Board of Directors
Diversey, Inc.
Diversey, Inc. Retirement Savings Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Diversey, Inc. Retirement Savings Plan (formerly JohnsonDiversey, Inc. Retirement Savings Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The following brief description of the Diversey, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Effective March 1, 2010, the Board of Directors approved a resolution to amend the Plan to change the name of the Plan from JohnsonDiversey, Inc. Retirement Savings Plan to Diversey, Inc. Retirement Savings Plan. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined-contribution plan covering the employees of Diversey Inc. (the Company), formerly known as JohnsonDiversey, Inc., and any other participating affiliated company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan incorporates a 401(k) savings provision whereby employees can participate through payroll withholdings. The Plan is administered by a Benefits Administration Committee comprised of individuals appointed by the Company's Board of Directors.

Plan Merger

Effective December 31, 2009, the JohnsonDiversey, Inc. I.U.E. Thrift Savings Plan was merged into the Plan. In connection with the merger, participant balances of \$2,620,562 were transferred to the Plan. Prior to the merger, the assets of the Plan and the JohnsonDiversey, Inc. I.U.E. Thrift Savings Plan (other than participant loans) were held in the Diversey, Inc. Master Retirement Trust for Defined Contribution Plans (the Master Trust). In connection with the aforementioned merger, the plan owns 100% of the assets held in the Master Trust.

Contributions

Employees may contribute up to 50% of their compensation, as defined, to the Plan. Contributions may be made on a pre-tax basis or on an after-tax basis. The Company partially matches, up to certain limitations, the amounts employees contribute. Participants may also contribute amounts representing distributions from other qualified plans. The Plan also allows participants age 50 or older the ability to contribute catch-up contributions as permitted by the Internal Revenue Service (the IRS). The Plan includes a provision for employer discretionary contributions. The Company provides an annual contribution to eligible participants equal to 5% of compensation, as defined, up to the Social Security Wage Base, plus 10% of defined compensation above the Social Security Wage Base. All contributions are subject to the maximum amounts as permitted by the IRS.

Participant Accounts

All Plan investments are participant directed. Participants have the option of having their contributions invested in a variety of mutual and managed asset funds, including a self-directed brokerage account option. Participants may change their investment options daily. Each participant's account is credited with the participant's contributions, any rollover contributions, and allocations of (a) the Company's contributions, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1–5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably, generally through payroll deductions.

Vesting

Participants are 100% vested in their account balances at all times.

Benefits

The balance in participants' after-tax savings accounts may be withdrawn at any time. The Plan further provides for hardship withdrawals from pre-tax accounts in the event of an immediate financial need.

Upon retirement or termination of employment, participants may elect to receive a lump-sum amount equal to the value of their account (net of outstanding loans) or receive periodic installments, or leave the funds on deposit with the trustee, if the balance is over \$1,000, subject to certain time limitations described in the Plan.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Administrative Expenses

Substantially all the costs of administering the Plan are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a fully benefit-responsive synthetic investment contract (SIC). The statements of net assets available for benefits present the fair value of the SIC as well as the adjustment from fair value to contract

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

value. The contract value of the SIC represents contributions plus earnings, less participant withdrawals and administrative expenses. The statements of changes in net assets available for benefits are prepared on a contract-value basis

Purchases and sales of securities are accounted for on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest from investments is recorded on the accrual basis.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2010 or 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amends Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarifies that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provides guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarifies the requirement for entities to disclose information about both the valuation techniques and the inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB issued ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010, and is required to be applied retrospectively. The Plan adopted the provisions of ASU 2010-25 effective with the year ended December 31, 2010. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported. Participant loans have been reclassified to notes receivable from participants for the prior year presented.

(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in US generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investments

Other than the fair value of the SIC and the adjustment from fair value to contract value, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2010 and 2009, and net appreciation in fair value of investments, interest, dividends and interest from notes receivable from participants for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee. The contract value of the SIC was certified as complete and accurate by the Trustee.

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2010, is as follows:

Dodge & Cox Stock Fund	\$ 51,872,321
PIMCO Moderate Duration Fund	51,715,204
PIMCO Total Return Institutional Fund	29,180,638
Dodge & Cox Balanced Fund	26,661,126
Fidelity Capital Appreciation Fund	23,538,569
Fidelity Diversified International Fund	19,548,009
Spartan 500 Index Fund	13,042,668

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

3. Investments (continued)

At December 31, 2009, no assets held by the Plan outside the Master Trust were 5% or greater of the Plan's net assets.

