We were engaged to audit the accompanying statements of net assets available for benefits of Viking Financial Services 401(k) Savings Plan and Trust (the Plan) as of December 31, 2010 and 2009, the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplement schedule (1) Schedule H, line 4i-Schedule of Assets (Held at Year End) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 6, which was certified by the Charles Schwab Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator obtained a certification from the custodian as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian, is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(k) SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 30, 2010 AND 2009

NOTE 1: DESCRIPTION OF THE PLAN

The following description of the Viking Financial Services/401(k) Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL: The plan was established effective January 1, 1992 and is a defined contribution plan for all of the employees, except leased employees, employees covered by a collective bargaining agreement and nonresident aliens, of Viking Bank (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

ELIGIBILITY AND AUTOMATIC ENROLLMENT: All employees became eligible to participate in the Plan upon reaching age 18 and completing six full calendar months of consecutive employment or reaching age 18 and completing 1000 hours of service in a twelve consecutive month period. Effective July 1, 2008 the Plan was amended to include an automatic enrollment provision, as detailed in the plan documents, whereby the participant is automatically enrolled at a 4% contribution rate after they meet the eligibility requirements, unless they elect otherwise.

CONTRIBUTIONS: Under terms of the Plan agreement, participant and Company contributions are determined as follows:

Employee - Up to 85% of their compensation annually, subject to statutory limitations.

Employer - Through 2009 the Company made 100% safe harbor matching contributions each year of up to 4% of the employee's compensation. The matching contributions did not apply to the catch up portion of any employee contributions. The Plan has been amended and effective January 1, 2010 the 100% matching contribution of up to 4% of the employees compensation has been deleted and employer discretionary matching and profit sharing provisions have been added, which can be made at the sole discretion of the Board of Directors of the Company. Employees must be employed on the last day of the year to receive any discretionary contributions.

Participants may also contribute amounts representing distributions from other defined benefit or contribution plans.

401(k) SAVINGS PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS (Continued)
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: DESCRIPTION OF THE PLAN (continued)

PARTICIPANT ACCOUNTS: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may change the investment of his or her existing account balance among the 401(k) investment funds on a daily basis. All investments are participant directed.

PARTICIPANT LOANS: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest from 4.25% to 6%, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

ADMINISTRATION: The Trustee and the Plan Administrator is a member of Company's management. Some administrative costs of the Plan have been paid by the Company; however, Plan expenses not paid by the Company are to be paid by the Plan.

VESTING: Participants are 100% vested in their employee, employer safe harbor and discretionary matching contributions and all earnings on those contributions immediately. Participants are vested in the employer discretionary profit sharing contribution at 25% per year of credited service and are vested 100% after four years of credited service. A year of credited service for vesting purposes is a Plan year in which an employee completes 1,000 hours of service.

FORFEITURES: Through December 31, 2010 the plan has had no forfeitures. Any forfeitures incurred in the future will be applied first to reinstate any forfeited benefits that are required to be reinstated in that Plan Year, then to pay certain Plan administrative expenses, and then to reduce future employer contributions.

NOTES TO FINANCIAL STATEMENTS (Continued)
YEARS ENDED DECEMBER 31, 2010 AND 2009

NOTE 1: DESCRIPTION OF THE PLAN (continued)

PAYMENT OF BENEFITS: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum payment or rollover amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may also receive the value of the vested interest in his or her account as a lump-sum distribution. Effective January 1, 2009, the Plan was amended to allow participants to make in-service withdrawals of the vested portion of their account upon their attainment of age 59 ½.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent events

Subsequent events were evaluated through September 30, 2011 which is the date the financial statements were available to be issued.

NOTE 4: FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring the fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- quoted prices for similar assets and liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end.

The *common collective trust* is valued primarily based on other observable inputs by the trust, including but not limited to: quoted prices for similar assets in markets that are not active, inputs other than quoted prices that are observable for the assets, or other market-corroborated inputs, including discounted cash flows of individual investment contracts at the prevailing interpolated yield curve.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

NOTE 5: INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2004, the Plan entered into a benefit-responsive investment contract with the Gartmore Trust Company through the Union Bond & Trust Company Stable Value Fund Collective Investment Trust for the contract. The Charles Schwab Trust Company maintains the Plan's shares and the third party administrator maintains the participants' accounts. The accounts are credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract.

Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was \$386,346 and \$644,182, respectively. The crediting interest rate is determined by the Trust, which invests in conventional and synthetic contracts and cash equivalents issued by banks, life insurance companies and other financial institutions. The Plan participates in the gains and losses of the investments, rather than guaranteed interest rates, and therefore the interest rates are generally reset monthly.

Certain events limit the Plan's ability to transact at contract value with the Trust. Such events include the following: (a) withdrawal from the contract as a result of an employer initiated event or a complete or partial termination of the Plan before the contract ends, (b) inclusion of competing investments alternatives as defined in the contract, or (c) the failure of the trust to qualify for exemption from federal income taxes under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

During 2010 and 2009 the Fund blended net crediting rate was 2.748% and 2,541%, respectively, and the Fund market yield was 2.66% and 2.65%.

NOTE 6: INFORMATION CERTIFIED BY THE PLAN CUSTODIAN

Under the method permitted by Department of Labor regulations, the Plan has included certain data in the financial statements, which is based on information certified by the custodian, Charles Schwab Trust Company, as accurate and complete. Such data includes investments at fair value, investment income, and reportable transactions as of December 31, 2010 and 2009 and for the year ended December 31, 2010.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 8: TAX STATUS

The Plan has received a letter of determination dated January 11, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the United States Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior 2007.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
