ -	$ 5,524,712	$ 5,524,712
Common collective trust funds:

Total investments at fair value	$ -	$ 3,958,864	$ 5,524,712	$ 9,483,576

(4) Fair value measurements (continued)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2010 and 2009.

	Years Ended December 31,	
	2010	2009
Balance, beginning of year	$ 5,524,712	$ 5,525,471
Net appreciation relating to instruments held at the reporting date	49,273	51,328
Purchases, issuances, and settlements	(753,501)	(52,087)
Balance, end of year	$ 4,820,484	$ 5,524,712

(5) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(6) Tax status

The Company has adopted a volume submitter profit sharing plan provided by Retirement Services, Inc. The Internal Revenue Service has issued an opinion letter to Retirement Services, Inc. dated March 31, 2008 stating that the volume submitter document adopted by the Company is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has not applied for or received its own determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United State of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

(7) Related party transactions

Certain plan investments are managed by WTRISC. UBS Global Asset Management (Americas), Inc. is the custodian of the Plan. The Plan uses Retirement Strategies Incorporated as a third party administrator. During 2010 and 2009, fees paid by the Plan to WTRISC totaled $89,010 and $69,520, respectively.

(8) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(9) Subsequent events

The Plan has evaluated subsequent events through October 13, 2011, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