The following presents the net assets of the Master Trust at December 31, 2009:

Short-term investment funds	\$ 534,366
Synthetic guaranteed investment contract:	
Common/collective trust fund	46,966,003
Short-term investment fund	1,833,926
Mutual funds	<u>183,645,311</u>
Net assets	<u>\$ 232,979,606</u>

Investment assets of the Master Trust were allocated to the participants' accounts based on their individual investment elections and account activity (contributions and withdrawals). Investment income of the Master Trust was allocated daily to each participant account based on the participant's account balance. The Plan's total interest in the Master Trust is equal to the total value of the Plan's individual participant accounts. The Plan's interest in the net assets of the Master Trust was 100% as of December 31, 2009.

Net investment income for the Master Trust consisted of the following for the year ended December 31, 2009:

Interest and dividends	\$ 6,669,081
Net appreciation in fair value of mutual funds	<u>36,463,102</u>
Total	<u>\$ 43,132,183</u>

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

3. Investments (continued)

The SIC consists of a global wrap contract, which is reported in the financial statements at contract value because it is fully benefit-responsive. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The values of the SIC are as follows as of December 31:

	<u>2010</u>	<u>2009</u>
Total fair value	\$ 54,331,523	\$ 51,504,473
Total contract value	49,617,883	48,799,929
Fair value of benefit-responsive feature	<u>\$ 4,713,640</u>	<u>\$ 2,704,544</u>

4. Fair Value Measurements

ASC 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of any input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value.

Mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

The common/collective trust fund (the PIMCO Moderate Duration Fund – Institutional Shares) is valued at the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities divided by the number of units outstanding.

Short-term investment funds are valued at \$1.00 per share and any change in the value is recorded as a change in shares. These investments are valued at the NAV of shares held by the Plan at year-end.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the net assets of the Master Trust at fair value, as of December 31, 2009:

	Level 1	Level 2	Level 3	Total

Total Master Trust net assets at fair value	\$ 183,645,311	\$ 52,038,839	\$ —	\$ 235,684,150

*This category includes a common/collective trust fund that is primarily invested in fixed-income securities, including government treasuries, corporate bonds, municipal bonds, and treasury inflation-protected securities. The fair value of the wrap contract for the SIC is determined using the market approach discounting methodology that incorporates the difference between current market-level rates for contract-level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated swap rate as of period-end. The fair value of the SIC differs from the contract value. As previously noted in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participant-directed transactions have no restrictions; the Plan can provide proper notice and liquidate its investment in whole or in part at any time. See Note 5 for further discussion.

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contracts

As discussed in Note 2, the Plan invests in a fully benefit-responsive SIC, which consists of a wrap contract paired with underlying investments, comprised of a common/collective trust fund and a short-term investment fund.

The Plan purchases wrapper contracts from financial services institutions. The SIC credits a stated interest rate for a specified period of time. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Plan on a prospective basis. The SIC provides for a variable crediting rate, which typically resets at least quarterly, and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most affected by the change in the annual effective yield to maturity of the underlying securities but is also affected by the difference between the contract value and the market value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The crediting rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the crediting rate less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contracts (continued)

The SIC generally imposes conditions on both the Plan and the issuer to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default:

- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the plan agreement

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, has a decline in its long-term credit rating below a threshold set forth in the contract, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan were unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. If the SIC terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Plan the cost of acquiring a replacement contract (that is, replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Diversey, Inc. Retirement Savings Plan
(formerly JohnsonDiversey, Inc. Retirement Savings Plan)

Notes to Financial Statements (continued)

5. Fully Benefit-Responsive Investment Contracts (continued)

As described in Note 2, because the SIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the SIC. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Average yields for the years ended December 31, 2010 and 2009, are as follows:

	2010	2009
Based on actual earnings	3.09%	4.86%
Based on interest rate credited to participants	4.79	5.98

6. Income Tax Status

The Plan has received a determination letter from the IRS dated September 16, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Notes to Financial Statements (continued)

7. Related Party Transactions

The Plan holds shares of mutual funds and units of a short-term investment fund managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements, to the Form 5500 at December 31:

	<u>2010</u>	<u>2009</u>
Net assets available for benefits per the financial statements	\$ 254,255,716	\$ 237,673,271
Adjustment from contract value to fair value	4,713,640	2,704,544
Net assets available for benefits per the Form 5500	<u>\$ 258,969,356</u>	<u>\$ 240,377,815</u>

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2010, to the Form 5500:

Net increase in net assets available for benefits per the financial statements	\$ 16,582,445
Adjustment from contract value to fair value at end of year	4,713,640
Adjustment from contract value to fair value at beginning of year	(2,704,544)
Net increase in net assets available for benefits per the Form 5500	<u>\$ 18,591,541</u>

The SIC is recorded at contract value in the financial statements but at fair value in the Form 5500.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 14, 2011, the date the financial statements were available to be issued.

On October 3, 2011, the Company was acquired by Sealed Air Corporation. Plan management is currently evaluating the effect that the acquisition will have on the Plan.
