Participants can make catch-up contributions that exceed the annual elective deferral limit, during any calendar year ending on or after the participant's 50th birthday. Participants' total catch-up contributions during 2010 and 2009 cannot exceed $5,500. Participants may also make rollover contributions from other qualified plans.

Under the terms of the Plan, the Company makes matching contributions to the Plan of 100% of a participant's pre-tax and/or after-tax contributions that do not exceed 3% of the participant's compensation and 50% of a participant's pre-tax and/or after-tax contributions that exceed 3% but do not exceed 5% of compensation.

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions and the Company's matching contributions and an allocation of Plan earnings. Allocations are based on the participant's account balance as defined in the Plan. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants immediately vest in all contributions and earnings in their account.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loan interest is based on a fixed rate established monthly by the administrator, which approximates the rate that would be charged by a commercial lender for a similar loan. Participant loans outstanding at December 31, 2010 and 2009 totaled $1,708,927 and $1,359,371, respectively, and bore interest at rates ranging from 4.25% to 9.25% during both 2010 and 2009. Each participant is allowed only two outstanding loans at a time. Loan principal and interest are paid ratably over periods not to exceed five years (thirty years for loans used in the purchase of a principal residence) through payroll deductions in the same frequency as regular pay.

Payment of Benefits

Upon termination of employment, a participant (or his or her designated beneficiary in the event of death) will receive a single lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship withdrawals are permitted, subject to certain limitations. Additionally, if certain conditions are met, a participant may withdraw all or part of the value of his or her vested account balance upon written request to the Company.

Forfeited Accounts

Forfeitures result from Company matching contributions, which are forfeited in order to satisfy the IRC's nondiscrimination provisions. Forfeitures as of December 31, 2010 and 2009 were $3,772 and $3,507, respectively. Forfeitures may be used to offset Plan expenses or to offset Company matching contributions. In 2010 and 2009, there were no forfeitures used to offset Plan expenses.

Administrative Expenses

Administrative expenses incurred by the Plan are primarily paid by the Company. Fees paid by the Company on behalf of the Plan were $58,114 and $34,474 for the years ended December 31, 2010 and 2009, respectively.

Financial Accounting Standards Board Codification

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 168, *The FASB Accounting Standards Codification TM and the Hierarchy of Generally Accepted Accounting Principles* ("GAAP"). The FASB Accounting Standards Codification TM, ("Codification" or "ASC") became the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. On the effective date of SFAS No. 168, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification became non-authoritative. SFAS No. 168 is effective for all financial statements issued for interim and annual periods ending after September 15, 2009.

Following SFAS No. 168, the FASB no longer issues new standards in the form of Statements, FASB Staff Positions ("FSP"), FASB Interpretations ("FIN"), or Emerging Issues Task Force Abstracts ("EITF"); instead, it issues Accounting Standards Updates ("ASUs"). The FASB does not consider ASUs as authoritative in their own right; rather, these updates will serve only to update the Codification, provide background information about the guidance, and provide the bases for conclusions on the change(s) in the Codification. SFAS No. 168 is incorporated in ASC Topic 105, *Generally Accepted Accounting Principles*. The Plan adopted SFAS No. 168 for the year ended December 31, 2009.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in ASC Topic 962, *Defined Contribution Pension Plans,* investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2010 and 2009, the Plan's investment in the guaranteed investment contract is not considered to be fully-benefit responsive and accordingly, no adjustment to contract value is showing on the Statement of Net Assets Available for Benefits.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results may differ from these estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, commodity prices and general market conditions. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Investments in registered investment companies (mutual funds) are valued at the net asset value of shares held by the Plan at year-end. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Net appreciation (depreciation) in fair value of investments includes realized gains and losses on investments sold during the year, as well as unrealized appreciation (depreciation) of investments held at the end of the year. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant notes receivable is accrued as earned. Delinquent participant notes receivable are classified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefits are recorded when paid

Reclassification

Certain items in the 2009 financial statements have been reclassified to conform to the 2010 financial statement presentation. Such reclassifications had no effect on the Plan's net assets or changes in net assets.

Recent Accounting Pronouncements

In May 2009, the FASB issued ASC Topic 855, *Subsequent Events* , which establishes general standards of accounting for and disclosure of events that occur after the date of the Statement of Net Assets Available for Benefits but before financial statements are issued or available to be issued. ASC Topic 855 defines (i) the period after the date of the Statement of Net Assets Available for Benefits during which a reporting entity's management should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (ii) the circumstances under which an entity should recognize events or transactions occurring after the date of the Statement of Net Assets Available for Benefits in its financial statements, and (iii) the disclosures an entity should make about events or transactions that occurred after the date of the Statement of Net Assets Available for Benefits. ASC Topic 855 was effective for the Plan for the year ended December 31, 2009; however, its adoption did not have a significant impact on the Plan's financial statements.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (ASU Topic 820): Improving Disclosures about Fair Value Measurements*. ASU No. 2010-06 amends the disclosure requirements of ASC Topic 820 and requires new disclosures regarding (a) transfers in and out of levels 1 and 2 and (b) activity in level 3 fair value measurements. ASU No. 2010-06 also provides amendments to ASC Topic 820 that clarify existing disclosures regarding (a) level of disaggregation for each class of assets and liabilities and (b) disclosures about inputs and valuation techniques for fair value measurements that fall in either Levels 2 or 3. ASU No. 2010-06 is effective for periods beginning after December 15, 2009 (except for the Level 3 roll forward which is effective for periods beginning after December 15, 2010). The adoption of ASU No. 2010-06 did not have a significant impact on the Plan's financial statements.

In September 2010, the FASB issued ASU No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pensions Plans*. ASU No. 2010-25 changed the reporting of loans to participants. Prior to ASU 2010-25, loans to participants were reported as investments at fair value. ASU No. 2010-25 requires that loans to participants be reported as notes receivable from participants at the unpaid principal balance plus any accrued, but unpaid interest. ASU No. 2010-25 is effective for periods ending after December 15, 2010. The Plan adopted ASU No. 2010-25 in the 2010 financial statements, applied retrospectively for all periods presented. The adoption of ASU No. 2010-25 was not significant as the unpaid principal balance plus accrued interest of loans to participants approximated fair value.

* Less than 5% of Plan assets in period indicated.

During the years ended December 31, 2010 and 2009, the Plan's investments in registered investment companies, including realized gains and losses on investments sold during the year and unrealized appreciation on investments held at the end of the year, appreciated in value by $ 3,465,284 and $5,187,811 in 2010 and 2009, respectively.

. **Fair Value Measurements**

ASC Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and not corroborated by market data and are significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies (mutual funds): Valued at the net asset value of shares held by the Plan at year-end.

Guaranteed investment contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements, continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2010 and 2009:

5. Investment Contracts with Insurance Company

The Plan is invested in the ING Fixed Account, which is a group annuity investment contract with ING Life Insurance and Annuity Company ("ILIAC"). ILIAC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent. Such interest rates are reviewed on a monthly basis for resetting. The average yield for the years ended December 31, 2010 and 2009 was 4.19% and 3.08% for 2010 and 2009, respectively. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Information Certified by the Plan's Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's trustee, ING National Trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:
