To the Pension Committee for
The 401(k) Plan for the Employees of Precious Plate
Niagara Falls, New York

We were engaged to audit the accompanying statements of net assets available for plan benefits - modified cash basis of The 401(k) Plan for the Employees of Precious Plate as of December 31, 2010 and December 31, 2009 and the related statement of changes in net assets available for plan benefits - modified cash basis and the supplemental schedules of delinquent participant contributions and assets (held at end of year) as of and for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, Precious Plate, Inc. instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Massachusetts Mutual Life Insurance Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by Precious Plate, Inc. that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2010 and December 31, 2009, and for the year ended December 31, 2010, that the information provided to Precious Plate by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, these financial statements and supplemental schedules were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

1. Description of the Plan

The following brief description of The 401(k) Plan for the Employees of Precious Plate is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution plan which became effective January 1, 1986 and allows 401(k) salary reduction. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan sponsor is Precious Plate, Inc. Participants are employees of Precious Plate, Inc., who have completed 6 months of service and have attained age 19 except for union and leased employees.

The Plan is administered by Precious Plate, Inc. The Plan record keeper and custodian of assets is Massachusetts Mutual Life Insurance Company.

Participant Accounts

An account is maintained for each participant in the Plan. This account is credited with salary reduction contributions, employer-matching contributions and earnings as allocated. The account is reduced by the payment of benefits. The participants direct where their funds are to be invested.

Vesting

Each participant is fully vested in his or her salary reduction account. After two years of service, each participant will be fully vested in his or her employer account. One year of service is credited upon completion of 1,000 hours.

Funding Policy

Participants may elect to make salary-reducing contributions to the Plan up to a maximum of 100 percent of compensation, up to IRS limitations. The contribution is based on 40 hours and does not include commissions, expense reimbursements or bonus earnings.

The employer matched 50 percent of the employee contribution to a maximum of 4 percent of compensation through March 31, 2009, at which point the employer stopped matching contributions. Effective July 1, 2010, the employer resumed matching 50 percent of the employee contribution to a maximum of 4 percent of compensation. The employer may also make a discretionary contribution to participants who have completed a year of service and are actively employed at the end of the plan year.

Plan expenses are paid by the Plan and the plan sponsor.

Notes Receivable From Participants

The Plan allows the trustee to make loans to participants and beneficiaries upon the written direction of the plan administrator. The amount a participant may borrow is limited to 50 percent of the participant's vested account balance, provided such loan does not exceed $50,000. The $50,000 maximum amount will be reduced by the participant's highest outstanding loan balance in the previous twelve months, even if amounts have been repaid. The Plan also includes a minimum loan amount of $1,000. No participant may have more than one loan outstanding at any time. Principal and interest are paid ratably through payroll deductions. Interest is charged at a reasonable rate of interest for similar types of loans made by other lenders, as determined by the plan administrator.

Forfeitures

Forfeited accounts will be used to reduce future employer contributions to the Plan. At December 31, 2010 and December 31, 2009, forfeited non-vested accounts totaled $6,737 and $5,418, respectively. Also, during 2010, employer contributions were reduced by $741 from forfeited nonvested accounts.

1. Description of Plan (Continued)

Benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's account and normally takes the form of a lump sum. A participant may elect other installment options as provided for in the Plan with the approval of the plan administrator.

Benefits are provided for normal retirement at attained age 65, or may be deferred if the participant continues in active service with the Company. Participants may make in-service withdrawals at age 59½ if still in active service with the Company. Benefits are also provided upon permanent disability, separation from service, specific hardship or death.

During 2009 and 2008, the Plan went through a partial Plan termination. Each active participant whose employment terminated during 2009 and 2008 due to Plan Sponsor layoffs was fully vested in and had a non-forfeitable right to their benefit under the Plan as of the date of termination of employment.

2. Summary of Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting; consequently, certain revenue is recognized when received rather than when earned, and certain expenses are recognized when cash is disbursed rather than when the obligation is incurred. Contributions are shown on the accrual basis of accounting. Benefits are recorded when paid.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investments are stated at fair value as certified by the trustee, Massachusetts Mutual Life Insurance Company.

