HAMCOR, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009 (See Independent Auditors' Report)

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Hamcor, Inc. 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established in 1999 covering all eligible employees of Hamcor, Inc. dba Dublin Toyota ("the Company" or "Plan Administrator"), as defined in the Plan agreement. Effective August 1, 2010, the Plan allows for 6450 Motors, LLC dba Dublin Hyundai to adopt the provisions of the Plan. The Plan Administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration – An Administrative Committee ("the Committee") manages the operation and administration of the Plan. Through August 23, 2010 the Company had contracted with John Hancock Life Insurance Company (U.S.A.) ("John Hancock"), to act as custodian and certain officers of the Company acted as Plan Trustees. Effective August 24, 2010, the Plan changed its custodian from John Hancock to Orchard Trust Company, LLC ("Orchard Trust") who also serves as Trustee. The black out period for the change was from August 16, 2010 to September 20, 2010. Plan assets were transferred in accordance with the provisions of ERISA to participant-directed investment options at Orchard Trust. A third-party administrator processes and maintains the records of participant data.

Contributions – Each year, participants may contribute up to 100% of eligible compensation, as defined in the Plan agreement, not to exceed the maximum statutory amount. Participants who are 50 or older can elect to make catch-up contributions to the Plan, not to exceed the maximum statutory amount. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company may make a discretionary matching contribution and/or a discretionary profit sharing contribution to the Plan. For 2010, the Company's matching contribution was equal to 10% of a participant's salary deferral up to a maximum of $2,200 per participant. No profit-sharing contribution was made in year 2010.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's matching contribution, an allocation of the Company's profit-sharing contribution (if any), Plan earnings or losses, and Plan expenses as allowed by the Plan. Allocations of the Company's profit-

sharing contribution are based on participant compensation. Allocations of Plan earnings and losses are based on individual participant investment choices. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. All contributions/investments are participant directed.

Certain investment and fund fees are charged to the funds and participant accounts and are offset against plan investment income and losses. Participants should refer to the funds' prospectuses for further information on these fees.

Vesting – Participants are 100% vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit-sharing contribution portion of their accounts is based on years of service. Participants vest at the rate of 25% after the first year of credited service and are fully vested after four years of service. Participants fully vest upon death, permanent disability, normal retirement or Plan termination.

Notes Receivable from Participants – Participants may borrow from their fund accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Outstanding loans at December 31, 2010 and 2009 carry interest rates which range from 5.25% to 9%. Principal and interest is paid ratably through payroll deductions. Loans must be repaid within a five-year period, unless it is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such loans are established by the Plan Administrator.

Payment of Benefits – Distributions from the Plan may only be made after specific events have occurred. Participants are eligible for a distribution upon termination of employment, death, retirement, disability, and Plan termination and are paid in accordance with Plan provisions. Participants may be eligible to receive distributions up to their vested account balance in the case of financial hardship. Participants are eligible to receive in-service distributions upon attaining age $59^{1/2}$.

Forfeited Accounts – Forfeitures of employer matching contributions can be used to pay Plan expenses or reduce employer contributions. The forfeiture employer matching account balance was $9,462 and $9,113, at December 31, 2010 and 2009, respectively. Forfeitures of employer profit-sharing contributions can be used to pay Plan expenses or reallocated to participants. The forfeiture employer profit-sharing account balance was $0 at December 31, 2010 and 2009.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting in accordance with principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments of the Plan are reported at fair value as determined by Orchard Trust and John Hancock. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – As a result of the adoption of the Financial Accounting Standards Board's (FASB) Accounting Standards Update 2010-25, Plan Accounting - Defined Contribution Plans, the Plan retrospectively classified participant loans as notes receivable from participants in the financial statements and measured them at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Operating Expenses – Some expenses incurred for administering the Plan are paid by the Company. John Hancock contract administration fees are paid by the Plan and charged to participant accounts.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to

the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – CERTIFIED INFORMATION

In accordance with 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information certified by Orchard Trust as of December 31, 2010 and for the period August 24, 2010 to December 31, 2010, and from John Hancock as of December 31, 2009 and for the period January 1, 2010 to August 23, 2010, regarding the current value of assets held and transactions entered into, was used in the preparation of the accompanying financial statements and supplemental schedules. NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at the closing price reported on the active market in which the individual securities are traded.

Pooled Separate Accounts: Valued at a unitized share basis based on the value of the underlying investments in the pooled separate account.

Fixed Annuity and Guaranteed Account: Valued at the amount the Plan Sponsor would receive if they terminated the contract, which is book value less any early withdrawal charge.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

NOTE 6 – FIXED ANNUITY AND GUARANTEED ACCOUNT

The Plan's Key Guaranteed Portfolio Fund (KGPF) is a fixed annuity with Orchard Trust and is reported at fair value which approximates contract value. Fixed annuities held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive fixed annuities. The KGPF is considered not fully benefit-responsive. The crediting rates for 2010 were approximately 2.40%. The average yield and the average yield paid to participants was approximately 2.40% in 2010. The guaranteed minimum crediting rate under the contract is 0%. The crediting interest rates are set based on the Plan's contract with Orchard Trust.

The John Hancock 3 YR Comp Guaranteed account is reported at contract value by John Hancock. The guaranteed account is considered not fully benefit-responsive. Fair value approximates contract value as of December 31, 2009. Guaranteed accounts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The crediting rate, the average yield to the Plan, and the average yield paid to participants was approximately 2% in 2010 and 2009. The crediting interest rate is reset on a regular basis and is based on the Plan's contract with John Hancock.

NOTE 7 – RELATED PARTY TRANSACTIONS

Certain plan investments managed by the custodian of the Plan are considered party-in-interest transactions under ERISA regulations. Such transactions are

permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 8 – TAX STATUS

The Plan has received a determination letter dated September 17, 2010 from the Internal Revenue Service (IRS). The Plan Administrator believes that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code and state statutes and is exempt from federal income and state franchise taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities and government agencies. The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Information returns for years for which the applicable statutes of limitations have not expired are subject to examination by tax authorities.

NOTE 9 – PLAN TERMINATION AND/OR MODIFICATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or terminate the Plan at any time, subject to the provisions of ERISA.

NOTE 10 – LATE DEPOSITS

Certain participant contributions in the amount of $165 in 2010 were not deposited with the custodian on a timely basis. Because of the delay in deposit of the participants' contributions, these contributions are considered prohibited transactions under ERISA. The lost earnings (prohibited transaction amount) will be deposited into the Plan and the excise tax return will be filed with the IRS in 2011.

In 2010, the Department of Labor completed an investigation of delinquent participant contributions for the 2004 year and concluded certain participant contributions in 2004 in the amount of $111,899 were not deposited with the custodian on a timely basis. Because of the delay in deposits of the participants' contributions, these contributions are considered prohibited transactions under

ERISA. The lost earnings (prohibited transaction amount) of $258 calculated by the Department of Labor for the late contributions were deposited into the Plan in March 2010.
