Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Fortune Brands Pension Plan
PLAN NUMBER: 002, EIN: 13-3295276
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE A - DESCRIPTION OF PLAN

The following is a brief description of the Fortune Brands Pension Plan (the "Plan"). Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan administrator at 520 Lake Cook Road, Deerfield, Illinois, 60015.

General

The Plan is a non-contributory defined benefit pension plan that covers substantially all employees and former employees of Fortune Brands, Inc. (the "Company"). Effective January 1, 2008, the Plan closed to new entrants with the exception of special rules that apply to certain transferred employees as outlined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Pension Benefits

Employees become fully vested after five years of vesting service. Participants are eligible for monthly pension benefit payments beginning at the normal retirement age (the later of age 65 or after five years of vesting service in the Plan if their employment is terminated with all Fortune entities). Benefits are calculated according to an integrated benefit formula based upon total years and months of credited service multiplied by a percentage of final average monthly earnings. Effective January 1, 2008, the benefits formula used to calculate benefits for participants with less than 15 years of credited service, was reduced.

The normal form of pension benefit for a participant with no eligible spouse is an annuity payable for the participant's lifetime only. The normal form of pension benefit for a participant with an eligible spouse is an annuity payable at an actuarially reduced amount for the participant's lifetime and, thereafter, at a specific percentage of such amount for the eligible spouse's lifetime.

A participant may elect to modify the normal form of pension benefit by exercising one of several options, including a single-life annuity, various joint and survivor annuities or various period-certain annuity options. Reduced benefits are payable upon early retirement after attaining age 55 with a minimum of ten years of vesting service.

The Plan also provides for disability and deferred pension benefits. A participant is considered disabled as long as he or she meets the definition of totally and permanently disabled in the Plan. During the period of disability, participants continue to earn both vesting service and benefit service to the retirement date.

A participant is eligible for a deferred vested pension if his or her employment is terminated with the Company before death or retirement after completing at least five years of vesting service.

NOTE A - DESCRIPTION OF PLAN - Continued

Contributions

The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The minimum funding requirements of ERISA were satisfied in 2010 and 2009.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan's provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, participants will become fully vested in their benefits and the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations. In addition, the Pension Benefit Guaranty Corporation ("PBGC") insures certain benefits for beneficiaries and vested participants under the Plan if the Plan terminates.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at the termination date to provide these benefits and may also depend on financial condition of the Plan Sponsor and on the level of benefits guaranteed by the PBGC.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Adoption of New Accounting Standards

In 2009, the Financial Accounting Standards Board ("FASB") issued updates to the initial fair value measurements and disclosures guidance that covered determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly. Such guidance expanded disclosures and required that major categories for debt and equity securities in the fair value hierarchy table to be determined on the basis of the nature and risks of the investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Adoption of New Accounting Standards - Continued

In September 2009, the FASB amended the fair value measurements and disclosures for investments in certain entities that calculate net asset per share (or its equivalent). The amendment was effective for the first reporting period ending after December 15, 2009 and expanded the required disclosures for certain investments with a reported net asset value (NAV). The Plan adopted both changes to the fair value measurements and disclosures guidance on a prospective basis for the year ended December 31, 2009. Adoption did not have a material impact on the fair value determination and disclosure of applicable investments. The effect of the adoption had no impact on the statements of net assets available for benefits and statements of changes in net assets available for benefits.

In January 2010, the FASB amended the fair value measurements and disclosures by adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. This amendment is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. With respect to matters other than the reconciliation of Level 3 measurements, the amendment has been adopted. The Plan is currently evaluating the impact this amendment will have on the financial statements Level 3 disclosure. See Note B – Investment Valuation for a description of the three-tiered investment fair value hierarchy.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are reflected at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
December 31, 2010 and 2009

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation - Continued

The Plan's management established a three-tiered hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

1. Quoted prices for similar assets or liabilities in active markets.
2. Quoted prices for identical or similar assets or liabilities in inactive markets.
3. Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation - Continued

The assets of the Plan are included in a pool of investments known as the Fortune Brands, Inc. Master Retirement Trust (the "Master Trust") along with other pension plans for various employee groups of Fortune and subsidiaries. The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust.