As described in Statement of Financial Accounting Board Codification No. 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Subsequent Events

The Plan has evaluated for subsequent events through the date of the independent auditors' report, which is the date the financial statements were made available to be issued.

3. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

4. Party-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by Massachusetts Life Insurance Company. Mass Mutual is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees paid to Mass Mutual by the Plan for administrative services amounted to $3,045 for the year ended December 31, 2010.

5. Plan Termination

Although it has not expressed any intent to do so, the employer reserves the right to terminate or revoke the Plan at any time, subject to the provisions of ERISA. In the event of termination or partial termination, all participants affected shall have a fully vested and non-forfeitable right to the amount credited to their accounts at the date of such termination.

6. IRS Determination Letter

The Plan uses a prototype plan document sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's Financial Statements.

7. Income Taxes

During 2009, the Plan adopted accounting standards related to uncertain tax positions. Generally, the Plan's prior three tax years are open and subject to examination by the Internal Revenue Service. However, the Plan is not currently under audit, nor has the Plan been contacted by the Internal Revenue Service.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

9. Information Prepared and Certified by the Trustees of Assets (Unaudited)

The following information included in the accompanying financial statements and supplemental schedules as of December 31, 2010 and December 31, 2009 and for the year ended December 31, 2010 was obtained from data that has been prepared and certified as complete and accurate by the trustees of assets:

10. General Asset Fund

The Plan holds a benefit-responsive group annuity investment contract with MassMutual Retirement Services (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than a gross 3 percent, which excludes such items as contributions, distributions, and transfers. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employers, (4) cessation of employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business, (5) removal from the plan of one or more groups or classifications or participants, (6) partial or complete plan termination, or (7) plan disqualification. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields for the years ending December 31, are as follows:

	2010	2009
Based on actual earnings	2.27%	3.61%
Based on interest rate credited to participants	2.27%	3.61%

11. Fair Value Measurement

Fair value is the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

Marketable securities utilizing Level 2 inputs include mutual funds held in pooled separate accounts. These funds are valued using market corroborated pricing, matrix pricing or other models that utilize observable inputs such as yield curves. The Company maintains holdings in a general asset fund that is measured at fair value utilizing Level 3 inputs and consists of guaranteed investment contracts. The general asset fund holdings do not have quoted prices, nor can they be valued using inputs based on observable market data. The fair values represent the estimated liquidation value within contract specifications as of December 31, 2010 and December 31, 2009.

The following table presents information about our investments measured at fair value on a recurring basis as of December 31, 2010 and December 31, 2009, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value.

	December 31, 2010		
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ -	$ 3,267,562	$ -
General asset fund	-	-	214,766
	$ -	$ 3,267,562	$ 214,766

	December 31, 2009		
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ -	$ 2,700,527	$ -
General asset fund	-	-	229,797
	$ -	$ 2,700,527	$ 229,797

The following is a reconciliation of activity for 2010 assets measured at fair value based on significant unobservable (non-market) information:

	General Asset Fund
Balance, beginning of year	$ 229,797
Interest income	5,054
Purchases, sales, issuances, and settlements	(20,085)
Balance, end of year	$ 214,766

11. Fair Value Measurement (Continued)

Realized and unrealized gains and losses included in earnings are reported in Statement of Changes in Net Assets Available for Plan Benefits (Modified Cash Basis) as a component of earnings (loss) on investments.

There were no transfers of investments between Level 1 and Level 2 during the years ended December 31, 2010 and December 31, 2009.

