Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Plan Administrator
BHP USA Retirement Income Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the BHP USA Retirement Income Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended, the statements of accumulated plan benefits as of December 31, 2009 and 2008, and the related statements of changes in accumulated plan benefits for the years then ended, and the supplemental Schedule H, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified by Northern Trust Company (the "Trustee"), the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information in the Plan's financial statements and supplemental schedule that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BHP USA RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

1. Description of the Plan

The following description of the BHP USA Retirement Income Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1998 through the merger of prior plans, as a multiple-employer defined benefit plan that provides eligible employees of BHP Holdings (International), Inc. (BHP) and adopting subsidiaries and affiliates of the parent company, BHP Billiton Limited (collectively, the Participating Companies), with retirement benefits to supplement social security benefits. Effective November 1, 1999, the Plan became a single-employer defined benefit plan. The Participating Companies are BHP Base Metals Management Co., BHP Copper Inc., BHP Hawaii Inc., BHP Minerals Service Company, BHP Nevada Mining Company, BHP Nevada Railroad Company, BHP Petroleum (Americas) Inc., BHP Petroleum (Americas) Refining Inc., BHP Steel Americas Inc., Broken Hill Proprietary (USA) Inc., BSI Commodities Inc. and San Manuel Arizona Railroad Company. An eligible employee is any employee who is employed full-time, other than the following: 1) employees covered by a collective bargaining agreement in which benefits were negotiated; 2) leased employees; 3) employees of BHP Nevada Mining Company who are paid on a bi-weekly basis; 4) any employee whose initial date of employment is after June 30, 2004 or who is transferred to the payroll of a Participating Company or rehired after June 30, 2004. The Plan was amended and restated, effective January 1, 2010, to incorporate all previous amendments. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective June 30, 2004, the Plan was closed to new participants. As a result, eligible employees who were participating in the Plan on December 31, 2004, were given the option to continue participating in the Plan or to receive a contribution under the Employer Funded Account of the BHP Retirement Savings Plan, an affiliated Plan, for services after January 1, 2005. Prior to June 30, 2004, all eligible employees enter the Plan on the later of the date of employment or the participation date for the Participating Companies with which the employees are employed.

Administration

BHP is the Plan's sponsor and administrator. Northern Trust Company (the Trustee) is the Plan's trustee. Mercer serves as the Plan's actuary. Certain duties and responsibilities to assist in the administration of the Plan are carried out on the Participating Companies' behalf by a committee that was appointed by the board of directors, the BHP USA Retirement Advisory Committee (RAC).

Funding Policy

The Company contributes such amounts as are necessary, based on actuarial calculations, to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants and their beneficiaries. The contributions to the Plan are based on the minimum required contributions determined by the actuary and the accelerated funding policy adopted by the RAC, in order to fully fund the Plan by 2012.

The yield (interest, dividends, and net realized and unrealized gains and losses) on Plan investments in excess of amounts established in the actuarial assumptions, plus any gains resulting from forfeiture of nonvested benefits, serve to reduce future contributions that would otherwise be required to provide the defined level of benefits under the Plan. The Company's contributions for 2010 and 2009 met the minimum funding requirements of ERISA.

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2010 AND 2009

1. Description of the Plan, continued

Investments

The Plan's investments are held at Northern Trust Company in the BHP USA Master Retirement Trust (the Master Trust) for the investment of Plan assets and two other BHP-sponsored defined benefit retirement plans. Each participating retirement plan has an interest in the net assets of the Master Trust.

Pension Benefits and Vesting Provisions

A participant is eligible for a normal retirement benefit on the first day of the month on or after the date the participant attains age 65. A participant may retire under the early retirement provisions after attainment of age 55 and completion of 10 years of service, or under the Rule of 85 provisions after attaining age 55 and when the sum of the participant's age and service is at least 85.

A participant's benefit is equal to at least 14% of the participant's adjusted average pay for each year of service multiplied by an adjustment factor, as defined in the Plan document. The adjustment factor is based on the participant's age and service at the time of termination. Interest is credited on the lump-sum amount at the rate of 5.5% per year, from the date of termination through the date of payment.

The surviving spouse of a participant entitled to a benefit that has not commenced at the date of death will be entitled to a survivor's benefit. The amount of the survivor benefit is the actuarial equivalent of 47.5% of the amount that would have been payable to the participant if the participant had ceased to be an employee on the earlier of his or her actual employment termination date or the day preceding his or her death. The survivor benefit is payable at the earliest time permitted under the Plan.

Payment of Benefits

A participant's benefits may be paid in one of the following forms, as described in the Plan document: 1) lump sum benefit; 2) single life annuity 3) 50% joint and survivor annuity; 4) 100% joint and survivor annuity; or 5) qualified optional survivor annuity.