Plan management uses the following methods and significant assumptions to estimate fair value of investments in the Master Trust. There have been no changes in the methodologies used at December 31, 2010 and 2009.

The investments held by the Master Trust are valued as follows:

Collective funds: Valued at the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV's unit price is quoted on a private market and the underlying assets owned by the fund are generally trading on active markets.

Government obligations, Corporate bonds, and Preferred stocks: Valued at the closing price reported on the private market on which the security is traded.

Common stocks and Foreign bonds, Municipal bonds, and Other: Valued at the closing price reported on the active market on which the security is traded.

Partnership/joint venture interests: Valued at the NAV as reported to the Plan from the respective partnership, or joint venture's manager, which generally equals the Plan's capital account balance in the entity that is calculated based on the Plan's share of the total entity's net assets at fair value.

Interest in unitized pooled account – common stock: Valued at the price per unit multiplied by the number of units held by the Plan. The price per unit is determined based on the pooled account's assets at fair value which includes common stocks that are publicly traded on an active market.

Group annuity contract: Valued at contract value, which approximates fair value, representing contributions and investment return as determined in accordance with the contract, less funds used to pay benefits and administrative expenses charged.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation - Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

See Note D - Investment in Master Trust for the Master Trust's investments by level within the fair value hierarchy as of December 31, 2010 and 2009.

Purchases and sales of securities by the Master Trust are reflected on a trade-date basis. Gain or loss on sales of securities is based on average cost. Dividend income is recorded on the ex-dividend date. Interest and other income are recorded as earned on an accrual basis.

In accordance with the policy of stating investments at fair value, the Plan's portion of net appreciation/(depreciation) in the fair value of the investments in the Master Trust consists of realized gains and losses and unrealized appreciation/(depreciation) on those investments. The net appreciation/(depreciation) of the Master Trust, along with interest, dividend and other income, net of Master Trust expenses are presented in the accompanying statements of changes in net assets available for benefits as net investment income from Fortune Brands, Inc. Master Retirement Trust.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan provides for payment of certain administrative expenses from Plan assets. Expenses paid to the Trustee and the investment managers are allocated to the Plan based on the ratio of the Plan's assets to the fair value of all assets held in the Master Trust and are presented in the accompanying statements of changes in net assets available for benefits as net investment income from Fortune Brands, Inc. Master Retirement Trust. Expenses paid to the PBGC, the actuary and other various Plan-related expenses that may be incurred are allocated specifically to each plan and are presented in the accompanying statements of changes in net assets available for benefits as administrative expenses.

NOTE C - TAX STATUS

The Plan obtained its latest determination letter on April 3, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

NOTE D - INVESTMENT IN MASTER TRUST

Effective December 31, 2010, the Fortune Brands Home and Hardware, Inc. Retirement Plans Trust (the "H&H Trust"), another pool of investments for other pension plans sponsored by Fortune and subsidiaries, merged with and into the Master Trust. Net assets totaling \$206,446,348 were transferred from the H&H Trust into the Master Trust. All participating plans under the H&H Trust will be included in and funded under the Master Trust after December 31, 2010.

The Master Trust investments are stated at fair value as reported by The Northern Trust Company (the "Trustee") and management. The ratio of the Plan's assets to the fair value of all assets held in the Master Trust is used to allocate interest income, dividend income, other income, realized gains (losses) and unrealized appreciation (depreciation) in the market value of investments and certain investment management fees on a monthly basis. Other changes in net assets available for Plan benefits are directly attributable to the Plan and are, therefore, not subject to allocation.

