Revco D.S., Inc. Retirement Income Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Revco D.S., Inc. Retirement Income Plan, as amended (the Plan), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Background

The Plan is a non-contributory defined benefit pension plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). During July 1994, Revco D.S., Inc. (Revco) acquired Hook-SupeRx, Inc. (HSI), and effective June 4, 1995, the HSI Retirement Plan assets were transferred to the Plan. During 1997, Revco was merged into CVS Caremark Corporation (CVS Caremark or the Company), and the Plan is now sponsored by CVS Caremark. Effective January 1, 2010, the Plan was amended and the Plan name was changed from Revco D.S., Inc. Retirement Income Plan and Trust to Revco D.S., Inc. Retirement Income Plan.

The Company has appointed a Benefit Plans Committee (the Committee) to manage the operation and administration of the Plan. Effective January 2009, the Committee further named an Administrative Sub Committee and an Investment Sub Committee, and delegated certain fiduciary duties to each of the Sub Committees. The Committee appoints a trustee to hold the assets of the Plan and execute transactions at the direction of the Committee. For the years presented, the trustee of the Plan is JP Morgan Chase Bank, N.A. (the Trustee).

On June 14, 2010, the Benefit Plans Committee approved the transition of the three (3) CVS Caremark Defined Benefit Plans' trusts into one (1) master trust. The transition was effective on January 1, 2011. JPMorgan, the current Trustee of the Revco D.S., Inc. Retirement Income Plan, will be the Trustee and Custodian of the master trust.

Effective September 20, 1997, benefit accruals with respect to service and salary earned after that date were eliminated.

Effective January 1, 2001, the Standard Drug Company Employees' Retirement Plan (the Standard Plan) merged into the Plan. Benefit accruals with respect to service and salary earned in the Standard Plan were eliminated prior to the merger with the Plan. All assets and liabilities accrued under the Standard Plan as of January 1, 2001 were transferred to the Plan and, as of that date, benefits for the participants and beneficiaries of the Standard Plan are to be paid from the Plan.

Revco D.S., Inc. Retirement Income Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Benefits and Vesting

The Plan covers substantially all former Revco employees who were at least 21 years of age and had completed one year of service, as defined, and who were not members of a collective bargaining unit as of September 20, 1997.

The Plan provides normal retirement benefits based on a percentage of average earnings for the last five years of employment. The normal retirement benefits, including social security benefits, range from 50% to 81% as a percentage of average earnings, depending on the amount of average earnings, and is reduced in cases of early retirement (before age 65) or retirement prior to completion of thirty years of credited service. Retirees receiving benefits prior to June 1, 1981, and vested participants terminated prior to June 1, 1981, receive benefits in accordance with the then effective benefit formula. Death benefits are provided at 50% of applicable pension benefits to spouses of participants who are vested.

For HSI plan participants retiring on or after June 4, 1995, participants are entitled to, and will receive, the greater of the retirement benefits determined as follows: (1) based on the HSI Plan's provisions through June 4, 1995 and the Plan's provisions subsequent to June 4, 1995, or (2) based on the Plan's provisions with years of service to include a participant's pension service prior to June 4, 1995.

In addition, any former participant of the Standard Plan who, as of January 1, 2001, had been granted a retirement pension or rights to a deferred vested benefit under the Standard Plan, became eligible to receive, from the Plan, benefits in the same amount and form without charge as paid under the terms and conditions of the Standard Plan as in effect on December 31, 2000. Participants should refer to the Standard Plan document for a more complete description of the Standard Plan's provisions.

Contributions and Funding Policy

Employee contributions were previously required under the provisions of a prior plan, which merged into the Plan in 1995. As of December 31, 2010 and 2009, employees' accumulated contributions amounted to \$3,196,501 and \$3,312,237, respectively. Participants of the Plan may elect to receive a refund of their contributions as a lump sum payment with applicable compounded interest. If a refund is not requested, the benefits paid will not be less than the participant's accumulated value of their contributions.

