Report of Independent Auditors

To the Participants and Administrator of
Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Cerberus Capital Management, L.P. Profit Sharing 401(k) Plan (the "Plan") at December 31, 2010 and December 31, 2009, and the changes in net assets available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As explained in Note 4, the investment manager of Cerberus International, Ltd. ("Cerberus") has indefinitely suspended redemption requests received by Cerberus, which may impact Plan participants' requests for benefit payments.

1. Description of Plan

The following description of the Cerberus Capital Management, L.P. (the "Company" or the "Plan Administrator") Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined contribution profit sharing and 401(k) plan covering all full-time employees of the Company who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Cerberus International Ltd. ("Cerberus" or "the Investment Fund") was previously the Plan's sole investment and available as an investment to eligible participants from Plan inception to December 31, 2008. Decisions made with respect to the investment of the Plan's asset in the Investment Fund are made by Evercore Trust Company, N.A. (the "Fiduciary") as independent fiduciary for the Plan. Effective May 29, 2009 the Trustee of the Plan authorized John Hancock New York Retirement Plan Services ("John Hancock") as the sole recipient of any contributions made on January 1, 2009 and thereafter.

Participants' contributions may be made into the default investment option, the John Hancock New York Lifecycle Portfolios. At the participants' discretion, contributions may be allocated to twenty other John Hancock Funds in lieu of the default investment option. Additionally, John Hancock serves as the record-keeper and custodian of the participants' investment accounts in the John Hancock portion of the Plan.

a. Eligibility

Employees are eligible to participate in the Plan at the initial date of employment and attainment of age twenty-one (21).

b. Contributions and Funding Policy

Each year, participants may contribute up to 75% of pre-tax and post-tax annual compensation as defined in the Plan agreement, which is not to exceed the Internal Revenue Service ("IRS") pre-tax limit of $16,500 for the year ended December 31, 2010. Participants who have attained the age of fifty (50) before the end of the plan year are eligible to make catch-up contributions, which is limited to an additional IRS deferral limit increase of $5,500 for the year ended December 31, 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Each year, the Company contributes to the Plan from its current profits before pension and profit-sharing costs and income taxes. The amount of the Company's contribution is discretionary and is allocated based on relative levels of compensation. These profit sharing contributions were $8,732,275 and $7,999,273 for the years ended December 31, 2010 and 2009, respectively.

c. Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting
Participants are immediately vested in their allocated contributions plus actual earnings thereon.

e. Payment of Benefits
On termination of service due to death, disability or retirement or other reasons a participant may choose to receive an amount equal to the value of the participant's vested interest in his or her account, in a lump sum amount or may elect to maintain his or her account in the Plan. A participant's vested interest is determined based as of the Plan's valuation date coincident with or preceding the date of determination. For a participant's balance in Cerberus, the determination dates are March 31, June 30, September 30, and December 31, while the determination date for a participant's balance in John Hancock is daily. For participants with John Hancock account balances in excess of $1,000, an election is available to defer the distribution until the participant is required by law to receive minimum required distributions. If the participant in John Hancock or Cerberus has not attained the Plan's normal retirement age, 65, they are not eligible to request a distribution of their vested account balance.

Liquidity risk arises when the Plan is not able to redeem its investments or raise other cash resources to settle the benefit payment obligations. The Plan may make distributions in-kind and may cause any distribution to be composed of cash, property or undivided fractional shares in property, provided, however, that no participant or beneficiary shall be required to accept more than his pro rata share of any in-kind distribution. See Note 4 for restrictions on redeeming from Cerberus.

f. Notes Receivable from Participants
Participants may borrow from their accounts a minimum of $1,000 and the maximum amount is the lesser of one-half of the vested account balance or $50,000 reduced by the highest outstanding loan balance in the account during the prior twelve month period. A participant may only have one loan outstanding at any given time and the participant may not refinance an existing loan or obtain a second loan for the purpose of paying off the existing loan.

All loans bear a reasonable rate of interest as determined by the Plan Administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. The interest rate remains fixed throughout the duration of the loan.

Notes receivable from participants must be repaid over a period not to exceed five years unless for the purchase of a principal residence in which case the loan repayment period may not extend beyond ten years from the date of the loan.