NOTE D - INVESTMENT IN MASTER TRUST - Continued

The Master Trust invests in derivative financial instruments, primarily futures contracts, which are used for hedging purposes. A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. When the contract is closed, the Plan records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed. Risks arise from the possible inability of counterparties to meet the terms of their contracts. As of December 31, 2010, open treasury futures positions represent less than 1% of total investments and have aggregate notional principal amounts of approximately \$44.9 million (213 contracts outstanding). As of December 31, 2009, open treasury futures positions represent less than 1% of total investments and have aggregate notional principal amounts of approximately \$38.7 million (167 contracts outstanding). The related realized and unrealized gains and losses on these futures have been recognized in the Master Trust net investment income.

Securities Lending

The Master Trust participates in the Northern Trust Security Lending Program for its U.S. securities held in custody at the Trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities.

For U.S. securities, initial collateral shall not be less than 102% and, for non-U.S. securities, initial collateral shall not be less than 105%. Cash collateral received is invested in a segregated account managed by the Trustee, which consists of high-quality, short-term fixed income investments.

In accordance with FASB accounting guidance the statement of net assets of the Master Trust reflects, as an asset, the collateral received under the securities lending arrangement with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower. Cash collateral held related to loaned securities amounted to \$79,575,974 and \$46,102,586 at December 31, 2010 and 2009, respectively. Non-cash collateral held related to loaned securities amounted to \$69,934 and \$0 at December 31, 2010 and 2009, respectively. Investment income from securities lending was \$140,572 and \$104,192 in 2010 and 2009, respectively, and is included in interest in the net investment income (loss) of the Master Trust.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE G - RISKS AND UNCERTAINTIES

The Plan holds a beneficial interest in the Master Trust. The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE H - RELATED-PARTY TRANSACTIONS

Certain Plan investments are collective trusts managed by The Northern Trust Company and common stock of the Company. The Northern Trust Company is the Trustee as defined by the Plan and, therefore, these transactions and the Company common stock qualify as party-in-interest transactions during the years ended December 31, 2010 and 2009.

NOTE I – SUBSEQUENT EVENT

On December 8, 2010, the Company announced that its Board of Directors approved in principle a separation of the Company's three business segments. The broad plan includes: the sale of its Golf business; the tax-free spin-off to Company stockholders of the Home & Security business into an independent, publicly-traded company; and the continuation of the Company as an independent, publicly-traded company focused solely on its Spirits business.

The sale of the Golf business to an independent party was completed July 29, 2011. The spin-off of the Home & Security business closed on October 3, 2011 and the new publicly-traded company was named Fortune Brands Home & Security, Inc.

Effective October 3, 2011, each participant, who was an employee of the Company immediately prior to the effective date and who transferred employment to Fortune Brands Home & Security Inc. on the effective date, ceased active participation in the Plan and automatically became a participant in the Moen Incorporated Pension Plan, subject to terms and conditions of the Moen Incorporated Pension Plan. The liabilities of the Plan attributable to such participants were assumed by the Moen Incorporated Pension Plan and the assets attributable to such liabilities were transferred to the trust attributable to the Moen Incorporated Pension Plan.

Effective October 4, 2011, the Company was re-named Beam Inc. and operates as a pure play spirits company. Each participant who did not transfer employment to Fortune Brands Home & Security Inc. continues to participate in the Plan and the assets and liabilities attributable to such participants remain assets and liabilities of the Plan. The Company, as renamed, will continue the sponsorship of this Plan.

Effective December 31, 2011, the Plan shall be merged with and into the Beam Global Spirits & Wine, Inc. Employees' Pension Plan and all of the assets and liabilities of the Plan will be transferred to the trust attributable to the Beam Global Plan.

Management of the Plan has evaluated subsequent events from December 31, 2010 through October 12, 2011, the date these financial statements were available to be issued. Other than as described above, there were no subsequent events that require recognition or additional disclosure in these financial statements.
