401(K) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010

Note 1 - Description of the Plan

The following description of Millennium Physician Group, LLC 401(k) Plan and Trust (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Millennium Physician Group, LLC (the Company) who have completed six months of service and have attained age twenty-one. The purpose of the Plan is to enable eligible employees to save for retirement, as well as providing certain benefits in the event of death, disability or other termination of employment.

The Plan was established effective January 1, 2009 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The eligibility requirements for elective deferrals and employer non-elective contributions were waived for employees that were employed by the Company on January 5, 2009.

Plan Amendments

During December 2010, the Company acquired another entity and the Plan was amended waiving the eligibility requirements for all employees of the acquired entity effective January 1, 2011.

During 2011, additional entities were acquired in which the eligibility requirements were also waived for all employees of the acquired entities.

An amendment was made to the Plan Document effective May 31, 2010 to discontinue the profit sharing contributions also known as "non-elective safe-harbor contributions."

Contributions

Salary deferral contributions are made to the Plan by participating employees through payroll deductions in amounts authorized by the employees. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of the Internal Revenue Service (IRS) of $16,500 of pretax annual compensation for 2010. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. For 2010, the annual catch-up contribution limit was $5,500.

The Plan allows employees to make pre-tax contributions to a 401(k) account or after-tax contributions to a Roth IRA account. For after-tax (ROTH) contributions, participants may defer up the maximum annual IRS limit of $5,000, or $6,000 for employees who attain age 50 before the end of the Plan year. Employees are eligible to make both pre-tax and after-tax contributions during the Plan year.

Note 1 - Description of the Plan (Continued)
Contributions (Continued)
The Company may declare discretionary non-elective contributions to the Plan. Employees are eligible for discretionary contributions once they become eligible to make elective contributions to the Plan. The Company amended the Plan to discontinue its non-elective safe-harbor contributions effective May 31, 2010. From January 1, 2010 to May 31, 2010 the Company made non-elective safe-harbor contributions calculated as the lesser of 100% of the employees' elective deferral or 4% of compensation. The eligible compensation limit of $245,000 was prorated to $102,083 for the first five months ended May 31, 2010. For the year ended December 31, 2010, employer discretionary contributions totaled $168,969.

Participant Accounts
Each participant's account is credited with the participant's contributions and allocations, "safe-harbor" contributions, the employer's discretionary contributions and an allocation of the Plan's earnings and forfeited unvested amounts of former employees. Allocations of Plan earnings are based on participants' account balances. The participant is entitled to the benefit provided by the participant's vested account balance.

Vesting
Participants are immediately fully vested in their salary deferral contributions, rollover contributions, "safe-harbor" contributions, "qualified" matching and non-elective contributions and the earnings thereon. Participants are vested in employer matching contributions based upon years of service defined in the Plan. A year of service is calculated based on the hours of service method. A participant who completes 1,000 hours of service during the plan year is credited with a "year of service" for vesting purposes.

Completed Years of Service	Vested Percentage
1	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6	100 %

Investment Options
Upon enrollment in the Plan, participants direct the investment of their contributions and allocate contributions to the investment options available under the Plan. The percentage of contributions allocated to each of the investment options is at the discretion of the participant.

Note 1 - Description of the Plan (Continued)

Investment Options (Continued)

Participants may change their investment options at any time using the Trustee's website or via telephone, which allows a participant to access their account using a personal identification number.

Notes Receivable from Participants

The Plan permits loans to participants. A participant may receive a loan based on the loan program set forth in the Plan. Loans must be for a minimum of $1,000 and up to a maximum amount of the lesser of 50% of the participant's vested account balance or $50,000 minus the highest outstanding loan balance in the account during the one year period ending on the day before the loan is made.

Only one loan may be outstanding at any time. No more than two loans are permitted during any twelve (12) consecutive month period. If an additional loan is submitted prior to repaying an existing loan, the request shall be treated as a separate entity in all respects, subject to the limitations on the maximum loan amount permitted under the Plan.