2. Summary of Accounting Policies

a. Basis of Accounting
The accompanying financial statements of the Plan are prepared in compliance with the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA and the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

b. Use of Estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

c. Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Payment of Benefits
Benefits are recorded when paid.

e. Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

f. Recently Issued Accounting Standards
Accounting Standards Update ("ASU") 2010-25 ("Update") *Reporting Loans to Participants by Defined Contribution Pension Plan*, issued in September 2010, requires participants loans be classified as notes receivable from participants, segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in this Update were effective for fiscal years ending after December 15, 2010. The Plan adopted this guidance as of December 31, 2010. The adoption of this standard did not have a material impact on the Plan's financial statements.

In January 2010, the Financial Accounting Standards Board ("FASB") issued guidance which clarifies existing disclosures and requires new disclosures related to fair value measurements providing greater disaggregated information on each class of assets and liabilities and more robust disclosures on transfers between Levels 1 and 2 and activity in Level 3 fair value measurements. The adoption of this guidance, except for disclosures about Level 3 activity, by the Plan in 2010 did not have a material impact on the Plan's financial statements. The Level 3 disclosure guidance is effective for reporting periods beginning after December 15, 2010. Management believes that the adoption of this guidance will not have a material impact on the Plan.

In May 2011, FASB issued ASU 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. Plan management is in the process of evaluating the impact of the adoption of this update on the Plan's financial statements.

During the year ended December 31, 2010, the Plan's investments appreciated in value due to gains and losses on investments bought and sold, as well as held during the year, by $8,378,445 as follows:

Cerberus International Ltd.	$	4,906,383
John Hancock Pooled Separate Accounts		3,472,062
	$	8,378,445

4. Fair Value Measurement

The Plan reports investments at fair value.

The Plan discloses the fair value of its financial instruments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active;

Level 3 – Inputs that are unobservable.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan. The Plan considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Plan's perceived risk of that instrument.

If the Plan determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. Valuation techniques such as an income approach might be appropriate to supplement or replace a market approach in those circumstances. The guidance also provides a list of factors to determine whether there has been a significant decrease in relation to normal market activity. Regardless of the valuation technique and inputs used, the objective for the fair value measurement in those circumstances is unchanged from what it would

be if markets were operating at normal activity levels and/or transactions were orderly; that is, to determine the current exit price.

Investment in Investment Fund. The Plan's investment in Cerberus is reported at fair value based on the Plan's share in the net assets of the Investment Fund. This investment does not have readily ascertainable market values and is subject to certain withdrawal restrictions. The value of the Plan's investment in the Investment Fund represents the amount the Plan would expect to receive at December 31, 2010 and December 31, 2009, respectively, if it were to liquidate its investment in the Investment Fund.

Because of the inherent uncertainty of the valuation for the Plan's investment and certain underlying investments held by Cerberus (which are valued by the Company in the absence of readily ascertainable market values), the estimated fair value of Cerberus may differ from the value that would have been used had a ready market existed for these investments, and the differences could be material.

Cerberus is a corporation organized in the Bahamas. The investment objective of Cerberus is to maximize total return on capital by seeking both current income and capital appreciation through the development and management of a diversified portfolio of distressed investments. Companies that are considered "distressed" typically include: (i) those facing operating difficulties; (ii) those undergoing, or considered likely to undergo, reorganization under U.S. bankruptcy law or similar laws in other countries; (iii) those which are or have been engaged in other extraordinary transactions, such as debt restructuring, reorganization and liquidation outside of bankruptcy; and (iv) those facing a broad range of liquidity issues. Cerberus also invests in mortgage backed securities, including collateralized mortgage obligations; asset backed securities; other mortgage backed or asset-backed related investments, including investments in vehicles or entities that hold, manage, or trade, mortgage backed securities or asset backed securities. Cerberus seeks to achieve its investment objective primarily through investment in debt securities, equity securities, other obligations and assets of undervalued, operationally challenged and/or financially troubled companies (or divisions or subsidiaries of such companies). Cerberus makes passive, active and control investments. Cerberus' portfolio consists of investments in companies in various industries, investments in companies doing business in various countries and investments in various types of securities.

Cerberus has the following restrictions on redeeming from Cerberus. Redemption proceeds may be in the form of cash or securities or a combination of the same, as determined by Cerberus' Board of Directors. A portion of such proceeds may be withheld on the redemption date and paid upon completion of its annual financial statements audit.