Administrative Expenses

Expenses related to the administration of the Plan may be paid by the Participating Companies or by the Plan.

During 2010 and 2009, Pension Benefit Guaranty Corporation (PBGC) premiums, audit fees, actuarial fees, and other similar direct charges were paid by the Plan. Costs incidental to the administration of the Plan by BHP personnel or others were paid by the Participating Companies.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

BHP USA RETIREMENT INCOME PLAN

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2010 AND 2009

2. Summary of Significant Accounting Policies, continued

Financial Accounting Standards Board Codification

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 168, *The FASB Accounting Standards Codification TM and the Hierarchy of Generally Accepted Accounting Principles* (GAAP). The FASB Accounting Standards Codification TM, (Codification or ASC) became the source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. On the effective date of SFAS No. 168, the Codification superseded all then-existing, non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification became non-authoritative. SFAS No. 168 is effective for all financial statements issued for interim and annual periods ending after September 15, 2009.

Following SFAS No. 168, the FASB no longer issues new standards in the form of Statements, FASB Staff Positions (FSP), FASB Interpretations (FIN), or Emerging Issues Task Force Abstracts (EITF); instead, it issues Accounting Standards Updates (ASUs). The FASB does not consider ASUs as authoritative in their own right; rather, these updates serve only to update the Codification, provide background information about the guidance, and provide the bases for conclusions on the change(s) in the Codification. SFAS No. 168 is incorporated in ASC Topic 105, *Generally Accepted Accounting Principles*. The Plan adopted SFAS No. 168 for the year ended December 31, 2009.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2009, the FASB issued ASC Topic 855, *Subsequent Events*, which establishes general standards of accounting for and disclosure of events that occur after the date of the Statement of Net Assets Available for Benefits but before financial statements are issued or available to be issued. ASC Topic 855 defines (i) the period after the date of the Statement of Net Assets Available for Benefits during which a reporting entity's management should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (ii) the circumstances under which an entity should recognize events or transactions occurring after the date of the Statement of Net Assets Available for Benefits in its financial statements, and (iii) the disclosures an entity should make about events or transactions that occurred after the date of the Statement of Net Assets Available for Benefits. ASC Topic 855 was effective for the Plan for the year ended December 31, 2009; however, its adoption did not have a significant impact on the Plan's financial statements.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements* (ASU No. 2010-06). ASU No. 2010-06 amends the disclosure requirements of FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) and requires new disclosures regarding (a) transfers in and out of Levels 1 and 2 and (b) activity in Level 3 fair value measurements. ASU No. 2010-06 also provides amendments to ASC 820 that clarify existing disclosures regarding (a) the level of disaggregation for each class of assets and liabilities and (b) disclosures about inputs and valuation techniques for fair value measurements that fall in either Level 2 or 3. ASU No. 2010-06 is effective for periods beginning after December 15, 2009 (except for the Level 3 roll forward which is effective for periods beginning after December 15, 2010). The adoption of ASU 2010-06 did not have a significant impact on the Plan's financial statements.

BHP USA RETIREMENT INCOME PLAN

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2010 AND 2009

2. Summary of Significant Accounting Policies, continued

Risks and Uncertainties

At December 31, 2010 and 2009, Northern Trust Company holds 100% of the Plan's investments in registered investment companies, common stock, fixed income securities, and common/collective trusts.

Northern Trust Company is highly regarded by various investor services. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Because of uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as prescribed by ASC 820-10. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the Master Trust is carried at fair value, with such value based upon the fair values of underlying investments held by the Master Trust. See Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Income from investments, realized gains (losses) on the disposition of assets, appreciation (depreciation) of investments resulting from fluctuations in fair value, less certain expenses (collectively, the net investment income) related to the Master Trust are allocated monthly to the individual plans based upon respective balances invested by the plans at the end of each month.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Reclassifications

Certain items in the 2009 financial statements have been reclassified to conform to the 2010 financial statement presentation. Such reclassifications had no effect on net assets available for benefits or the change in net assets available for benefits.

3. Information Certified by the Plan's Trustee (Unaudited)

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's Trustee has certified that the information included in Note 4 and the accompanying financial statements and supplemental schedule is complete and accurate. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in Note 4 and the financial statements and supplemental schedule.

BHP USA RETIREMENT INCOME PLAN

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2010 AND 2009

4. Plan Interests in BHP Master Trust (Unaudited)

As of December 31, 2010 and 2009, the Plan held a 36.02% and 33.43% interest, respectively, in the Master Trust. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses related to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan. The Plan's interest in the Master Trust as of and for the years ended December 31, 2010 and 2009 is as follows:

	<u>2010</u>	<u>2009</u>
Plan interest in Master Trust	\$ <u>175,453,082</u>	\$ <u>146,244,423</u>

Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Common collective trust: Valued based upon the values of the investments underlying the trust, which consist primarily of shares in a mutual fund, with such underlying investment values generally being determined based upon quoted prices in active trading markets.