To the Pension Committee for
The 401(k) Plan for the Employees of Precious Plate
Niagara Falls, New York

We were engaged to audit the accompanying statements of net assets available for plan benefits - modified cash basis of The 401(k) Plan for the Employees of Precious Plate as of December 31, 2010 and December 31, 2009 and the related statement of changes in net assets available for plan benefits - modified cash basis and the supplemental schedules of delinquent participant contributions and assets (held at end of year) as of and for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, Precious Plate, Inc. instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Massachusetts Mutual Life Insurance Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by Precious Plate, Inc. that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2010 and December 31, 2009, and for the year ended December 31, 2010, that the information provided to Precious Plate by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustees, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As described in Note 2, these financial statements and supplemental schedules were prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

1. Description of the Plan

The following brief description of The 401(k) Plan for the Employees of Precious Plate is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General

The Plan is a defined contribution plan which became effective January 1, 1986 and allows 401(k) salary reduction. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan sponsor is Precious Plate, Inc. Participants are employees of Precious Plate, Inc., who have completed 6 months of service and have attained age 19 except for union and leased employees.

The Plan is administered by Precious Plate, Inc. The Plan record keeper and custodian of assets is Massachusetts Mutual Life Insurance Company.

Participant Accounts

An account is maintained for each participant in the Plan. This account is credited with salary reduction contributions, employer-matching contributions and earnings as allocated. The account is reduced by the payment of benefits. The participants direct where their funds are to be invested.

Vesting

Each participant is fully vested in his or her salary reduction account. After two years of service, each participant will be fully vested in his or her employer account. One year of service is credited upon completion of 1,000 hours.

Funding Policy

Participants may elect to make salary-reducing contributions to the Plan up to a maximum of 100 percent of compensation, up to IRS limitations. The contribution is based on 40 hours and does not include commissions, expense reimbursements or bonus earnings.

The employer matched 50 percent of the employee contribution to a maximum of 4 percent of compensation through March 31, 2009, at which point the employer stopped matching contributions. Effective July 1, 2010, the employer resumed matching 50 percent of the employee contribution to a maximum of 4 percent of compensation. The employer may also make a discretionary contribution to participants who have completed a year of service and are actively employed at the end of the plan year.

Plan expenses are paid by the Plan and the plan sponsor.

Notes Receivable From Participants

The Plan allows the trustee to make loans to participants and beneficiaries upon the written direction of the plan administrator. The amount a participant may borrow is limited to 50 percent of the participant's vested account balance, provided such loan does not exceed $50,000. The $50,000 maximum amount will be reduced by the participant's highest outstanding loan balance in the previous twelve months, even if amounts have been repaid. The Plan also includes a minimum loan amount of $1,000. No participant may have more than one loan outstanding at any time. Principal and interest are paid ratably through payroll deductions. Interest is charged at a reasonable rate of interest for similar types of loans made by other lenders, as determined by the plan administrator.

Forfeitures

Forfeited accounts will be used to reduce future employer contributions to the Plan. At December 31, 2010 and December 31, 2009, forfeited non-vested accounts totaled $6,737 and $5,418, respectively. Also, during 2010, employer contributions were reduced by $741 from forfeited nonvested accounts.

1. Description of Plan (Continued)

Benefits

The benefit to which a participant is entitled is the benefit that can be provided from the participant's account and normally takes the form of a lump sum. A participant may elect other installment options as provided for in the Plan with the approval of the plan administrator.

Benefits are provided for normal retirement at attained age 65, or may be deferred if the participant continues in active service with the Company. Participants may make in-service withdrawals at age 59½ if still in active service with the Company. Benefits are also provided upon permanent disability, separation from service, specific hardship or death.

During 2009 and 2008, the Plan went through a partial Plan termination. Each active participant whose employment terminated during 2009 and 2008 due to Plan Sponsor layoffs was fully vested in and had a non-forfeitable right to their benefit under the Plan as of the date of termination of employment.

2. Summary of Accounting Policies

Basis of Accounting

The Plan's policy is to prepare its financial statements on the modified cash basis of accounting; consequently, certain revenue is recognized when received rather than when earned, and certain expenses are recognized when cash is disbursed rather than when the obligation is incurred. Contributions are shown on the accrual basis of accounting. Benefits are recorded when paid.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Investments are stated at fair value as certified by the trustee, Massachusetts Mutual Life Insurance Company.

