Independent Auditors' Report

Administrative and Investment Committee
Nexant 401(k) Plan
San Francisco, California

We were engaged to audit the financial statements and supplemental schedule of the Nexant 401(k) Plan (Plan) as of December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Charles Schwab Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of the Plan

The following description of the Nexant (Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 2000 and subsequently amended and restated. Employees of Nexant, Inc. are eligible to participate in the Plan on the first day of the month following date of hire. Employees subject to collective bargaining agreements, nonresident aliens with no source of U.S. income, temporary hires and interns and leased employees are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 15% of pre-tax annual compensation, as defined in the Plan, up to the maximum amounts allowed by the Internal Revenue Code (IRC) which was $16,500 in 2010 and 2009. Participants may also make after-tax contributions to the Plan up to 5% of compensation. Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Additionally, participants age 50 or older may contribute catch-up contributions up to $5,500 for the Plan years ended December 31, 2010 and 2009.

The Plan defines the minimum Company matching contribution as equal to 50% of each participant's pre-tax elective deferrals up to a maximum of 5% of each participant's compensation, as defined in the Plan. For the 2010 and 2009 Plan years, the Company elected to make matching contributions equal to 100% of each participant's pre-tax elective deferrals up to a maximum of 5% of each participant's compensation, as defined in the Plan.

In addition, the Company may make discretionary profit sharing contributions to the Plan, as determined each year. Participants must complete a year of service and be employed on the last day of the Plan year in order to be eligible to receive a contribution unless termination of employment is due to death, disability, or retirement. The Company did not make any discretionary profit sharing contributions during the Plan years ended December 31, 2010 and 2009.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings or losses, and is charged with an allocation of administrative expenses, except for fees relating to notes receivable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers nine mutual funds, six common collective trusts (CCTs), a money market fund, and self-directed brokerage accounts as investment options for participants.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon, and in all Company matching and any discretionary profit sharing contributions.

Notes Receivable- Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of lesser of $50,000 or 50% of their account balances. Participants may only have one loan outstanding at any time. The loans are secured by the vested balance in the participant's account and bear interest rates equal to current lending rates for similar loans at the time of the loan. Currently, interest rates range between 4.25% and 9.25%. Loan repayments are generally made through payroll deductions over a period not to exceed five years.

On a periodic basis, the Company determines whether participant loans are collectible. The determination is made based on the terms of the Plan document and the related Plan policies and procedures. If notes receivable are deemed uncollectible, they are written off and included as benefits paid to participants in the financial statements in the year the determination was made. During 2010 and 2009, there were no deemed distributions.

Payment of Benefits

Upon termination of service, death, disability, reaching the age of 59 1/2, or retirement, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Certain minimum distributions are also required by April 1st following the end of the year in which a participant reaches age 70 ½ or the April 1st following the end of the year in which a participant retires. Separated participants with vested account balances under $1,000 will receive a lump sum distribution as requested by the Plan administrator without the participant's consent, unless otherwise elected by the participant. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Administrative Expenses

The Company pays substantially all expenses associated with the administration of the Plan, except for notes receivable -participant loan fees. Administrative expenses generally represent loan administration fees and self directed brokerage account fees charged directly to the participants' accounts. Administrative expenses recorded in the Plan during the years ended December 31, 2010 and 2009 totaled $2,250 and $2,200, respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform to the current year presentation.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan's investment options include funds that invest in securities of foreign companies which involve special risks and considerations not typically associated with investing in U.S companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S companies.

Investment Valuation and Income Recognition

The investments of the Plan are stated at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The shares of mutual funds, government agency obligations, common stock, and unit investment trusts are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end. The money market fund is valued at historical cost plus accrued interest, which approximates fair value. The CCT funds are stated at fair value as determined by the issuer based on fair market value of the underlying investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Notes Receivable -Participant Loans

Notes receivable represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Participant loans are valued at amortized cost, which represents fair value. No allowance for loan losses has been recorded as of December 31, 2010 and 2009. If a participant ceases to make loan payments and the loan is deemed a distribution, based on the terms of the loan document, the participant's loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Auditing Standards Update No. (ASU) 2010-06, "Improving Disclosures about Fair Value Measurements." This standard requires new disclosures on the amount and reason for transfers in and out of Level 1 and 2 recurring fair value measurements. The standard also requires disclosure of activities, on a gross basis, including purchases, sales, issuances and settlements, in the reconciliation of Level 3 fair value recurring measurements. The standard clarifies existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. The new disclosures regarding Level 1 and 2 fair value measurements and clarification of existing disclosures became effective for the Plan's 2010 year and did not have a material impact on the Plan's financial statements. The disclosures regarding the reconciliation of information in Level 3 recurring fair value measurements are required for the Plan's 2011 year and as this guidance is only disclosure-related, it is not expected to have a material impact on the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans." Under ASU 2010-25, loans to participants, previously classified as investments, are now classified as notes receivable from participants. These notes receivables are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. ASU 2010-25 is effective for fiscal years ending after December 15, 2010, and must be applied retrospectively. The Plan adopted this guidance in 2010 and reclassified participant loans as of December 31, 2010 and 2009 from investments to notes receivable from participants on the Statements of Net Assets Available for Benefits.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." ASU 2011-04 amended Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," to provide a consistent definition of fair value and improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement and disclosure requirements, while other amendments change a particular principle or requirement for measuring fair value or disclosing information about fair value measurements. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	2010	2009
Mutual funds	$26 ,716,447	$ 22,049,377
Money market fund	3,888,114	4,203,562
Self-directed brokerage accounts	1,325,580	1,307,116
Participant loans	330,375	195,792
Common collective trust	1,727,099	1,247,841

Year ended December 31,	2010	2009
Interest and dividend income	$ 456,172	$ 440,415
Interest income from notes receivable - participant loans	11,619	14,714
Net appreciation in fair value	3,831,355	6,045,230

Except for participant loans, the Plan's independent auditors did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following is a schedule of individual investments with fair values exceeding 5% of the net assets available for benefits:

5. Fair Value Measurements

ASC 820 provides the framework for measuring fair value within a hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets of liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The measurements described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value, as of December 31, 2010 and 2009. As required by the accounting guidance, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

6. Related Party Transactions

Certain Plan investments are shares of mutual fund, common collective trusts, and a money market fund managed by an affiliate of Charles Schwab Trust Company, the trustee of the Plan. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each investment fund. Therefore, these transactions qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would remain 100% vested in their accounts.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 20, 2003, that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"), including compliance with recent legislation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and currently operating in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to the Plan year ended December 31, 2007.

9. Subsequent Event

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 11, 2011, the date the accompanying financial statements were available to be issued. During this period, no material recognizable or disclosable subsequent events were identified.
