Independent Auditor's Report

To the Plan Administrator
Lake Hospital System, Inc. 403(b) Retirement Savings Plan
Cleveland, Ohio

We were engaged to audit the accompanying statements of net assets available for benefits of the Lake Hospital System, Inc. 403(b) Retirement Savings Plan (the Plan) as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified and provided by American United Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's assets and executes transactions. The plan administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the plan administrator by the custodian as of December 31, 2010 and 2009, and for the year ended December 31, 2010.

Certain annuity or custodial accounts may have been issued to current or former employees without the plan administrator's knowledge prior to January 1, 2009, therefore the Plan has not maintained accounting records and supporting documents relating to these accounts. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

Further, as described in Note 9, the Plan may have excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees without the plan administrator's knowledge prior to January 1, 2009, as permitted by the United States Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions, if any, related to such potential accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions, if any, are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Because we were not able to apply auditing procedures to satisfy ourselves as to the appropriateness and completeness of the Plan's net assets available for benefits as of December 31, 2010 and 2009, and changes in net assets available for benefits for the year ended December 31, 2010, as described in the third and fourth paragraphs above, and because of the significance of the information in the financial statements related to the Plan's investments that we did not audit as described in the second paragraph above, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole.

As described in Note 2, the Plan adopted Financial Accounting Standards Board Accounting Standards Update 2010-25, Plan Accounting – Defined Contribution Pension Plans (Topic 962): *Reporting Loans to Participants by Defined Contribution Pension Plans*, as of December 31, 2010, which clarified how loans to participants should be classified and measured by defined contribution pension plans. This update was retrospectively applied to December 31, 2009.

Lake Hospital System, Inc. 403(b) Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Lake Hospital System, Inc. 403(b) Retirement Savings Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a participant-directed, defined contribution plan covering substantially all full-time employees of Lake Hospital System, Inc. (d.b.a. Lake Health) (the Company). Employees become participants in the elective deferral portion of the Plan on his or her first day of employment with the Company. Employees who have completed one year of service are eligible for the Company matching and discretionary contributions. One year of service is defined as having 1,000 hours within a twelve-month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Each year, participants may contribute up to the maximum percentage of pretax annual compensation, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the plan. Participants who attained age 50 before the end of the Plan year were eligible to contribute additional catch-up contributions. The Company may contribute, at its discretion, a matching contribution equal to a uniform percentage of the amount of a participant's salary reduction which percentage will be determined each year by the Company. Additional amounts may be contributed at the discretion of the Company's board of directors. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service, as defined by the Plan. Employees hired prior to January 1, 2004, who became participants, are 100 percent vested after two years of credited service, as defined by the Plan.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

Forfeited accounts: Forfeitures are used to pay reasonable Plan expenses then to reduce future employer contributions. At December 31, 2010 and 2009, there were approximately \$57,300 and \$16,600 of unallocated forfeited accounts, respectively. For the year ended December 31, 2010, approximately \$31,400 of forfeitures was used to pay Plan expenses or reduce employee contributions.

Note 2. Summary of Significant Accounting Policies

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a ten-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The plan administrator may distribute to participants up to 100% of their account balances in the event of a hardship if participants satisfy certain requirements that demonstrate immediate and heavy financial need.

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if any. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends, if any, are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as, held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Expenses of the Plan are paid by the Company or the Plan, at the discretion of the Company.

Note 2. Summary of Significant Accounting Policies (Continued)

Recently adopted accounting pronouncements: In September 2010, the Financial Accounting Standards Board (FASB) issued an amendment, "*Plan Accounting-Defined Contribution Pension Plans (Topic 962): Reporting Loans to participants by Defined Contribution Pension Plans*" (ASU 2010-25), which provided guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment required that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment required retrospective application to all periods presented. This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling \$2,906,118 and \$2,285,560 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 or 2009, as a result of the adoption.

In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment "*Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*", Accounting Standards Update (ASU) 2010-06, which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarified that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarified that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. Management is currently evaluating the impact of the guidance related to Level 3 disclosures.

Recently issued accounting pronouncements: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent events: Plan management has evaluated subsequent events for potential recognition and/or disclosure through October 14, 2011, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by American United Life Insurance Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009 and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the plan administrator. The plan administrator has obtained certifications from the custodian that information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets. Assets that exceed 5% of the Plan's net assets have been separately identified.

AUL Fixed Account	<u>\$ 21,918,536</u>	<u>\$ 21,752,305</u>
Notes receivable from participants	<u>\$ 2,906,118</u>	<u>\$ 2,285,560</u>

* Investment did not exceed 5% of the Plan's net assets.

AUL also certified to the completeness and accuracy of \$8,964,761 of net appreciation in the fair value of investments related to pooled separate accounts, \$855,984 of interest income on the unallocated insurance contract, and \$117,630 of interest related to notes receivable from participants for the year ended December 31, 2010.

Note 4. Fair Value Measurements

Accounting guidance established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Lake Hospital System, Inc. 403(b) Retirement Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the total of the net asset value of shares of mutual funds and cash held by the account at year-end. The Plan's interest in the pooled separate accounts are valued based on the information reported by the investment advisor.

Unallocated insurance contract: Valued at the total principal invested plus interest earned (see Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31:

- ⁽⁵⁾ Investments in this category seek to provide an above-average capital appreciation and a moderate to high level of income. The target investment allocations of the funds range between 20%-60% in equities and the remainder in fixed income and cash.
- ⁽⁶⁾ This category includes investments whose objective is to invest in a combination of stocks, bonds and cash equivalents to achieve income, growth and capital appreciation utilizing conservative, moderate or aggressive investment techniques.
- ⁽⁷⁾ This category's investment seeks to maximize income, to the extent consistent with preservation of capital, through investing in bonds and income-producing securities. The fund typically invests at least 65% in U.S. dollar-denominated debt securities.
- ⁽⁸⁾ This category includes investments whose objective is to provide current income while preserving assets and maintaining liquidity and investment quality. The funds invest in high-quality, short-term money market instruments.

Note 5. Investment Contract with Insurance Company

The Plan has a benefit-responsive investment contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which approximates fair value, as reported by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was \$21,918,536 and \$21,752,305, respectively. Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made and held within the AUL general account. When establishing interest credit rates for these contracts, AUL considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan agreement, (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the plan sponsor or other plan sponsor events, or (4) failure of the trust to qualify for exemption under ERISA or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. This total liquidation is a contingent event, which cannot be initiated by participants, and can only be initiated by the custodian upon termination of the Plan or complete termination of the contract.

	2010	2009
Average yield earned by the Plan	4.03%	4.05%
Average yield credited to participants	4.03%	4.05%

Lake Hospital System, Inc. 403(b) Retirement Savings Plan

Notes to Financial Statements

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 7. Tax Status

The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, and therefore, is exempt from income taxes. No provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2010, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to tax examinations by U.S. federal tax authorities for years before 2007.

Note 8. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and an insurance contract managed by AUL. AUL is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for AUL, without consideration of indirect compensation, for the year ended December 31, 2010 was \$21,337.

Note 9. Excluded Contracts

The plan administrator has elected to exclude from investments certain annuity and custodial accounts which may have been issued to current and former employees without the plan administrator's knowledge prior to January 1, 2009, as permitted by the United States Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such potential accounts have also been excluded from the statement of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The plan administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 10. Subsequent Event

On March 30, 2011, the Company approved a discretionary contribution of approximately \$1.8 million for the year ended December 31, 2010 to be pro-rated to eligible participants. The amount was funded to the Plan in April 2011.

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