The interest rate on participant loans is a fixed rate based on commercially reasonable rates for similar loans the geographical region in which the participant lives. The repayment of loans is made through payroll reductions over a term not to exceed 5 years, unless the loan is to be used for the purchase of a principal residence. Current loans bear interest between 3.25% and 4.25%. No allowance has been established for uncollectible notes receivable from participants as of December 31, 2010. The Plan uses the direct write-off method and declares a deemed distributions in the year in which the participant is in default.

Hardship Withdrawals

Participants with an immediate financial need may withdraw pre-tax and after-tax deferrals, rollover contributions and vested employer non-elective contributions plus their earning as a hardship withdrawal from the Plan. The participant is suspended from making elective deferrals to the Plan for six months, but is still eligible to receive employer contributions during that time. Hardship withdrawals are subject to other requirements and may incur penalty and withholding taxes.

Note 1 - Description of the Plan (Continued)

Benefits Paid to Participants

If a participant ceases to be employed by the Company for any reason, other than death or total and permanent disability, the vested account balance will either remain in the Plan or be withdrawn depending on the vested amount and participant consent. If the participant's vested account balance is $1,000 or less, the Plan Administrator will direct the Trustee to distribute as a lump-sum payment as soon as practicable after termination. If the vested balance is over $1,000, generally, participants do not have to take a withdrawal until their "required beginning date," as defined by the Plan. If the vested account balance exceeds $5,000, the participant (and spouse, if applicable) must consent to any distribution.

Generally, the full value of the participant's account is payable on the date the participant reaches the Normal Retirement Age, currently sixty-five (65) years of age.

Plan Termination

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts and the net assets of the Plan will be distributed to the participants and beneficiaries of the Plan.

Forfeitures

As of December 31, 2010, there have been no forfeitures of Plan assets. All employer contributions since inception of the Plan are 100% vested.

Note 2 - Summary of Accounting Policies

Following is a summary of significant accounting policies consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for plan benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Note 2 - Summary of Accounting Policies (Continued)

Financial Statements

The Plan's financial statements and notes are representations of the Company's management, who is responsible for their integrity and objectivity. The accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Investments

The Plan's investments are stated at fair market value based on quoted market prices as reported on the last business day of the year. Purchases and sales of investments are recorded on the trade date. Dividend income is recognized on the ex-dividend date. Income from investments in units of participation is recorded as earned and reinvested in the accounts. Income earned from investments and gains or losses on disposal of investments are recorded using the accrual method.

In January 2010, FASB issued an amendment which requires new disclosures about transfers of financial assets and liabilities between Level 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances and settlements instead of netting these changes. With respect to matters other than reconciliation of Level 3 measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to reconciliation of Level 3 measurements is effective for periods beginning on or after December 15, 2010 and has not yet been adopted. See Note 9.

Net Appreciation in the Fair Value of Investments

The Plan presents, in the statements of changes in net assets available for benefits, the net appreciation in the fair value of its investments. This amount consists of realized gains and losses and unrealized appreciation and depreciation of those investments.

Benefits Paid to Participants

Benefits are recorded when paid.

Use of Estimates and Assumptions

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets, changes in net assets and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Accounting Policies (Continued)

Financial Instruments Not Measured at Fair Value

Certain of the Plan's financial instruments are not measured at fair value on the recurring basis but nevertheless are recorded at amounts that approximate fair value due to their liquid or short-term nature. Such financial assets include employer and employee contributions receivable.

Subsequent Events

The Plan has evaluated all events subsequent to the statement of net assets available for plan benefits date of December 31, 2010 through the date these financial statements were available for issuance, October 11, 2011, and have determined there are no subsequent events that require disclosure.

Note 3 - Administrative Expenses

Reasonable administrative expenses of the Plan may be paid by the Plan to the extent not paid by the Company. The Company absorbs the majority of the Plan's administrative expenses. Investment expenses attributed to terminated participants shall be allocated among the terminated participants by charging each particular expense to the account balance of the terminated participant responsible for the expense. Investment expenses attributable to active participants shall be allocated among the active participants charging each particular expense to the account balance of the active participant responsible for the expense. For the year ended December 31, 2010, administrative expenses totaled $3,690.