Fixed income securities: Includes corporate and governmental bonds, which have been valued based upon quoted prices from actively traded markets, and of various asset backed securities which have been valued using discounted cash flow and other similar models using information and assumptions about interest rates, prepayment rates, collateral values and creditworthiness of the issuers.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Interest-bearing cash: Valued at cost plus accrued interest, which approximates fair value.

Fair Value Measurements, continued

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their past and current earnings.

Benefits payable, under all circumstances (retirement, death, disability, and termination of employment), are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits was calculated as of January 1, 2010 and January 1, 2009 and accordingly, the Plan presents the statements of accumulated plan benefits and the statements of changes in accumulated plan benefits using beginning of year actuarial data. Had the actuarial valuations been performed as of December 31, 2009 and 2008, there would be no material differences. The significant actuarial assumptions underlying the actuarial valuation as of January 1, 2010 and 2009, are as follows:

Assumed rate of return on investments:	2010	6.00% compounded annually
	2009	7.00% compounded annually
Mortality basis:	2010	RP-2000 100% white collar mortality (sex distinct and separate tables for annuitants and non-annuitants), projected to 2020 with scale AA
	2009	RP-2000 white collar mortality (sex distinct and separate tables for annuitants and non-annuitants), projected to 2017 with scale AA

The 2010 Applicable Mortality Table is used when valuating lump sums from the point of assumed payment.

The 2009 Applicable Mortality Table is used when valuating lump sums from the point of assumed payment.

BHP USA RETIREMENT INCOME PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

6. Income Tax Status

The Plan obtained its latest determination letter on November 16, 2009, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Plan Termination

Although it has not expressed any intent to do so, the Participating Companies have the right to discontinue contributions at any time and terminate the Plan, subject to the provisions of ERISA and the provisions of the Plan. In the event of Plan termination, any non-vested participants would become 100% vested in their pension benefits and the assets of the Plan will be allocated in the manner and order of priority prescribed by ERISA to provide the benefits accrued under the Plan, as of the date of termination, to retired, terminated vested, and active participants and their beneficiaries and surviving spouses. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guarantee Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all. Any assets remaining after all Plan expenses have been paid and all accrued liabilities have been provided for by the purchase of annuities or otherwise will revert to the Participating Companies.

8. Related-Party Transactions

Certain Master Trust investments are shares of common/collective trusts, which are managed by an affiliate of the Trustee. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

The Company provided administrative services and incurred costs on behalf of the Plan related to 2010 and 2009, but has not received any related compensation or reimbursement from the Plan. The Company also paid certain fees on behalf of the Plan during 2010 and 2009.

9. Form 5500 Reconciliation

For the 2010 and 2009 Plan years, total net assets available for benefits and the net increase in net assets available for benefits per the financial statements agree to the amounts per the Forms 5500. Differences between the individual line items on the Statement of Changes in Net Assets and the Form 5500 are attributed to classification differences.

10. Subsequent Events

Plan management has evaluated subsequent events through October 12, 2011, which is the date the financial statements were issued, and has concluded that there are no significant events to report.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods****Asset methods**

We used unaudited financial data submitted by the trustee as of January 1, 2010 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy. Receivable contributions for plan years after 2009 are discounted to the valuation date using the prior year's effective interest rate (EIR) of 8.35% as described in Section 430(g)(4) of the Internal Revenue Code.

The asset method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** All eligible employees as of the valuation date are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions****Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated January 1, 2010, are included in this valuation.

- **Most recent plan amendments included:** None
- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Late retirement increases:**
 - *Active participants:* The plan provides actuarial increases to benefits of participants who work beyond normal retirement, and we have reflected these increases in the active liabilities. The Plan distributes benefits to active participants who work beyond age 70 1/2.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

<ul style="list-style-type: none"> Accrued benefit 		Amount payable to a participant as a single life annuity beginning at age 65.					

