We were engaged to audit the accompanying statements of net assets available for benefits of Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the year ended December 31, 2010 and the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 4, which was certified by John Hancock Life Insurance Company and Transamerica Life Insurance Company, custodians for the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that Transamerica Life Insurance Company held the Plan's investment assets and executed investment transactions from March 6, 2010 to December 31, 2010, and that John Hancock Life Insurance Company held the Plan's investment assets and executed investment transactions as of December 31, 2009 and for the period January 1, 2010 to March 5, 2010. The Plan administrator has obtained certifications from the custodians as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the Plan administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Stronghold Engineering, Inc.
401(k) Employees' Profit Sharing Plan
Notes to the Financial Statements
December 31, 2010 and 2009

Note 1: Description of the Plan:

The following description of Stronghold Engineering, Inc. 401(k) Employees' Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Prevailing Wage Pension Plan was adopted on January 1, 1997, amended and restated January 1, 2003, as a defined contribution plan covering eligible employees of Stronghold Engineering, Inc. (the Company) as defined by the Plan Agreement. Effective December 31, 2005, the net assets of Stronghold Engineering, Inc. 401(k) Profit Sharing Plan were merged into the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

Employees are eligible to make elective deferrals immediately upon attaining the age of 21. The Plan covers all Davis-Bacon or state prevailing wage contract employees regardless of age or hours of service requirements. Employees are eligible for discretionary matching contributions if they are working for the Company on the last day of the Plan year, have completed 1,000 hours of service and attained the age of 21. Employees are also eligible for discretionary employer profit sharing contributions if they are working for the Company on the last day of the Plan year, have completed 6 months of service with a minimum of 500 hours and attained age 21.

Contributions:

Each year, participants may contribute up to the maximum allowed under the Internal Revenue Code, as defined in the Plan. For participants age 50 or older, an additional "catch-up" contribution was allowed up to limits as established by the IRS for the year ended December 31, 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company also contributes the amount allowable as retirement contributions included under the General Prevailing Wage Determinations in effect and used to determine compensation for Davis-Bacon or state prevailing wage contracts. Profit sharing contributions are determined annually by the Company. The Company's Board of Directors may also elect to make contributions to match each participant's elective contribution, which the Board of Directors elected to make match contributions for the years ended December 31, 2010 and December 31, 2009 in the amount of $154,203 and $102,448, respectively.

Participant Accounts:

The custodian maintains a separate account for each participant and each type of contribution. Each participant may select from a series of investment options designated by the Company and Plan administrator. Earnings on each investment selection are credited to the participant's account.

Note 1: Description of the Plan, continued:

Vesting:

Participants are immediately vested in the prevailing wage contributions and employee compensation deferral portion plus actual earnings thereon. Vesting in the discretionary matching and employer contributions are based on covered years of service as defined. A participant is fully vested after five completed covered years of service. A covered year of service is a twelve-month period ending December 31 during which a participant worked for the Company at least 1,000 hours. A participant is also fully vested upon reaching normal retirement age, upon death or upon becoming totally and permanently disabled.

Investment Options:

Contributions on behalf of the participants are invested in accordance with the participants' investment allocation. The participants' investment choices are limited to investments with Transamerica Life Insurance Company, chosen by the Trustees. The Plan's investments are pooled; however, each participant receives allocation of Plan earnings based on the participant's investment allocation.

Note 1: Description of the Plan, continued:

Notes Receivable from Participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of the account balance. Loan transactions are treated as a transfer to (from) the investment fund(s) from (to) the participant's loan fund. Loan terms may not exceed five years except for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate determined by the Plan administrator by reviewing the rates charged for similar types of loans by other lenders. Interest rates range from 3.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits:

On termination of service, death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship distributions will be distributed as a lump-sum.

Forfeitures:

Forfeitures may be used to pay administrative expenses or to reduce match and employer contributions.

Plan Expenses:

For the year ended December 31, 2010 Plan expenses include $12,142 of contract administration fees and $5,019 of third party administrator fees.

Note 2: Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Prior Year Reclassifications:

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the current year financial presentation.

Note 2: Summary of Significant Accounting Policies, continued:

Investment Valuation and Income Recognition:

The Plan's pooled separate accounts are stated at fair value. Shares of registered investment companies are valued at quoted market prices.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

The Plan's common collective trust investment is stated at contract value. As discussed in Note 3, the Plan maintains all of its assets through an investment contract with Transamerica Life Insurance Company. The terms of the contract state that, for the life of the contract, the contract value will always equal fair value. Net appreciation in the contract (fair) value of investments includes realized and unrealized gains and losses.

Payment of Benefits:

Benefits are recorded when paid.

Recent Accounting Pronouncements:

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, and information about the purchases, sales issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements.

It also requires fair value measurement disclosures for each class of assets and liabilities and disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for the additional disclosure requirements on level 3 activity that will be effective for years beginning after December 15, 2010. The adoption of this standard did not have a material impact on the Plan's financial statements.

Note 2: Summary of Significant Accounting Policies, continued:

Recent Accounting Pronouncements, continued:

In September 2010, the FASB issued an amendment, Plan Accounting – Defined Contribution Pension Plan (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans (ASU 2010-25), which provided guidance on how loans to participants should be classified and measured by defined contribution pension plans. The amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010 and requires retrospective application to all periods presented. The Plan has adopted the amendment for the year ended December 31, 2010 and has reclassified participant loans in the 2009 financial statements to reflect the retrospective application. There was no impact to Plan net assets as of December 31, 2010 and 2009.

Subsequent Events:

Management has evaluated subsequent events through October 14, 2011, the date on which the financial statements were available to be issued. No subsequent events requiring disclosure existed as of this date.

Note 3: Investment Contract with Insurance Company:

In 2010, the Plan entered into a benefit responsive investment contract with Transamerica Life Insurance Company, which covers the common collective trust (Stable Value Advantage Option), which is an investment in investment contracts and is included in the financial statements at contract value, which represents accumulated contributions made under the contract plus earnings, less withdrawals and administrative expenses, because it is fully benefit responsive. The Option is considered fully benefit responsive as withdrawals or transfers can be made at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value included in the financial statements approximates fair value as of December 31, 2010. As of December 31, 2010, the Fund had an average yield of approximately 2.98% while the investment was held during the current period, and a crediting interest rate of 2.11%.

Note 3: Investment Contract with Insurance Company, continued:

As of December 31, 2009, the investments in the insurance variable interest account contract, including guaranteed accounts, are presented at contract value as Plan management has determined that the investment contracts are fully benefit-responsive. Contract value represents the accumulated contributions plus accrued net earnings, less withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 was $8,499,004. The average gain was approximately 18% for 2009. This investment contract was transferred to a new contract during 2010 at contract value, which approximated fair value.

Note 5: Fair Value Measurement of Investments:

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5: Fair Value Measurement of Investments, continued:

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common Collective Trust and *Guaranteed Accounts*: Valued at contract value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be as indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010:

Note 6: Net Assets Available for Benefits:

Net assets available for benefits as of December 31, 2010 and 2009 includes $797,094 and $710,823, respectively, allocated to the accounts of persons who, as of that date, had withdrawn from participating in the earnings and operations of the Plan. The amount is payable to the former participants as provided under the terms of the Plan. This amount has not been recorded as a liability as of December 31, 2010 and 2009.

Note 7: Tax Status:

The Plan obtained its latest determination letter on March 11, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 8: Transactions with Parties-in-Interest:

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Note 9: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants will become fully vested in their account balances.

Note 10: Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