Note 4 - Financial Information Certified by the Hartford Life Insurance Company

The Plan Administrator has obtained certification from the Trustee that information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments.

Note 4 - Financial Information Certified by The Hartford Life Insurance Company (Continued)

Note 5 - Party-in-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. The supplemental Schedule of Assets (Held at End of Year) identifies the balance of investments that are considered parties-in-interest as of December 31, 2010.

Certain Plan investments are shares of mutual funds managed by The Hartford. The Hartford is the Plan Trustee and as such, these investment transactions qualify as party-in-interest transactions. Additionally, the fully benefit-responsive investment contracts are managed by The Hartford. Transactions related to this investment qualify as party-in-interest transactions. The total fair market value of these investments was $721,439 and $47,693, as of December 31, 2010 and 2009, respectively. This represents approximately 25.9% and 2.9% of the total Plan net assets available for benefits as of December 31, 2010 and 2009, respectively.

Note 6 - Investments

Investment balances that represent 5% or more of the net assets available for benefits are as follows:

Note 7 - Fully Benefit - Responsive Investment Contract

The Hartford Fixed Account Investment Option meets the definition of a fully benefit-responsive investment contract. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. In accordance with accounting principles generally accepted in the United States of America, the guaranteed interest contract is presented at fair value in the financial statements. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The Hartford Fixed Account Investment Option primarily invests in investment grade fixed income securities. For the year ended December 31, 2010, the average yield was approximately 4.6%. The crediting interest rate is based on a formula agreed upon with the issuer. The guaranteed minimum interest rate was 3.00% for the year ended December 31, 2010.

Note 7 - Fully Benefit - Responsive Investment Contract (Continued)
The value of the fully benefit-responsive contracts was as follows as of December 31:

	2010	2009
Shares of fully benefit responsive investment contracts	81,373	-
The Hartford Fixed Account Investment Option, at fair value	$ 110,936	$ -
Adjustment to contract value	(4,311)	-
The Hartford Fixed Account Investment Option, at contract value	$ 106,625	$ -

Note 8 - Tax Status
The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and Trustee believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan is subject to income tax examinations for the 2009 and 2010 Plan years.

Note 9 - Fair Value Measurements
The Plan adopted the Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification. The Fair Value Measurements and Disclosures Topic provides enhanced guidance for using fair value to measure assets and liabilities and clarifies the principle that fair value should be based on the assumptions market participants would use when pricing the assets or liabilities and establishes a hierarchy that prioritizes the information used to develop those assumptions.

Note 9 - Fair Value Measurements (Continued)

The three levels for measuring fair value are based on the reliability of inputs and are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value for the years ended December 31, 2010 and 2009.

Mutual funds: Shares are generally valued at net Asset Value Per Share (NAVPS) based upon net asset value of underlying portfolio securities and are published on a national exchange.

Fully benefit-responsive investment contracts: The fair value of the contract is derived by discounting the related cash flows based on current yields under the surrender provisions of the contract. The investment contracts are classified as Level 3 of the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of new realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 9 - Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Description	12/31/2010	Fair Value Measurements at Reporting Date Using Level 1	Level 2	Level 3

Total investments, at fair value	$ 1,457,887	$ 1,457,887	$ -	$ -

Note 10 - Risk and Uncertainties
The Plan invests in investment securities. Investments in general are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Reconciliation of Financial Statements to the Form 5500
The following is a reconciliation of fully benefit-responsive contracts per the financial statements to the 2010 Form 5500:

	December 31, 2010
Fully benefit-responsive investment contracts, at fair value	$ 110,936
2010 Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(4,311)
Total fully benefit-responsive investment contracts per the Form 5500	$ 106,625

Note 12 - Prohibited Transactions

During 2010, the Company inadvertently failed to deposit approximately $9,960 of participant deferrals and loan repayments within the required timeframe as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be prohibited transactions. The Plan sponsor will file Form 5330 and pay applicable excise tax. The excise tax payments will be made from the Company's assets and not from assets of the Plan.