Revco D.S., Inc. Retirement Income Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The Company's policy is to make annual contributions at least equal to the minimum amounts required by ERISA regulations and the Internal Revenue Code (the Code). The funding standard is such that, based on certain assumptions, annual contributions will provide adequate funding to meet benefit claims as they come due. The minimum funding requirements of ERISA and the Code have been met for the years ended December 31, 2010 and 2009.

2. Summary of Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. The information provided by the Trustee is prepared using the settlement date to record the timing of investment transactions rather than the trade date. The net effect on the Plan assets of using the settlement date versus the trade date is not significant.

Investments and Income Recognition

CVS Caremark has signed agreements with third-party investment managers to manage trust funds in the custody of the Trustee on behalf of the Plan. The investment managers have been granted discretionary authority concerning purchases and sales of investments in the trust funds. The investment of the trust funds, and changes therein, were determined through the use of fair values for all assets of the trust funds.

Investments are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price. Shares of mutual funds and money market funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. The fair value of participation units owned by the Plan in common collective trust funds is based on the net asset value (NAV) of shares held by the Plan at year end. It is not probable that these investments will be sold at amounts that differ materially from the NAV as of the date of sale. All units held within the Mellon EB Stock Index and Dimensional Fund Advisors Group Small Cap Subtrust can be redeemed upon thirty (30) and five (5) business days' advance written notice, respectively.

Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Revco D.S., Inc. Retirement Income Plan

Notes to Financial Statements (continued)

2. Summary of Accounting Policies (continued)

The Immediate Participation Guarantee Fund (IPG) at John Hancock is used for payment of the non-guaranteed annuity benefits provided for under Group Annuity Contract 386. The balance of the fund is made up of all additions to the fund, as described in the contract, less all withdrawals from the fund. The IPG is valued at contract value.

Benefits Paid

Benefits are recorded when paid.

Plan Expenses

All plan and trust expenses are paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 3) are those estimated future periodic benefit payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Recent Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements*, (ASU 2010-06). ASU 2010-06 expands the required disclosures about fair value measurements by requiring (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements, along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) expanded fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both

2. Summary of Accounting Policies (continued)

recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for (ii) above, which is effective for fiscal years beginning after December 15, 2010. The adoption of ASU 2010-06 did not have a material impact on the Statement of Net Assets Available for Benefits or the Statement of Changes in Net Assets Available for Benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, (ASC 820) to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits was determined by Buck Consultants for 2010 and 2009, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the end of each plan year is as follows:

	December 31	
	2010	2009
Vested benefits:		
Participants currently receiving payments	\$ 172,440,174	\$ 165,169,076
Other participants	138,102,575	142,036,949
	<u>310,542,749</u>	<u>307,206,025</u>
Non-vested benefits	<u>2,481,331</u>	<u>2,882,596</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 313,024,080</u>	<u>\$ 310,088,621</u>

Revco D.S., Inc. Retirement Income Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The change in accumulated plan benefits for each year is as follows:

	December 31	
	2010	2009
Actuarial present value of accumulated plan benefits as of beginning of year	\$ 310,088,621	\$ 270,800,302
Increase (decrease) during the period attributable to:		
Plan experience	582,635	972,028
Benefits paid	(19,436,360)	(18,633,276)
Interest	21,789,184	22,242,260
Change in assumptions	-	34,707,307
Net increase	2,935,459	39,288,319
Actuarial present value of accumulated plan benefits as of end of year	<u>\$ 313,024,080</u>	<u>\$ 310,088,621</u>

The significant actuarial assumptions used in performing the actuarial valuations at December 31, 2010 and 2009, include: (1) interest rate of 7.25% for both years, (2) plan experience – age 55 to 65 and normal retirement at age 65, and (3) mortality rates based on the 1994 Group Annuity Reserving Table projected to 2002.