As described in Statement of Financial Accounting Board Codification No. 962, *Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Subsequent Events

The Plan has evaluated for subsequent events through the date of the independent auditors' report, which is the date the financial statements were made available to be issued.

3. Use of Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

4. Party-in-Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by Massachusetts Life Insurance Company. Mass Mutual is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees paid to Mass Mutual by the Plan for administrative services amounted to $3,045 for the year ended December 31, 2010.

5. Plan Termination

Although it has not expressed any intent to do so, the employer reserves the right to terminate or revoke the Plan at any time, subject to the provisions of ERISA. In the event of termination or partial termination, all participants affected shall have a fully vested and non-forfeitable right to the amount credited to their accounts at the date of such termination.

6. IRS Determination Letter

The Plan uses a prototype plan document sponsored by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company received an opinion letter from the IRS dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's Financial Statements.

7. Income Taxes

During 2009, the Plan adopted accounting standards related to uncertain tax positions. Generally, the Plan's prior three tax years are open and subject to examination by the Internal Revenue Service. However, the Plan is not currently under audit, nor has the Plan been contacted by the Internal Revenue Service.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

9. Information Prepared and Certified by the Trustees of Assets (Unaudited)

The following information included in the accompanying financial statements and supplemental schedules as of December 31, 2010 and December 31, 2009 and for the year ended December 31, 2010 was obtained from data that has been prepared and certified as complete and accurate by the trustees of assets:

10. General Asset Fund

The Plan holds a benefit-responsive group annuity investment contract with MassMutual Retirement Services (MassMutual). MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than a gross 3 percent, which excludes such items as contributions, distributions, and transfers. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employers, (4) cessation of employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the Plan sponsor's business, (5) removal from the plan of one or more groups or classifications or participants, (6) partial or complete plan termination, or (7) plan disqualification. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields for the years ending December 31, are as follows:

	2010	2009
Based on actual earnings	2.27%	3.61%
Based on interest rate credited to participants	2.27%	3.61%

11. Fair Value Measurement

Fair value is the price at which an asset could be exchanged in a current transaction between knowledgeable, willing parties. Fair value measurements are categorized into one of three levels based on the lowest level of significant input used: Level 1 (unadjusted quoted prices in active markets); Level 2 (observable market inputs available at the measurement date, other than quoted prices included in Level 1); and Level 3 (unobservable inputs that cannot be corroborated by observable market data).

Marketable securities utilizing Level 2 inputs include mutual funds held in pooled separate accounts. These funds are valued using market corroborated pricing, matrix pricing or other models that utilize observable inputs such as yield curves. The Company maintains holdings in a general asset fund that is measured at fair value utilizing Level 3 inputs and consists of guaranteed investment contracts. The general asset fund holdings do not have quoted prices, nor can they be valued using inputs based on observable market data. The fair values represent the estimated liquidation value within contract specifications as of December 31, 2010 and December 31, 2009.

The following table presents information about our investments measured at fair value on a recurring basis as of December 31, 2010 and December 31, 2009, and indicates the fair value hierarchy of the valuation techniques utilized to determine such fair value.

	December 31, 2010		
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ -	$ 3,267,562	$ -
General asset fund	-	-	214,766
	$ -	$ 3,267,562	$ 214,766

	December 31, 2009		
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Pooled separate accounts	$ -	$ 2,700,527	$ -
General asset fund	-	-	229,797
	$ -	$ 2,700,527	$ 229,797

The following is a reconciliation of activity for 2010 assets measured at fair value based on significant unobservable (non-market) information:

	General Asset Fund
Balance, beginning of year	$ 229,797
Interest income	5,054
Purchases, sales, issuances, and settlements	(20,085)
Balance, end of year	$ 214,766

11. Fair Value Measurement (Continued)

Realized and unrealized gains and losses included in earnings are reported in Statement of Changes in Net Assets Available for Plan Benefits (Modified Cash Basis) as a component of earnings (loss) on investments.

There were no transfers of investments between Level 1 and Level 2 during the years ended December 31, 2010 and December 31, 2009.