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement	
▪ Eligibility	Retirement on or after age 65.
▪ Benefit	The Plan age-65 accrued benefit is calculated by converting the plan-defined lump sum benefit to a single life annuity using 417(e) actuarial equivalence; the maximum interest rate for any of the 3 segment rates is 6%.
Early retirement	
▪ Eligibility	Retirement before age 65 after both attaining age 55 and completing ten years of service.
▪ Benefit	<p>Benefits for participants who terminated prior to January 1, 1998 and who elect to commence their benefits prior to normal retirement are reduced as follows:</p> <p>(1) 1/180 for each of the first 60 months commencement precedes age 65, 1/360 for each of the next 60 months commencement precedes age 60, and actuarially reduced thereafter using the 1983 Group Annuity Mortality Table for males with a 2 year setback and 8% interest for former BHP USA Pension participants, and</p> <p>(2) 6% per year for the first 5 years by which commencement precedes age 65, 4% per year for the next 5 years commencement precedes age 60, and actuarially reduced thereafter using the 1983 Group Annuity Mortality Table for males with a 2 year setback and 8% interest for former BHP Copper participants.</p>
85 points retirement	Retirement before age 65 after the participant attains age 55 and the sum of age plus years of service equals or exceeds 85.
Late retirement	
▪ Eligibility	Retirement beyond normal retirement date.
▪ Benefit	For participants who work beyond normal retirement, the benefit is the greater of the benefit calculated as of age 65, actuarially increased to the date of termination using 417(e) mortality and interest rates, and the benefit calculated as of the date of termination.

Schedule SB, Part V — Summary of Plan Provisions

Deferred vested	
▪ Eligibility	Termination for reasons other than death or retirement after becoming fully vested in their Plan benefit. Eligible for commencement on the first of any month following termination and before normal retirement date. Participants employed by BHP on or after April 1, 2001 are immediately vested in their plan benefit.
▪ Benefit	Accrued benefit as of termination date.
Pre-retirement death	
▪ Eligibility	Death of any married or single participant. Eligible for commencement on the first of any month following the participant's death and before the participant's normal retirement date.
▪ Benefit – active and vested deferred deaths	<p>The benefit is defined as a lump sum payment equal to 47.5% of the amount that would have been payable to the participant if he had terminated on the earlier of his actual date of termination and the day preceding death, validly elected a lump sum benefit, and then died.</p> <p>The benefit for married participants can be taken as a single life annuity or a lump sum, while non-spouse beneficiaries must take the benefit as a lump sum.</p>
Benefit offsets	The plan benefits for certain participants are offset by benefits earned under prior plans.
Post-retirement COLA increases	<p>Former BHP Copper participants who retired on or before July 1, 1981 and who were receiving payments on December 31, 1986 were entitled to an annual cost-of-living adjustment equal to the lesser of 5% and the CPI. The aggregate adjustment cannot exceed the lesser of the original benefit and \$2,000.</p> <p>Effective January 1, 2009, the benefits for all participants eligible to receive COLA increases were increased to the maximum level allowed under the Plan.</p>
Forms of payment	
▪ Automatic form for unmarried participants	The normal form of payment for monthly pension benefits is a life annuity if the member has no spouse as of the date payments begin.
▪ Automatic form for married participants	50% joint and survivor annuity

Schedule SB, Part V — Summary of Plan Provisions

▪ Optional forms	<p>Optional forms of payment include:</p> <ul style="list-style-type: none"> ▪ Single life annuity ▪ Joint & survivor annuity (100%, 75%, 50%) ▪ Lump sum payment ▪ 5 year certain & life annuity (former Copper & Utah participants only) ▪ 10 year certain & life annuity (former Copper participants only) ▪ 15 year certain & life annuity (former Copper participants only) ▪ Level income option (for the benefit earned prior to July 1, 2002 for former Strategic Mining Corporation participants only) <p>The lump sum option must be elected within 180 days following termination. The lump sum can be deferred until January of the year following the year of termination. If payment is deferred, interest is credited at an annual rate of 5.5%.</p> <p>Mandatory lump sums are paid if the present value of the plan benefit is less than \$5,000.</p>
▪ Optional form conversion factors	<p>The Plan age-65 accrued benefit is calculated by converting the plan-defined lump sum benefit to a single life annuity using 417(e) actuarial equivalence; the maximum interest rate for any of the 3 segment rates is 6%. The 50% joint and survivor annuity is equal to 95% of the single life annuity.</p>
Miscellaneous	
▪ Maximum compensation	<p>Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2010, the limit is \$245,000.</p>
▪ Maximum benefits	<p>Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2010, the limit is \$195,000.</p>

Plan provision changes since prior valuation

- Maximum compensation and maximum benefits were updated from 2009 to 2010.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discounts and mortality rates were updated from 2009 to 2010 in accordance with PPA and the sponsor changed their interest rate election from full yield curve with a two month lookback to segment rates with a four month lookback.
- Expenses increased from \$228,536 to \$271,009 to better reflect anticipated experience for the current plan year.
- Expected investment return decreased from 7.00% to 6.00%, to better reflect anticipated experience for the current plan year.

Schedule SB, Line 25 — Change in Method

The asset method was changed from average value to fair market value. This change qualifies for automatic IRS approval.

We changed to a new liability valuation system this year. This change did not materially affect liability amounts and qualifies for automatic IRS approval under final Section 430 regulations.