The interest rate used to determine the Present Value of Accumulated Benefits (PVAB) is the assumed long-term rate of return on plan assets and should generally be the same as the expected rate of return used for FAS 87 disclosure. In 2009, this rate was reduced from 8.5% to 7.25% because the asset allocation changed from 70% equity and 30% fixed income to 50% equity and 50% fixed income. Reducing the interest rate increased the PVAB by \$35,000,000 during the year ended December 31, 2009.

4. Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

5. Investments (continued)

The following table presents the net appreciation in fair value for each significant class of investments for the Plan during the years ended December 31, 2010 and 2009:

	2010	2009
Mutual funds	\$ 3,005,936	\$ 15,888,188
Common stocks	7,196,602	7,998,520
Common/collective trust funds	12,296,690	15,811,332
	<u>\$ 22,499,228</u>	<u>\$ 39,698,040</u>

6. Fair Value Measurements

The Plan uses the three-level hierarchy for the recognition and disclosure of fair value measurements. The categorization of assets and liabilities within this hierarchy is based upon the lowest level of the input that is significant to the measurement of fair value. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy consist of the following:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. |
| Level 2 | Inputs to the valuation methodology are quoted prices for similar assets and liabilities in active markets, quoted prices in markets that are not active or inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the instrument. |
| Level 3 | Inputs to the valuation methodology are unobservable inputs based upon management's best estimate of inputs market participants could use in pricing the asset or liability at the measurement date, including assumptions about risk. |

6. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Short-Term Investments and Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds and Money Market Funds: Valued at the NAV of shares held by the plan at year end which are reported on an active market.

Common/Collective Trust Funds: Valued at the NAV as permitted by practical expedient and reported by the respective funds at each valuation date. The use of NAV is deemed appropriate as these types of investments do not have finite lives or significant restrictions on redemptions.

Immediate Participation Guarantee Fund: Valued at year-end balance made up of all additions to the fund, as described in the contract, less all withdrawals from the fund. The contract value of the fund approximates the fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. Transactions with Parties-in-Interest

Certain plan investments are in a money market fund managed by JP Morgan Chase Bank, N.A. (JP Morgan). JP Morgan is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. There is one Group Annuity Contract managed by John Hancock Financial Services, Inc. (John Hancock). John Hancock is a custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

Revco D.S., Inc. Retirement Income Plan

Notes to Financial Statements (continued)

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated October 29, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. The plan sponsor has submitted a request for a new determination letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified, and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

The Plan has evaluated events occurring subsequent to December 31, 2010 through October 14, 2011, the date the financial statements were available to be issued, and has determined there were no events that would materially affect the Plan's financial statements as of and for the year ended December 31, 2010.

Methods

Actuarial cost method

The minimum required and maximum contribution purposes:

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be the accrued during the current plan year, including the effect of expected compensation increases during the year.

Asset valuation method

The Valuation Assets are determined using a method that spreads asset gains/(losses) over a two year period on an annual basis. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. Accrued contributions, if any, are included in the Valuation Assets.

Expenses

Current Year:	Expected plan expenses of \$1,466,674 were added to the Target Normal Cost.
Prior Year:	Expected plan expenses of \$1,471,891 were added to the Target Normal Cost.

REVCO D.S. INC. RETIREMENT INCOME PLAN
EIN 05-0494040/PN 020
Schedule SB, Part V - Summary of Plan Provisions

Average Monthly Earnings	Guaranteed Percentage
Less than \$ 500	81%
\$1,000	73%
\$1,500	65%
\$2,000	60%
\$2,500	56%
\$3,000	54%
\$3,500	52%
\$4,000	51%
\$4,500	50%
\$5,000	50%

For average monthly earnings not shown in the above table, the guaranteed percentage is interpolated to four decimal places.

For employees retiring with less than 30 years of credited service, the amount otherwise payable from the Plan is multiplied by the ratio of years of credited service to 30 years.

Minimum Accrued Benefits