Partridge Hill Overseas Management, L.L.C. serves as the Investment Manager (the "Investment Manager") to Cerberus. Cerberus may suspend redemption rights, in whole or in part, for a period of up to one year, when, in the opinion of its Investment Manager (a) disposal of Cerberus' investments would not be reasonably practicable or would be prejudicial to the non-redeeming members; (b) market events have created compelling investment opportunities for Cerberus and the effect of the pending redemptions would be to impair Cerberus' ability to take advantage of such opportunities and/or (c) Cerberus' ability to liquidate its portfolio is restricted because of unusual market closures or suspensions in trading.

On September 30, 2009, the Investment Manager of Cerberus lifted the suspension of redemptions previously implemented and offered all shareholders the following choice: (i) have all or a portion of the shareholder's shares from Cerberus compulsively redeemed as of September 30, 2009 and receive, in connection with such redemptions, participating, vesting shares in a special purpose vehicle, Cerberus International SPV, Ltd. (the "SPV") that holds a pro-rata share of all the cash, securities, assets and liabilities of Cerberus attributable to the percentage of the shareholders seeking to redeem or (ii) remain fully or partially invested in Cerberus under new terms that include reinvesting proceeds from the sale of Cerberus' securities and assets into Cerberus International II, Ltd., a newly formed Cayman Islands exempted company ("Cerberus International") and/or receive distributions in cash. On September 30, 2009, 59.57% of Cerberus' net asset value was participated in accordance with the transaction described above. The Trustee elected to remain invested in Cerberus but receive all distributions in cash. Immediately thereafter, redemptions were indefinitely suspended.

Cerberus will be managed to optimize the realized value of Cerberus' existing portfolio and will have the ability to make follow-on investments, engage in hedging transactions and enter into repurchase agreements or other leverage arrangements. Proceeds from the realization of Cerberus' investments (after deduction for actual or anticipated expenses and such reserves as may be determined by the Investment Manager are needed for hedging transactions, repurchase agreements and follow-on investments) (such amounts "Available Cash") will either be invested in Cerberus International II or distributed directly to continuing shareholders

For the years ended December 31, 2010 and 2009, the Fiduciary elected to receive all distributions from Cerberus in cash and reinvest such distributions in John Hancock. Distributions of $6,480,681 and $5,088,357 were received from Cerberus for the years ended December 31, 2010 and 2009, respectively.

Pooled Separate Accounts. Investments in Pooled Separate Accounts are valued at the unit value of units held by the Plan at year end as determined by John Hancock and are reviewed by the Plan Administrator. These securities generally may be redeemed daily and have been classified within Level 2.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010. The tables also include a roll forward of the amounts for the year ended December 31, 2010 for financial instruments classified within level 3. The classification of a financial instrument within level 3 is based upon the significance of the unobservable inputs to the overall fair value measurement.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated September 2, 2003, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

As of September 19, 2011 the Internal Revenue Service has determined and informed the Company that the Plan is designed in conformity with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) for disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Risks and Uncertainties

The Plan provides for various investment options. Pooled Separate Accounts invest in funds holding a combination of stocks, bonds, fixed income securities and other investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan is also exposed to liquidity risk. Note 1 to the financial statements explains liquidity risk in detail.

In the normal course of operations, Cerberus makes investments, in both long and short securities and other financial instruments, including derivatives, where the risk of potential loss due to changes in the market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the related amounts recorded. Cerberus also utilizes various degrees of leverage. However, due to the nature of the Plan's interest in Cerberus, such risks are limited to the Plan's investment in Cerberus.

8. Related Parties

Cerberus is managed by the Company and its affiliates. Certain Plan investments are units of pooled separate accounts managed by John Hancock, the record-keeper and custodian of the Plan. Additionally, a Plan trustee, who is a principal of the Company, is a participant in the Plan. Therefore, these transactions qualify as party-in-interest transactions. The Company pays for certain administrative costs on the Plan's behalf.

9. Subsequent Events

Subsequent events have been evaluated through October 14, 2011, the date the financial statements were available to be issued.

Effective August 26, 2011, the Plan was modified to allow participants the ability to make Roth 401(k) deferrals.
